CHINA—Amoy Inner Harbour

Pier lights

The British Admiralty has given notice (No 260 of 1901) that a small pier has been built on the eastern side of Amoy Inner harbour for the use of steamers discharging oil

It is situated about one cable to the southward of the outer end of Stonecutters jetty and from the outer end of the pier Semaphore station bears S 87° W and Chiotah beacon N 54° W There is a dolphin on either side from each of which a *red* light is shown

Approximate position, lat 24° 27 N, long 118° 4½ E.

This Notice affects the following Admiralty Chart —Amoy Inner harbour No 1764 Also, List of Lights, part VI, 1901, page 120 and China Sea Directory, vol III, page 179.

PACIFIC OCEAN—Hawaiian Islands

Honolulu harbour—Occasional lights on buoys

The British Admiralty has given notice (No 263 of 1901) that the following lights will be exhibited on the buoys, when large steamers require to enter or leave Honolulu harbour —

(a) A *white* light on one or on each of the red conical buoys, Nos. 2, 3, 4, and 5, marking the starboard side of the channel

(b) One *red* light or two *red* lights close together on the outer buoy (white can), marking the port side of the channel, and a *green* light on the 6th or 7th pile

The Pilots may sometimes place a *red* light on No 5 red buoy, in which case no other light will be shown

Approximate position, No 5 buoy, lat 21° 17 N, long 157° 52 W

This Notice affects the following Admiralty Charts —Plan of Honolulu harbour on chart No 1510 Honolulu harbour, No 1378 Also, Pacific islands, vol III, 1900, page 230

J C E BRANSON,
Accountant-General, Bengal

NOMINATION OF A REPRESENTATIVE MEMBER TO A SEAT IN THE COUNCIL OF THE LIEUTENANT GOVERNOR FOR MAKING LAWS AND REGULATIONS

RESOLUTION—No 21 A—D

APPOINTMENT

Dated Darjeeling the 13th May 1901

UNDER Rule II of the Regulations framed for Bengal by the Governor General in Council, with the sanction of the Secretary of State, under section 1 (4) of the Indian Councils Act, 1892, the nomination to seven seats in the Council of the Lieutenant Governor for making Laws and Regulations is made by the Lieutenant Governor on the recommendation of certain bodies and Associations Those seats are at present held by the following gentlemen who were nominated and whose terms of office expire on the dates shown —

Name of Member	By what body or Association recommended	Date of nomination	Date of expiry of office
1	2	3	4
1 The Hon'ble M J G A ...	The Corporation of Calcutta	18th July 1899	17th July 1901
2 D A ... h Mukl p ll MA DL FRF	The Senate of the Calcutta University	2 th	2 th
3 Babu B k ... Nath S	District Boards of Burdwan Division	8th	7th
4 S ... ll B ... Jo	Municipalities of ... Division	31 t	30th
5 ... G H S ...	The Bengal Chamber of Commerce	21 April 1900	20th April 1902
6 M S D	District Board Orissa Division	... July	8th July
7 A M B se	Municipalities ... Division	2 d Sept	21 t Sept

Four of the seats will be vacated in the course of the year, and in accordance with practice, instructions are now issued prescribing the procedure to be followed for the selection of the gentlemen who are to be recommended to the Lieutenant-Governor for nomination to three of these vacancies With reference to Home Department Notification No 2781 (Public, dated the 29th November 1899, the vacancy which will occur on the 30th July 1901, *vice* the Hon'ble Babu Surendranath Banerjee, will be taken away from Municipalities, and such Association or Associations of landholders as the Lieutenant Governor may prescribe under Rule II, clause D of the Notification, will be requested to recommend a candidate

2 The Corporation of Calcutta and the Senate of the Calcutta University have been invited to submit the names of the gentlemen whom they respectively recommend for the Council The selection will be made in accordance with the same procedure as on the four last occasions

3 According to the rotation sketched in paragraph 5 of the Resolution of this Government, dated the 25th March 1893, it will be the turn of the District Boards of the Patna Division to recommend a person for nomination to the Council in order to fill the vacancy, *vice* the Hon'ble Babu Boikanta Nath Sen The necessary notification will, therefore, now be published in the *Calcutta Gazette* specifying the District Boards from which a recommendation will be made to the Lieutenant Governor for nomination to the seat Each District Board will elect one representative only, and he will be entitled to exercise all the votes of the body which he represents

4 The following statement shows the District Boards which will send delegates to vote for a person to be recommended for the vacant seat, and the number of votes assigned to them according to the scale shown in paragraph 5 of the Resolution of this Government, No 2307A, dated the 31st March 1897 The ordinary income taken is that for 1899 1900 —

Division	District Board	Ordinary income	Number of votes to be recorded by the representatives
		Rs	
Patna	Patna	2,75,043	6
	Gaya	2 67,148	5
	Shahabad	2 10,597	4
	Saran	2,40,888	5
	Champaran	1,19,821	2
	Muzaffarpur	2,40,197	5
	Darbhanga	2,74,146	6

5 Under Rule IV of the Regulations framed by the Governor General in Council with the sanction of the Secretary of State under section 1 (4) of the Indian Councils Act, 1892, for Bengal, the Lieutenant Governor now desires that the Commissioner of the Patna Division will at once address the Chairmen of the District Boards enumerated in the above list, requesting them to convene a special meeting of their Board at which one member of the Board may be selected to represent them for the purpose of making the recommendation for the seat in Council The name of the representative so selected must be reported at once by the Chairman to the Commissioner of the Division

6 The period of three months laid down in Rule VII of the Regulations as that within which a recommendation shall be made to the Lieutenant Governor will run from the date on which the Commissioner of the Division issues his request to the Chairmen of the District Boards

7 As soon as the representatives have been selected, they will be called upon by the Commissioner of the Division to meet together on an early and convenient date, with special reference to the limit of time imposed under Rule VII of the Regulations, and at such convenient place as he may specify, for the purpose of electing, by a majority of votes, a person whom they will recommend to the Lieutenant Governor to be nominated as a member of the Council The names of all candidates put forward at such meeting shall be duly proposed by one of the representatives present The election shall be by ballot, and the person elected must obtain a majority of the votes of the representatives present If on the occasion of the first ballot an absolute majority is not obtained, the candidate who obtains the least number of votes shall be withdrawn from the election, and another ballot shall then be held for the remaining candidates, and so on, until an absolute majority is obtained In the event of a tie occurring at any stage, candidates shall draw lots

8 The electoral representatives present at this meeting shall elect one of themselves to be Chairman, and he shall preside and be responsible for the fair and proper exercise of the ballot vote

9 The Chairman of the meeting shall without delay report to the Commissioner of the Division the name of the person elected, with the number of votes obtained, and any other information which it may appear desirable to communicate, and on behalf of the meeting shall recommend to the Lieutenant Governor to nominate for the Council the person so elected The Commissioner shall submit the report from the Chairman of the meeting, with any observations he may wish to add, to the Chief Secretary to Government, by whom the recommendation will be submitted to the Lieutenant Governor

10 Attention is drawn to the following Rule VI of the Regulations which have been framed by the Governor General in Council and Secretary of State —

VI —It shall be a condition in the case of any person to be recommended by a Municipal Corporation, or group of Municipal Corporations, that he shall be a person ordinarily resident within the Municipality or the district in which it is situated, or in some one of the municipalities constituting the group or of the districts in which they are situated A similar condition shall also apply to persons to be recommended by District Boards

Under this rule it is not necessary that persons recommended shall be members of any District Board concerned, but they must be ordinarily resident within the Division from which the recommendation is made Subject to this condition, the rules declare no limit of qualification, and it is left to the representatives to recommend a person under Rule V (c) according to the majority of their votes

11 It is desirable that the subsidiary arrangements now sanctioned shall, as far as possible, be given effect to by the District Boards concerned with the minimum of official interference The Divisional Commissioner and the District Magistrates will, of course, afford any assistance which may be required, and will do their utmost to facilitate the smooth working of the elections but Government officers are forbidden to take part, directly or indirectly, in the

election by canvassing, influencing votes, or otherwise interfering with the free choice of the District Boards No indication should be given by any official member of any of the District Boards concerned as to the manner in which he himself intends to vote

ORDERED that a copy of this Resolution be furnished to the Commissioner of the Patna Division for information and guidance and for communication to the District Boards in his Division

Ordered also that a copy be published in the *Calcutta Gazette*

By order of the Lieutenant Governor of Bengal,

C E BUCKLAND,

Offg Chief Secretary to the Govt of Bengal

•

FINAL REPORT ON THE OILSEED CROPS OF BENGAL, 1900 1901

THE following is published for general information

F A SLACKE,
Secy to the Govt of Bengal

The 20th May 1901

DEPARTMENT OF LAND RECORDS AND AGRI CULTURE, BENGAL

Final Report on the Oilseed Crops of Bengal, 1900 1901

Explanatory —This forecast furnishes the final estimates of the area and outturn of all the various kinds of oilseeds (*rabi* and *bhadoi*) grown in these Provinces

Character of the season —The monsoon rains were fitful and irregular during the past year In September the fall was general and heavy, while in several districts of Lower Bengal it was altogether abnormal There was very little rain in the two following months, and in December also the fall was in defect everywhere, excepting Orissa and parts of Bihar The rainfall in January and February was very much in excess of the normal in most parts of the Province, but was deficient in North and East Bengal In March the fall has been deficient all over the Province On the whole, the season has been decidedly unfavourable to the oilseed crops generally, which have suffered from an excess of ra n in many districts and from a comparative drought in others

Area sown —The normal area under the several oilseed crops is estimated as 4,022,600 acres, out of which 3,805,700 acres are reported to have been sown this year This apparent contraction in the area is due chiefly to local variations, which have been insufficiently explained, and only in a small measure to the unfavourable nature of the season Last year, only 3,638,400 acres were cultivated with oilseed crops in this Province.

Character of the crop —From the abstract of the district returns given in Appendix I, it will be seen that out of the 45 districts in the Province, only one (Saran, 120 per cent) reports a crop above the normal, and that three districts only (Birbhum, Darjeeling, and Champaran) estimate a normal crop In 9 districts (Rajshahi, Dinajpur, Backergunge, Bha galpur, Purnea, Malda, Cuttack, Ranchi, and Manbhum)

the estimate varies between 90 and 99 per cent, in 6 (Khulna, Dacca, Tippera, Patna, Darbhanga, and Puri) between 80 and 89 per cent, and in 9 others, it varies between 70 and 79 per cent of a normal crop The out turn in the remaining 17 districts falls below 70 per cent The outturn for the Province as a whole, according to the district returns, amounts to 76 per cent only In the first forecast, I anticipated that 90 per cent of a normal crop would eventually be harvested, but the crop has suffered from bad weather since then, and although the district returns are probably too low, the above estimate must be reduced by 10 per cent I accordingly estimate the outturn of oilseeds for the Province, as a whole, at 80 per cent of a normal crop

Gross outturn—Taking, as in former years, 6 maunds per acre to be the normal rate of outturn for linseed, rape and mustard, and $1\frac{1}{4}$ maunds per acre for other oilseeds, the gross outturn of all the oilseed crops of these Provinces during 1900 1901 amounts to 575,600 tons against 617,900 tons produced in 1899 1900

FINAL REPORT ON THE WHEAT CROP OF BENGAL 1900 1901

The following is published for general information

REV DEPT , F A SLACKE,

The 17th May, 1901 *Secy to the Govt of Bengal*

DEPARTMENT OF LAND RECORDS AND AGRICULTURE, BENGAL

Final Report on the Wheat Crop of Bengal, 1900 1901

1 *Explanatory* —This report furnishes the final estimates of the area and outturn of the wheat crop of the past season in these Provinces

Under the standing orders of Government a summary of the reports on the principal harvests of the year is included in this report and an abstract statement, containing the district reports regarding the fluctuations in the prices of food grains during the year and the present condition of food stocks in each district, is also appended to it

2 *Character of the season* —The rainfall of the year has been in many respects abnormal, and has proved very unfavourable to the wheat crop In the monsoon period the fall was capricious and badly distributed In September it was heavy and general, and in the Burdwan, Presidency, and Orissa Divisions greatly exceeded the normal The fall in October was very much in defect all over the Province, except in Orissa, while in November there was practically no rain anywhere In December also the fall was in defect everywhere, except in Orissa and in parts of Bihar and South West Bengal The rainfall in January and February was very much in excess of the normal, except in North and East Bengal, and was especially heavy in the Chota Nagpur Division The fall in March was below the average The excess of rain in February caused serious damage to the wheat crop which was then ripe, and the crop in Bihar, which had promised well, gave but a poor outturn

3 *Area sown* —Since the issue of the first forecast of this crop, several District Officers have revised their figures of normal area, and the total normal area under wheat in this Province now stands at 1,567,300 acres The estimated area actually sown this year has also been

•

revised in some cases, but is still some 36,800 acres above the normal Last year only 1,5)0,300 acres were sown with this crop The extension of cultivation is scarcely more than normal, and is practically confined to the districts of Murshidabad, Patna and Malda where some rice lands in which the winter rice crop had failed were sown with wheat

4 *Outturn*—Since the publication of the preliminary forecast, the crop has improved in only three districts, while it has deteriorated in as many as twenty three districts, the deterioration in the Patna Division due to unfavourable weather in February last being especially marked From the annexed abstract of the final district return, it will be seen that only one district (Malda 110 per cent) now reports a crop above the normal, while four districts (Birbhum, Darjeeling Champaran, and Angul) return a normal crop, and six (Midnapore Rajshahi, Pabna, Saran, Bhagalpur, and the Sonthal Parganas) estimate a crop between 91 and 99 per cent In five of the remaining districts the crop is estimated at between 81 and 90 per cent, and in eight others it is estimated at between 70 and 80 per cent, while the outturn in the remaining twelve falls below 70 per cent of a normal crop In the first forecast of this crop which was based on its prospects as they stood at the end of January, it was anticipated that the January rain would, on the whole, prove beneficial to it, if followed, as might reasonably have been expected, by fine and sunny weather in February Rain and cloud, however, continued, with the disastrous results which have been noted above Although the damage has probably been overestimated in some districts, it has undoubtedly been great and I now estimate the actual outturn of the crop at 85 per cent only, as compared with an estimate of 105 per cent in the first forecast

The gross outturn of the wheat crop may be roughly estimated as 507,000 tons as compared with an outturn of 572 700 tons in 1899 1900

5 *Summary of harvests*—The following is a summary of the harvests of the year 1900 1901

Bhadoi or Autumn crops—The season was generally unfavourable to these crops, although less so than in the previous year There was a smaller area than usual placed under them, the area under the *bhadoi* food crops amounting to 12,704,300 acres only, as compared with a normal area of 13,744,400 The outturn of these food crops was about 90 per cent of the normal, while the jute crop was about normal and other non food *bhadoi* crops gave an outturn of about 85 per cent

Winter rice—Owing to the capricious and unevenly distributed rainfall of the year, and to the serious floods

occasioned by the September rains in the Burdwan Presidency, and Orissa Divisions, the winter rice crop of the Province was but a poor one The area cultivated with this crop was estimated at 28,949 900 acres, against 31,239,300 acres in 1899, and the outturn was finally estimated at 68 per cent of a normal crop

Rabi crops—The season has been generally unfavourable to the growth and ripening of the *rabi* crops The area cultivated with them was below the normal, the area under *rabi* food crops amounting to 9,338,300 acres as against a normal area of 9,456,600 acres The outturn of these crops averaged about 85 per cent in the past year as compared with an outturn of something over 90 per cent in 1899 1900

6 *Food stocks and the prices of food grains*—The unprecedentedly heavy export of rice to the famine districts of Central and Western India during the past year has had some effect on the food stocks of the Province, and has caused prices to rule higher than usual in almost every district, while the produce of the year's supply of food grains has been generally below the average The stocks in hand are said to be small in some districts, especially in parts of Chota Nagpur, and plentiful in others They are probably, on the whole, sufficient

7 *Exports of wheat to Calcutta*—From the trade statistics quoted in the margin, it will be seen that there has been some falling off in the imports of wheat into Calcutta in the past year This is probably due more to the direct export of wheat to North Western India than to any other cause

Imports of wheat into Calcutta from the calendar year 1891 to 1900

	Mds		Mds.

STATEMENT I

Final Report on the Wheat Crop of Bengal, 1900 1901

Division	District	Total area of district	Total area estimated to be under cultivation	Approximate normal area under wheat.	Approximate area under wheat last year (1899-1900)	Estimated area under wheat this year (1900-1901)	Taking 100 to represent the normal outturn how much represented the outturn last year (1899-1900)?	Taking 100 to represent the normal outturn how much will represent this year's outturn (1900-1901)?	Remarks by District Officers	Remarks by the Department of Land Records and Agriculture Bengal
1	2	3	4	5	6	7	8	9	10	11
		Acres.	Acres.	Acres.	Acres.	Acres.				
Burdwan	Burdwan	1 726,080	1 294,300	1,500	1 300	1 300	91	85	For want of rain at the sowing time the normal area under wheat crop could not be wholly cultivated and the outturn is expected to be below the normal.	
	Birbhum	1 121,980	980,000	5,000	5 000	5,000	75	100		
	Bankura	1,677 430	642,800	5,500	5,000	5 800	88	75	The decrease in the estimated outturn is due to the cloudy and rainy weather during the cold season	
	Midnapore	3,292,800	2,190 600	2,100	2 800	2,700	95	94	The area brought under cultivation this year is greater than the normal area owing to the moisture [illegible] caused by the [illegible] rain in September [illegible]. The outturn has been slightly below the normal	
	Hooghly	1 087,360	702,300	100	100	40	65	80	Excessive rain in the latter part of December and January has told unfavourably on the outturn of the wheat.	
Presidency	24-Parganas	3,094,736	1,102,000	300	300	200	100	80	On account of want of rain in October last a smaller area was put under this crop this year than in the previous year. The average outturn is smaller for the same reason.	
	Nadia	1,788,160	1,303,000	25 000	31 500	19 700	80	46	The decrease in the area and outturn is due to the want of seasonable rainfall	
	Murshidabad	1 373,440	965,500	180 000	144,500	146,100	83	60	The marked decrease in the estimated outturn is due to the foul weather for some days in February last which did considerable damage to the crop	

Division	District	Total area of district	Total area estimated to be under cultivation	Approximate normal area under wheat	Approximate area under wheat last year (1899-1900)	Estimated area under wheat this year (1900-1901)	[illegible] (1899-1900)	The [illegible] out-turn of wheat [illegible]	Remarks by District Officers	Remarks by the Director of Land Records and Agriculture, Bengal

STATEMENT III.

Abstract of the information regarding the prices of food grains and general condition of food stocks in the Province for 1900 1901 as furnished by District Officers

DISTRICT	Whether the produce of the year's supply of food grains has been much above or below the average?	Whether the food stocks of former harvest are plentiful or not	Whether the prices of food grains generally have ruled higher or lower than usual	What have been the causes of increase or decrease of exports of wheat and how far has the movement been influenced by scarcity or otherwise of food-grains	REMARKS.
1	2	3	4	5	6
Burdwan	In the Sadar and Raniganj subdivisions much below the average, and in the Kalna and Katwa subdivisions a little below the average	Plentiful in the Kalna and Katwa subdivisions, and in the Sadar and Raniganj subdivisions small	Ruled high than usual	Very little wheat is grown in this district and that is consumed locally	
Birbhum	A little above the average	Sufficient	Ditto ditto	Very little wheat is produced in this district	
Bankura	Much below the average	Not plentiful	Ditto ditto	What is exported from this district [illegible] the crop is very limited	
Midnapore	Below the normal in all subdivisions except in the Sadar where it was normal	Plentiful in the Sadar [illegible] short in others	Ditto ditto	Wheat is not grown to any appreciable extent in the district	
Hooghly	Much below the average	Not plentiful	Ditto ditto	There is no export of wheat	
Howrah	Ditto	Ditto	Ditto ditto		
24-Parganas	Ditto	Very small	Ruled much high than usual	Wheat is grown to a small extent only in the subdivision of Barasat and is not exported	
Nadia	Below the average	Plentiful	Higher than usual	There has been a large export of wheat than usual owing to the scarcity in the Bombay Presidency and Central Provinces	
Murshidabad	On the whole there has been fair average yield of food-grain sufficient for the district and for export.	The food-stocks of former harvests are exhausted, but those of 1900-1901 are still amply sufficient	Ditto ditto	There has been considerable increase in the export of wheat owing to the scarcity in the Central and North-Western Provinces	
Jessore	A little below the average	Not plentiful	Ditto ditto	There is no export of wheat	

DISTRICT	Whether the produce of the year's supply of food-grains has been much above or below the average	Whether the food-stocks of former harvests are plentiful or not?	Whether the prices of food-grains generally have ruled higher or lower than usual	What have been the causes of increase or decrease of export of wheat, and how far has the movement been influenced by a scarcity or otherwise of food-grains	REMARKS
1	2	3	4	5	6
Khulna	In the Sadar and Bagerhat subdivisions quite the average, and in the Satkhira subdivision is much below the average	Not plentiful except in the Bagerhat subdivision	Ruled higher than usual		
Rajshahi	Slightly below the average	Not plentiful	The prices of food-grains especially rice have ruled slightly higher than usual	Wheat does not appear to have been exported from the district.	
Dinajpur	Below the average ...	Plentiful	Ruled higher than usual		
Jalpaiguri	Much below the average	Not plentiful	Ditto ditto	Very little or no wheat is exported from the district	
Darjeeling	Average in the Sadar and below the average in the Terai and Kurseong	Plentiful in Kurseong subdivision and sufficient for local consumption in the Sadar subdivision, but not plentiful in the Terai.	Ruled higher than usual in Terai, but in the Sadar and Kurseong they have maintained a uniformity	Wheat is not exported from the district	
Rangpur	Below the average	Plentiful ..	Higher than usual	Wheat is not exported from the district to any appreciable extent	
Bogra	The produce of the year's supply of food-grains was below the average.	The food-stocks of former harvests appear to be sufficient in respect of only about half the area of the district.	The prices of food-grains have on the whole ruled higher than usual		
Pabna	Below the average	Not plentiful	Ruled considerably higher than usual	Wheat is not grown here so extensively as to be an article of export	
Dacca	Ditto	Ditto	Higher than usual		
Mymensingh	Ditto ...	Ditto	Ditto	Wheat is not exported from the district.	
Faridpur	Ditto ..	Ditto	Ditto	Wheat is [illegible] cultivated in the district. Hence there is no export of the p[illegible]	

Backergunge ...	The produce of the year s suppl of f od-grains was a little ove the verage	Plentiful	Ditto	
T ppera	Below the average in the Sadar and Brahmanbaria subdivisions while in Chandp r it was a li tle above the a erage	Not plentiful ...	Ditt ...	...
Noakhali	A little below the average	Fairly plentiful ...	Ditto ...	... ...
Chittagong ...	Below the average	Not plentiful	Ditto	...
Patna ...	Ditto	Ditto	Ditto	There has been some sl ght decrease in the export of wh at ow ng to plague
Gaya	Ditto	A little below plentiful	The prices of food-grain gener-al y have ruled higher this year	The export of wheat was greater but not very brisk owing to shorter outturn this year
Shahabad	Ditto	These food stocks were plenti-ful but are being exported	H gher than usual	It is believed that a larg quantity of wheat has been e ported up-country owing to the scarcity th re
Saran	*Bhadoi* and *rabi* crops above the a erage and winter rice below the a erage.	Fairly plentiful	Higher than normal	Very l ttle wheat s xported from S ran at any t me an l t ere appeared to be no increase n the past yea
Champaran ...	Above the average ...	Plentiful ...	Ruled slightly higher than usual	A ght increase in the Sadar and a decrease in B t iah due probably to local circum stances.
Muzaffarpur	Below the av rage	D tto	H gher than usual	Wheat is not exported from this district
Darbhanga	The *rabi* crops were bel w the average and also th *bhad* r Oth r *bhadoi* ops nd w ter rice were we l up to the average	Ampl in the n rthern sub di n b t not m re th n suffic nt in th S d r and S m stipur subdi isions.	About the same as in the pre-vi us year	Whe t is ar nimportant crop this district and the export is t n time large.
Monghyr	Below the average ...	Plentif l	Did not rule m h higher than in the preceding ye r	There has been no marked decrease or increase in the export of wheat during tl e year
Bhagalpur	The produce of the year suppl of food grains has n t been abo e the verage with the e c ption of wheat barl y and janera	Not p entiful	Higher than usual	There is practically no wheat exported.
Purnea ...	Below the average	Plentiful	Ditto ...	The small quantity f wheat cultivated n th s l trict is generally used for home con umpt on.

DISTRICT.	Whether the produce of the year's supply of food-grain has been much above or below the average	Whether the food stocks of food-grains are plentiful or not?	Whether the prices of food-grains generally have ruled higher or lower than usual	What have been the causes of increase or decrease of exports of wheat, and how far has the amount been affected by scarcity of other kinds of food-grain	REMARKS
1	2	3	4	5	6
Malda	Average except in the case of winter rice which was a little below the average	Plentiful	A little higher than usual	There was no appreciable increase or decrease in the export of wheat during the year under report	
Sonthal Parganas	Average	Sufficient ...	Generally ruled high in Deoghar [illegible] and low in Godda	There was an increase in the export of wheat from the Rajmahal and Godda subdivisions	
Cuttack	Below the average	Not plentiful	Generally ruled higher than usual.	Wheat is not largely grown in this district and there is very little export of it.	
Balasore	Considerably below the average	Plentiful	Ditto	Wheat is grown in a very small area and is not exported from the district	
Angul	Almost up to the average	Not plentiful ...	Ruled lower than last year	Very little wheat is produced in the district and that is consumed locally and not exported	
Puri	Much above the average in all parts of the district except in the flooded tracts	Ditto	Ruled higher than usual		
Hazaribagh ...	Little above the average	Almost nil	The prices of food-grains ruled very high at the beginning of the [illegible] fell to normal but are now again rising above the normal.	Wheat is not exported from this district	
Ranchi	About the average ...	Ditto ...	About 30 per cent higher owing to the scarcity of last year	No trade in wheat in this district	
Palamau	Below the average ...	Not plentiful ...	Ruled higher than usual	Wheat is not exported from this district	
Manbhum ...	Average ...	Plentiful	Slightly higher than usual	Wheat is not grown largely enough to admit of export	
Singhbhum	A little above the average	Not plentiful ...	Normal. In the beginning of the year they were very high owing to scarcity	Wheat is not exported from this district.	

RESOLUTION ON THE BUDGET ESTIMATES OF THE COMMISSIONERS OF THE PORT OF CALCUTTA FOR THE YEAR 1901 1902

No 987 Marine

GOVERNMENT OF BENGAL—MARINE DEPARTMENT

MARINE

Dated Calcutta, the 13th May 1901

RESOLUTION

READ—

Letter No 4459 dated 19th March 1901, from the Vice Chairman of the Commissioners of the Port of Calcutta submitting for sanction the Budget Estimate of Commissioners for the year 1901 1902

THE estimate includes the Receipts and charges on Capital Account in addition to the usual provision for Revenue Account

REVENUE ACCOUNT

A general summary of the estimates submitted by the Commissioners is given below —

REVENUE ACCOUNTS	Estimate for 1901 1902	Estimate for 1900 1901
1	2	3
Receipts	Rs	Rs
Part I —Jetties	17 54 750	17 84 750
„ II —Inland Vessels Wharves	5 40 500	5 26 000
„ III —Strand Bank Lands	1,65 900	1,75 094
„ IV —Port or Harbour Master s Department	5,91 971	5,61 514
„ VI —Railway	5,15 000	4 40 000
„ VII —Port Approaches	5 25 705	4 86,015
Total	40 93 219	39 71 273
„ VIII—Kidderpore Docks	26,39 500	18 27 500
Total	67 32,719	58 01,773
Expenditure		
Part I —Jetties	12,92,185	13 06 017
„ II —Inland Vessels Wharves	5 37 130	4,80 536
„ III —Strand Bank Lands	1 16 988	1,16 528
„ IV —Port or Harbour Master's Department	6 73 898	6,97,221
„ VI —Railway	4,72 577	4 43,731
„ VII —Port Approaches	5,59,988	5,87,135
Total	36 52 766	36,31,168
„ VIII —Kidderpore Docks	37,54,162	34,84 846
Total	74,06,928	71,16 014
Special Toll	21,263	21,263
Total	74,28 191	71,37 277
Pensions and Compassionate Allowances	56,000	56 000
GRAND TOTAL	74,84,191	71,93,277
Estimated Opening Balance on 1st April 1901	6 91 552	
Ditto Receipts as above	67 32,719	74,24,271
Deduct—		
Estimated Expenditure as above	74,84 191	
Ditto Closing Balance on 31st March 1902	9 15,080	83,99,271
Deficit		9 75,000
Special Toll leviable under section 108		9,75,000

RECEIPTS

2 PART I.—*Jetties*.—The receipts from the jetty charges are estimated at Rs. 40,000 less than those of the preceding year. The estimate has been based on actuals. The receipts from the Petroleum Wharf show an increase of Rs. 10,000.

3. PART II.—*Inland Vessels Wharves*.—The estimate, which is based on actuals, shows an increase of Rs. 14,500 over that of the previous year.

4. PART III.—*Strand Bank Lands*.—The receipts show a falling off of Rs. 10,794 as compared with those of the year before. This amount represents the expected decrease in the rent of the Riverside Press, which the present occupants are unable to pay and for which a new tenant will have to be found.

5. PART IV.—*Port or Harbour Master's Department*.—An increase of Rs. 30,160 over that of the past year is expected, the estimate being based on actuals.

6. PART VI.—*Railway*.—An increase of Rs. 75,000 over those of the previous year is anticipated in the earnings from the railway. The estimate for the Shalimar Branch is the same as that for the last year.

7. PART VII.—*Port Approaches*.—The estimate shows an increase of Rs. 39,780 over that of the previous year, and is based on actuals.

8. PART VIII.—*Kidderpore Docks*.—The following statement shows the receipts under this head:—

	Rs.
Receipts from graving dock	2,55,000
Landing charges on imports	19,000
Shipping charges on exports	19,40,000
Terminal charges	2,85,000
Hire wagons	90,000
Rent and miscellaneous	49,000
Proportion of receipts from towing vessels by Hopper barges	1,500
Total	26,39,500

The receipts show an increase of Rs. 8,12,000 as compared with those of the previous year. An increase of a lakh of rupees is expected from the receipts of the Graving Dock, the estimate being based on actuals. The estimated receipts from exports show an increase of Rs. 5,10,000, while a larger income is also anticipated from the terminal charges, the hire of wagons, and miscellaneous charges. In all these cases the estimates have been based on actuals, with a fair addition for growth of business.

The receipts from imports show a falling off of Rs. 11,000. As there has been a steady decrease in the revenue from this source, the estimate for 1901-1902 has been reduced.

9. *Special Tolls*.—The receipts from special toll are estimated at Rs. 9,75,000. The estimate has been based on actuals.

EXPENDITURE

10. PART I.—*Jetties*.—A reduction of Rs. 13,832 is shown in the estimate of expenditure for the year under review, as against the estimate of the previous year. The estimate of expenditure on repairs, which showed a large increase in 1900-1901, has been reduced, and a reduced estimate has also been made for the "Working Expenses."

11. PART II.—*Inland Vessels Wharves*.—The expenditure shows an increase of Rs. 58,594 over that of the previous year. An increased provision of Rs. 39,500 has been made for "Renewals and Improvements" which are considered necessary. The interest and sinking fund charges also show an increase of Rs. 20,632. The increase under this item represents the proportion of interest and sinking fund charges, chargeable to this part, for the debenture loan of 23½ lakhs, to be raised during 1901-1902. The remark applies also to the increased provision for these charges in other parts of the estimates.

12 PART III —*Strand Bank Lands* —The estimate of expenditure shows a small increase of Rs 460 over that of the previous year This increase is due mainly to a larger estimate for the proportion of interest and sinking fund charges

13 PART IV —*Port or Harbour Master s Department* —The expenditure is less than that of the year before by Rs 23,323 The estimate for "working expenses" has been reduced by Rs 20,000 There have been small reductions under other items, while there has been an increased provision of Rs 5,493 to meet the expenditure on the salaries of the Deputy Harbour Master, and three probationary Assistant Harbour Masters, which have been raised

14 PART VI —*Railway* —The expenditure shows an increase of Rs 28,846 This is due mainly to an increase in the proportion of interest and sinking fund charges, which amounts to Rs 26,889

15 PART VII —*Port Approaches* —There is a decrease of Rs 27,147 in the estimate of expenditure A reduction of Rs 28 500 is shown in the estimate of repairs, while there is an increase of Rs 1,210 in the proportion of municipal taxes and repairs to Dockyards, and of Rs 600 in working expenses

16 PART VIII —*Kidderpore Docks* —The expenditure shows an increase of Rs 2,69,316 over that of the previous year There is an increase of Rs 9 ,019 in the "proportion of interest and sinking fund charges" The increased provision of Rs 24,154 under "Traffic Establishment" may have to be revised, in view of the recommendation of the recent Commission of Enquiry The working expenses show an increase of Rs 1,42,390 This increased provision is considered necessary to meet the charges on account of an anticipated growth of business

CAPITAL ACCOUNT

17 The receipts under Capital are estimated at Rs 34,28,025, made up as follows —

	Rs	Rs
Contribution from Revenue	1 20 110	
Appropriation from Revenue balances for the purchase of Reserve stock	1 20 000	
		2,40,110
Probable Balance of Capital Funds on 1st April 1901	8,73,491	
Probable receipts from Debentures Loan of Rs 23 50 000 to be raised in 1901 1902	23,01 924	
Receipts from sale of Port Depreciation Fund securities to meet the cost of a Heave up boat and a Hawser boat	13 500	
		31 87,915
GRAND TOTAL		34 28,025

The debenture loan of Rs 23,50,000 has been sanctioned by Government

18 The Capital Budget provides for an expenditure of Rs 31,74,415 on works in progress and on works proposed

The probable expenditure on the latter during 1901 1902, as given in the budget, is shown below —

	Rs.
Minor Works	2 00 000
Mechanical loading appliances	1 50,000
Total	3,50,000

The sanction of Government to the second of these items was communicated in the letter No 568Marine of the 15th March 1901

19 The Commission which was recently appointed to enquire into matters connected with the Port Trust, has made various recommendations for reduction of expenditure These recommendations were not before the Commissioners when this budget was framed The Commission suggests the abolition of the post of Deputy Traffic Manager The establishment in the

Docks is considered excessive, and the Commission considers that one of the two Deputy Superintendents and eight out of the fourteen Assistant Superintendents should be abolished The Sub Committee appointed by the Commission have suggested a number of reductions which have been accepted by the Commission in paragraph 176 of its report Certain reductions are also suggested in the Tea Warehouse establishment The Lieutenant Governor would ask the Commissioners, to revise their budget, as soon as they can, in the light of the recommendations made by the Commission, and to show the reductions which are feasible during the current year The Budget does not provide for the appointment of the Chief Engineer recently sanctioned by Government, and due provision should be made for the expenditure under this head in the revised estimates of the Commissioners

20 Subject to the above remarks, the Lieutenant Governor, in pursuance of the powers vested in him by section 71 of Act III (B C) of 1890, approves of the estimate of income and expenditure of the Commissioners for the year 1901 1902

By order of the Lieutenant Governor of Bengal,

R B BUCKLEY,

Secretary to the Government of Bengal

RESOLUTION ON THE REPORT ON THE CALCUTTA MEDICAL INSTITUTIONS FOR THE YEAR 1900

MUNICIPAL DEPARTMENT - MEDICAL

Darjeeling, the 18th May 1901

RESOLUTION—No 286T - M

READ—

The Report on the Calcutta Medical Institutions for the year 1900

Read also—

The Report for the year 1899 and the Resolution recorded thereon

JUDGED by the statistics contained in the report, the year 1900 appears to have been exceptionally unhealthy The death rate per mille in the town of Calcutta rose from 37 8 to 53 88, and in Howrah from 44 56 to 60 50 These figures are based on the population shown in the census of 1891, and a calculation based on the provisional figures arrived at in the census of 1901 reduces the ratio for Calcutta to 43 54 and that for Howrah to 44 69 Even allowing for this, however, there was a considerable increase in the mortality from all the principal diseases Plague, which prevailed with greater virulence and caused no less than 8,354 deaths against 2,332 in 1899, is, no doubt, the most important factor in increasing the rate of mortality, but the percentage of deaths from other prevalent diseases shows an increase under every heading Different theories have been put forward by different officers as to the cause of the increase, but the Inspector General of Civil Hospitals rightly observes that they are of a very conjectural character It is, however, evident that the unusual rainfall of September last had much to do with the increased death rate

2 There is some confusion in the section of the report relating to the health of the Port of Calcutta The explanation of an apparent increase in the number of inward bound vessels inspected is not intelligible The magnitude of the work involved in the plague inspections is shown by the numbers involved Over a quarter of a million persons, passengers and crew were medically inspected, and the clothing and bedding of 79,255 were disinfected 55 seamen and 234 passengers were detained as a result of the examination

3 The large increase of 32,520 in the number of outdoor patients is mainly due to the greater unhealthiness of the year, but about one third of this is only nominal, being due to the inclusion in this report for the first time of the statistics of the Municipal and Dockyard Dispensaries at Kidderpore, which had hitherto been shown in the Report on Charitable Dispensaries The total number of indoor patients rose from 24,146 to 28,372 In both classes the increase was pretty generally distributed, and was due to the unhealthiness of the year The increase of 150 out patients at the Presidency General Hospital justifies the continued maintenance of that department, on which doubts had been thrown The Shambu Nath Pundit Hospital is stated to possess only 54 beds, but the average number of beds occupied daily is shown as 57 77 Unless there is some mistake, this is evidence of overcrowding This new hospital is rapidly rising in popularity The number of European seamen admitted to the General Hospital is said to have fallen, though the numbers arriving in the port increased by nearly 10 per cent The Dufferin Victoria Hospital for women increased its tale of out patients by 749, but the in patients fell off their number is still insignificant—a daily average of only 9 56

4 Excluding the cases treated in the Eye Infirmary, the death rate for all the institutions rose from 14 60 to 17 57, the highest mortality recorded for 11 years All the larger hospitals recorded a higher mortality, except the Mayo and the Shambu Nath Pundit The rate as usual was highest in the

Campbell and Howrah Hospitals The Inspector General proposes to make a special enquiry in the case of the latter There are several typographical errors in the tabular statements at pages 10 to 13 of the Report

5 The number of admissions for small pox rose from 42 to 240, but the death rate fell from 47 61 to 42 91 Of the 239 persons admitted into the Campbell Hospital for small pox, 177, or 74 05 per cent, were unprotected The attention of the Lieutenant Governor has already been drawn to the inefficient state of vaccination in the town, which these figures and the statistics previously furnished have brought to light He has animadverted strongly on the imperfect enforcement of the vaccination laws, and has directed a thorough enquiry to be made into the matter through the Corporation of Calcutta The number of admissions for cholera rose from 555 to 728, the rate of mortality being 61 12 against 63 94 The mortality was highest in the Howrah General Hospital There were fifteen cases of cholera among the patients of the Campbell Hospital, ten of which proved fatal The Inspector General of Civil Hospitals attributes the outbreak of the disease in this institution in two successive years to the vicinity of the hospital to the municipal refuse depôt and platform Steps are being taken to abate the nuisance caused by this, but looking to the fact that the platform has been in existence for a long time without causing an outbreak of disease, the Lieutenant Governor doubts whether the Inspector General's conclusion is correct The percentage of deaths from dysentery was exceptionally high in the General Hospital, being 11 11 against 3 03 in the previous year, and is attributed to a larger number of chronic cases Malarial fever caused 5,456 admissions against 4,376 in the previous year, and it seems from the rise in the rate of mortality from 9 12 to 11 01 that the cases were of severer type Four hundred and forty nine cases of plague were admitted during the year, of which 92 recovered and 357 died, giving a death rate of 79 51 per cent

6 There was an increase in the number of operations the figures for the past two years being 26,023 and 25,109 respectively Of these cases, 188 ended fatally, giving a percentage of 72 against 61 in the previous year The increase is shared by all the institutions, except the Medical College and the General Hospital, in which latter institution it is accounted for again by the admission of fewer seamen The Lieutenant Governor notices with satisfaction the large number of operations performed by Lieutenant Colonels R C Sanders, I M S, R D Murray, I M S, Major R H Charles, I M S, Captain R Bird, I M S, and Assistant Surgeon Norendra Nath Basu

7 In the Eden Hospital the number of women and children admitted increased from 1,494 to 1,659 The death rate for Europeans and Eurasians was 5 30 against 5 45, and for all others 8 96 against 9 55 The mortality among European and Eurasian children was rather high, being 15 87 against 14 10, and the increase is attributed to the admission of a large number of cases in moribund condition Confinement cases increased from 638 to 673 This institution is steadily, if slowly, growing in popularity and contrasts favourably in this respect with the Dufferin Victoria Hospital, which seems to make little progress

8 In the Shama Charan Law Eye Hospital the number of indoor patients rose from 476 to 518, but that of outdoor patients diminished from 13,103 to 12,816 Operations for extraction of lens numbered 290, in 84 37 per cent of which vision was restored—a most satisfactory record

9 The work of the nurses at the Medical College and the Presidency General Hospitals, under the supervision of the Clewer Sisters, is favourably reported on by the Inspector General of Civil Hospitals The Clewer community has recently sent out an additional Sister for supervising the nursing arrangements of the Calcutta hospitals, and a scheme has been prepared for improving the system of nursing at those institutions

10 The invested capital of the Calcutta and Howrah Hospitals rose from Rs 5,91,700 to Rs 5,96,200, an increase of only Rs 4,500, which was invested by the Mayo and Howrah Hospitals Excluding opening balances, the total income amounted to Rs 9,87,967, or Rs 9,902 less than in 1899 The cost to Government decreased by Rs 25,346, while the receipts from paying patients increased from Rs 55,858 to Rs 63,346, owing chiefly to

the higher rate charged for private rooms in the General Hospital The receipts from Local funds also show an increase of Rs 7,446, while the receipts from Hospital Port Dues Fund fell by Rs 9,843, owing to the admission of fewer seamen Subscriptions from Europeans show a slight increase, but those from Natives, the Lieutenant Governor regrets to observe, fell off by Rs 2,401 The expenditure fell from Rs 9,93,230 to Rs 9,84,631, the decrease being mainly due to smaller expenditure on the new buildings at the Presidency General Hospital

11 The thanks of the Lieutenant Governor are due to Colonel Hendley, who held the office of Inspector General of Civil Hospitals throughout the year, for his frequent inspection of the Calcutta hospitals and his valuable suggestions in regard to them

By order of the Lieutenant Governor of Bengal,

E N BAKER,

Secretary to the Government of Bengal

WEATHER AND CROP REPORT

For the week ending the 20th May 1901

Burdwan—Rainfall at Sadar 2 6", Kalna 4 24, Katwa 2 28, Raniganj 0 12 Weather hot Sowing of rice and planting of sugarcane continue Fodder and water sufficient Price of common rice stationary

Birbhum—Rainfall at Sadar 0 27 Rampur Hât 1 00 Weather hot and cloudy *Til* promising Lands being prepared for sugarcane cultivation Price of rice at Sadar 12 seers and at Rampur Hat 12¼ seers Fodder sufficient

Bankura—Rainfall at Bankura 0 61, Vishnupur 0 16 Weather hot and occasionally cloudy The rainfall has facilitated ploughing Planting of sugarcane over Fodder dear Water sufficient No cattle disease reported Price of common rice at Bankura 12 seers and at Vishnupur 12½ seers per rupee

Midnapore—Rainfall at Sadar 0 24 Tamluk 1 08 Ghatal 1 95 Ploughing continues *Til* doing well Common rice sells as follows —

	Srs	ch.	
Sadar	12	0	per rupee
Contai	13	0	
Tamluk	10	0	
Ghatal	11	0	

Hooghly—Rainfall at Sadar 3 07 Serampore 2 49, Arambagh 3 10 Sowing of *bhadoi* and jute commenced Common rice sells at 10 seers 10 chitaks per rupee

Howrah—Rainfall at Sadar 1 28 Ulubaria 75 Weather seasonable Sowing of *aman* and jute continues Fodder and water sufficient Common rice sells at 9 seers 9 chitaks per rupee

24 Parganas—Rainfall at Sadar 4 11 at Barasat 3 17, at Basirhat 2 38 at Diamond Harbour 1 00 Weather hot and cloudy with occasional high winds and rains Young plants of *aus* and jute crops thriving well The recent rain has done much good to the standing crop Lands are being ploughed for *aman* paddy No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	10	0	per rupee
Barasat	9	8	
Basirhat	9	0	
Diamond Harbour	10	0	

Nadia—Rainfall at Sadar 3 90 Kushtia 1 30, Meherpur 0 35 Chuadanga 2 31 Ranaghat 3 8 Weather seasonable Sowing of *aus* and jute and cultivation of lands for the common crops still going on *Aus* germinating in places Prospects fair Fodder and water sufficient Price of common rice stationary

Murshidabad—Rainfall at Sadar 0 72 Kandi 1 21 Jangipur 1 39 Lalbagh 2 06 Weather seasonable Sowing of *aus* still continues More rain has fallen Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	12	0	per rupee
Jangipur	13	0	
Kandi	13	8	
Lalbagh	12	0	

Jessore—Rainfall at Sadar 2 31 Jhenida 1 74, Magura 3 66 Narail 2 03, Bangaon 3 25 Weather seasonable Sowing of *aus* paddy and jute still continues *Til* doing well Ploughing of lands for *aus* *aman* and jute still going on Fodder and water sufficient Common rice sells as follows —

	Srs	Ch	
Sadar	10	0	per rupee
Jhenida	10	12	
Magura	10	8	
Narail	10	0	
Bangaon	11	13	

Khulna—Rainfall at Sadar 3 10, Bagerhat 2 60, Satkhira 2 89 Weather seasonable Sowing of *aus* and *aman* still continues Fodder and water sufficient Common rice sells as follows —

	Srs	CH	
Sadar	12	8	per rupee
Bagerhat	10	10	
Satkhira	11	0	

Rajshahi—Rainfall at Sadar 2 4, Nator 04 Naogaon 12 Prospects of standing crops good Ploughing and sowing of paddy in progress Fodder and water plentiful Common rice selling at 11 seers a rupee

Dinajpur—Average rainfall 1 22 Weather hot No cattle disease Fodder and water plentiful More rain wanted for *bhadoi* and jute Rice 12 seers in Dinajpur town and 11½ seers in mufassal per rupee

Darjeeling—Rainfall at Darjeeling 1 97, Kurseong 2 48 Siliguri 1 25, Kalimpong 1 48 Weather cloudy, promising more rain *Hills*—*bhutta*, *bhadoi* paddy, *chota marua* potatoes progressing *Terai*—sowing of jute, *bhadoi* paddy proceeding Sugarcane being planted Common rice sells as follows —

	Srs	
Hills	9	per rupee
Terai	12	

Bhutta sells at Darjeeling and at Kalimpong at 20 seers per rupee

Jalpaiguri—Rainfall at Sadar 2 63 Alipur Duars 3 13 Weather seasonable Sowing of *bhadoi* paddy and jute continues Price of common rice 11 seers per rupee Fodder and water sufficient

Rangpur—Rainfall at Sadar 2 61, Nilphamari 5 67, Kurigram 6 10, Gaibanda 2 26 Weather seasonable Weeding of *bhadoi* paddy and jute going on Cattle disease prevailing in Nilphamari Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	11	per rupee
Gaibanda	11	
Kurigram	9	
Nilphamari	12	

Bogra—Average rainfall 1 24 Weather hot More rain urgently wanted in the western part of the district Sowing of *aus* and jute progressing Fodder and water sufficient Common rice sells at 11½ seers per rupee

Pabna—Rainfall at Sadar 2 08, Sirajganj 1 32 Weather hot and cloudy Prospects of crops good Prices unchanged More rain wanted in Sirajganj Fodder sufficient

Dacca—Rainfall at Sadar 77 Manikganj 1 73 Munshiganj 34, Narainganj 69 Weather seasonable Prospects of crops fair No cattle-disease Fodder available Common rice 9½ seers per rupee

Mymensingh—Rainfall at Sadar 2 24 Jamalpur 0 88 Kishoreganj 0 69, Netrokona 32, Tangail 2 97 Weather seasonable Prospects of standing crops good Sowing of *aus* and jute continues Common rice sells as follows —

	Srs	CH	
Sadar	9	0	per rupee
Jamalpur	9	6¼	
Kishoreganj	8	14	
Tangail	9	0	
Netrokona	8	15	

Faridpur—Rainfall at Sadar 1 62, Goalundo 1 21 Madaripur 1 74 Weather seasonable Prospects of crops favourable Common rice sells at 10½ seers a rupee

Backergunge—Rainfall at Sadar 1 25 Weather hot Prospects of crops fair Fodder and water sufficient No cattle disease reported Common rice (*aman*) sells at 9¼ seers per rupee

Tippera—Rainfall at Sadar 95, Brahmanbaria 74 Weather sultry Prospects of paddy and jute fair A few cases of cattle disease reported Fodder and water available Common rice averages 9½ seers

Noakhali—Rainfall at Sadar 2 24 Feni 56 Prospects of standing crops fair Sowing of *aus* and *aman* continues No cattle disease reported Fodder and water sufficient Price of common rice stationary

Chittagong —Rainfall at Sadar 1 20, Cox s Bazar 0 04 More rain urgently wanted for cultivation of *aus dhan* Water and fodder available Cattle disease reported from some places Rice sells at 11' seers per rupee

Patna —Rainfall at Sadar 0 31, Dinapur 13 Sugarcane and *china* doing well Fields being prepared for *bhadoi* crops Fodder and water for cattle sufficient No cattle disease Common rice sells at 12 seers per rupee in Patna

Gaya —Rainfall nil Sugarcane doing well Common rice selling at 10½ seers per rupee

Shahabad —Rainfall at Sadar nil, Dehri 0 14 Weather hot and cloudy Fodder and water sufficient Sugarcane doing well *China* being harvested Rice, 10 seers per rupee at Sadar

Saran —Rainfall at Sadar 28 Siwan 0 33 Gopalganj 0 20 Weather warm and cloudy Prospects of standing crops good Rain has done good to *china* and sugarcane Fodder and water sufficient Common rice 11, seers and maize 17 1/8 seers per rupee

Champaran —Rainfall at Sadar 3 42 Bettiah 3 74 Fields being prepared for *bhadoi* and *aghani* crops Standing crops doing well Fodder and water sufficient Prices of common rice and maize at Sadar are 12½ and 19' seers per rupee respectively

Muzaffarpur —Rainfall at Sadar 1 47 Hajipur 18 and Sitamarhi 2 58 Prospects good The recent rain has materially benefited the standing crops and facilitated the under taking of the agricultural operations Prices are—Common rice 11 seers, wheat 11 seers barley 17 seers, gram 15 seers and *arhar* 18 seers a rupee

Darbhanga —Rainfall at Sadar 1 71, Somastipur 1 16 Madhubani 0 61 Standing crops doing well Fodder and water sufficient Cattle disease reported from Jali outpost Common rice sells as follows —

	Srs	ch	
Sadar	15	3	per rupee
Somastipur	13	0	
Madhubani	13	10	

Monghyr —Rainfall at Sadar 0 33 Begusarai 0 60 Jamui 0 00 Weather seasonable Sugarcane doing well Sowing of paddy commenced in places Lands being prepared for *bhadoi* Common rice sells as follows —

	Srs	ch	
Sadar	12	8	per rupee
Begusarai	12	0	
Jamui	12	0	

Bhagalpur —Rainfall at Banka 0 14, Madhipura 0 20, Supaul 0 40 Weather hot and cloudy Scanty rain in the outlying subdivisions has done some good to *bhadoi*, but it is badly wanted everywhere and much in Sadar Cattle disease in Banka only Prices stationary Fodder and water sufficient

Purnea —Rainfall at Sadar 1 05 Kishanganj 2 78, Araria 1 19 Weather seasonable Standing *bhadoi* crops have been benefited by recent rain No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	12	per rupee
Kishanganj	12	
Araria	15	

Malda —Rainfall at Sadar nil Chanchal 60, Gajole 16, Shibganj 1 63 Weather hot and cloudy Rain is wanted for standing crops Cattle pox reported from Tulsihatta thana Price of rice stationary Fodder and water sufficient

Sonthal Parganas —Average rainfall 46 Weather hot No crop in the field except sugarcane at Deoghur and *boro* rice in Rajmahal, which are doing well Fodder and water supply sufficient Cattle disease reported from Pakour Rice sells at 13 seers 5 chitaks and maize at 21 seers 10 chitaks per rupee on an average

Cuttack —Rainfall at Sadar 31, Jajpur 18 Banki 13 Weather seasonable Harvesting of *dalua* continues Cotton being plucked Sugarcane growing Sowing of *sarad* and *beali* commenced Condition of cattle generally good Fodder and water available Common rice sells as follows —

	Srs	ch	
Sadar	14	7	per rupee
Jajpur	15	12	
Kendrapara	15	12	
Banki	13	4½	

Balasore—Rainfall at Sadar 26 Paddy sowing continues Sugarcane doing well Rice sells at 15, 13½ and 16 seers per rupee in interior, Balasore, and Bhadrak respectively Fodder and water sufficient

Angul—Rainfall at Sadar nil Tikerpara 05, B ipara 1 20 Weather hot and cloudy Price of common rice stationary

Puri—Rainfall nil Weather hot Ploughing in progress Sowing commenced *Dalua* paddy being harvested Sugarcane and cotton growing well Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	14	7	per rupee
Khurda	14	7	
In the interior of the district	15	8	

Hazaribagh—Rainfall at Sadar 61 Giridih 61 Weather seasonable Fodder and water sufficient Common rice sells at Sadar and Giridih at 12 seers per rupee

Ranchi—Rainfall 0 61 Weather seasonable Sowing of *bhadoi* and winter paddy commenced in places Average price of common rice is 11½ seers per rupee No cattle disease reported Fodder and water sufficient

Palamau—Rainfall nil Weather seasonable Sugarcane doing well Fodder and water sufficient Cattle disease reported from a few villages in three thanas

Manbhum—Rainfall at Sadar 1 62, Gobindpur 23 Weather seasonable Prospects of crops on ground good Fodder and water sufficient Cattle disease not reported Average price of common rice at Sadar 12 seers 14 chitaks and at Gobindpur 11 seers per rupee Supply sufficient

Singhbhum—Rainfall 09 Average price of rice is 14 seers 6 chitaks in the district at Chaibassa 13 seers

General Summary—Rainfall has been general and moderately heavy in several districts The districts of Dinajpur Bogra Pabna Chittagong, Bhagalpur and Malda are still in need of sufficient rain The recent rain has generally benefited the standing crops and facilitated the work of ploughing which is being pushed on The sowing of paddy and jute is still going on and the weeding of *aus* and jute has commenced in places Sugarcane doing well Water sufficient Fodder is reported to be dear in Bankura Condition of cattle generally good but cases of disease reported from a few districts The price of common rice has risen in 13 districts, fallen in 9, and is stationary in the rest (24)

The mean pressure of the seven days	29 731
The average pressure of the corresponding period for 24 years, Surveyor General's Office	29 85
	Hours
The total number of hours of bright sunshine	66 7
The maximum possible number of hours of sunshine	92 2
	°
The mean temperature of the seven days	86 8
The average temperature of the corresponding period for 24 years, Surveyor General's Office	86 3
The extreme variation of temperature	28 8
The maximum temperature	99 2
	Miles
The highest velocity of the wind in one hour	22
	%
The mean relative humidity	72
The average relative humidity of the corresponding period for 24 years, Surveyor General's Office	72
	Inches
The total fall of rain from 12th to 18th May 1901	2 09
The average fall of the corresponding period for 24 years, Surveyor General's Office	1 04
The total fall from 1st January to 18th May 1901	6 93
The average fall of the corresponding period for 24 years, Surveyor General's Office	7 31

The mean pressure, temperature &c, are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV, and V of the official tables computed in the Meteorological Office, and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

o, overcast, t, thunder, p, passing temporary showers, ⁄, strong wind, <, lightning

METEOROLOGICAL OFFICE, GOVT OF INDIA,
Alipore (Calcutta), the 20th May 1901

G W KÜCHLER,
For Meteorological Reporter to the Govt of India and Director General of Indian Observatories

IRRIGATION DEPARTMENT BENGAL.

Statement showing heights over mean sea-level and low water in the rivers Ganges, Bhagirathi, Jalangi and Brahmaputra for the month of March 1901, and the highest reading of each gauge over M S L since 1876

NOTIFICATION—No. 387T R

The 27th May 1901—In supersession of Government Notification No 4300L R., dated the 27th August 1894, published in the *Calcutta Gazette* of the 29th idem, it is hereby notified for general information that, under clause (e), rule 2 of the rules for the grant of lease of waste lands for tea cultivation in the districts of Jalpaiguri and Darjeeling, and under clause (e), rule 2 of the rules for the grant of ordinary leases of arable lands in the Western Duars of the district of Jalpaiguri, a block of land measuring, more or less, 14 02 square miles, situated in the Alipur sub division, Western Duars of the Jalpaiguri district, and bounded as below, is exempted from the operation of the rules quoted above, and will not be available for settlement under either of those rules, the said block of land having been reserved as a Sonthal colony

Jalpaiguri.

This notification will not affect the holdings already in the possession of persons other than Sonthals within the colony, unless such holdings are relinquished or abandoned, in which case they will become merged in the Colony —

Boundaries

North—The portion of the line already marked off by posts which form the present north boundary of the colony from the Gadadhar river on the west to the point where it meets the Samuktala river on the east

East—The Samuktala river from the point in the north, where the northern boundary meets it, to its junction with the Dorsi nala in the south

South—The Alipur Haldibari road commencing from the 8th milestone and proceeding north east up to the Dorsi nala, and following this nala south to the point where it meets the Samuktala river

West—A line starting from the 8th milestone in the north westerly direction to the point where it touches the Gairkata river, then the Gairkata river, then again a line from the Gairkata river to the Gadadhar river at the point where the northern boundary line running east to west touches the Gadadhar

R B BUCKLEY,
Secy to the Govt of Bengal.

The 23th May 1901

No 6C Marine In exercise of the powers conferred on him by section 50A of the Inland Steam vessels Act as amended by the Inland Steam vessels Act (1884), Amendment Act, 1899 the Lieutenant Governor proposes to make the following rule to regulate the navigation of Inland steam vessels on the river Hooghly

This rule will be taken into consideration on the 15th July 1901, and the Lieutenant Governor will be pleased to consider any suggestions or criticisms that may be made concerning it by any person within this period

R B BUCKLEY,
Secy to the Govt of Bengal

Inland vessels navigating the Hooghly river between Shalimar and Luff Points shall be navigated on the shallow side of the channel when meeting sea going vessels viz —

In Garden Reach they shall navigate on the edge of College sand, and shall then cross over to the left bank of the river
In Sangral Reach they shall navigate on the edge of Sangral sand
In Lumakers Reach they shall navigate on the edge of Munikolli sand
In Koffri Reach they shall navigate on the edge of Koffri sand
In the upper part of Bridge Judge Reach they shall navigate on the right bank of the river in the lower part on the edge of Judge Budge sand
At Pujali crossing Ulubaria and Adhipur Reaches they shall navigate on the edge of the sand on the left bank of the river
At Moyapur bar they shall navigate the shallow tracks
In Royapur reach they shall navigate on the edge of Royapur sand
In Royapur crossing they shall navigate the shallow tracks
In Hog river reach they shall navigate on the edge of Hog river sand
At Fisherman's Point and in Fulta Reach they shall navigate on the edge of Fulta sand
At Ninan they shall navigate on the edge of Shipgunge sand
At the James and Mary they shall navigate the Western Gut when there is sufficient depth of water When obliged to use the Eastern Gut they shall navigate on the edge of Nurpur sand and the Muckraputti lumps

When crossing from one reach to the other inland vessels shall not obstruct the passage or cause risk of collision with any sea going vessel crossing at the same time, and, if necessary they shall slacken their speed, and shall stop and reverse until the sea going vessel has passed

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION

FROM 1st April 1901 the price of this quinine will be as follows —

1 Pound tin	Rs 17	or post free	Rs 17 12
½	8 8		9
¼	4 4		4-12

Analysis shows this quinine to be of the purest manufacture and it is guaranteed to be free from wilful mixture with the inferior alkaloids cinchonine and cinchonidine It is for sale only to Government officers and only for cash and may be had from the Superintendent Botanic Garden Sibpur near Calcutta

বঙ্গদেশের গবর্ণমেন্টের সিনকোনা আবাদে প্রস্তুত বিশুদ্ধ সলফেট অফ কুইনাইন।

১৯০১ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭, বা ডাক মাশুল সমেত ১৭৸৹
॥ আধ ,, ,, ৮॥৹ ,, ,, ,, ,, ৯,
। শিকি ,, ,, ৪।৹ ,, ,, ,, ,, ৪৸

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিনকোনাইন ও সিনকোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারান্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেন্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপরিন্টেণ্ডেন্টের নিকট পাওয়া যাইতে পারিবে।

NOTICES TO MARINERS

GOVERNMENT OF BENGAL—MARINE DEPARTMENT

NOTICE TO MARINERS—No 163

[First Publication]

PACIFIC OCEAN—PHILIPPINES—SAMAR ISLAND

(1) Kalbayol — Light established

THE British Admiralty has given notice (No 287 of 1901) that a *red* light is now exhibited from a tripod situated at the northern end of the town of Kalbayok

Approximate position, lat 12° 4 N, long 124° 36 E

(2) Katbalogan—Light established

Also that a *red* light is exhibited from the Army Head quarters building at Katbalogan

Approximate position, lat 11° 46¼ N long 124° 52¼ E

(3) Lutao and Pamuntangan Reefs—Beacons erected

Also, that the following beacons have been erected —

(*a*) A large beacon on the north end of Lutao reef, in a position bearing S 50 W distant 1¼ miles from Anas point

Approximate position lat 11° 46½ N, long 124° 50 E

(*b*) A large beacon on Pamuntangan reef, in a position bearing S 17° E distant 8 cables from Jesus point

Approximate position, lat 11° 46 N, long 124° 52′ E

(Variation 0 45 Easterly in 1901)

This Notice affects the following Admiralty Charts —Philippine islands No 2o 7 San Pedro bay to Libukan islands, No 2187 Katbalogan, Buri, and Darajuan anchorages on sheet No 1622 Also List of Lights part VI, 1901, p g 100 and Eastern Archipelago, part I, 1890, pages 328, 330

Kami kama gari shima—Shoals in the vicinity

THE British Admiralty has given notice (No 296 of 1901) that, during a recent survey in the vicinity of Kami kama gari shima, the under mentioned dangers were discovered —

a A shoal with a depth of 3¾ fathom stones is situated to the north eastward of the islet off the S E extreme of Kam kama gari shima with the east extreme of the islet bearing S 51 30 W distant three fifths of a cable, and the S W extreme of Okubi shima bearing S 21 20 E

Approximate position, lat 34° 9 25' N, long 132° 44 55" E

b A rock that dries 13 feet is situated on the bank on the western side of Okubi shima, with the eastern extreme of the above mentioned islet bearing N 34 50 W, distant 4 cables, and the N W extreme of Okubi shima bearing N 51° 45 E

Approximate position lat 34° 9 5" N long 132° 45 10" E

c A shoal, with a depth of 3¾ fathoms, mud, is situated to the southward of Shimo kama gari shima, with Ono no hana bearing N 57° 15 W, distant 7 cables and the N W extreme of Koguro jima bearing S 30° 30 W

Approximate position, lat 34° 9 55 N, long 132° 39 15 E

(*Variation 4½ West rly in 1901*)

This Notice affects the following Admiralty Chart —Yanagi no Seto to Neko Seto, No 1206 Also, China Sea Directory vol IV, 1894 pages 40, 408

GOVERNMENT OF BENGAL—MARINE DEPARTMENT

NOTICE TO MARINERS—No 165

[First Publication]

EASTERN ARCHIPELAGO—JAVA—NORTH COAST

CAUTION —*Bantam bay—Shoal off Pontang point*

THE British Admiralty has given notice (No 299 of 1901) that the Master of the S S *Queen Olga* reports having obtained a sounding of 3¼ fathoms, very soft mud off Pontang point, in a position with Pamujan besar island bearing S 74° W distant 5 miles, and the west extreme of Babi island bearing N 24° W

Approximate position, lat 5° 55 S, long 106° 18 E

CAUTION —From the above report it appears that the bank to the eastward of Pontang point has extended since it was surveyed in 1886, mariners are therefore recommended when rounding it to give it a good berth

(*Variation 0° 30' Easterly in 1901*)

This Notice affects the following Admiralty Charts —Island of Java, western portion, No 1653 Sunda strait and approaches, No 2056 Also, Sailing Directions for the Eastern Archipelago, part II, 1893, page 80

JAPAN—NIPON SOUTH COAST

(1) Tanabé bay (Kii channel)—Rocks

THE British Admiralty has given notice (No 301 of 1900) of the existence of the undermentioned rocks in Tanabe bay, Kii channel, south coast of Nipon —

(a) A rock named Takashimanone with a depth over it of about 5 feet, is situated with the south extreme of Taka shima bearing N 34 E distant $2\frac{9}{10}$ cables and the point southward of Seto village S 73 E Shoal water extends from Taka shima to this rock

Approximate position, lat 33° 40 55" N, long 135° 20 5" E

(b) A rock named Takashimanose, with a depth over it of $3\frac{1}{4}$ fathoms is situated with Iō shima (Square island) bearing S 31 E distant $1\frac{3}{10}$ miles and islet (40 feet high) off Maru yama point N 70 E

(c) A rock named Kamiyagata with a depth over it of $3\frac{3}{4}$ fathoms is situated with Iō shima bearing S 28° E, distant nearly $1\frac{1}{10}$ miles, and the islet off Maru yama point N 67° E

(d) A rock named Nakashima with a depth over it of $2\frac{1}{2}$ fathoms, is situated with Iō shima bearing S 6° E, distant 8 cables, and the islet off Maru yama point N 31 E

(e) A rock named Nakanoshima, with a depth over it of $1\frac{1}{4}$ fathoms is situated with Iō shima bearing S 67° W, distant about $12\frac{1}{2}$ cables and the islet off Maru yama point N 6 W

Sunken rocks with depths over them of less than 5 fathoms extend for a distance of $1\frac{1}{2}$ cables to the northward and southward of this rock

(f) A rock, named Tanakayose, awash at low water is situated with the north extreme of Kang rha shima bearing N 83 W distant about $6\frac{1}{10}$ cables and Hita shima (near Sikura village) N 20° W

Shoal water extends for $4\frac{1}{2}$ cables to the eastward of this rock

(g) A rock, named Hiratoko with a depth over it of $3\frac{1}{4}$ fathoms is situated with the islet off Maru yama point bearing S 79 E distant $8\frac{7}{10}$ cables and the south extreme of Moto shima (Ebi shima) N 67 E

(h) A rock, named Shizumi with a depth of $2\frac{1}{2}$ fathoms over it is situated with the north extreme of Moto shima (Ebi shima) bearing S 67° E, distant about 5 cables

Approximate position, lat 33° 44 10" N, long 135° 21 15" E

(i) A rock, named Takafude with a depth of $4\frac{3}{4}$ fathoms over it situated with the north extreme of Moto shima (Ebi shima) bearing S 82° E, distant about 2 miles

Approximate position, lat 33 44 10" N, long 135° 19' 30" E

(j) A rock, named Nadanohae, with a depth of $4\frac{1}{2}$ fathoms over it is situated with the north extreme of Moto shima (Ebi shima) bearing S 70° E, distant about 2 miles

Approximate position lat 33° 44 20" N, long 135° 19 35" E

(k) A rock, named Chongarise with a depth of $3\frac{1}{2}$ fathoms over it is situated with Shika jima (Ichi no shima) bearing S 34° E, distant about $2\frac{1}{4}$ miles

Approximate position, lat 33° 45 15" N long 135° 19 40" E

(l) A rock, named Nakanoshima with a depth of $3\frac{1}{2}$ fathoms over it, is situated with Shika jima (Ichi no shima) bearing S 34° E, distant about $2\frac{4}{10}$ miles

Approximate position, lat 33° 45 20 N, long 135° 19 35 E

NOTE.—New editions of charts Nos 357 and 951 will be issued

(2) Fuku ura—Rocks—Beacon

Also, that the under mentioned rocks exist in Fuku ura on the south coast of Nipon —

(a) A rock named Nakakuromi, with a depth over it of $1\frac{1}{4}$ fathoms is situated with To saki bearing N 22° W, distant about $3\frac{1}{2}$ cables, and Sumi saki S 45° W

Approximate position, lat 33° 28 6" N, long 135° 46 40" E

(b) A rock, named Kajikake, which dries 3 feet, is situated with To saki bearing N 22° E, distant about 8 cables, and the summit of Inamura jima N 63° W

Shoal water of less than 3 fathoms extends for a distance half a cable to the southward of the rock

A small triangular beacon has been erected on this rock but its existence cannot be relied on

(*Variation 4½° West rly in 1901*)

Wonga shoal—Date of exhibition of the light

WITH reference to Notices to Mariners issued by this office No 144 dated 15th June 1900 No 304, dated 27th November 1900 and No 56 dated 4th March 1901, the President Marine Board Port Adelaide has given further notice (No 13 of 1901) informing masters of vessels and others that the light on Wonga Shoal, Port Adelaide, will be exhibited on the night of the 1st July 1901

The light will be of the first order white, bright flash every thirty seconds visible around the horizon for a distance of seventeen miles

The whole structure including tower and keepers quarters, will be on screw piles, and will be constructed of iron

The lantern tower and superstructure will be painted red and the keepers' quarters white

Approximate position latitude 34° 50 2 " S longitude 138° 26 58" E

As notified in Notice to Mariners No 8 of 1900, a temporary light of the third order, revolving every thirty seconds, visible about fifteen miles, will be exhibited from a temporary tower on the old Port Adelaide lighthouse on and after Monday April 29th during the removal of the lighting apparatus, and from July 1st 1901, until the old lighthouse is dismantled and the removal of the structure completed a riding light will be exhibited therefrom

From July 1st, 1901 a white occulting light visible for a distance of five miles, will be shown from a buoy placed in the position now occupied by the red buoy, to mark the entrance to the river

This affects Admiralty plans Nos 1750 and 1752

REPORT ON THE STATE OF THE SALT MARKET FOR THE FOURTH QUARTER OF 1900 1901

No 534B, dated Calcutta, the 20th May 1901

From—C J STEVENSON MOORE, ESQ, Offg Secy to the Board of Revenue L P,

To—The Secretary to the Government of Bengal, Financial Department

I AM directed to submit the following report on the state of the salt market for the fourth quarter of 1900 1901, comprising the months of January, February and March 1901

THE HON BLE MR C W BOLTON C S I

2 The quantity of salt of every description cleared during the quarter amounted to 25,82 429 maunds, as compared with 25,89,478 maunds in the previous quarter and 27,21,461 maunds in the corresponding quarter of the previous year, and the net amount of duty levied thereon was Rs 64,23,547 as against Rs 60,39,424 in the previous quarter and Rs 64,46,391 in the corresponding quarter of the previous year

3 The quantity of locally made salt removed from the *golas* in Orissa during the quarter and the quantity which remained in store at its close are shown in table (I) below —

TABLE I

1	2
	Puri
	Mds
Balance at the close of the previous quarter	3 51 791
Manufactured or added during the quarter	
Total	3 51 791
Sold during the quarter	31 658
Wastage	3 189
Total	34 847
Balance at the close of the quarter	3 16 944

The total sales of locally made salt during the quarter amounted to 31,658 maunds, as compared with 19,985 maunds in the previous quarter and 13,586 maunds in the corresponding quarter of the previous year Duty was paid on the full quantity sold This increase is due to the reduction of price of this salt mentioned in the previous quarter's report

4 The subjoined table (II) shows in detail the importations into the port of Calcutta and the total clearances of sea imported salt during the quarter as compared with the figures of the corresponding quarters of the two previous years —

There has been an increase in the quantity of salt imported in comparison to the corresponding quarter of the past year, but a decrease in the quantity cleared The importations and clearances of Salif and Bombay salts are increasing

5 Table III shows the quantity of sea imported salt remaining in the warehouses at the close of the quarter as compared with the results of the previous four quarters —

7 The quantity of salt despatched by the East Indian Railway to stations beyond Buxar during the quarter amounted to 2,430 maunds, against 4,455 maunds in the previous quarter and 7,869 maunds in the corresponding quarter of the previous year

8 The quantity of saltpetre removed from the refineries during the quarter on payment of duty amounted to 6,366 maunds as compared with 3,187 maunds in the previous quarter and 7,161 maunds in the corresponding quarter of the previous year

9 The shipments of Liverpool salt during the quarter for the port of Calcutta, according to the published market reports, amounted to 21,764 tons It is reported that one sailing vessel was *en route* for Calcutta at the close of the quarter with 1,762 tons of salt from Hamburg

10 Table V shows the average wholesale price per 100 maunds of Liverpool and other descriptions of salt during each fortnight of the quarter —

	Total	2 30 449	1 77 230	82 813	3 01 867

The inland warehouses at Narayanganj, Bhairab Bazar, and Jhalakati as usual carry on an increasing trade

No transactions in sea imported salt have been reported for the quarter from Cuttack and Puri

RESOLUTION ON THE ANNUAL RETURNS ON THE WORKING OF THE CHARITABLE DISPENSARIES IN BENGAL FOR THE YEAR 1900

MUNICIPAL DEPARTMENT—MEDICAL

RESOLUTION—No 394 T—M

Darjeeling the 23rd May 1901

READ—

The Annual Returns on the working of Charitable Dispensaries in Bengal for the year 1900

Read again—

The Annual Returns on the working of Charitable Dispensaries in Bengal for the year 1899 and the Resolution recorded on them

CERTAIN alterations in some of the statements included in the Annual Dispensary Returns have been prescribed by the Government of India As, however, the orders on the subject were received too late to allow of the changes being made in the returns for the past year, the Inspector General of Civil Hospitals has on this occasion submitted his report in the usual form

2 In all 536 dispensaries were open on the 31st December 1900, showing a net increase of 19 in the course of the year The number was really greater by 3, as 3 out of 4, which are returned as closed, were merely transferred to a different category The district of Purnea, which has hitherto been very poorly supplied with medical institutions, contributes 6 out of the 19, while a seventh, which previously existed as a private institution, has been brought under Government supervision Some of the unhealthy districts of Eastern Bengal also show a gratifying increase in the number of their medical institutions

3 The number of patients treated during the year, both indoor and outdoor, increased from 3,291,243 to 3,467,381 It is to be feared that the increase is due as much to the unhealthiness of the year as to the popularity of the Government dispensaries The newly opened institutions are accountable for 52,500 of the increase, which illustrates how far they have supplied a want Sixteen out of 19 dispensaries in which the attendance was most largely reduced are in the Patna Division and Monghyr The falling off in these was undoubtedly due to the alarm excited by the prevalence of plague, and it is hoped that they will speedily recover their former popularity

4 The increased mortality of the year, due to its general unhealthiness, has been remarked upon in the review of the Sanitary Commissioner's report Comment has there been made upon the prevalence of certain diseases, and the conclusions there arrived at are borne out by the present returns One special epidemic requires notice A disease locally known as "Batphut," which was ascertained to be prevalent in a portion of the Khondmals of the Orissa Tributary States, was, under the orders of Government, investigated by Captain Rogers, I M S, Deputy Sanitary Commissioner He pronounced the disease to be one of virulent syphilis—probably introduced from the Sonpur Native State in the Central Provinces On receipt of his report the necessary measures were taken to render medical aid

5 No case of special professional importance is reported among the surgical operations of the year The number performed shows a slight increase of 1,201 on the preceding year As in 1899, the largest number of operations performed by an individual officer stands to the credit of Major Sunder, I M S, Civil Surgeon of Gaya

6 *Class and Sex of Patients*—The attendance of women and children at medical institutions fails to show a proportionate increase In view of the special attention that is nearly everywhere being paid to the requirements of women patients, this is disappointing The Inspector General of Civil Hospitals attributes it to the plague scare in the Patna Division Time must be allowed for the improvements which are being introduced to become generally known and appreciated Colonel Hendley's efforts have been

unceasingly directed to making each mufassal hospital not merely efficient, but bright, comfortable, and attractive His account of a number of ways in which this may be achieved, at pages 104 and 105 of the Report, is valuable and instructive And his dictum that our great aim should be to make friends and not enemies of the indigenous workers among the sick poor has the Lieutenant Governor's warmest support, and is commended to the attention of Civil Surgeons and District Officers throughout the Province

7 *Income and Expenditure* —The total income of the dispensaries, inclusive of opening balances, was Rs 11,49,729 8 11—an excess of Rs 1,47,850 2 8 over last year Local bodies contributed 46 87 per cent of the receipts, and subscriptions accounted for 26 96 per cent —an advance of 1 39 on the preceding year The Lieutenant Governor is gratified to observe the large increase of Rs 50,430 in subscriptions from natives—an increase distributed over a large number of institutions The increase in private subscriptions to Local Fund hospitals is particularly gratifying as vindicating the plan adopted last year of securing to these institutions the full benefit of the contributions they are able to obtain from the charitable public

The total expenditure, excluding investments, was Rs 10,09,606 3 4 or Rs 1,06,915 11 2 in excess of the previous year —an increase mainly accounted for by the addition to the number of dispensaries The cost of diet rose with the price of food grains, and more extensive purchases of European medicines were made

8 *Inspections* —The lengthy statement showing the number of inspections of each dispensary in detail has this year been omitted from the Report The Inspector General of Civil Hospitals is right in considering its inclusion unnecessary It is sufficient to bring particular instances of good work or the reverse to the notice of Government The work done in the past year was on the whole satisfactory, though a few districts are instanced in which the inspections fell short of the required standard In all 21 dispensaries remained unvisited during the year, and the Lieutenant Governor trusts that the warnings addressed by the Inspector General to the officers in fault will bear fruit in the coming year Colonel Hendley himself visited 133 institutions during the year, including, besides dispensaries, asylums, jails, police hospitals, and medical schools His report testifies to the growing interest, which is almost everywhere displayed, in the improvement of medical institutions Much remains to be done, but when public interest has once been aroused, a uniform advance may be anticipated And the Lieutenant Governor is convinced that the gratifying results which are now apparent are largely due to the contagion of Colonel Hendley's enthusiasm

By order of the Lieutenant Governor of Bengal,

E N BAKER,

Secy to the Govt of Bengal

RESOLUTION ON THE REPORT OF THE SANITARY COMMISSIONER, BENGAL, FOR THE YEAR 1900

MUNICIPAL DEPARTMENT—SANITATION

RESOLUTION—No 39/T—M

Darjeeling, the 25th May 1901

READ—

The Report of the Sanitary Commissioner, Bengal, for the year 1900

Read again—

The Report of the Sanitary Commissioner Bengal, for the year 1899 and the Resolution of Government recorded thereon

THE report of the Sanitary Commissioner has on this occasion been punctually submitted, and, in accordance with the recent orders of the Government of India, has been considerably shortened Instead of containing 53 pages of letter press and 109 of appendices, exclusive of the report of the Sanitary Board, as was the case last year, it now consists of 26 pages of letter press and 38 of appendices and its utility is unimpaired

2 *Vital statistics*—The birth rate was lower and the death rate higher than in the year 1899 The former result was due to the rise in price of food grains, which began in the last quarter of 1899, and continued during the greater part of the year Writing in June 1900, the Sanitary Commissioner expected that this result would follow, and his anticipations have been realised The high death rate was due partly to the same cause, but chiefly to the marked unhealthiness of the year, which is remarked on by almost every Civil Surgeon, and which led to increased mortality under all the principal diseases The numbers of births and deaths registered were 2,749,582 and 2,603,736, against 3,053,178 and 2,218,242, respectively, in the preceding year Calculated on the basis of the provisional totals of the recent census, the ratios per mille of births and deaths were 36 95 and 34 99 respectively, the former roughly equal to, and the latter considerably in excess of, the quinquennial average calculated on the population shown in the census of 1891

3 Including Calcutta, plague accounted for 38,412 deaths Outside the Presidency Town, the disease was epidemic in only a few districts of the Patna Division and Monghyr, and its effects, direct and indirect, are writ large in the returns of these In Patna, for instance, the excess of birth rate over death rate in 1899 was 14 82 per mille,* in 1900 the death rate exceeded the birth rate by 10 13 In Saran and Monghyr the excess of births in 1899 was 17 46 and 23 40 per mille, respectively, while in 1900 the ratios of excess dropped to 1 24 and 3 60 In Gaya the excess of births over deaths in 1899 was 21 91 per mille In 1900 it was 1 23 In Calcutta the deaths exceeded the births in 1899 by 21 74 per mille, in 1900 the excess was as high as 38 08 But that these differences are not attributable to plague alone is shown by a similar comparison in other districts which plague had not attacked An excess of births in Jalpaiguri at the rate of 1 21 per mille was converted into a deficiency of 10 34 In Darjeeling and Faridpur slight deficiencies in the birth rate in 1899 of 25 and 1 03 increased in the past year to 11 49 and 9 02 respectively, while in Palamau, where plague, if existent, was not detected during the year under review, the excess of births over deaths, which in 1899 was 18 42 per mille, was converted in 1900 into an excess of deaths over births at the rate of 10 10 Here the heavy mortality was to a large extent the outcome of a virulent outbreak of cholera in Daltonganj The rest of the Chota Nagpur Division maintained its reputation for healthiness, and the death rate there was the smallest in the Province

* All ratios used for purposes of comparison are calculated on the census figures of 1891

4 *Comparison of urban and rural vital statistics* —The birth rates in both urban and rural areas show a marked decrease, while the death rates increased in the former from 33 10 to 43 16, and in the latter from 31 11 to 36 28 In comparison with other towns, Calcutta was particularly unfortunate, its birth rate being lower by 11 8[illegible] and its death rate higher by 12 96 than the average of other urban areas Fever, as usual, is accountable for the highest death rate everywhere, but both in town and country deaths from "other causes" show an increase, and were responsible in 1900 for a mortality per mille of 6 14

5 *Principal diseases* —An epidemic of cholera occurred during the year, the death rate from this cause being higher than in any previous year of which a reliable record is retained The deaths amounted to 345,878, of which by far the largest proportion occurred in the district of Purnea Champaran and Cuttack also suffered severely, and, as already noticed, the epidemic is responsible for no small portion of the heavy death rate in Palamau The epidemic as a whole is attributable to the early cessation of the rains in 1899 and the lateness of the monsoon of 1900

In this connection the Lieutenant Governor notices with interest the large number of anti cholera inoculations performed during the year in the Purulia cooly depôt, and the remarkable success with which the measure was attended Out of 873 persons who had undergone the operation and were subsequently exposed to the contagion of the epidemic, only 2 were attacked The results are distinctly encouraging, and the efforts of the Assistant Surgeons specially employed on this work are to be commended

Small pox was prevalent throughout the year, mainly in urban areas The towns which suffered most were Vishnupur, Ranchi, and Gaya The highest district mortality was recorded in Cuttack, Puri, and Palamau The Lieutenant Governor observes with regret that the aversion to vaccination, which continues to be manifested in the Orissa Division, has exposed two of its districts to a severe outbreak of the disease The rate of mortality from fever, calculated on the present census returns, was 22 90 per mille during the year The months of October to January, as usual, were the period in which the disease was most prevalent, and Dinajpur, Jalpaiguri, Faridpur, and Malda were the districts in which the mortality was heaviest The heavy floods in Calcutta and the neighbourhood in September were a prolific cause of this disease In Faridpur, concerning which a special report has been submitted, the prevalence of fever is traced to the silting up of the rivers and the consequent non flushing of the country Bowel complaints, the inevitable accompaniment of an unhealthy year, prevailed with increasing intensity throughout the period under review, and deaths from "other causes," of which plague is the chief, show an increase both on the preceding year and on the decennial average

6 *Sanitary works* —An increase of municipal expenditure under this head to the extent of over Rs 1,80,000 is a satisfactory mark of the attention paid by public bodies to this most important branch of municipal administration The Sanitary Commissioner expresses disappointment at the small proportion of the whole spent on original works in some municipalities, but the Lieutenant Governor cannot accept the suggestion that a fixed percentage should in all cases be devoted to these Such a measure might induce the initiation of enterprises to be performed in haste and repented of at leisure Original schemes demand mature deliberation, and the report of the Sanitary Board, which is appended to that of the Sanitary Commissioner, shows that such schemes are not wanting

Various important projects were referred to the Sanitary Board for opinion during the year, of which some of the most important were schemes for improving the water supply of the Manicktollah and South Suburban Municipalities, and for the drainage of the important towns of Monghyr, Khulna, Dinajpur, and Rangpur Repairs and improvements to the Darjeeling Water works were estimated for, an estimate of the cost of the Patna Water works was completed, and a scheme for a combined water supply to the riparian municipalities was taken into consideration This last project is the most important now under consideration It is the outcome of a special enquiry on which Captain

L Rogers, Deputy Sanitary Commissioner, was employed last year, and would be of great benefit to the populations concerned The estimates, however, show that, even on the most modest scale, the cost of the work will be very heavy and it seems almost hopeless of execution without an increase of the water rate beyond the present legal maximum

7 *Plague* — The account given of the progress of this disease in the report is meagre in the extreme, and throws absolutely no light on the origin of the disease, the causes which foster or retard its spread, or the success or failure of the measures adopted to check it The Sanitary Commissioner states that a great deal of his time was taken up in organizing and supervising the various precautionary and remedial measures which were adopted in different districts and in the Port of Calcutta, and the Lieutenant Governor regrets that he should have left no record of the valuable experience which he must have gained

8 The Sanitary Commissioner inspected only 18 municipalities during the year, the same number as in 1899 This number is altogether insufficient, more especially as he was relieved of the duty of delivering lectures on Hygiene in the Calcutta Medical College Orders have now been passed which will ensure a better outturn of work in the future

By order of the Lieutenant Governor of Bengal,

F N BAKER,

Secy to the Govt of Bengal

WEATHER AND CROP REPORT

For the week ending the 27th May 1901

Burdwan—Rainfall at Sadar 0 89 Kalna 0 92 Katwa 2 06 Raniganj 1 20 Weather hot and cloudy Sowing of *aus* and jute continues Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	12	0	per rupee
Kalna	10	2	
Katwa	12	10	
Raniganj	12	8	

Birbhum—Rainfall at Sadar 1 03 Rampur Hat 1 29 Weather hot Lands being ploughed and manured Sugarcane plantation commenced Price of rice at Sadar and Rampur Hat 12 seers per rupee Fodder sufficient

Bankura—Rainfall at Sadar 0 90 Vishnupur 1 20 Weather hot and close Rain wanted Sugarcane growing Harvesting of *til* has commenced Fodder dear Water sufficient No cattle disease reported Price of common rice 12 seers per rupee both at Bankura and Vishnupur

Midnapore—Rainfall at Sadar 1 45 Contai 0 81, Tamluk 2 51, Ghatal 1 76 Ploughing continues Common rice sells as follows —

	Srs	ch	
Sadar	12	0	per rupee
Contai	12	0	
Tamluk	10	0	
Ghatal	Report not received		

Hooghly—Rainfall at Sadar 2 18 Serampore 36, Arambagh 1 28 Ploughing for winter paddy continues Common rice sells at 10 seers 10 chitaks per rupee

Howrah—Rainfall at Sadar 1 93, Uluberia 1 69 Weather hot Sowing of *aman* and jute continues Fodder and water sufficient Common rice sells at 9 seers 8 chitaks per rupee

24 Parganas—Rainfall at Sadar 28 Barasat 50, Basirhat 68, Diamond Harbour 4 09 Weather seasonable Young plants of jute and *aus* paddy thriving well Sowing of *aus* and cultivation of lands for *aman* going on No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	10	0	per rupee
Barasat	9	8	
Basirhat	9	8	
Diamond Harbour	10	0	

Nadia—Rainfall at Sadar 2 33 Kushtia 2 90 Meherpur 1 29 Chuadanga 1 99 Ranaghat 1 26 Weather seasonable Sowing of *aus* and jute nearly finished Land being cultivated for the coming crop Young plants of *aus* and jute thriving well in places Fodder and water sufficient Price of common rice stationary

Murshidabad—Rainfall at Sadar 0 88 Jangipur 1 0? Kandi 1 46 Lalbagh report not received Weather seasonable Sowing of paddy still continues Prospects of seedlings good Cattle disease reported from Jangipur subdivision Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	12	0	per rupee
Jangipur	12	0	
Kandi	Report not received		
Lalbagh			

Jessore—Rainfall at Sadar 1 67 Jhenida 1 69, Magura 1 24, Narail 0 56, Bangaon 0 51 Weather seasonable Sowing of *aus* paddy and jute nearly completed Prospect of standing crops viz. jute *til*, and *aus*, fair Cattle-disease reported from Magura thana Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	10	0	per rupee
Jhenida	11	0	
Magura	10	8	
Narail ..	10	8	
Bangaon ...	11	13	

Khulna —Rainfall at Sadar 1 05 Bagorhat 1 01 Satkhira 0 30 Weather seasonable Sowing of *aus* and *aman* still continues Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	11	12	per rupee
Bagerhat	10	14	
Satkhira	11	0	

Rajshahi —Rainfall at Sadar 1 37, Nator 1 30 Naogaon 87 Prospects of crops good Ploughing and sowing of paddy in progress Fodder and water available Common rice selling at 11¼ seers per rupee

Dinajpur —Average rainfall 14 Weather hot No cattle disease Fodder and water plentiful More rain wanted for *bhadoi* and jute Rice 13 seers a rupee

Darjeeling —Rainfall at Darjeeling 5 01 Siliguri 1 66 Kalimpong and Kurseong reports not received Weather cloudy, with occasional sun hine *Hills*—*bhutta*, *chota marua* and potatoes progressing *Terai*—sowing of jute proceeding Common rice sells as follows —

	Srs	ch	
Hills	8	0	per rupee
Terai	12	0	

Bhutta sells at Darjeeling at 16 seers and at Kalimpong at 20 seers per rupee

Jalpaiguri —Rainfall at Sadar 1 96 Weather seasonable Sowing of *bhadoi* paddy continues and that of jute finished Fields are being ploughed for *haimanti* paddy in places Common rice sells at 11 seers a rupee Fodder and water sufficient

Rangpur —Rainfall at Sadar 0 66 Kurigram 0 27 Gaibanda 1 61 Nilphamari 0 43 Weather hot Rain beneficial to standing crops Prospects favourable Fodder and water sufficient Common rice sells as follows —

	Srs	ch	
Sadar	11	0	per rupee
Gaibanda	11	0	
Kurigram	9	0	
Nilphamari	12	0	

Bogra —Average rainfall 1 04 Sowing of *aus* and jute nearly finished Weeding commenced More rain wanted in places Fodder and water sufficient Common rice sell at 12 seers per rupee

Pabna —Rainfall at Sadar 0 83 Sirajganj 1 71 Weather seasonable Prospects of crops good Prices stationary Fodder and water sufficient

Dacca —Rainfall at Sadar 2 34 Manikganj 72 Munshiganj 1 73 Narainganj 1 52 Weather seasonable Prospects of crops fair Fodder available No cattle disease Common rice 9½ seers per rupee

Mymensingh —Rainfall at Sadar 3 30 Jamalpur 2 12 Kishoreganj 2 12, Netrokona 2 10 Tangail 3 09 Weather seasonable Prospects of standing crops good Sowing of *aus* and jute nearly finished Common rice selling as follows —

	Srs	ch	
Sadar	9	0	per rupee
Jamalpur	9	7	
Kishoreganj	8	14	
Tangail	9	4	
Netrokona	8	8	

Faridpur —Rainfall at Sadar 1 74, Goalundo 1 70 Madaripur 60 Weather seasonable Prospects of crops good Common rice sells at 10½ seers per rupee

Backergunge —Rainfall at Sadar 0 16 Weather hot Prospects of crops fair Fodder and water sufficient No cattle disease reported Common rice (*aman*) sells at 9¾ seers per rupee

Tippera —Rainfall at Sadar 17, Chandpur 97 Brahmanbaria 16 Weather sultry Prospects of crops fair but more rain is wanted Fodder and water available Cattle disease reported from Katwali and Muradnagar Common rice sells at 9¼ seers per rupee

Noakhali —Rainfall at Sadar nil, Feni 63 Weather hot Crop prospects fair Fodder and water sufficient Prices unchanged

Chittagong —Rainfall at Sadar 0 07, Cox's Bazar 0 30 More rain urgently wanted Fields are under cultivation for *aus dhan* Water and fodder available Common rice sells at 11 seers per rupee

Patna — Rainfall at Bihar 0 56 Sadar 0 33, Dinapur 0 32, Barh 0 44, Hilsa 0 50 The rainfall will prepare fields for *bhadoi* sowings and help sugarcane plants No cattle disease Fodder and water for cattle sufficient Common rice sells at 12 seers per rupee in Patna

Gaya Rainfall at Sadar 1 11, Aurangabad 0 65 Jahanabad 0 48 Common rice selling at 10¼ seers per rupee

Shahabad —Weather hot Fodder and water sufficient Sugarcane doing well *China* being harvested Rice, 10 seers per rupee at Sadar

Saran —Rainfall at Sadar 0 03 Siwan nil, Gopalganj 0 10 Weather seasonable Sugarcane and *china* doing well Lands being prepared for *bhadoi* Fodder and water sufficient Common rice 11 seers 7 chitaks and maize 17 seers 0 chitaks per rupee

Champaran —Rainfall at Sadar 50 Bettiah 09 Sowing of paddy and ploughing proceeding Prospects of standing crops good Fodder and water sufficient Prices of common rice and maize at Sadar are 12½ and 20 seers per rupee respectively

Muzaffarpur —Rainfall at Sadar nil, Hajipur 0 05, Sitamarhi 84 Standing crops doing well Agricultural operations for next sowing going on Prices are—Common rice 11 seers, wheat 11 seers 8 chitaks, barley 18 seers maize 17 seers, gram 15 seers, and *arhar* 18 seers a rupee

Darbhanga —Rainfall at Sadar 0 60 Somastipur nil Madhubani 0 34 Standing crops doing well Fodder and water sufficient No cattle disease reported Common rice sells as follows —

	Srs	ch	
Sadar	13	3	per rupee
Somastipur	13	0	
Madhubani	Nil		

Monghyr —Rainfall at Sadar 0 56 Begusarai 0 85 Jamui 0 75 Weather seasonable Sowing of paddy and *makai* crops going on in places Sugarcane doing well Rain wanted Land being prepared for *bhadoi* crops Common rice sells as follows —

	Srs	ch	
Sadar	10	14	per rupee
Begusarai	12	0	
Jamui	12	0	

Bhagalpur —Rainfall at Bhagalpur 2 10, Supaul 0 55 Weather cloudy with easterly wind Ploughing going on briskly in the higher fields of the Sadar More rain wanted Prices slightly going down Fodder and water sufficient

Purnea —Rainfall at Sadar 0 13, Kishanganj 0 65, Araria 1 08 Weather seasonable Sowing of *bhadoi* and jute going on Lands being ploughed for *aghani* crops More rain wanted No cattle disease Fodder and water sufficient Common rice sells as follows —

	Srs	
Sadar	12	per rupee
Kishanganj	12	
Araria	11	

Malda —Rainfall at Sadar 13 Charohal 32, Shibganj 2 80, Gajole 19 Weather hot Sowing of jute commenced *Boro* paddy is ripening *Bhadoi* paddy is thriving More rain wanted No cattle disease Price of rice stationary Fodder and water sufficient

Sonthal Parganas — Average rainfall 1 5 Weather hot *Boro* rice at Rajmahal being harvested Fodder and water sufficient Cattle disease reported from Pakour Average price of rice is 12 seers 8 chitaks and that of maize 18 seers a rupee

Cuttack —Rainfall at Sadar Jajpur 1 08 Kendrapara 16 Banki 1 47 Cotton being plucked Sugarcane growing Ploughing and sowing of *sirad* and *beali* continues Weather seasonable Condition of cattle generally good Fodder and water available Common rice sells as follows —

	Srs	ch	
Sadar	13	12	per rupee
Jajpur	15	12	
Kendrapara	15	12	
Banki	13	4½	

Balasore —Rainfall at Sadar 32 Paddy sowing continues Sugarcane doing well Rice sells at 15 13½, and 16 seers per rupee in interior, Balasore, and Bhadrak, respectively Fodder and water sufficient

Angul.—Rainfall at Sadar 0 07, Chhendipada 3 41 Bissipara 1 21 Weather hot Common rice selling at 18 and 9½ seers in Angul and Khondmals respectively Cattle disease reported from the interior

Puri—Rainfall at Sadar 0 82 Khurda 0 41 Weather seasonable Ploughing and sowing in progress Cotton being harvested Sugarcane and other miscellaneous crops doing well Fodder and water sufficient Price of rice stationary

Hazaribagh—Rainfall at Sadar 1 46, Giridih 83 Weather seasonable Fodder and water sufficient Cattle-disease reported from one thana Common rice sells at Sadar and Giridih at 12 seers per rupee

Ranchi—Rainfall 0 06 Weather seasonable Sowing of paddy continues Average price of common rice is 14½ seers per rupee No cattle disease reported Fodder and water sufficient

Palamau.—Rainfall nil Weather seasonable Sugarcane doing well Cattle disease only in a few villages Prices at Sadar are—rice 9 seers 9 chitaks *makai* 12 seers 6 chitaks Fodder and water sufficient

Manbhum—Rainfall at Sadar 0 22, Gobindpur 33 Weather seasonable Prospects of crops on ground good Fodder and water sufficient Cattle disease not reported Average price of common rice at Sadar 12 seers 6 chitaks and at Gobindpur 11 seers per rupee Supply sufficient

Singhbhum—Rainfall 0 49 Sowing goes on Average price of rice is 14 seers 8 chitaks in the district, at Chaibassa 13 seers

General Summary—There was general rain during the week all over the Province, excepting the districts of Shahabad and Palamau The sowing of paddy is still going on and seedlings are out at places Jute and *aus* plants are thriving and in some places they are being weeded Fodder and water are generally sufficient except in Bankura, where the former is reported to be dear Cases of cattle disease continue to be reported from a few districts. The price of common rice has risen in 19 districts, fallen in 8, and is stationary in the rest (19)

By order of the Lieutenant Governor of Bengal,

F A SLACKE,

Secretary to the Govt of Bengal

REVENUE DEPARTMENT,

The 28th May 1901

The mean pressure of the seven days	29 643
The average pressure of the corresponding period for 24 years Surveyor General s Office	29 637
The total number of hours of bright sunshine	60 9
The maximum possible number of hours of sunshine	92 9
The mean temperature of the seven days	85 4
The average temperature of the corresponding period for 24 years, Surveyor General s Office	86 9
The extreme variation of temperature	27 7
The maximum temperature	97 9
The highest velocity of the wind in one hour	Miles 20
The mean relative humidity	73
The average relative humidity of the corresponding period for 24 years Surveyor General s Office	74
The total fall of rain from 19th to 25th May 1901	Inches 3 23
The average fall of the corresponding period for 24 years Surveyor General s Office	1 00
The total fall from 1st January to 25th May 1901	10 16
The average fall of the corresponding period for 24 years Surveyor General s Office	8 31

The mean pressure temperature etc, are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman s No 86, formerly at the Surveyor General s Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August s formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

o, overcast, g, gloomy, d, drizzling rain, p, passing temporary showers, t, thunder, <, lightning, /, strong wind, K, thunderstorm, ⌂, dew

Printed at the Bengal Secretariat Printing Office and published by the Book Depôt of the Bengal Secretariat Writers Buildings, in the City of Calcutta on 29th May 1901

The Hon'ble MR A M BOSE said —"In rising to speak on this occasion, the thought naturally comes to the mind that this is the first discussion that takes place in the Council, not only in a new Century, but also under a new Sovereign She who so lately reigned not only over the great Empire which owns allegiance to the British Crown, but over the vaster empire of the hearts of her people—she to whom the well being and prosperity of her subjects was an ever present thought and the welfare of India a personal responsibility—has passed away to her rest and the Victorian Era has come to its close I venture to believe that in no part of her world wide dominions will her memory be cherished with greater fervour, with greater tenderness and greater love than in the hearts of the people of this Country And I am sure Sir, I have the sympathy of every Member of this Council in expressing the confident hope that, under the new Sovereign who now rules over this vast Empire—a Sovereign who, I believe is the first who possesses a personal knowledge of the people of this Country—the claims of India will occupy a place in his mind and heart not less intimate or less sympathetic than that which had obtained in the recent reign

"I was reading only a short while ago an article written by a distinguished writer, who, in speaking of the House of Lords described it as the Hall of Indolence It is possible that some critic, reviewing the Legislative record of this Council during the present Session, may be disposed to indulge in a somewhat similar expression, though I for one think that if happy at times is a nation which has no history, it is well too for a province or a country that at times or on occasions its Legislative Mill is at rest Be that as it may, even the most hostile of critics, looking at the Financial Statement which has been placed before us, and looking at the prosperity that the figures indicate, and, I may add, they also indicate wise statesmanship and wise administration—will be forced to admit that this Province under Your Honour's rule, has a record to show which it has no reason to be ashamed of Three years ago Mr Risley in this Council Chamber, in introducing his Budget described it as a 'Calamity Budget' I congratulate the Hon'ble the Financial Secretary on producing a budget which is a 'Prosperity Budget' in every sense of the word I venture also to think that, barring absolutely unforeseen circumstances, this tide of prosperity will continue to flow unabated in its course, and it will be the proud privilege of Your Honour's Government in the years still before you to taste the fruits of wise administrative measures, needful reforms, and far seeing improvements

"I need not detain the Council by referring to the figures which justify the description of the Budget in the language which I have employed The figures tell their own eloquent tale—added revenue and an increased balance, and still more, the wise purposes to which it is proposed to devote that balance

"At page 2 of the Financial Statement reference is made to a number of items, in regard to which an additional allotment of Rs 21,30 000 is proposed to be devoted I will not refer to them in detail, but I may be excused, Sir, if for one moment I venture to thank Your Honour's Government for a contribution to that deserving institution, the Deaf and Dumb School, to the building fund of which it is proposed to make a grant I find that it is not mentioned what the grant to this institution is to be, but I hope Your Honour will be able to double the amount which the Institution is itself able to contribute, and which I am authorised to say is about half a lakh of rupees

"Then, with regard to the much needed improvement of the Executive and Judicial Branches of the Provincial Service, allow me to offer my warmest congratulations for this reform, which is under contemplation I do not know whether I am right in thinking, and I shall be glad to be corrected if I am wrong, that it is proposed to devote a lakh out of the Rs 1,40,000 for the improvement of the Executive Branch of the service and the remaining Rs 40,000 for the Judicial I hope that no rigid limit has as yet been fixed in regard to this distribution, and that it may be possible to consider the respective claims of the two branches of the service, and to divide the grant equally, adding to its amount for the purpose

"I will now pass on to a few matters arising from the figures in the Financial Statement, regarding which I would respectfully ask for some

information I have given notice of all these points I trust satisfactory explanations will, in every case, be forthcoming, and it is only with a view to elicit that explanation that I beg to draw attention to these figures Turning to page 13 of the Financial Statement, it appears that the revised estimate under the head 'Gross Land Revenue' is put down at a figure which is Rs 3,00 000 over and above that at which it was sanctioned I shall be glad to have some information as to the details of that increase and the causes that have led to that increase in the revised estimates Then, on the same page, I find under the head 'Stamps' Rs 1,31,70,000 put down as the figure in the budget estimate for the current year Having regard to the fact that the actual collection in 1899 1900 was Rs 1,32 00 000 (the estimate was also Rs 1,32,00,000 and a little more), I venture to hope that there will be a perceptible increase in the revenue under that head It is true that in the revised estimate the figure put down is Rs 1,31,70,000, but there an explanation is given Owing to a temporary cause, that unhappy cause, viz, the death of the Queen, there was a falling off in Court Fee Stamps owing to partial suspension of work in the last week of January Having regard to this fact, I think we may reasonably expect a large increase under that head

"Then, on page 14, under the head 'Assessed Taxes,' sub head 'Ordinary Collections,' we find in the budget estimate Rs 41,80,000 put down, as against an estimate of Rs 45,86,000, revised estimate of Rs 45,15,000 and actuals of 1899 1900 of Rs 45,20,000 and odd Is there any reason to apprehend a steady and continuous decrease under the head 'Ordinary Collections,' which alone, I submit, could justify that low figure of Rs 41,80,000, because previously the amount stood at a much higher figure? Here, also, I venture to hope that the budget estimate of receipt will be largely exceeded

"Then in the same page under the head 'Forests,' sub head 'Timber and other Produce removed by Government Agency' the budget estimate is Rs 9 93,000 and odd as against revised estimate of Rs 10,78,000 and odd, and actuals Rs 10,35 000 odd The explanation given is 'Revised, raised with reference to actuals' Having regard to those figures, unless there is some special explanation, we may reasonably hope for a larger collection than what has been put down there

"Then at page 16, under head 21—'Scientific and other Minor Departments' sub head 'Emigration Fees,' I hope that the Hon ble the Financial Secretary will kindly explain if there is any special reason for the increase of last year The revised estimate was put down at Rs 56,000 What was the reason of that increase, which, it is expected, will not hold good this year?

"Similarly, Sir, at page 17, under head 29—'Major Irrigation Works—Sone Canal,' the budget estimate is put down at Rs 10,73,000, against a much larger revised estimate of the past year and against a larger actual in the year 1899 1900 Should we not be reasonably justified, unless there is some special cause, in also expecting an increase under that head?

"This remark also applies to head 30—'Minor Irrigation Works and Navigation,' sub head 'Agricultural Works' The embankment figures will speak for themselves The budget estimate is much lower than the revised estimate and sanctioned estimate, and considerably lower than the actuals for 1899 1900

"Then, Sir, coming to page 19 of the Financial Statement, Expenditure side, I have no doubt that there is an explanation, but some of us would like to be informed as regards the estimate under head 3—'Land Revenue,' sub head 'Settlement Operations' The budget estimate of expenditure is Rs 2,93 000, against the revised estimate of last year of Rs 1,32,000 The sanctioned estimate of last year was Rs 1,20,000, and the actuals of the year preceding (1899 1900) of Rs 1,17,000 Is it proposed to undertake any new or very important or very considerable settlement operations in the year now in progress, as otherwise the expenditure put down there is too large, in face of the three other figures to which I have referred?

"Permit me to turn to page 20, head 'Stamps' The charge for sale of other general stamps is put down at Rs 1 55,000, and the explanation given is that this is due to the higher rate of discount allowed on the sale of non judicial stamps Possibly the reason for that increase was given in Council

before, but if the Hon'ble the Financial Secretary does not mind I shall be glad to know why that was found necessary

"Turning to page 22, under head 19A—'Law and Justice—Courts of Law' sub head 'Law Officers, Mufassal Establishment,' the budget estimate is put down at Rs 1,6? 000 odd as against revised estimate of Rs 1,51,000, sanctioned estimate of Rs 1,53,000 odd, and actuals of Rs 1,58,000 odd In one sense, I am glad to see that increase in the amount paid to the profession, but yet I should like to know if there was any special reason for that increase, because I confess that my interests as a citizen and a tax payer are much larger than as a member of the profession

"I will now refer to page 24, heading 'Police' Some of us would be glad if some information were given as to the four probationers in excess of the present scale, whom it is intended to engage, and also as to the details in regard to the proposed increase of the Police force, and as to how many Head Constables it is proposed to set aside substituting Sub Inspectors in their places, which I consider a most desirable reform Under the same heading (Police) the budget estimate for contingencies is put down at a figure which is very much in excess of the revised estimate of last year, and also the actuals of the year 1899 1900 Some explanation is requested for that, and also for the increase under the head 'Railway Police,' with reference to the Eastern System Railway Police and the Bengal and North Western and Tirhut State Railway Police

"Then, Sir, I come to the subject of Education, page 25, No 22 We find that the revised estimate for last year is Rs 28,00,000, whilst the sanctioned estimate for the year was Rs 29,80,000 showing that the sum likely to be spent for education during the year will fall short of the sanctioned grant by no less than 1 lakh and eighty thousand rupees And in this connection, I shall be glad to know the reason why, for instance, the amount of grant in aid, which was put down at Rs 6 40,000, was not all spent, as the revised estimate show only Rs 6,00,000 on this account Similarly, under the head Expenditure on Furniture and Apparatus and as regards the Training School at Kurseong the sanctioned estimate has not been spent, and I should like to be informed if there are reasons why this could not be done in the course of the year just closed Then, with regard to the grant of Rs 1,2?,000 for contribution to the Provident Fund proposed for teachers of primary schools, it would be desirable to have some details of the scheme which are altogether omitted in the statement

"As regards the Sibpur Engineering College, I am glad to find that an increased grant of Rs 16,000 is proposed, and I should like to know whether some improvement is contemplated in connection with the Agricultural Department of it No doubt the fact that it is under consideration to remove the Agricultural class will stand in the way of a permanent improvement, but whether pending that, something may not be done considerably to improve the existing state of things in the meanwhile will, I am sure, engage the attention of the Hon ble Member in charge Then, Sir, I should like to look at the figures as a whole, and in making some comments on these figures I am sure Sir, it is hardly necessary for me to say that if it should be my duty to indicate that certain other reforms ought to be taken in hand, or that certain additional grants should be made, I do not for a moment forget all the work in the field of education that has been achieved by Government, and that remark will be un[illegible]d to apply to any comments that I may make not only with regard to works of education, but also with regard to other works With regard to education, I will say that no more splendid or beneficent work has been accomplished than what has been done in this direction And it is because many wants have been removed that new wants have arisen, which cry for consideration at our hands It is only in that spirit, and not for a moment forgetting what has been done or is being done, that I make these remarks in connection with this subject of education

"Looking then at the educational figures as a whole, they show, on the face of it, a satisfactory increase Last year's sanctioned estimate was Rs 29,80,000 This year's estimate is put down at Rs 32,04,000, which means a very respectable difference of Rs 2,24,000 But if we look deeper, this

aspect of affairs would appear to change In the first place we have to remember one fact This increase includes the sum of Rs 72,000, which represents only a transfer entry under the head 'Reformatory Schools,' which is usually shown under Jails, but is now brought under this head Therefore that Rs 72,000 has at once to be struck off, leaving Rs 1,52,000 It has next to be remembered that the educational grant includes this year a special allotment of Rs 2,25,000, for construction of buildings and for a Provident fund for teachers of primary schools These two items more than swallow up the apparent increase in the Budget grant Therefore, what I wish to ask is whether there is in the Budget any increase as regards what may be described as the normal or ordinary expenditure on education in the field, for instance of primary education and of other branches of education So far as the Financial Statement is concerned, it is not possible, so far as I have understood the matter, to find out whether any such increase under these heads occurs On the contrary, the presumption seems to be strong that it is rather the other way But, however, we shall know the facts from the Hon'ble Member in charge And in this connection, let me draw the attention of the Council to the real necessities of the case Let me take up first Primary education which and I know the Government will agree with me, is a matter of the highest importance for the national welfare, progress, and prosperity Has there been any increase this year under that head? The Education Commission of 1882, of which body I had the honour of being an humble member, placed before the Government a strong recommendation, asking that the strenuous efforts of the State should be directed in a still larger measure than heretofore in this matter of Primary Education But that, it may be said, was a recommendation of 18 years ago Let me therefore place before the Council the opinion of a most important Committee on Education which the Government appointed last year consisting of many eminent gentlemen and presided over by that distinguished educationist, Mr Pedler This Committee, in submitting their second report, dated the 17th April, 1900, say this —

In concluding this further Report the Committee strongly recommend for the favourable consideration of Government a substantial increase in the grant for Primary Education

'The passage I am reading occurs at page 50 of the Calcutta Gazette (Supplement) of the 2nd January of the current year What I would respectfully enquire is whether that increase so strongly recommended, or any approach to it has been made in this Budget? Then, Sir amongst the reforms that have been recently introduced is the new scheme for Vernacular Education Though it may not be possible for me to approve of everything that has been done under Mr Pedler's administration, it is my duty from my place in this Council gratefully to acknowledge the freshness and vigour that he has introduced into the Department It is my misfortune not to be able to agree with some of the measures that he has introduced, and I may specially mention in this connection the recent reconstitution of the Central Text Book Committee and the changing of it into an official body but in spite of any such differences of opinion, on the whole, it is my duty to render my cordial acknowledgment to Your Honour's Government and the Director of Public Instruction for the substantial improvements that have been introduced But what I would beg to point out is that these improvements that have been made, if they are to be realities, and not mere make believes, if there is to be no waste of public money, and they are to lead to substantial results, then the grants will have to be considerably increased I see in the Financial Statement Rs 14,000 has been put down for introducing the system of bifurcation of studies in high schools—another recommendation of the Education Commission But with this addition in English Schools, and the introduction of the Kindergarten and science teaching in Vernacular Schools we shall require if the work is really to be done satisfactorily, a better class of masters and better equipped schools We shall need better trained and more intelligent teachers, who will therefore have to be better paid Therefore the grant for all these purposes will have to be very materially increased A substantial increase of the allotment on Primary Education is absolutely needed I will now pass on

from the head of Primary Education to another matter in which Your Honour and Your Honour's Government feel the greatest interest,—I mean the question of Female Education It is an unfortunate fact that only 1 9 per cent of girls of school going age are under instruction But the worst of it is that it marks an absolute retrogression in the case of female education in this Province Four years ago, not only were there more institutions for female pupils, but what is a matter of much more importance, there were 7,000 more girls attending schools then than is the case at present It may be said that there are social difficulties in the way of female education But these difficulties existed four years ago as they do now Perhaps they existed then in a greater measure and in a sterner character than at the present time How then is the fact of the falling off to be accounted for? Here, again, increased grants in the cause of female education are imperative, not only to make progress, but to recover lost ground As Mr Pedler observes at page 130 of his latest report the amount spent last year on female education is much less than the sum spent on this account in the years 1895 96 and 1896 97 After pointing out that the theory of social obstacles in no way explains the retrogression which has occurred during the past few years, and quoting some opinions, he says, and I draw the special attention of the Council to these statements —

'There is a good deal of truth in the argument that the grant in aid system is not well suited to the present conditions of female education in Bengal and either a stipendiary system or a combination of the stipendiary system with the grant in aid system would appear likely to lead to better results (page 131 of the report)

"And again at page 132 of the same report, he says —

'The experience in Bhagalpur would tend to shew that with the establishment of stipendiary girls schools, and with more liberal encouragement in the way of prizes, &c, much better progress can certainly be achieved than is the case at present The experiment suggested by the Deputy Inspector of Schools of Bhagalpur might also be tried'

"These are weighty remarks, and I would like to know how far in the arrangements for the present year Mr Pedler's suggestions have been followed and allotments made for giving effect to them No doubt the grant in aid system is cheaper, but if we really attach any importance to the cause of female education, we must adopt the reforms that are needed to improve the present state of things, and not hesitate to make the necessary addition to the expenditure for female education—an expenditure which actually stood lower last year than it did four years ago I may add that the experiment recommended by the Deputy Inspector of Bhagalpur is the appointment of a body of Departmental zenana teachers working on the Christian Zenana Mission System, and the appointment of a peripatetic examiner, both of them excellent suggestions It is not as if the difficulty in regard to the progress of female education is a permanent or insurmountable one On the other hand, in this very report there is a strong indication afforded of at least some of the methods, by means of which this backward march may be arrested and onward progress secured

"I will turn now to the subject of higher education I am one of those who believe that there is absolutely no conflict between the claims of primary education and the claims of higher education, and that in a well ordered State, one is not more important than the other, just as in a well ordered building you require not only a good foundation, but also the higher parts of it the super structure must be good to make it useful and effective for its purpose I submit that in this way the Government has a distinct duty in regard to higher education In this connection it would be ungrateful on our part if we were to forget the measures which Your Honour's Government have already adopted in furtherance of this cause by the creation of the Research scholarships, and by deputing to England one of our foremost Scientists But I would point out that very much of what we call high education in this country would not be called by that name in England or on the Continent I am one of those who believe in the intellectual capacity of our countrymen, and think that under the fostering care of the Government, India may wake again and take her place in the great forward march of intellectual and industrial

progress I was at Cambridge when the first fruits of the great national revival of Japan were witnessed in England in the early seventees, and the first batch of Japanese students was sent to join that University I mixed with them and watched them with interest

"I cannot say that there was anything very striking in their mental capacity, but the Japanese Government took up the work with true earnestness and zeal, and with a determination to succeed Years later when travelling in Germany I found Japanese students at Heidelburg and elsewhere who were carefully selected by the Japanese Government which met their expenses, and given to understand that if they qualified themselves properly, they would be taken up by the hand and meet with every encouragement and be placed in their proper sphere of work on their return to Japan Students were sent out in different batches to different Universities and Countries in Europe and America chosen for them to follow general or special courses of study, and the result is what the whole civilized world is struck with to-day—the marvellous intellectual awakening of Japan, and in Japan itself various advanced educational movements were being inaugurated and pushed on with zeal It was to a Japanese Professor, I refer to Professor Kaisoto that the honour was reserved of discovering the dreaded plague bacillus and I believe there are Japanese Professors at the University of Chicago And what Japan had done in the way of educational advance, I firmly believe Indian intellect too can achieve under the fostering care and the generous encouragement of its enlightened Government and for that fostering, ever thoughtful and ever anxious care, I venture most earnestly to appeal to the Government But it will be urged no doubt that all this would cost money But it will be money which will repay itself many times over, even looking at the question from the lowest and the most common place point of view, and what a stimulus it would give to national life, and what an ennobling and vivifying influence it would exert over it! But instead of using any arguments of my own, permit me to place before the Council the opinion of a most eminent man which will, I have no doubt, be considered as entitled to the highest weight

"Speaking at Birmingham on the 17th of January this year as Chancellor of the new University, which is to be started there Mr Chamberlain said—I am reading the extract from the London Daily News of the 18th January, as follow —

'Here it was that he felt the great inferiority in which the higher education in this country stood in comparison with higher education in Germany and the United States In Germany the State came forward with really munificent grants There the State had recognised that money expended for those purposes was the best of all possible national investments He hoped the time was coming when our people also would recognise this fact, and would see that what would be a mere drop in a bucket as compared with our vast national expenditure if devoted to the higher education, would produce results of a most satisfactory and encouraging character In the United States and in our own Colonies the State or the representatives of the State, had also been liberal contributors in grants of land and in other ways

"The Council will observe that Mr Chamberlain strongly urges State expenditure on higher education on the ground that it was 'the best of all possible *national investments*

"Now, Sir, if this could be said with regard to England, with its unequalled and magnificent educational endowments from the past, its numerous and splendid institutions, and its unique public spirit and spirit of self help how much more could it be said of India with its scarcities and famine, and poverty, with agriculture as the chief occupation of the people?

"Some time ago I was reading a life of Pasteur, in which it was shown that the saving he had effected by his earlier researches in connection with the silk industry had paid back to France many times over, the enormous indemnity which victorious Germany had exacted from her And who can estimate the value of a Kelvin, or Edison, or a Tesla to a country? Distant as the prospect may seem, who knows that some day some one in this country may not be forthcoming to rival some of these distinguished men And even though there should never arise Scientists like those eminent men, there may be others who would render distinguished service to the State and prove of the greatest benefit to the highest interests of the country

"I pass on from this matter to the next question, to which I desire to draw the attention of the Council, that with reference to the water supply of the villages in the Mufassal. The Hon'ble the Financial Secretary has described this question as a 'hardy annual.' I would like to see this hardy annual watered to death, because there is a terrible amount of suffering in the Mufassal from want of water, and large numbers of the most destitute people have to go on suffering from year to year. I had the honour, Sir, the other day to refer to certain specific instances of this appalling scarcity in the district of Faridpur, as to which Your Honour was pleased to direct an enquiry. Permit me to read just two or three items from a paper from another district, which I have the honour to represent in this Council. I mean the *Charu Mihir* of Mymensingh, and I shall content myself with referring to only one issue of the paper, viz, that received last week. The first is an item which mentions a riot having taken place for the water of a *doba* or small tank which supplied drinking water to as many as 13 or 14 villages. The second item is of more pathetic interest, describing a theft committed by night of a *Tulsi* full of water, the thief leaving his own empty *Tulsi* behind.

"I do not know whether anybody in this Council has heard before of theft of water. Here the thief came to a house where there was a *Tulsi* of water. He came to steal the water, and in taking it away from the more fortunate man's possession, left his own empty vessel behind.

"The third item of local news refers to the prayer to the District Board from a village for the digging of a well or tank and other cases of water scarcity are mentioned in the paper.

"In fact, Sir, it is hardly possible to open any Indian paper at the present time without coming across instances of suffering on the part of multitudes for want of water. It is often not a question of the purity of the water, but a question of its very existence, of the impossibility or extreme difficulty of finding it, that troubles these people in this unhappy time. There can be no doubt that very considerable suffering does exist from this cause in many parts of the Mufassal. Some Hon'ble Member in this Council may ask—'How did the country then get on before?' Now, Sir, as we know, in earlier times there was a strong religious feeling, a feeling of reverence and piety attached to the digging of tanks, and one of my earliest remembrances is the solemn awe that was inspired in my boyish mind at the ceremony of the consecration of a tank. That religious feeling has to a large extent passed away, and very many of the wealthier classes do not regard the matter in the same light now. Then there has been a diversion of the stream of charity from villages to towns and the metropolis, and even abroad, and in place of the state of things that existed thirty or forty years ago, we have donations given in regard to matters recorded in the papers. And a third reason is that there is a feeling that the Government and District Boards have taken upon themselves responsibility in regard to this matter since the imposition of the Road Cess, and it is their special duty to remedy the grievance. And in the meanwhile numerous old tanks and even many water courses have silted or dried up.

"It may be urged that it is not enough to point out the difficulty, and it may be asked what are the remedies to be applied. The first remedy I would suggest is that a greater impulse should be given to the action of the District Boards. As we know, a few years ago a Circular order was issued by the Government to all District Boards that as a beginning at least Rs 5,000 a year should be spent by every District Board for the excavation of tanks, etc. That was the *minimum* that was to be spent for this purpose and only as a *beginning*. Now let us see how this has worked. We find that the total amount spent to improve the sources of water supply in 1897-98 was Rs 2,23,544, and even then only by 19 out of 38 District Boards was the minimum sum fixed (Rs 5,000) spent for this purpose. In 1898-99 the total amount spent was Rs 1,31,541, which shows a considerable drop from Rs 2,23,544, and then instead of the 19 District Boards which had in the previous year observed the Government order about the minimum, only *six* District Boards spent this minimum of Rs 5,000. Then there was a further fall last year, the total amount spent by District Boards being Rs 1,16,000,

and only *three* District Boards having spent the minimum of Rs 5,000 These figures tell their own tale, and indicate a steady downward course which is to be regretted

"Therefore, Sir, I submit that there is ample cause to urge District Boards to greater activity, and for Government to remind them as to the terms of the Circular and as to what they should do to remove this want

"In this connection, Sir, I think it would be of importance to this Council if we had not only the figures showing the action of the District Boards in regard to this important matter affecting the poor people in the villages, but also that there should be prepared, as I asked the other day, a register showing the actual sources of water supply in each village containing 100 houses or more, because it is hardly any use for the purpose I had in view to merely know what is being done without knowing at the same time what has to be done I have no doubt that it must have been from an oversight that this part of the question I put was not answered I may gratefully acknowledge that I have met with nothing but courtesy from the Hon'ble the Financial Secretary I asked for this information, and I believe it is ready, and when it is given we shall see what are the needs and what has been done In fact the preparation of this register was specially ordered by the Government in the Circular I have already referred to I would suggest that an abstract of that register may be published in every local paper, so that if there was any inaccuracy, the attention of the people affected might be drawn to the matter so far as the District Board was concerned, but in having that statement, which I hope we shall have by and bye it would be of importance to know the method or agency which has been employed in collecting that information We shall at any rate understand the problem better, and we shall understand what is wanted, and then I am sure Your Honour's Government will be able to take proper steps to remedy this great grievance of the people in the Mufassal Then, Sir, turning from the District Boards, I have no doubt that the influence of District Magistrates could do a great deal in the direction of inducing wealthy landlords and zamindars to excavate or re excavate tanks, and I venture to suggest in connection with that most laudable attempt that is being made in every part of the country to commemorate the memory of our beloved Queen Victoria, that it would indeed be a desirable thing, in connection with proposed Local Memorials in certain parts of the Province, if tanks would be dug and sources of water supply provided bearing her honoured name More stately memorials might record the splendour and many achievements of the Victorian rule, but, in many parts of the Mufassal, this humbler method would be to the villagers,—to every man, woman, and child,—a memorial in the concrete of the beneficence of that noble lady whom they adored and revered as their Queen Mother, which would appeal touchingly and lovingly to their hearts And, wherever practicable, there might be placed on the bank some representation in a durable form of Her Gracious Majesty, who, though dead, would continue to bless by the precious gift of water

"Then, Sir, there is another practical difficulty in this connection in regard to which some legislative action may be needed, should this be found to be desirable on a full consideration of all the facts I was only yesterday talking with a senior pleader of the High Court, who told me that he went to his home a short time ago to excavate a tank, but could not do so on account of the difficulty of getting land There were so many shareholders that it was impossible to get it, and sometimes the rights of female and minor proprietors were also involved This constitutes a difficulty which has to be faced I was glad to find in the papers yesterday that Maharaja Surja Kant Acharya of Mymensingh had announced that he would take no *nuzzur* from any tenant who wanted land for excavating a tank I trust many other landlords will be following this excellent example

"And finally, if all other means prove inadequate and such a course is found necessary, I would venture to appeal to the Government to help from the Provincial Funds for the purpose of removing this grievous difficulty Government has before this helped individual municipalities in providing themselves with water works, and it was generously helping Darjeeling for its roads and works of protection I hope that the removal of a want so general

and so distressing—cause alike of suffering and of disease and mortality—will not, should the need really exist, be considered outside the scope of help from Government

"Now, I pass on to the question of Excise Administration—from water to wine I find from the last report of 1899 1900 that in the year previous we had attained a record revenue under the head 'Excise' of Rs 1,27,52,787 But, Sir, we have managed to beat that record in the year that is just over, for which period the net revenue from Excise was Rs 1,32,80 000, or about Rs 5,27,000 in excess of the revenue of last year I hope, Sir, I shall be pardoned if I venture to say that I am unable to congratulate the Government on that increase, as this increased revenue has been attained, in a great measure at any rate, by means of an increased consumption of exciseable articles and cheapening of their price It is stated in the Government Resolution that the revenue of the previous year, which was the highest hitherto obtained, has been beaten and that this clearly reflects the prosperous condition of the people I do not propose to examine this latter statement at any length, because I have other important matters to deal with Prosperity is no doubt one of the causes that tend to increase the Excise Revenue, but having taken some interest in the matter, after living amongst the people and having seen for myself many of their lives, their joys, and their sorrows, I am bound to say that it is not the sole cause, but a very minor one, and there are other causes at work, including the well known and painfully notorious fact, that in numerous cases drink obtains an increasing and fascinating hold, a growingly terrible grip over those who have taken to it And it is a curious fact that, so far as I am aware, these annual reports do not refer to any of these causes I will not take up the time of the Council by referring to the testimony of representative people as to the misery, suffering, poverty, and even crime that often follow in the wake of the drink habit Would it not be as well if some reference be made in the reports to this aspect of the question, of such moment to the true prosperity and well being of the nation, and some light thrown on it?

"If the increase in the Excise Revenue is indeed to be taken as any criterion or test of the prosperity of the people, then, so far as that criterion goes, it would seem that the people of Bombay are about three times more prosperous than the people of Bengal, and the people of Madras about twice as prosperous as ourselves, because I find in referring to page 2 of the Board's report that while the average incidence of the Excise Revenue in Bengal was 2 annas 11 pies, in Bombay it was annas 8 8, or about three times that amount, and in Madras annas 6 2, which is more than double I will make only one other remark on this point If this growth of Excise Revenue is a mark of prosperity, then I am glad the division I have the honour to represent is not prosperous, for the addition contributed by the Dacca Division to that revenue is less than that of every other Division, barring Chittagong, though, indeed, it used to be said that the tenancy of Eastern Bengal was the most prosperous in Bengal

"I will now refer to two facts which have struck me in connection with Excise administration—the increase in the consumption and the cheapening of prices There is an increase during last year in the consumption of distillery spirits of 8 5 per cent As regards outstill, no figures are given, and no doubt the returns made by outstill people are extremely unreliable But might I venture to make one suggestion in this connection? We know that the Excise Commission of 1883 did go into the matter of obtaining some return of the amount of liquor from outstills They adopted a process involving a little trouble, by which an approximate idea can be had of the quantity turned out from outstills If that can be done once, say, in two years, I think it would be a gain, not only to the cause of statistics, but also because right information bearing on this question is of importance to the welfare of the people Judging by the increased revenue, one would think that the increase in outstill sales must have been greater than in distillery sales, because the increase in the out still revenue is 8 0 per cent as against 4 8 in the case of distillery revenue Be that as it may, we have this undoubted fact that there is increased consumption of distillery spirits, of rum, and of every other exciseable article for which returns are given

"Then we come to the question of the cheapening of prices of exciseable articles In fact, that appears on the very face of the figures, because, taking, for instance, the case of distillery spirit, 8 [illegible] is the percentage of increased consumption, while the increase of revenue is only 4 8 per cent The same remark applies to several other exciseable articles, but to save trouble, I will refer to page 3, paragraph 5 of the Government Resolution which says 'The consumption of distillery spirit, country rum, and ganja has risen during the year to a greater extent than the revenue, and the incidence of taxation on these articles was therefore lighter than in 1898 99'

"I venture to submit for the consideration of the Government whether these facts do not constitute matter for serious enquiry, whether the declared policy of Government—and the only one, I need hardly add, worthy a Christian and enlightened rule such as that under which we are now living—of so conducting its Excise administration as to obtain the maximum of revenue from the minimum of consumption is not being departed from In this connection I would draw the attention of the Council to one passage in the report of the Excise Commissioner, paragraph 51, on page 15 It is stated there that an enquiry has been ordered to find out why consumption has fallen in the district of Mymensingh I would beg to ask whether enquiries have been ordered when there has been an increase in the consumption in any district I hope it has been so, but the Hon'ble the Financial Secretary would be able to give us information on this point In the paragraph I have referred to, it is further stated that 'In Faridpur there was a satisfactory increase of Rs 4,344 due to better settlement of licenses and increased consumption'

"I beg very respectfully to put it to the Government whether it looks upon it as a satisfactory increase of Excise Revenue when that increase is, in the face of it, and admittedly obtained, partly at any rate, by an increase in the consumption of the article, and if it approves of the policy indicated in the above extract Is it not contrary to the declared object of the Government to obtain the maximum amount of revenue with the smallest amount of consumption? My heartiest sympathy is with the Government in its campaign against illicit distillation I am glad to see from the statement in the Board's report that a system of colouring the liquor has been adopted in order to detect smuggling and that it has been so far successful I hope other measures will also be adopted, and that the Government will succeed in putting down these attempts I have referred to the proposed policy of obtaining a maximum of revenue with a minimum of consumption, and shown from the testimony afforded by official figures how that policy has failed to be carried out in actual practice, and I am afraid that under the present system it will perhaps continue to do so I belive a more hopeful beginning, one fraught with more promise for the future will be made, and the declared and statesmanlike policy of the Government will have a better chance of being carried out, if after all this length of years a trial be given to that modified and limited form of local option which was fully recognized after the most careful consideration by the responsible Government of the day, and which has found a place in the Statute Book as section 84 of the Excise Act of 1878 If carefully selected Municipalities be given the power of granting, withholding and withdrawing licenses, as expressly contemplated by that section, and subject to every such condition and safe guard as the Government might deem necessary, as also provided by it, I believe a check would be put on the growth of consumption, while the revenue will not suffer Taxation might be raised, but the humiliating and objection able expedient of cheapening the price of liquor will, I trust, meet with instant repudiation, and thus without adding to consumption, even revenue considera tions need not stand in the way of introducing this reform recommended on every ground of social and moral well being of the people The history of section 84 to which I have referred is an interesting one and deserves to be better known than seems to be the case It was a memorial from the British Indian Association in 1875 that drew the attention of the Government to this matter That memorial prayed that the power to grant or withdraw licenses to liquor shops should be given to municipalities It was fully considered by the Select Committee in connection with the Bill for the amendment of the

Abkari Laws, and having regard to the great importance of the matter that Committee thought it necessary to refer it specially to the Local Government before this clause was added And then in August, 1875, under the authority of the Local Government and on the motion of Mr Dampier, who was in charge of that Bill, this clause was added, and it became section 15 of the new Amended Act, II of 1876 of the Bengal Council, and on the repeal of that Act two years later was preserved and reproduced as section 84 of Act VII of 1878, the present Excise Act This section allowed the power to grant, withhold or withdraw licenses to liquor shops to be vested in the Calcutta Corporation and other municipalities with safeguards, the most careful and the most stringent that can be imagined or adopted Under the section, the Local Government may give a municipality this power with the sanction of the Governor General in Council, under such conditions and subject to such rules as the Local Government may impose, and further the Local Government may at any time withdraw and revoke any functions and powers which it has assigned under this section

"With reference to this matter, I shall place before the Council a short extract from the speech of one whose eminent authority, and weight and sobriety of judgment have been acknowledged in the fullest measure alike by the Government and the people—the late Hon'ble Kristodas Pal, who, in supporting Mr Dampier, said —

'He would support the addition proposed by the hon'ble mover of the Bill, as he had taken the initiative in this matter, although the proposed addition did not seem to him to go far enough It simply vested the Government with discretion to make over the power of licensing liquor shops within the town to the Justices Still, he accepted it as a concession, because he assured the Council that there was a strong opinion among the public that municipalities were the best authorities to regulate the liquor traffic inasmuch as they had a direct interest in the consumption of liquor within the limits of the municipalities' (*Vide* Calcutta Gazette of the 11th August, 1875, page 943)

"In other words, the prayer of the British Indian Association was for local option, and in this extremely guarded and restricted form of it, it was granted But even limited as the section was five and twenty years have passed since its adoption And in the meanwhile too various Acts have been passed to improve the position, the representative character and the power of the municipalities, but yet not a single municipality has been vested with the power, or a single experiment tried in that direction I appeal to the Government that the experiment may now be tried It may be said that this matter of local option was fully considered years ago—in 1889, and it was then not accepted The correspondence in connection with this appears in the Gazette of India of March, 1890 at page 495, and I have to thank the Hon'ble the Financial Secretary for referring me to it May I at once respectfully point out that this correspondence and any expression of the opinion of the then Government of Bengal which it contains are *wholly* irrelevant to the issue I have raised? That correspondence related to what I might describe as local option, pure and simple, local option as it was understood in England, and what in fact was asked for by the British Indian Association and supported in Council by such men as Kristodas Pal and Maharaja Durga Churn Law, and has no bearing upon the question of applying section 84 of the Excise Act, which is a very different matter If municipalities were entrusted with absolute power in the matter, it might be said that this would injuriously affect the drinking classes who are supposed by the argument to be too poor to be included among rate payers of a municipality in spite of the very low rating qualification which prevails In passing, I would say with all possible respect that this objection seems to be a somewhat untenable one, seeing that the law has invested the Municipal Commissioners, who are sought to be condemned on the ground of class tyranny, with absolute power of taxation over the poorest resident and without the right of appeal to any outside authority, that the Commissioners have absolute power to determine how he was to build the hut in which he is to live or whether he is to be permitted to build it at all, whether he may be allowed to dig a tank to get his drinking water or carry on certain trades, or do a great many other things besides But waiving this ground, and admitting for the sake of argument

the full force of the objection, what can be easier than for the Government to make a provision, when making over licensing power to municipalities, that when a certain number of residents object to the decision of a municipality they would have a right of appeal to the Government whose decision would be final

"The other objection taken in the correspondence referred to is that the Commissioners would have no interest or sense of responsibility in the matter of the amount to be raised But this too, if it was thought necessary or desirable to do so, may be provided against by a provision that the municipalities would have a share in the profit or loss of the Excise Revenue, calculated on an average of previous years or any other reasonable basis, or that they would be required to contribute a certain fixed amount determined on such calculation, or in some other way At any rate, I think the time has come when a beginning may be made with some selected municipalities which might be vested with powers under section 84, and if, after a proper trial, it is found that the system does not work satisfactorily even with these official safeguards, the Government can, at any time, withdraw and revoke the power

"There is one other consideration in this connection which I should like to place before the Council At present to cope with the evils of illicit distillation, the paid informer has to be constantly employed, and it is necessary, as far as possible, to screen him and keep him out of view, because once his name transpires, there may be difficulty in utilising him Necessity may justify the employment of that not too amiable or estimable gentleman, but I submit that it would be an advantage to the public interests on many grounds into which I need not enter, that the need for the employment of such undesirable people should be minimised By trusting a selected Municipality, which had the interests of the whole of the rate payers to secure, illicit distillation would be more effectively guarded against, and instead of these unreliable paid informers, you would have an unpaid but interested and more reliable voluntary agency doing the work

"I shall pass over one or two other matters I had thought of referring to, which will no doubt be dealt with by other Hon'ble Members who are going to follow me I wish to thank the Government sincerely for the grant of Rs 4,80,000 to the District Boards which is proposed in the Budget I trust they will now be able to take up more energetically and with greater determination the work of removing the water scarcity to which I have already referred As regards the question of the Government share of the joint collection charges for the Road and the Public Works Cesses, I believe there are grounds on which, should the Government be pleased to take a liberal view, it might be asked to contribute half of those charges But even on the accepted basis of its contributing a third share of the actual cost, Government has paid in the past about 7 lakhs of rupees less than fell to its share as appeared from figures given on a previous occasion I appeal to the Government that the claims of the Boards to the balance may be taken into favourable consideration Boards are the auxiliaries of the Government in many important works, and I would remind the Council of the remark made in the last Resolution of the Government on the working of the District Boards that one of the reasons which arrested their progress was that their sources of income, except to a very limited extent are 'fixed and inelastic,' while the demands made upon them are 'varied and constantly expanding'

"I will conclude with one observation I have heard it said in this Hall that the remarks which Members of the Council make here in connection with the Financial Statement are ineffective and infructuous, and that they can not alter a single figure in the Budget, or a single line of the policy of Government In that criticism, Sir, I do not agree, though I confess that there are not perhaps wanting times when discouragement comes to the mind, because I believe that if there is anything of reason in what they said, anything that comes from the heart and conscience, or is inspired by no motive less worthy than that of seeking, according to their light, to help the Government in the difficult work of administration and to advance the interests and voice the wants of the people of this country in my political creed, Sir I do not regard these as two objects, but as one—then either now or it might perhaps be

hereafter, our words will find some echo and meet with some response in the minds and judgments of those in whose hands lay rule and authority and power—those on whose shoulders Providence has assigned the terrible responsibility of shaping, for good or for evil, the destinies of millions of their fellowmen"

The Hon'ble MR M S DAS said —"I fully endorse the remarks made by the Hon'ble Member who preceded me, when he congratulated the Government on the prosperity aspect of the Financial Statement now before us In the concluding words of his speech he referred to the grant to the District Boards, and remarked that speeches made by Hon'ble Members in this Council were viewed not at all favourably by certain Members of this Council or by Government If I ever believed that it was useless to speak out one's mind here, I should be the last person to be on my legs Now, with reference to the grant which the present Budget provides to District Boards, I may say that times without number, both in this Council and in newspaper articles outside this room, the Government has been charged with having diverted the Road Cess Funds to purposes other than legitimate The Despatch of the Duke of Argyll, who was Secretary of State for India at the time, was quoted—Sir George Campbell's exposition of that Despatch was also quoted—to show how the Road Cess Funds do what were the duties of Provincial and Imperial Funds Some of those who raised this outcry went to the length of saying that this diversion of the Road Cess amounted to misappropriation on the part of the Government I have no doubt that this was entirely a wrong expression, because 'misappropriation' is a word which is found in the Penal Code But though we very often pointed out to Government that the Road Cess and District Board Funds had been used for purposes other than legitimate year after year, Government took no notice of this complaint In the present Budget, however, we have at last a liberal grant made by Government to the District Boards I congratulate the Government for having made this liberal grant, and I should say we ought also to congratulate ourselves upon having a Government which is ready to lend a willing ear to just representations, and also upon having a Financial Secretary who is willing to consider the just needs of the District Boards This grant is not only a liberal grant, but it is something more It is a happy recognition of the principles of a friendly relation between the District Boards and the Government There is no misappropriation now The charge of misappropriation disappears, and we have instead the Provincial Funds and District Board Funds joining hands as friends willing to help each other I hope this initial recognition of the mutual help principle will be more and more emphasised in after years

"Now, Sir, I have a word which I should especially address to the Hon'ble Member in charge of the finances I hope in distributing this liberal grant among the several District Boards, he will kindly bear in mind the special claims of the District Boards of Orissa, which, I think, have every right to a fairly good share Orissa has just gone through a revenue settlement, which has brought in, I think, a net increase of about 13 lakhs of rupees to the Government revenue This increase in the Government revenue means a net loss of 13 lakhs of income to the people of Orissa I think, Sir, it is the duty of a Government—and especially of a Government presided over by a kind and sympathetic Statesman such as we have—to help the people to recover from the effects of this Revenue settlement Fortunately for us the East Coast Railway has just been opened up, but we are very badly in need of feeder roads I should say that the construction of feeder roads comes within the first legitimate duties of District Boards and within the legitimate purposes of the District Board Funds The Secretary of State's Despatch, which has often been quoted, contains these words 'It is, above all things, requisite that the benefits to be derived from the rates should be brought home to their doors, that these benefits should be palpably direct and immediate' Feeder roads fulfil these conditions to the letter They bring to the door of the cultivator the benefits of the railway, they open up facilities for finding a better market, and he gets at once better value for his agricultural produce

There is no mistaking these benefits So the construction of feeder roads is the real and legitimate province of District Board Funds, and I hope that the Hon'ble the Financial Secretary will see his way to give due consideration to the needs of Orissa I believe I have made out a fairly strong case, and I hope my appeal will meet with a sympathetic response from him

"The Hon'ble Member on my right, who has just sat down, wished to know why a higher amount has been put down in the present Budget by way of discount to stamp vendors? I am not at all anxious to know the reason, for it has been my experience always that the Hon'ble the Financial Secretary holds the purse strings very tight, and it is not at all likely that the outside public will get a pice out of him unless there is absolute necessity proved to the satisfaction of the Government I do not grudge the stamp vendors the more liberal rate of discount they are to get, but I would beg to suggest that these stamp vendors should be saddled with additional responsibility in the matter of the returns which they have to submit about the sold stamps The practice in times gone by was very different from what it is now In former times stamp vendors were required to mention in those returns the names of each person to whom a stamp was sold, but that practice has been dropped Who is responsible for the alteration of the practice I do not know, but with all due deference to him, I must say that his experience—if he has any experience at all—of Courts of Justice must have been very limited Of course this is not the place to go in to the subject as to what sort of returns they should submit, but I believe that it is not impossible, after consulting people who have experience in this matter, to devise a form of return which will effectively minimise, if not entirely suppress, the fraudulent practice which exists now in the sale of stamps As things are at present, a stamp vendor may keep back some stamps and show in the returns that they were sold These stamps are utilised afterwards when dishonest people wish to manufacture fraudulent documents, for, as the name of the purchaser is not mentioned in the return, parties have every facility to ante date the fraudulent documents engrossed on them If it is the wish of the Government to find out the most effective check against this particular kind of fraud, it can be done by consulting Judicial Officers who preside over Small Cause Courts in the Mufussal, where most of these fraudulent unregistered documents are produced, and the Pleaders who practise in those Courts

"I have to make one suggestion with regard to copies of English records The copyists who are employed in the Mufussal Courts and who supply copies of English records to parties generally come from a class who have a very limited knowledge of English They are paid by piece work, and in their eagerness to increase their income and earn a little more, they do their work in a slipshod and irresponsible manner No doubt these copies are compared before they are given to the suitors, but this comparing does not at all improve matters, because the persons who are entrusted with the comparing of the records are no better than the copyists themselves A copyist has sometimes to copy a document of which he cannot read several words in the original When he does not know the word he tries to copy the word by making certain curves, strokes and lines just as he sees them before him in the original document, such a document, whatever may be its interest to one interested in the deciphering of hieroglyphics, is certainly of no use to the suitor who pays for it

"In this connection I beg to make a suggestion, and that is, to introduce typewriting machines into our Courts of Law to meet and remedy the present state of things This would attract a better class of men—better educated men—and the result would be better and more satisfactory to those who pay for these copies, because it is impossible with the typewriter to imitate the curves, strokes and lines of words one cannot read The difficulty is only with regard to the furnishing of these machines, and as to who should pay for them My answer is that it should be the business of the copyists themselves to find these machines I suppose that there would be many men who would consider it well worth their while to invest Rs 200 or Rs 300 in a typewriter in order to get an income of from Rs 40 to 50 a month, for we know that men deposit Rs 500 by way of security to get posts as bill collecting sircars on salaries of from Rs 20 to Rs 25 a month In whatever way this difficulty is met, it is but justice to the suitors that they

should have good copies which are useful The Copyists' Department gives a revenue to Government, and I think it is the duty of Government to see that the man who pays for a copy gets good value for his money

"There is another matter to which I wish to refer It is very grieving to find that while the Budget before us makes provision for increase of pay to several classes of officers employed under Government in judicial work from High Court Judges to Subordinate Judicial Officers, there is no reference whatever made to one class of officers, most of whom are employed now as District Judges The class of officers I am alluding to are our Statutory Civil Servants, who are paid now under the two thirds' rule The Government of India appointed the Public Service Commission, who were directed to conduct a careful enquiry into the grievances, disabilities and disadvantages of the native members of the Statutory Civil Service The finding of that Commission was that the difference of pay which existed had caused dissatisfaction, and they pronounced the distinction to be unjustifiable and invidious and not based upon any clear principle The adjustment of their pay on the two-thirds' rule was pronounced by the Commission to be quite arbitrary and indefensible on general grounds These expressions of the Commission are to be found in pages 65 to 86 of their report It requires no prophet to see or to know that the Statutory Service was abolished soon after the Public Service Commission sent in their report But though the system was abolished, it left in the hands of Government those who had been made Statutory Civilians before the system was abolished The Statute which created the service has no provision in it to justify the two thirds' rule of pay The rules framed by the Government of India on the subject under the Statute contained no provision whatever which justifies this distinction in their pay I know there is an executive order in the Civil Service Regulations, and to that order this two thirds' rule is to be traced, but even that rule or executive order, which I understand is a Code for the guidance of the Accounts Department, has not been held invariable, for the present Maharaja of Darbhanga was allowed full pay The remarks made by the Public Service Commission pronouncing the thing as indefensible on general grounds and stigmatising it as invidious and arbitrary, no doubt left the Government in an embarrassed position, and Government, therefore, decided to abolish the service altogether It is perhaps too late in the day to discuss whether that difficulty could not have been got over by some other means, if it was necessary to get rid of something which had been pronounced invidious and indefensible by the Public Service Commission whether it would not have been infinitely better to remove the thing condemned and to abolish only the two thirds' rule, and not the Statutory Civil Service? It was only the distinction of pay that the Commission had characterised as invidious and indefensible, and their remarks did not apply to the Service itself Some of these Statutory Civil Servants have been removed by the cruel hand of death, and others have been removed by the merciful pension rules I suppose there are very few of them left in the hands of Government, and it would not certainly cost the Government very much to allow the few who are left the full pay of the positions they hold It is no doubt wise and worthy of the British Government to abolish a system which has been pronounced indefensible and invidious on general grounds, but I do not think it is wise to leave living monuments to testify to its existence in the past I suppose the small expenditure that the Government might have to incur in allowing the remaining Statutory Civil Servants their full pay might be regarded as an expenditure on whitewash to obliterate a system which has been pronounced by the Public Service Commission as indefensible In the Budget there is no special provision with regard to this two thirds' rule It has always been the practice to budget the full pay of these officers, and afterwards the difference between that and the two thirds is shown as a saving effected In the present Budget the same course has no doubt been followed, so that there is provision in the Budget already for the full pay of these Statutory Civilians, and from the fact that there is no reference to this class of Government servants, though there is reference to other classes of Judicial Officers, I was inclined to think that this was due simply to an oversight I hope that it is an oversight, and that it is not intended this year to pay the members of the Statutory Civil Service at the two thirds' rate

"I do not think I have many more remarks to offer, but I feel that I should not resume my seat without thanking the Government for the sympathetic manner in which they have done their duty, though that duty was a most difficult one, with regard to checking the Plague I have had the honour of knowing personally what deep interest the Statesman presiding over the Government takes in this matter, and how sympathetically he has been collecting facts and figures and anxiously devising means to check the plague without in any way encroaching upon the existing customs or doing anything which will show that the Government was not in full sympathy with the people"

The Hon'ble MAULVI SYED MAHOMED said —"I beg to congratulate Your Honour's Government on the financial prosperity in Bengal, which has enabled the Government to apply the surplus to some of the long deferred necessary projects The Members of the Provincial Civil Service are especially grateful to Government for the provision made for improving their position and prospects They would have been more pleased could the Government find its way to a larger grant for redressing the grievances of such a large and deserving body of public servants I however, venture to express an earnest hope on their behalf that the Government of India will be pleased to sanction the scheme of the Hon'ble Mr Baker On behalf of the Muhammadan community, I respectfully invite the attention of Government to the urgency of providing additional space for Muhammadan cemeteries Probably it is not generally known that the extension of public Muhammadan burial ground in Calcutta has been a standing need for many years Then again, the reservation of a plot for burying mutilated dead bodies from hospitals in the new Muhammadan burial ground known as *Gori Ghari an*, is most disagreeable to the Muhammadans"

The Hon'ble BABU BOIKANTA NATH SEN said —"Bearing in mind that economy is the guiding star of the Hon'ble the Financial Secretary in the preparation of the Budget, I shall try to observe economy in respect of time for the discussion of the Financial Statement, and, therefore, I shall endeavour to take up as little time as I can, and will try to hurry on, only noticing the points I have to raise in connection with the Budget We are quite in harmony with regard to the prosperity shown in the Budget, and I have also, with my hon'ble friends, to congratulate the Government and the Hon'ble the Financial Secretary for this Prosperity Budget It has been observed by critics outside this Chamber that—'What is the use of discussing over the Budget The Budget has been very carefully made by the Government and the Hon'ble Member on whom rests the financial responsibility and has been passed by the Government of India, and it therefore needs no discussion So what is the use of discussing it?' but, Sir, I understand from the invitation of the Hon'ble the Financial Secretary, and from certain remarks which fell from Your Honour on a previous occasion when the discussion on the Budget took place, that you recognised the importance of the remarks that were made by us, and that they did not go unnoticed or were not appreciated Emboldened by these observations from Your Honour and the invitation of the Hon'ble the Financial Secretary, I conclude that it is not the wish or expectation of the Government that the discussion should be simply eulogistic, but that it should also be critical With these remarks I proceed to notice some of the items on the receipt side as well as on the expenditure side of the Budget In noticing the different items on the receipt side I do not in the least intend to suggest that wherever there is an increase on the estimated revenue that the Government should not do so What I mean to say is, that while revenue is sought to be developed, it should be developed with proper precautions And in doing so there are certain dangerous lines which should be avoided With regard to Land Revenue, the Provincial Rates and Excise, I beg to observe that the increase which is expected from settlements in respect of Land Revenue and the increase which is expected from Provincial Rates by re valuation verge upon dangerous ground, and they offer inducements to encourage the officers concerned to make up the figure Practical men who live in the Mufassal know about this, and they know what hardship arises from over valuation Objections are taken, no

doubt, but they are generally discarded I am glad to say that I have not a similar remark to make about the Assessed Taxes

"With regard to Excise, my hon'ble and learned friend to my left has gone over the ground, and I will only offer one or two more remarks with regard to the consumption and cheapening of prices From the Resolution of Government on the report of the Excise Administration in the Lower Provinces for 1899 1900, which has been quoted by my hon'ble and learned friend, it appears that the consumption of distillery spirits is 44,000 and odd gallons in excess of the previous year, and in which there was also an increase, the difference in the percentage being 8 It is true that with regard to outstills, the increase is not given, but it must be presumed from the increase in the revenue that there must have been a larger consumption With regard to cheapening, my hon'ble friend has told all I wished to say, except one point, namely, that in certain districts the still head duty has been reduced from Rs 5 and Rs 3 12 to Rs 4 and Rs 3, respectively This reduction of still head duty has apparently been made on the supposition that the higher rate stimulates illicit practices, but the correctness of this we fail to see If there are illicit practices or illicit outstills going on, it is not on account of the higher rate In the Mufassil, Sir there is very little systematic illicit distillation going on, but what there is only takes place during *pujas* in some places and during marriages, and this illicit distillation is not on account of a higher still-head duty With regard to the Excise Revenue, I will only submit one more remark, namely, that I fully endorse what has fallen from my hon'ble and learned friend on my left that local option ought to be introduced in some selected areas as an experiment

"I will now take up the subject of revenue from Assessed Taxes I do not like my hon'ble friend on my left, wish to enquire why a reduced amount has been shown? I am confining myself simply to the ordinary collections The ordinary collections shown in the Budget are Rs 44,80,000, and against that is the remark that the actuals of ten months in 1900 1901 show a lower tendency In my humble opinion the Government has acted wisely in having adopted this figure The explanation given is, no doubt, a good one, but it may be explained in another way I would explain it in this way In the light of the working of the Income Tax Act in a few districts in the past two years, the Government has now become convinced that there was over assessment and wrong assessment, and in consequence of that assessed amounts could not be realised, and they had to be remitted in consideration of their being first considered doubtful Then coercive measures were taken and warrants issued, but the amounts could not be realised These facts have forced themselves upon Government in the last two years I am referring to the Resolution on the Report of the Board of Revenue on the financial results of the administration of the Income Tax Department for 1899 1900 From this it would appear that in the past two years the net revenue was increased a little more than 5 per cent, and in the fourth paragraph of this Resolution, it is stated that the outstanding balance, including penalties costs and arrears, was Rs 2,06,635 against Rs 1,81,239 in the year 1898 99 Of this balance, Rs 48 751 are reported to be good and under realisation, Rs 1,04,755 doubtful and Rs 53,129 bad and irrecoverable Now in 1897 98 there were 5,753 distress warrants issued, and in 1898 99 there were 5,725 This clearly goes to show that there was an increase in the Assessed Taxes It has been found that these amounts could not be realised, and therefore there has been a lower tendency and so far the Hon'ble the Financial Secretary is quite correct, but it is, as we understand in consequence of over assessment and wrong assessment Therefore, we have to congratulate the Government on this reduced future figure In this connection, I would ask whether it may not be considered that the time has arrived for raising the taxable minimum from Rs 500 to Rs 1,000? In the majority of these cases in which coercive measures have to be taken, the persons against whom these steps have to be taken are people whose income is between Rs 500 and Rs 1,000 The revenue that will be lost by exempting this class will, I submit, be more than compensated by the contentment of the people, and the department will be saved all the worry that these coercive measures entail on the Officers of Government

"I now come to the expenditure side, and propose first to deal with the question of improving the Judicial and Executive Branches of the Provincial Service I have to express the thanks of the members of both branches of the Provincial Service, and of the general public, as well as of my humble self, who made certain enquiries some time ago in this Council for the improvement of the status of those officers I find myself in this delicate position that, while thanking the Government for what it has done, still, for the sake of justice, I feel it my duty to submit that a larger amount ought to have been sanctioned There are several other heads to which I shall have occasion to refer hereafter from which certain amounts might have been taken and appropriated for this purpose In connection with this matter, Sir, I do not think it would be an improper diversion if I were to refer to the questions put by me in July last, and which were repeated by my friend to my right the other day, and he was told that the questions were argumentative

"We do not know what scheme has been prepared with reference to this, and the question of the separation of the Judicial and Executive functions is also under the consideration of the Government We do not know whether that has been taken into consideration We are in the dark, and not being in full possession of the facts, it is impossible for us to offer any remarks or observations What I beg to enquire is that, now that the Government has decided on a fair consideration of their claims believing that a case has been made out, what is the Government going to do? We thankfully accept what the Government proposes to do, but feel bound to point out that the amount is not sufficient I find that the division of the amount between the two branches does not commend itself to me for its fairness or adequacy Out of Rs 1,40,000, only Rs 40 000 goes for the improvement of the Munsifs and Subordinate Judges, and Rs 1 00,000 goes for the improvement of the other branch Rightly or wrongly, Sir, we are under the impression that the Executive Branch is the more favoured, being under the direct control of the Government If half and half had been given, there would have been the principle of equality, but as it is, I fail to see how Rs 40,000 has been considered sufficient for improving the status of Munsifs and Subordinate Judges I suppose that Rs 40,000 includes establishment I had occasion to remark on the last occasion, and do so again, that these Munsifs in the mufassil are not sufficiently manned, they have got four clerks for the ordinary 3,000 suits and 3,000 execution cases, and for four clerks or muharrirs to write out the records of 6,000 cases is practically impossible, and they have to work at home At least one more clerk ought to be given to these officers If this is considered necessary by Your Honour's Government, a larger amount would be required than Rs 40,000 And we do not know how this sum of Rs 40,000 is intended to be appropriated I venture to submit that the amount is not sufficient for the two branches, and the distribution is also, in my humble opinion, not fair

"Next I take up the amount which has been kept separate for distribution to District Boards I have no doubt that the District Boards will feel grateful for the help Government is going to give, and it is very gratifying to find that Government is not going to hoard up its money but is prepared to spend it for the better administration of the Province, and the Boards, which form a subordinate branch of the administration, will be helped to do this The Government has come to see that the District Boards have not got sufficient funds at their disposal to meet their demands which are growing day by day, while their funds are inelastic, and Government has generously and spontaneously come forward to help them to enable them to do many things that they have been unable to do unaided It has been recently remarked in some of the newspapers that the Government has misappropriated a large sum from the Road Cess by not making sufficient allowance for the collection of the Public Works Cess I deprecate such remarks, at a time while Government is going to place certain sums of money in the hands of District Boards, and from the way Government is going to place this money in their hands this year, I think that it will not be for the last time and that this generosity will be repeated I hope that the Government has been convinced that District Boards are not in a position to carry out the works placed in their

hands, and that so long as it can afford Government will go on from year to year placing certain funds at the disposal of the District Boards I hope this is not the first and last time that this is going to be done In view of the present situation I deprecate the idea of making any reflection upon the Government based upon misappropriation, or its liability to refund what is said to have been misappropriated We ought to receive the grant with thankfulness, and hope that the Government will continue to shew its liberality to District Boards in future

"In connection with this matter I humbly beg to make one suggestion We find that in this year's Budget under the head 'Registration' a sum of Rs 7,70,000 is shown on the receipt side and Rs 4,57,000 appears on the expenditure side so that there is a net profit of Rs 3,13,000 We have been told by the Hon'ble the Financial Secretary the other day in placing the Budget before the Council that the Government, under existing circumstances, having regard to the system of Provincial Finance is not in a position to make a permanent assignment or transfer of revenue to anybody and that it is not possible to make such a transfer, but I humbly suggest that Your Honour will be pleased to find some means to make over the Registration Department to the District Boards, and, if it be not possible, to continue to make over to the District Boards the amounts which are derived from registration of deeds as net profit Their funds at present are inelastic, but if this Department be made over to them, they will have an elastic fund at their disposal My countrymen do not object so much to indirect taxation as they dislike direct taxation Where the rules at present permit, fees in connection with the Registration operation might be increased by them in case of necessity I would, therefore, humbly suggest that for the future the Government may if the General Funds permit, make over a sufficient amount to the District Boards, or at least the profit derived through the Registration Department may be made over to them

"From the statement before us I do not find out how this amount set apart for District Boards will be distributed among the different District Boards, whether the 10 per cent of the Public Works Cess will be taken as a criterion and the distribution made according to that to all the District Boards, or whether the amount will be placed in the hands of the Divisional Commissioner and he be left to distribute it according to the necessity of each District Board? This does not appear from the Budget and no doubt the Hon'ble the Financial Secretary will enlighten us on that point I think it will be better if the principle of distribution be settled by the Government than leave the matter to the sweet will of the Divisional Commissioners

"Now I come to the head 'Jails' I find that, as compared with last year the Budget shows a net profit of Rs 3,00,000 from Jails I submit that it is by means of prison labour that the Government was enabled to show this result, and that it would be a gracious act as well as an act of charity if the Government were to allow prisoners a more generous diet and give them a little fish, especially to Bengalis who consider it a necessary item of food This will not cost very much and could easily be spared out of the profits made out of Jails

"I have to submit a few remarks under the head 'Police' The Budget does not show sufficient attempt to give effect to the recommendations of the Police Commission These recommendations were, no doubt, not accepted in their entirety by the then Lieutenant Governor, but I hope Your Honour will be able to re consider the matter and take into consideration the claims of persons entitled to be appointed Inspectors If Police reform is to be made, and if this reform is to be carried out, the recommendations of the Police Commission ought to be accepted in connection with the appointment of Inspectors

"With regard to 'Civil Works' in charge of the Public Works Department, I find that in this year's Budget Rs 2,50 000 has been provided for the completion of the Presidency General Hospital With regard to Darjeeling, there is a provision of Rs 2,50,000, an addition to the provision made last year of Rs 4,00,000 I have been informed that a larger amount has been spent With regard to the General Hospital two lakhs were provided last year, so that altogether Rs 4,50,000 are to be given for this institution, for

Darjeeling about 10 lakhs, and for the acquisition of land for the extension of the High Court, 2½ lakhs I think a little economy might have been practised in respect of these items, and the mone avtd might have been provided for the purpose of improving the status of the two branches of the Provincial Service or to give to the District Boards I venture to hope that something like this may be done when the estimates are revis d hereafter

"In connection with ivil Works, I find provision has been made for Munsifs' residence, and I think certain provisions will also have to be made on account of the structural arrangements for giving effect to the recent Govern ment Circular prohibiting the admission of outsiders to public offices I hope it will not be a div ision if I say a word or two here with regard to the exclusion of the public from public o ices The idea of the Government is to minimise corruption, bu practically it will make the offices more corrupt Where formerly one rupee was spent f r improper purposes, two rupees will in future have to be spent Information which people can get by getting access into these offices will now to a certain extent be stopped, as these offices become inaccessible, and th person who has access and can get information will get more money than if access had been giv n to the public This will practically be the result With regard to buildings occupied by Munsifs, larger buildings will have to be constructed, if strict observance of the Government Circular be in isted upon

"I rejoice to find a grant of Rs 1,21,000 for burial grounds for Chris tians and Muhammadans, and I would have rejoiced still more if the Govern ment had also made so ne prov sio i for burning ghats for Hindus Your Honour knows—and every one in this ouncil knows—that the Hindus remove their dead to the sacred Ganges to be burned there Riparian Municipalities find the greatest difficulty in the cremation of bodies, especially in the rainy season Only one or two have been able to construct burning ghâts at their own expense, and therefore it would have been a matter for rejoicing if Government had taken in hand the construction of burning ghâts or granted money to these municipalities for this purpose

"The only other matter on which I desire to offer a few remarks is with re ference to the Nadia Rivers The Government have evidently been pleased to take, under the advice of its re ponsible officers, an optimistic view of the con dition of the river That the river is becoming worse and worse day by day cannot be doubted The reports of the Executive Engineer, Nadia Local Rivers Division, will bear me out in that shoals are increasing in number, and I need not refer to the disastrous effect which this condition of the river will bring about hereafter I will content myself by making a very modest and humble suggestion Last year the que tions I put, I indulged in the hope that some steps might be taken for the improvement of the river Dredging was spoken of to meet the cas , but, under existing circumstances, it is evident that work by a dredger cannot soon be expected I have therefore to suggest that the *durma* mats and bamboos used at present for the maintenance of the channel ought to be discarded with the march of progress in the 20th century better appliances ought to be substituted I mean that these mats should be dis placed and corrugated iron sheets used in their stead These mats do their work for seven days only I have tried to ascertain these facts from men actually engaged in the work I have gathered these facts from them, and I have come to the conclusion that these mats remain intact for about two days, then holes come, and the water goes through, consequently there is a diminution in the current then the mats commence to rot and the water is also polluted Now, Sir, I think that if *sal* posts be used instead of bamboos, which have risen in price, and corrugated iron sheets in place of mats in the long run there will be no excess of expenditure, for it is hoped that these corrugated iron sheets will last for at least ten years, so that what has to be spent in ten years in mats and bamboos will more than suffice for corrugated iron sheets and *sal* posts In making this suggestion I am not drawing upon my imagination or upon pure speculation, but I stand on experience In the Gundak the experiment has actually been made, and there, where the depth used to be only two feet, it is now never less than five feet throughout the year I therefore venture to suggest that this experiment be made If the Government

are pleased to consider that this is too expensive a matter, which I humbly beg to submit it is not, in view of the fact that it will last for ten years, I humbly ask that a trial be given to this plan As these shoals extend along a length about a hundred miles, experiment might be made at one shoal, viz, the one just at the entrance and if found successful, it might be extended to other shoals

"I do not think I would be justified in taking up any more time of the Council, and I will therefore resume my seat after repeating my thanks to the Council and to the Government for the allotments made to the District Boards and for the improvement of the condition of the members of the Provincial Service, and for the liberal spirit which the Government has shown in making provisions for objects of charity and public utility"

The Hon'ble THE PRESIDENT said —"The Council will now adjourn for half an hour"

The Hon'ble MR ELWORTHY said —"The Budget, which the Hon'ble Mr Baker has laid before us, is one on which we may offer him our congratulations The expenditure has barely exceeded the estimate, and the revenue is better by 13 lakhs of rupees A large surplus is therefore available for special provisions for various useful and desirable purposes, provided that nothing unforeseen occurs to divert its application

"We may be thankful that Bengal has been so prosperous, while some of the other Provinces have suffered so severely Bengal has escaped the famine, which has afflicted other parts of India, and has shown much practical sympathy with the sufferers I believe that I am correct in saying that in Bengal there is prosperity everywhere, and that the population has largely increased since the last Census We are told in the opening page of the Budget that the condition of the people has improved, and reasons are given in support of the fact It must be satisfactory to you, Sir, that, during your term as Lieutenant Governor, the Province under your rule has thriven so well

"With reference to the Budget itself, I, as a Commercial Member, representing one section of the community, feel that I am a layman with regard to the various branches of the administration, and I consider that it would be ambitious on my part to traverse ground of which I have had no experience and on which I cannot offer an authoritative opinion But, Sir, there are some subjects on which I should like to make a few remarks, which I offer for your consideration

"You have a surplus, which it is proposed to appropriate in the manner already explained to the Council by the Hon'ble the Financial Secretary The objects for which these grants are made are undoubtedly laudable, some of them have been shelved in past years, waiting for the opportunity now offered The expenditure on Special Provisions amounts to Rs 21,30,000, and there is an increase over the Budget for the current year of Rs 24,20,000, which will reduce the opening balance for next year to 20 lakhs, the minimum allowed by the Government of India In making these grants, are we leaving sufficient reserve against contingencies?

"There are two contingencies of a serious nature, – Plague and Famine With regard to famine, the Budget states that there is to be no allotment, as no expenditure is anticipated We sincerely hope that no expenditure will be necessary, we, however, appear to be living in phenomenal times, and our rainfall during the past six months has been scant Plague and famine are frequent companions

"A considerable sum has been granted for plague, but it seems doubtful if sufficient has been reserved for dealing with the awful scourge that has increased in all directions throughout this thickly populated Province, and which must surely call for heavier expenditure I may be taking a view of the situation unduly pessimistic, but the outlook of the future is certainly very serious Judging from the history of plague in past ages, there is certainty on one point that it comes with the intention of running its course, and that it defies the skill of the Physician Sanitation, ventilation, disinfection and cleanliness appear to be the only means of checking its advance and of mitigating its

virulence How long it will remain with us it would be venturesome to predict We hope that, as Bombay shows signs of recovery after five years, it may not stay with us the half century, the term of its duration, when it overran Europe some centuries ago History tells us, and the present conditions confirm the fact, that its ravages are greatest in cities and towns in which the population is most congested, and in which sanitation is most deficient and difficult In Bengal there are many large towns to which these conditions apply, and for which the help of Government is necessary in the matter of eradication and prevention of the disease

"Probably, Sir, you may be able to re assure us as to the measures being taken throughout the Province, and to allay the feeling of anxiety that exists in the public mind The patience of the people under this affliction has been remarkable There has been no scare, and the plague rules have worked smoothly This must be most satisfactory to you, Sir, to whom this condition of affairs is mainly due In Calcutta itself plague has increased year by year in the same manner as it did when it attacked Bombay We have had a larger death rate in successive years, and we are naturally anxious regarding the next two years

"With regard to Calcutta, we find that the congested districts are those which give the heaviest death rate, and that the people who do the cleansing are those who are most susceptible to the disease Our main hope is in sanitation, ventilation, the cleansing of the City generally, and the opening out of the congested districts It is impossible that much can be done immediately in opening out the congested districts, but we shall be glad if cleansing and disinfection be continued vigorously, so that we may do all that is possible to eradicate the disease or at all events to check the increase that we may expect during the next two years

"I do not intend to adversely criticise the work of the Municipality on the question of the sanitation of the City I feel that the Chairman and his Executive have struggled and done well in the face of extraordinary difficulties My wish is to assist rather than criticise in the face of the danger which is awful to contemplate in so prosperous a province and so prosperous a city The measures that are necessary for prevention and eradication add considerably to the duties of the Chairman, which already tax him to an inordinate degree. At a juncture of this nature, we hope that he will ask for and obtain all the help that he needs Some help the Commissioners can give, but it will be to a limited extent for they are as a rule busy men Real help is possible from the people themselves

"With reference to the opening out of the city of Calcutta, we have waited some time for a statement of the intentions of Government regarding the scheme which is in course of preparation We hope that we are within measurable distance of the details of a scheme so much needed in a City so overcrowded We see no allotment either in the Imperial or in the Provincial Budget, and we fear that it has been hung up for an indefinite period We should have been glad to take a considerable sum from the surplus at our disposal to help us in the improvement of the City

"There is another subject to which I wish to refer is the large sales of Jail Manufactures At the last Budget debate, the Hon'ble Babu Surendranath Banerjee called attention to the steady increase of sales, and expressed the hope that these manufactures do not stand in competition with private enterprise The Hon'ble the Chief Secretary, in reply, mentioned that the standing orders of Government are very clear on this point, and that, as far as possible, manufactures in Jails are in no way allowed to compete with private enterprise This subject is one of great importance to the Association which I represent—The Trades' Association of Calcutta The lot of the trader is not always a happy one, he has risks and anxieties which are little known to the outside world, and his business is often heavily charged with taxes—Local, Provincial and Imperial, —and he is the one of all classes to which the charitable subscription book is most frequently presented It is not always that he can show a balance sheet so cheerful as the Budget which we are discussing to day We look therefore with some suspicion on Jail Manufactures as interfering with our trading, and our suspicions are not always without foundation

During the past year, we have referred to Government with regard to the outturn of the Benares Jail, which had become nothing less than a trading establishment, with its price list and its newspaper advertisements"

The Hon'ble THE PRESIDENT said —"Which Jail did the Hon'ble Member mention?"

The Hon'ble MR ELWORTHY continued —"The Benares Jail I was about to observe, Sir, that the list of manufactures in this Jail wound up as follows —

'Almost any article may be manufactured in the jail, orders for the manufacture of articles will be registered and photographs sent'

"There is praiseworthy temptation among the Jail authorities to extend the scope of the outturn with a view to show profitable working, and there is temptation to go beyond the rules laid down by Government I hope that I may be permitted to ask the Hon'ble the Financial Secretary for a list of the articles manufactured in the Jails of Bengal I note that the sales have been very heavy during the past four years, and that very heavy payments have recently been made for raw material The sales in 1898 99 were Rs. 9,78,000, in 1899 1900 Rs 11,40,000, the revised estimate for 1900 1901 is Rs 13,35,000, and the Budget for 1901 1902 is Rs 11,11,000

"There is one more subject to which I wish to refer,—Education, and its technical, commercial and industrial sides The Budget for this year gives 34 lakhs to Education, or 4 lakhs more than the revised estimate of 1900 1901 Provision is made for additional Instructors for the Sibpur College, for Industrial and Commercial Education, and for the improvement of the condition of teachers in Primary Schools I am not sufficiently versed in Educational questions to tread on the very delicate ground of high education or of the joys and sorrows of the educational mill, which turns out more graduates than can find salaries adequate to the time and money spent by them Their ambitions are naturally high, the market suffers from over production but for technical and commercial education, there is, we hope, an outlet commanding fair remuneration I do not wish in any way to depreciate the advantages of Education The mechanic himself is none the worse at his trade for being educated But I contend that we shall do well to fit our young men for employment other than that of clerks and school masters

"I am pleased to see a further grant to the Sibpur Engineering College I have had some experience of the College It turns out men who have been taught to work with their hands as well as their brains, a teaching that has made them manly, thoughtful and self reliant, qualities useful to them in their course through life The men who have come to me as Electrical Engineers have at once fallen into their positions ready to act on their own initiative, and to take upon themselves responsibility They have been most valuable and have commanded a higher rate of pay than often falls to the graduate of the University

"In the discussion on the Budget Statement of 1900 1901, the Hon'ble Raja Ranjit Sinha Bahadur of Nashipur remarked that 'there are technical schools scattered here and there in some parts of Bengal, but for want of sufficient funds they are lying useless' He further remarked —'The indigenous arts and industries of our country are gradually become extinct and they cannot flourish, especially in this country, without State encouragement' The disappearance of the indigenous arts and industries, which we all deplore, is unavoidable, it is a question of cost, supply and demand It is subject to the inexorable commercial law, to which we have to bow

"In commercial life we have to trim our manufactures to the changes of the age, and to be ever ready to seize the advantages offered by cheaper production by means of machinery If indigenous manufactures have died their natural death, others have taken their places Indian labour has conformed to the demands of the times, and it has succeeded, for where hundreds were employed in hand labour, thousands are now earning good wages in mills and factories, where modern appliances are used Personally I am in sympathy with technical and primary education which will enable them to hold their

own in the industries of the times against the markets of the world It is gratifying to see that this subject is receiving the serious attention of Your Honour's Government, as evidenced by the increased grant to technical education, and I feel sure that I echo the sentiments of all who have the good of the country at heart, when I venture to express a hope that more may be done in the future in this direction, even though it may be at the expense of other branches of education

"This, Sir, is all that I have to say with regard to the Budget I congratulate Your Honour and the Hon'ble the Financial Secretary on the prosperity which you have been able to show us"

The Hon'ble THE PRESIDENT said —"The Hon'ble Member told me that he proposed to ask me some question about plague in Calcutta I may inform him that I caused to be prepared a chart showing the progress of the plague in Calcutta during the last two years, which I think may interest Hon'ble Members of Council This I shall make more clear by the remarks upon the matter at the close of the debate"

The Hon'ble MR SUTHERLAND said —"There is a proverb, Sir, that what you do not see, does not hurt you, but on looking through the Budget Statement it is borne in on me that what I do not see hurts me considerably Like the Hon'ble Mr Elworthy, I cannot see, Sir, that any provision has been made in the Budget to improve the congested areas of this great City It is impossible not to give expression to a feeling of disappointment, if not of despair, that the recommendations of the Special Committee appointed by the Chamber of Commerce in 1897 to report to the Building Commission, though the subject of much discussion, have not yet in 1901 taken practical shape How accurately the fears of that Committee have been fulfilled we all know only too well In the concluding paragraph of their report, they said —'While recognising the difficulties in the carrying out of suggested improvements owing to the question of finance, we desire to urge our conviction that it is of paramount necessity to open up the specially congested districts in Calcutta by intersecting them by means of broad roadways We consider this one of the necessary precautions to be taken against such a disease as plague, the introduction of which into Calcutta is quite possible' Sir, the possible has become the actual, and as my hon'ble colleague on my right has pointed out, plague in Calcutta was bad last year, it is immeasurably worse this year who can say to what extent it will have grown in 1902? The improvement of the city is so great and costly a task, one of such importance not only to us citizens but to the whole Province and to India generally, that the Municipality with its limited resources can but touch the fringe of the subject The Chairman of the St Andrew's Dinner last November pointed out that in his opinion the improvement of the Metropolis was not a Municipal question, but one of Imperial importance, demanding the early attention of Government I need hardly say I am in entire agreement with that gentleman's views From all one hears, I gather that the Government of India is not unmindful of its duties to the Metropolis in this respect, and we can only fervently hope that before another year comes round, a scheme for opening out the congested areas of the town will be devised, and substantial grants from the Provincial and Imperial Funds be set aside to carry out this urgently needed work While on this subject, I may, I hope, Sir, be allowed to draw attention to a matter mentioned at that national gathering of Calcutta Scotsmen, to which I have just referred, and which is intimately connected with the question of the improvement of the town The expansion of this City on sanitary lines is one of the problems which must be faced sooner or later, and, in my opinion, it is our business to look ahead and grapple with the problem sooner rather than later Calcutta at present is like a person with only one lung, namely, the *maidan*, and we shall, I think, be conducing to her welfare and longevity if we provide her in accordance with Nature's precedent with a second lung in the shape of a *maidan* at Tollyganj This can to day be done comparatively cheaply by acquiring the land, which is at present available, while, if we delay, the natural expansion of the town may encroach on this free space to such an extent that the successful execution of such a scheme

would entail an enormously greater financial outlay I observe in the Budget that this year's grant towards the re construction of the Presidency General Hospital amounts to 2½ lakhs of rupees Assuming, in accordance with the arrangements previously come to, that the Government of India has, during the last five years, annually contributed for this purpose a sum equal to that expended by the Government of Bengal, it would appear that the greater part of the estimated cost of 22 lakhs to rebuild the hospital has already been expended It would be interesting to know exactly how much of the original programme has been completed, and at what cost, as compared with the estimate given in the report by Mr Risley's Committee in 1896 I believe that only a part of the original scheme has been carried out, for instance, the paying patients' ward—an important part of the scheme has not been commenced The old building now occupied by this class of patients appears unsuitable We much need, I think, a well planned building equipped with modern appliances, and I trust this work may soon be carried out Perhaps the Government would be pleased to state how this matter now stands In connection with the question of the re construction of the General Hospital, I would express the hope that Government may see their way to adopt the recommendations of the Committee appointed to enquire into the working of the Port Trust in reference to the Hospital Port Dues, and that the balance of Rs 1,14,000 now at credit of this fund may be disposed of in the manner recommended by that Committee

"While, Sir, like Oliver Twist, other Hon'ble Members and I do not hesitate unblushingly to ask for more, I feel that in congratulating the Government on a prosperous Budget, I cannot do less than record our thanks for the liberal grants which have been made to a number of deserving objects"

The Hon'ble MR ALCAR said —"I desire to place myself in line with my colleagues in congratulating the Government and the Hon'ble the Financial Secretary, on the prosperity Budget which has been presented on this occasion And I desire also to congratulate the Council on the instructive speeches that have been delivered to day When we have representatives from the Mufussal with a grasp of their subjects and a thorough knowledge of detail, I venture to say it cannot but be an advantage to a Government that approaches the consideration of a subject with an open mind, to hear their views clearly stated I was content to leave the discussion on the part of the non official Members to them, and it had not been my intention to address this Council at all And I would not have done so now, if it had not been for the speeches by the two Hon'ble Members who immediately preceded me They have touched upon a subject, which, my hon'ble friend Mr Baker will know, is one that I have paid considerable attention to, and that is, the opening up of the congested districts of this City I think that the appeal made is a very reasonable one, and although I have nothing new to add to what they have said, I desire to emphasise their appeal I am glad that the Hon'ble Member for the Chamber of Commerce, who so modestly veiled the identity of the Chairman of the St Andrew's Dinner, has come forward and publicly recognised that the Imperial Government must be looked to to make good the defects in the sanitation in this City with regard to congested districts It is not a very long time ago that the Municipality were being blamed for not undertaking these great works, and our protests, that it was quite impossible to spare funds from the current expenses of the Administration, were scouted We were told that we ought to do that which we were required to do I am glad that that question has been settled once and for all by the Building Commission that was appointed some years ago In the finding of that Commission it is now made clear that the Municipality cannot afford to spend the money that is required to open out the congested districts of Calcutta, and that if anything has to be done, we have to appeal to the paternal Government to do so, and I trust, Sir, now that there has been this direct appeal made by the Hon'ble Members who represent the Trades Association and the Chamber of Commerce in this Council, that the matter will not escape observation

"The Hon'ble the Financial Secretary will call to mind, I daresay, how, so far back as in May 1898, the Corporation passed a Resolution on my

motion, appealing to the Government to take the subject in hand, and even if they were not prepared at that time to provide funds, at all events, not to delay in taking such steps and initiating such measures that everything might be ready when the time came that funds could be provided I trust, Sir, even if there has been no provision made in the Budget, that there will be no delay in taking up the consideration of this subject There must necessarily be a long enquiry and a careful consideration before money can be expended, and in this connection, I believe I am not out of order, since the question after all centres round the financial position of this City and of this Province, if I refer to certain projects which have been in the minds of some of us with regard to the opening up of some of these congested districts There has been a suggestion made in the Public Press for the Corporation to intervene to pass a Resolution to support a Syndicate who are interested in pressing for their scheme for a Central Railway Station in Calcutta, and one of the grounds put forward is the opening out of an insanitary and congested district if their scheme is carried into effect Now, the Municipality is represented on the Committee who have been, or are considering the whole subject, and we therefore are precluded from moving in the matter as has been suggested I would add further that, while I have the fullest sympathy with those who advocate the opening out of the congested districts, I cannot agree that to support the scheme put forward by the Syndicate will effect that end, I do not say in the best, but even in an effective and desirable way The idea, as I understand it, is to bring in a high level railway running across the heart of Calcutta, east and west, and a seductive and enticing name has been foreshadowed for an avenue which forms a part of the Syndicate's scheme

"However reluctant I may be to negative any scheme that will reject such an acceptable name as is meditated being given to a street, I cannot say that I am in favour of any project which will cut off the breezes from the northern part of the town as a high level railway very appreciably would do We have often considered the necessity of opening up congested districts in Calcutta, and one of my main contentions always has been the necessity of letting in the southerly breezes to the northern parts of the town There are certain alignments that seem to be patent and seem to be readymade for our adoption We cannot disregard the financial aspect of any scheme that may be undertaken, and this I submit brings me in order in connection with the Financial Statement if I refer to the excessive cost, and, as I strongly contend, the unwise policy of the widening of existing thoroughfares in which there are old established frontages, the compensation for which would cost very heavy sums

"In connection with the Victoria Memorial I have heard it bruited that it will be an excellent subject to take up if Bentinck Street and Chitpore Road were widened I desire to protest against any such policy, because I think the project would entail a waste of money I quote, on the other hand, the experience I have gained with regard to the street now called Hurrish Chunder Mukerjee's Street Instead of knocking our heads against the frontage of Russa Road, we have taken that road in the rear, we have opened out a highly insanitary quarter, provided new building sites, improved the sanitation of the quarter, and given facilities for traffic at a cost that will be trifling as compared with the expenditure that the widening of Russa Road, would have entailed Among the proposals for improving the southern part of the town that of an alignment starting from the end of Free School Street to be projected to meet Halliday Street, and another, that of an alignment starting from Loudon Street projected to meet Amherst Street, which I fear but few of the European community know, although it is one of the finest streets in Calcutta Either of these projects would in opening out congested districts and improving the locality, and in every way, be to the benefit of the general public

"There are a great many other projects such as this all ready to hand, which have, I believe, been discussed in the Building Committee I appeal to Government to take this matter in hand, and appoint a Committee to decide on alignments and devise a scheme how the money is to be obtained, and then I trust that we shall have another prosperity Budget next year, when we may perhaps hope for a provision for the projects that

would then be matured There are many points which are connected with the subject and many new roads required, which I have considered I do not, however, desire to dwell upon the matter further here I have had no idea of bringing forward anything new on the subject, but it has been my desire solely to support and emphasise the appeal that my friends the Hon'ble Mr Ilworthy and the Hon'ble Mr Sutherland have made, and I think I have said enough on the present occasion to have carried out my desires"

The Hon'ble BABU SURENDRANATH BANERJI said —"I desire to associate with reforer myself thoroughly with the expressions of congratulation which have been so freely offered to my hon'ble friend in charge of the Financial Department I desire to congratulate him on the form as well as on the substance of the Budget, on its contents which are varied as well as on its form which is remarkable for its simplicity I note a remarkable improvement in the form of the Budget I find items included in the Budget which never found a place in any of the preceding Budgets with which I am acquainted I note this especially with regard to the details of expenditure under the heads of 'Police,' 'Medical' and 'Educational' My hon ble friend rightly gauged public sentiment in this matter, and my hon'ble friend has endeavoured to gratify public curiosity Seeing that these extra items have been given in this Budget, it is obvious that they can be given, and if they can be given in this Budget, there is no reason why they should not be given in future, and I hope the improvement that has been noticed will be carried out on an ampler scale in the years to come, so that our Budget may year by year be assimilated to the Bombay Budget in the fulness of its contents and the amplitude of its details I am in strong sympathy with the observation of my hon ble friend on my right, which has been supported by my hon'ble friend opposite that Calcutta needs opening up But Calcutta has not the funds necessary for this purpose You remember, Sir, when the agitation was set on foot against the old Corporation, the first thing the Government did was to appoint a Building Commission to enquire into the sanitary condition of the town and to suggest improvements That Commission was presided over by Mr Justice Trevelyan, and it made a distinct recommendation, quoting the authority of Lord Wellesley, an authority which I think the Council will respect, and that recommendation was that the opening up of Calcutta was more or less an Imperial duty and the Commission also found that the maximum of taxation had already been imposed upon the citizens of Calcutta, and that it was impossible to lay any further taxes upon them, and that, therefore, if the congested areas of Calcutta were to be opened up, and if justice were to be done to the sanitary needs of Calcutta in this respect, the Provincial Government or, at any rate, the Imperial Government must come to the rescue What has become of the recommendations of the Commission in this respect? They have practically been shelved, and in the meantime the old constitution of the Corporation has been changed It was expected at the time that with the change of the constitution of the Corporation, the millenium would come, but the millenium has not come Calcutta remains as insanitary now under the new Corporation as Calcutta was under the old Corporation The ravages of the plague form a mournful feature in the annals of the City Has the new Corporation been able to grapple with this terrible disease? The new Corporation is as powerless as the old Corporation was The only thing that could be done, and the only thing that ought to have been done, was the taking up of those measures of sanitation which the Building Commission had recommended But this was not done It was a question of ways and means It was easy enough to upset the old constitution a much more difficult matter to find the means to open up the congested areas I am sorry to have to make these remarks, but I am bound to make them in the discharge of my duty to my constituents

"In the Budget we find that the revised estimates show an improvement of Rs 17,00,000 This is a matter upon which we have reasons to congratulate ourselves, but when we look into the matter closely, I think those reasons disappear, because the improvement, or at any rate a good part of it is due to the improvement under the head of Excise I will not repeat the arguments

which have already been laid before the Council, but it seems to me that there are in the very epigramatic remarks of my friend noted on the receipt side of the Budget, a distinct indication that the policy of the Govern ment in this matter has been a policy which is in violation of the repeated declarations of the official exponents of the Government I take the policy of Government to be, in regard to Excise matters, the maximum of revenue with the minimum of consumption But what do I find on reading the notes which my hon'ble friend the Financial Secretary has appended to the Excise Budget? I find that the consumption of *ganja* has been stimulated by a fall in the retail price of that commodity, which means that the increase in the revenue under the head of *ganja* has been due to increased consumption Here, therefore, we have a maximum of revenue with a maximum of con sumption, not a maximum of revenue with a minimum of consumption

" Again, we find on the receipt side of Excise, an increase in the sale of opium My friend ascribes it to the increased prosperity of the people Much more likely that the people would drown their sorrows amid the fumes of opium than seek enjoyment in a drug which benumbs all powers of enjoyment I have never heard of a man taking to opium in the height of his prosperity I have heard of people taking to opium as an antidote to disease or misfortunes I think, Sir, that this increase is due to the suppression of smuggling Here the Administration is fairly entitled to a credit which it does not take I believe the Police Force has acquired new efficiency in this respect, and to that we must ascribe this increase of revenue

"Then coming to the Budget Estimates for this year, we find that the Government is in a position to make a grant of Rs 24,00,000 to meet items of useful expenditure I desire to congratulate the Government on the judg ment and discrimination with which these items have been selected, subject to certain reservations, to which I shall presently call attention

"In the first place I thoroughly associate myself with the expression of gratitude which has been re echoed in this hall for the allotment made for the purpose of remedying the status of the Provincial Service in both its branches There was a block in promotion so far as Deputy Magistrates were concerned, and there was a block so far as the promotion of Munsifs and Subordi nate Judges was concerned There were serious grievances affecting those services They were brought to the notice of Government, partly through the representation of Associations, and partly through the interpellations of Hon ble Members My friend was pleased to describe these representations as being highly coloured Whether highly coloured or representing the truth, at any rate, they embody the views which have been largely accepted by the Govern ment A sum of Rs 1,40,000 has been assigned to improve the Provincial Service in both its branches The details of that scheme are not before us, and it seems to me to be premature to discuss the matter without knowing anything about it I hope that this expenditure is not limited to Rs 1,40,000, I hope, whatever the full total may be, it may be equitably apportioned between the two branches of the service I will not try to apportion their griev ances that is a matter for the Government, and I am convinced that a Government which has gone so far, will take into consideration their respective grievances and claims, and do what the justice of the case demands In this connection I may be permitted to make an appeal to the Hon'ble the Chief Secretary in connection with the Subordinate Executive Service, and that is, when the new scheme is given effect to, the Government will make the promotions from the Subordinate Executive Service to the higher Provin cial Service In filling up vacancies in the Provincial Service, will he be so good as to take into consideration the claims of Sub Deputy Collectors, especially of those who have got in through the open door of examination I hope my hon'ble friend will take their case into consideration There is really little or no difference in point of education and social position between Sub Deputy and Deputy Collectors They receive the same education and pass the same examinations, only they are lower down the list

"I desire also to associate myself with the congratulations which have been offered to Government for the grant of Rs 4,80,000 to the District Boards I

entirely sympathise with the observations of my friend to the right It is no use repeating *ad naus am* the charge of misappropriation which has been levelled against the Government It is ancient history, and it is no use harp ng upon old themes We ought to accept the situation and offer our gratitude to a Government which shows its sympathy in such a practical and liberal form Here may I be permitted to express the hope that a portion of the Rs 4,80,000 may be ear marked for the purpose of water supple My hon'ble friend to my left has called attention to the matter and has clearly shown by figures read before the Council that the instructions of Government with regard to water supply issued to District Boards have not been carried out Therefore it seems to me incumbent on the Government to apportion a part of this money to this purpose I would ask my hon'ble friend to give me some explanation with regard to a statement which appeared in one of the morning papers It is said that in the Patna Division there are District Engineers who draw high salaries from Rs 800 to Rs 1,000, and that these salaries are drawn in defiance of the orders of Government Is there any justification for these District Engineers drawing higher salaries than what District Engineers get elsewhere ?

" Then I find that a sum amounting to over Rs 2,00,000 is to be given as contribution to Local Boards for plague expenditure I rejoice that the Government has accepted that view of the matter Again and again from our places in this House we have sought to impress upon the Government the truth that plague charges are Provincial rather than Local Popular views are always sound, for they are based upon considerations of justice and equity, and to us it is a matter of great satisfaction to find that Your Honour's Government has been converted to our views in this matter I trust that the local bodies will now be relieved for good from all responsibility so far as plague expenditure is concerned

" Then coming to the head of Police I find that Rs 29,000 are devoted to the purpose of substituting Sub Inspectors as investigating officers in place of Head constables This is in pursuance of the recommendations of the Police Committee It seems to me that you will never improve the Police by giving a rupee or two as increase to the pay of the Constable, or by slightly improving the position of the Head constable What is wanted is that the Police establishment should be relieved of the mass of clerical work they have to do, that they should be confined to the real duties which belong to their profession, that they should not be let loose to prey upon the people on every occasion, that the higher ranks of the Police should be filled by men who are trained experts in the art of detection, and, further, that a detective branch should be organised in the Mufassal for the detection of crime, which the ordinary Police are not able to cope with It is a matter of great satisfaction to find that this is one of Lord Curzon's twelve questions I find that a sum of Rs 17,00,000 has been devoted in the Imperial Budget to the improvement of the Police Twelve out of these seventeen lakhs will be spent upon reforming the Burma Frontier Police, and only Rs 5,00,000 will, therefore, be available for the improvement of the Civil Police in India Our share will be something like Rs 75,000 Will my hon'ble friend enlighten me whether that sum has been included in our Budget on the receipt side? We all feel greatly interested in the reformation of the Police The Government is popular or unpopular, according to the conduct of the Police The policeman is the representative of the Government before the villager He is the embodiment of the authority and the justice of the Government The importance of the reform of the Police cannot therefore be exaggerated If you take up this question and deal with it in a statesmanlike manner, you will confer an incalculable boon upon the public These are the principal items of expenditure on which Rs 24,00,000 are to be spent

" I ask the Council now to look at the other side of the shield I have remarked that upon the whole the items of expenditure upon which it is proposed to spend 24 lakhs of rupees have been selected with discrimination and judgment, but it seems to me that there are certain items which ought to have had a preferential claim I would refer in the first place to the increment of pay to the ministerial servants of Government Again and again this question has been discussed here, but the discussion as yet has led to no

practical result The Bengal Government appointed a Salaries Commission That Commission made certain recommendations, but these recommendations have been pigeon holed They have been the subject of oratorical displays round this table, but they have not passed beyond that stage Yet the fact remains that men of opposite schools, differing from each other by all those differences which separate public men from one another, are agreed upon one matter, namely, that the ministerial servants of Government ought to receive an increase of pay My hon'ble friend himself spoke in terms of great sympathy of this proposal I am going to quote his speech in which he gave expression to this view in the strongest terms on the occasion of the Budget Debate in 1899 Speaking on the 15th April 1899, my hon'ble friend said —'I should like, however, to state my personal views on this question I may say that my sympathies are entirely in favour of giving to this class of officers an increase to the extent proposed by Mr Risley'

"After that expression of opinion one would expect that my hon'ble friend's sympathy would be embodied in a practical form, and would result in some tangible relief being given to this deserving class of servants of Government But nothing of the sort has been done Possibly it may be done yet May I be permitted to express the hope that my hon'ble friend will find himself in a position to give an assurance on behalf of Government that this will be done at the earliest opportunity when the Government is in a position to do it? We will not quarrel with the past, we will let bygones be bygones, and if my hon'ble friend is in a position to give this assurance, he may be sure that it will be hailed with gratitude by a large class of public servants whose devotion to Government is unquestioned

"Then there is another matter which, I think ought to have been included in the expenditure of Rs 24,00,000—I mean residences for Munsifs If it is included, it must be under the head of 'Civil Works' If it is included, I should like to know the amount of the grant, because it was understood that Government was practically pledged to provide Munsifs in outlying stations with suitable accommodation I should like to know what has been done in this connection

'There is one other matter to which I should like to call attention in this connection Your Honour's Government sent out Dr Rogers in 1899 to make a sanitary inspection of the Riparian Municipalities, which at that time were suffering from malarious fever Dr Rogers, I understand, made a most exhaustive enquiry, and he came to the conclusion that what was required was not so much drainage as pure water Whether it is pure water or drainage is immaterial, but the fact remains that pure water is an unmixed blessing, and it would be a great benefit to these Municipalities, if they were given an assurance that a loan would be given to them to enable them to carry out a scheme for water supply

"There is one other matter to which I should like to draw attention, namely, the salaries of menial servants There has been a rise, in many places, in the price of provisions, and our menial servants are entitled to certain allowances in case of a general rise Will my hon'ble friend consider the propriety of granting them these allowances? I do not know whether the increase is sufficiently high to entitle these men to the increased allowances provided under the Government Regulations, but I am perfectly certain my hon'ble friend will be good enough to interpret the Regulations in a liberal spirit

"In looking over this Budget, Sir, one thing that strikes one is the steady increase of expenditure, and the question which I have to ask my hon'ble friend is whether our revenue keeps pace with expenditure—whether during the period covered by this Budget, revenue has increased in the same proportion as expenditure? There must be increase of expenditure in connection with a progressive Government, and the great thing is to see that expenditure does not outstrip revenue

"Having made these remarks, I should like to call attention to certain details of which I gave notice to my hon'ble friend In the first place, under the head 'Land Revenue' page 19—'Charges of Administration'—'Subdivisional Establishment' there is a steady increase in expenditure The actuals of 1899 1900 were Rs 1,13,935, the revised estimate for 1900 1901 was

Rs 1,16,000, and the budget estimate is Rs 1,21,000 Then under Settlement Operations' there is also a large increase Then under 'Stamp there is an increase under 'Presidency Executive Establishment,' and the explanation given is one with which I am not satisfied I will read the explanation —

'Increase in revised due to the adjustment under this head of rewards in Stamp cases paid in Calcutta formerly adjusted under 7 —Excise Further increase in Budget due to a provision for rent of a godown at the Port Commissioners jetty and for purchase of trestles'

"That cannot account for the increase in the budget estimate for Executive Establishment What I wish to point out is that the establishment shows a steady increase, and it seems to me that this is a matter which should be carefully looked into

"Then I come to page 21, 'Customs,' 'Collector's Establishment,' 'Appraising Establishment,' and 'Preventive Establishment' There is an increase in all of them, and no explanation is given

"Then, again, we have 'Contingencies' I am always afraid of contingencies Contingencies cover a multitude of sins, and unless details are given it is difficult to control the expenditure

"There is also an increase under 'Assessed Taxes' and 'Calcutta Establishment,' which is not explained

"Then, again, under 'Forests,' it will be seen that there is a steady increase of expenditure The grand total of expenditure for 1899 1900 is Rs 5,45,205, for 1900 1901 is Rs 5,80 000, and for 1901 1902 is Rs 6,90 000 That is to say, there is an increase of Rs 1,10,000 over the expenditure of last year Now if we go back to the receipt side, page 14, we find that the grand totals are Rs 12,00,000 revised, and Rs 11,75,000 budget estimate, and, if you put these figures together, it comes to this—that on your revenue side there is a loss of Rs 25,000 and your expenditure has increased by Rs 1,10,000, so that the total loss comes up to Rs 1,35,000

"Then I find an increase under 'Salaries' due to the creation of three additional appointments in the Imperial and Provincial Services and the re organisation of office establishment Might I enquire how many of these appointments have been given to pure natives?

"Then I come to 'Contingencies,' page 22, under 'Law and Justice' The figures are Rs 1,32,799 actuals, Rs 1,35,000 revised, and Rs 1,54,335 budget estimate There is no explanation There is a very large increase, and it is a steady increase What do these contingencies include?

"Then I come to the 'Subdivisional Establishment' Looking at these figures it strikes me that there is a mistake somewhere If you look at pages 9 and 23, under the head of Subdivisional Establishment, you will find certain figures there, and these figures agree There appears to be a double entry You will find the same figures reproduced and in precisely the same order

"Then under 'Jails'—'Superintendence,' there is no explanation, also under 'Contingency'

"Then we come to the head of 'Police' No explanation is given in respect of the figures for 'Training of Sub Inspectors,' but this is a very small matter The establishment also shows a steady increase

"Then, again, we have 'Contingencies'—Rs 1,79,595 actuals, Rs 1,70,000 revised, and Rs 2,79,400 budget estimate Again there is no explanation

"Then we come to page 25, 'Marine Establishment' Again there is an increase, for which there is no explanation

"All the increases that I have called attention to particularly the increases in establishment, are matters which should be looked carefully into

"Then, Sir, we come to 'Education' Under the head of 'Miscellaneous' we find that the actuals are Rs 99,181, revised Rs 57,000, and budget estimate Rs 2,02,000 I do not know what this means and how to account for this enormous increase in the budget estimate

"Then, Sir, I come to the Civil Engineering College, Sibpur, Howrah The actuals are Rs 1,67,580, the revised estimates are Rs 1,70,000, and the budget estimates are Rs 2,17,000 In this connection if your Honour will permit me, I desire to call attention to the Resolution of Government, which was issued,

I think, in the last number of the *Calcutta Gazette* It seems to me that, under the terms of that Resolution, the Engineering Department of the College will be deprived of half the number of appointments at present open to that Department, and these will be given to the Apprentices I should not object to a procedure of this kind at all, if adequate compensation were given to the students preparing themselves in the Engineering Department by improving their prospects to the higher Engineering Service Half the appointments previously open to them are withdrawn without any compensation whatever This is the first complaint I have to make If, Sir, it is said that the Engineers are wanting in practical knowledge, then my reply is that the remedy is in the hands of the Government Give them the practical training to fit them for the practical work they will have to do Why withdraw these appointments from them? They will be most willing to undergo this practical training, and with the superior education they have, their practical training will enable them to beat the Apprentices

"Now my second complaint is this I find that these appointments are to be given, in their case, according to the results of the final examination, but in the case of the Apprentices, the Appointments will not depend upon the results of the examination, but upon selection In the one case you apply a rigid test, and in the other case you enforce the reign of discretion I should not have the least objection if all the appointments were given away after a rigid test, without the suspicion of any personal feeling of any kind coming into play

"Then, Sir, I find under clause 3 of the Resolution that those who pass the B E examination, and who, after a course of practical training in the Sibpur College, are entitled to a certificate as Engineer, will no longer be permitted, as a rule, to pass through this practical course I think that is practically settled by the terms of the Resolution, which I beg your Honour's permission to read —

'III —The probable number of vacancies in the Upper Subordinate Establishment of the Bengal Public Works Department will be estimated annually The number of graduates of the Calcutta University (being students from the Sibpur College), who will be placed on their "practical course" in the Public Works Department, will be one more than the number so estimated, but not less than four in any case

They will be taken in the order in which they stand in the University list, and if a mining student is among the number, he will be allowed to reckon his mining course as equivalent to the "practical course"'

Hitherto all B E's were entitled to go through a course of training in the Practical Course Without that training, they could not obtain a certificate in Engineering The number of B E's entitled to receive a training in the Practical Course being now limited, every B E will be denied the opportunity of obtaining for himself a certificate as Engineer After a Resolution like this, I should like to know how many graduates will join the Engineering Department of the Sibpur College I have most carefully thought over the matter, and I have consulted gentlemen who ought to know something about it, and I have no hesitation in saying that a Resolution like this will be considered disastrous by the University graduates and under graduates, who are now receiving their training in this College I placed myself in communication with the Hon'ble Mr Buckley He said that he considered my objections as being perfectly just I hope my hon'ble friend will see his way to modify the Resolution I beg of him to do so in the interests of technical education, which he has so much at heart The Government is most anxious to promote technical education, but with a Resolution like this, I feel perfectly certain few will be tempted to join the Sibpur College, the only technical and scientific institution that we have on this side of India I would ask your Honour to do what the justice of the case demands, with due regard to the great interests which are committed to your care

"I do not know that I need take up much more of your time There are just one or two other matters to which I would call attention

"Under the head of 'Medical' I find the figures for 'District Medical Establishment' showing an increase

"I feel an interest in the Albert Victor Leper Asylum I am one of the Governors, but I am one of the sleeping Governors We do not hold any

meetings at all I remember once one was called at 7 o'clock in the morning, when most people are in bed, and I was not able to attend As a Governor, I naturally feel an interest in this Institution I find a note here showing that the decrease in the revised estimates is due to smaller payments for the diet of patients and clothing I should like to have some information on this matter

"Then, Sir, we find at page 27 a sum of Rs 5,000 for a grant to the Tea Association, and another sum of Rs 7,500 for a grant to the Indigo Association I should like to know, Sir, why these grants were made, and is there any precedent for such grants?

"Then we find Rs 5,000 for special Commissions of Enquiry You budgeted Rs 5,000 last year, and spent only Rs 1,000 on special Commissions of Enquiry Are any Commissions of Enquiry expected this year? If not, the grant seems to me to be excessive

"Then I come to the Midnapore Canals The expenditure in the Budget Estimates shows a great increase over the Revised Estimates, but no explanation is given for this increase

"As regards the Orissa Canals, we find a progressive expenditure, while the revenue is steadily declining

"Lastly, I have to call attention to the note at page 30—Increase for the introduction of the Local Self Government Act in the Chota Nagpur Sub division with effect from the 1st April, 1900, Will my hon'ble friend be good enough to inform us whether the elective principle will be recognised in Chota Nagpur He would lay the people of Chota Nagpur under a great obligation if he would consent to the gradual introduction of the elective principle into selected areas in that Division

"I do not know that I have anything more to add I desire once again to congratulate my hon'ble friend, the Financial Secretary, and to express, on my own behalf and on behalf of those whom I have the honour to represent our gratitude to your Honour's Government for the sympathetic attitude of the Government, as expressed in the various provisions made in the Budget of this year"

The Hon'ble MR BUCKLEY said —"I propose only to deal with those matters referred to in the discussion to day which concern the department under my charge, leaving the other points raised to be met by my colleagues I shall first of all reply to the remarks made by the Hon ble Babu Boikanta Nath Sen with reference to the revenue from the Sone Canals but in this matter, as in others to which Hon'ble Members have referred, if they had only looked a little further back than the actual figures presented to them in this Budget, they would have seen for themselves that the facts are not as they think them to be The Hon'ble Babu Boikanta Nath Sen was under the impression that we might expect an increase of revenue from the Sone Canals we do expect it, and we have been expecting it and getting it for many years past If the Hon'ble Member will refer to the published reports on these works, he will see that, generally speaking, there has been a large increase in the revenue That increase has not been suffering any general diminution, but in this particular year, the revenue from this Canal has been a little lower than that of last year, but it is far higher than the average of a few years ago The chief reason is, that this year the *rabi* season has been unfavourable for Canal irrigation

"Then as regards Agriculture Receipts to which the Hon ble Babu Boikanta Nath Sen referred The difference is small The revenue collected is mainly for grass cutting and petty items

"The Hon ble Mr Das referred to the question of Feeder Roads, and he was apparently under the impression that the expenditure on Feeder Roads was going to be curtailed, or that they were the concern only of the District Boards I desire to inform him that Government has for some years past taken a great deal of interest in Feeder Roads, and has been endeavouring to extend them as much as possible, and expenditure has been incurred every year from Provincial Revenues

"The Hon'ble Babu Boikanta Nath Sen, in referring to the Nadia Rivers, spoke of a matter which is in itself extremely interesting I can assure him

that the suggestion he made will be duly considered I may say, however that I do not myself think that the substitution of corrugated iron for mats will be successful, but I will discuss the matter with the local officers I have, Sir, a book before me which refers to the works carried out on the Misappi, and there they work with mats in a manner which is not dissimilar to that we employ on the Nadia rivers The Hon'ble Member thought, however, that mats were a failure but they effect their purpose in a very remarkable way His main contention was, that these rivers were deteriorating and that measures should be taken to stop this I should be delighted if that could be done It was only some few weeks ago that I came across an old book, written some twenty or thirty years ago where they complained of precisely the same deterioration of these rivers as we hear of to day The fact is, I believe, that these rivers are sometimes better and sometimes worse I do not think they are materially worse now than they were twenty years ago It has frequently been said that the large decrease in revenue is due to the deterioration of these rivers I have here the figures for the last ten years, and I find a steady and large decrease in the receipts from both It is now about half what it was ten years ago

"Now, whatever the reason for this decrease is, it is certainly not entirely due to the deterioration of the rivers They may have deteriorated to some extent, but not to anything like the extent which the figures might be taken to indicate The hon'ble gentleman suggested that we should dredge the rivers and clear out the shoals in that way If he studies the reports of the last few years, he will see how extremely difficult the task would be, and what a large sum would be required In this book before me it is stated that a certain year large quantities of sand came in from the Ganges and choked up the river to a length of five and a half miles Now, if we spend three lakhs in buying a dredger, and Rs 60,000 or Rs 70,000 a year in working it we may be able to deal with such quantities of sand Roughly speaking we would have to double the expenditure, and even then it is doubtful if we could keep the channels clear I do not think that the revenue brought in from the rivers would justify such a large expenditure

"Now I will turn to the remarks of the Hon'ble Babu Surendranath Banerjee, who referred to the Orissa Canals receipts showing a steady tendency to decrease There is no doubt that the Orissa Canals are not altogether a successful undertaking and the receipts do show a steady tendency to decrease They are not like the Sone Canals which I mentioned just now But the decrease is not largely in water rates the decrease is in navigation mainly The opening of the Railway is the cause of the decrease, which, I am afraid, will be permanent These Canals however serve a useful purpose in insuring the country against a failure of the rice crop The hon'ble gentleman is aware of the fact that in the year 1866, I do not know how many thousands of people died in Orissa from want of food The Orissa Canal has entirely prevented that The Government of India in a recent Resolution has emphasised the necessity for the construction of works which may prevent famines, and these Canals fulfil that purpose With one exception, the water rates charged on these Canals for rice are the lowest in India, and I believe that the people do get, even in ordinary years, the full value of their expenditure in increased outturn of crops.

"The Hon'ble Member refered to the apparent increase in the expenditure on Marine Establishment Here again if the Hon'ble Member will be good enough to look further back than the figures before him, he will see that the facts are different from what he thinks they are It is true that the revised estimate for last year was Rs 73,000, and the budget for the present year Rs 89,000, but the fact is, that the revised estimate for last year is abnormally small This is explained almost entirely by the fact that in that year several of the more highly paid officers were on furlough and officers on lower salaries were acting for them

"The Hon'ble Babu Surendranath Banerjee also referred to the Midnapore Canal, and appeared to think that there was an increase in expenditure This is not the case The fact is exactly the contrary, but it so happens that the revised estimate of last year is the lowest on record, so the figure for this year shows an apparent increase, but it is largely below the average The navigation

receipts of the Canal are now being largely reduced by the Railway The steamers which run on the canals, are being taken off, and we are reducing the expenditure as much as possible

"The next point I will take up is in connection with the remarks of the Hon'ble Babu Surendranath Banerjee, who said he was under the impression that District Engineers were being paid in excess of the maximum fixed, in defiance of the orders of Government The Hon'ble Member is partly right, but he is not right when he says that it is in defiance of the orders of Government There are seven gentlemen who get more than Rs 600 per month, which was laid down in a Resolution as the maximum pay of District Engineers Of these seven, two are Bengali gentlemen, and the other five are Europeans But in each case, the salary has the sanction of Government The higher salaries are mainly paid in the districts in the Patna Division, and the reason is, that it is considered desirable there to have men of higher qualifications than are necessary elsewhere One of the grievances of the District Engineers is, that they cannot obtain promotion District Boards not infrequently press for increases of salary for the District Engineers, and this increase has to be resisted when the salary given is sufficient for the work to be done But the officers as they gain in experience and efficiency, naturally and rightly, expect an increase in salary This should be attainable by transfer to more responsible charges But, for some reason or another, District Boards are generally unwilling to take Engineers from other districts, and this fact hampers the promotion of deserving men The Hon'ble Member may have noticed a Notification which is now appearing in the Gazette, which has, among other objects, the intention of improving the prospects of promotion of District Engineers

"The Hon'ble Babu Surendranath Banerjee spoke on a matter to which, I gather, he attaches a great deal of importance, namely, the Resolution which appeared in last Wednesday's Gazette about the Sibpur College The hon'ble gentleman appears to object strongly to the orders of Government, and he criticises those orders severely I think the criticisms which he has made are perfectly fair and reasonable, and I am very glad to have an opportunity of answering them The first objection the Hon'ble Member makes is, that this Resolution is a reduction of the privileges of the 'Engineer' students Now, this is true, but it is necessary, in the first place for me to explain that the Sibpur College is divided into two branches, the 'Engineer' Branch, which is primarily intended to qualify men to be Assistant Engineers in the Public Works Department, and for similar appointments on the Railways and elsewhere, and the 'Apprentice' Branch, which is under a different organisation the object being to train students to fill positions as Upper Subordinates in the Public Works Department, Foremen Mechanics, and Clerks of Works, &c The candidates who enter the 'Engineer' Department are guaranteed one appointment in the Engineering Establishment of the Public Works Department in Bengal, and that appointment is still reserved for them under this Resolution But these 'Engineer' students have hitherto not only obtained this prize appointment, but they have also almost exclusively obtained the appointments in the Upper Subordinate Establishment for which they were not specifically trained, while the students in the 'Apprentice' Department of Sibpur, who are trained as Upper Subordinates, have not for many years obtained any appointment in the Public Works Department in Bengal I believe this is without precedent in any Engineering College in India The position which the Government has taken up in this matter is very strongly supported by the speech made by the Hon'ble Mr Elworthy, who spoke in the highest terms of the men he has obtained from the 'Apprentice' Department of Sibpur These men do, as Mr Elworthy said get employment with the Commercial community in Calcutta, and the general employment elsewhere, and, in a good number of cases, the salary they get is higher than that of the Upper Subordinate Establishment of the Public Works Department, but these men were absolutely debarred, until this Resolution came out, from ever entering the Upper Subordinate Establishment I cannot think that the Hon'ble Member would think it right that any students from the Sibpur College should be placed under such distinct disadvantages, and that they

should not have any avenue of approach whatever to the Public Works Department I do not deny that the 'Engineer' Department will suffer to some extent by this change, but it is one which it is perfectly fair to make on behalf of men who have proved themselves by the positions they actually attain to be eminently fitted for the Upper Subordinate Establishment I have a list of 10 or 12 of these apprentices who are now getting Rs 100, Rs 150, and even Rs 250 a month in private employ in Calcutta, yet, if I understand the Hon'ble gentleman rightly, he would not even give them a chance of getting Rs 80 a month under Government Bengal has, undoubtedly, favoured the 'Engineer' class of Sibpur most unduly by allowing them to monopolise all the appointments in the Bengal Public Works Department It was expected that these 'Engineer' students would obtain higher appointments as Civil Engineers in India, but a large number have consented to take the lower appointments as Upper Subordinates In other Provinces, appointments in the Upper Subordinate Establishment are largely given to men who have been trained, as they are trained in the 'Apprentice' Department of Sibpur, as practical workers and this is the class which has for years been almost entirely excluded in Bengal

"The Hon'ble Member made the objection that the selection of the men for appointments in the Government service is not to be by examination This is not quite correct What the Resolution intends to do is this Half the men will be taken from the 'Engineer' Department by the results of the University Examinations, and His Honour the Lieutenant Governor will nominate the other half from the the 'Apprentice' Department without reference to the results of any examination The total number of men who will thus be placed on their 'Practical Course' will be double the probable number of the appointments in the following year At the end of the period of the Practical Course they will be subject to an examination, and those who succeed in that final examination will get the appointments in the Public Works Department It is quite true that the apprentices who are to be put on the Practical Course will be nominated by His Honour the Lieutenant Governor, and not taken after passing an examination This has been deliberately done for a good reason, and is in accordance with precedent The same thing is done in the Subordinate Executive Service A certain number of men are taken for that service by examination only and His Honour selects others, who have passed a qualifying examination, at his pleasure

"Then the Hon'ble Member said that the result of this Resolution will be that some of the 'Engineer' students who pass will not be able to get their Assistant Engineer's certificate because they will not pass through the 'Practical Course' Here he is under a misapprehension Last year and the year before last we were unable to take all the 'Engineer students on the 'Practical Course,' but they went through that course in the Sibpur Workshop And they did get their certificates as Assistant Engineers The intention is to do the same with future students, provided that the number who require to go through this course after passing the University Examination is a moderate one

"The Hon'ble Member concluded by saying that this Resolution would be absolutely disastrous to University students I doubt if that will be the effect. These students still have the prize appointment of Assistant Engineer in the Bengal Public Works Department reserved for them and an equal chance of half the appointments in the Upper Subordinate Establishment they hold a far higher certificate for theoretical knowledge than is granted to those who pass through the Apprentice' Department It is true that the number of appointments as Upper Subordinates to which they can attain is reduced, but if they do not attain to these and if they really are superior to the students who pass through the 'Apprentice' Department of Sibpur, we know that business men, like the Hon'ble Mr Ilworthy, will be able to give them work—carrying, in many cases, higher salaries than they can obtain in the Upper Subordinate Establishment of the Public Works Department"

The Hon'ble MR SLACKE said —"I shall endeavour, Sir to give as fully yet as briefly as possible the information which certain Hon'ble Members have asked

for with regard to various matters connected with the departments under my charge Under the head 'Land Revenue,' the Hon'ble Mr Bose wished to know the reason why in the Revised Estimate of last year there was an increase of Rs 3,00,000 in the revenue Rather more than half of that sum is due to the recoveries of Settlement Survey Charges being better than was anticipated, about half a lakh more than was expected was realised in Government Estates, and a large increase, representing about one lakh in value, occurred in the applications for grants of waste land The same figures that are given in the Revised Budget are given in the Budget for the present year, and so far as the increase relates to settlement, I understand that the Hon'ble Babu Boikanta Nath Sen considers that we are treading on dangerous ground I cannot share the views of the Hon'ble Member, for very great care is taken by Collectors in preparing the estimates of the increases that may be anticipated Nor do I share with him his fear that officers will violate their consciences by endeavouring, in spite of their own convictions to the contrary, to work up to the estimated increase

"The same Hon'ble Member considered that the recent order prescribing certain arrangements for the purpose of keeping out the public from office rooms would create a greater evil than the one it was intended to stop To this I would say that presumably those who may experience any such evil will bring it to the notice of the Deputy Collectors in charge of the department concerned, who will no doubt promptly put an end to it

"With reference to the Hon'ble Mr Das's suggestion about typewriters, the matter will receive attention, and may I hope be carried into effect Enquiries have been made with reference to the increase under the head of 'Settlements' Part of the amount is due to additional expenditure required with reference to operations commenced before this year, and part to the inception of certain new settlements to be undertaken this year

"Under the head of 'Forest,' the Hon'ble Babu Surendranath Banerjee took exception to the increase in salaries He first of all referred to the fact that the expenditure is out stripping the revenue and showed that we should lose Rs 1,35,000 yearly As you are aware, Sir, for a long number of years the Forest Department has been suffering from want of a proper and adequate staff, and the matter has been represented to the Government of India who have assented to an increase, not only in the superior staff, but also in the ministerial establishment The increase in the superior staff entails a cost of Rs 22,800 in the present year, and consists of one Deputy Conservator of the first grade, one of the 3rd grade, and an Assistant Conservator, 2nd grade, the last being transferred to the Provincial Service The increase in the clerical establishment consists of 14 clerks, whose salaries this year amount to Rs 9,700 With reference to the question regarding sub head 'V' the case is this—Government being unable last year to give an extra allotment for certain necessary works, the cost had to be met by postponing the carying out of some items for which money had been provided These items are included in this year's Budget, and in addition a sum of Rs 19,000 is assigned as part payment for the construction of a new steam launch to replace the *Cygnet*, and Rs 2,000 to purchase an elephant that is required

"The Hon'ble Babu Surendranath Banerjee desired to know how many natives there were in the Provincial Service The answer is two

"I share with the Hon'ble Mr Bose the hope that the revenue under sub head 'III' will show an increase

"I will now deal with the remarks relating to Education First of all the Hon'ble Mr Bose desired to know whether any increase had been made in any of the normal grants for Education, and, considering that the recent orders changing the system of vernacular education necessitated an increase in the grant, asked if such had been provided To both these questions the answer is in the negative

"In speaking of Female Education, the Hon'ble Member asked that a greater stimulus might be given by increasing the grant, and, referring to certain remarks of the Director of Public Instruction, asked whether any provision had been made in the Budget for their furtherance? No such provision has been made, while as to the need of a greater stimulus, the Hon'ble Member

h is apparently forgotten that at present double rates are offered for each girl that succeeds at primary examinations Much has been said with reference to the very small proportion of girls of school going age who attend school, and various causes have been assigned to explain this But the most potent, if modern vernacular literature is to be accepted as an authority, has been omitted *viz*, that a strong re action has set in against the education of girls

"With reference to his eloquent appeal on behalf of higher education, by which I mean scientific and technical as apart from literary, I may observe that research scholarships have already been established, and Government, I have but little doubt, will always be willing to spend money for the advance of scientific as well as technical education in this country

"Turning to the details regarding which information is wanted, the Hon'ble Mr Bose wanted to know why it was that the grant for furniture and apparatus last year had not been worked out The explanation is that certain goods amounting to over ten thousand rupees and for which an indent had been sent to England, did not arrive before the year closed Thus the value could not be debited against the grant

"I have been asked to explain the decrease under the head of 'Grants in Aid' The greater part of this is due to the transfer of schools in Chota Nagpur to the District Boards of that Division, and part of it, *viz* Rs 6,000, to withdrawal of grants

"As regards the Building grant, the Hon'ble Member ventured a hope that the Deaf and Dumb School will be granted half a lakh The amount which has been sanctioned for that Institution is Rs 30,000, and I am afraid I am not in a position to hold out any hopes that this will be increased

"The same Hon'ble Member pointed out that in the Budget of the coming year as compared with the past, after taking into consideration the item given in page 7 of the Budget Statement, there appears to be a decrease of nearly one lakh This is due to the transfer of the schools in Chota Nagpur to the District Boards

"Then as regards the additional establishment at Sibpur, the information desired is given in part in the Budget itself, namely, the provision of two additional Foremen Instructors and an additional Professor, while as regards the additional instructive staff there referred to, the details have not yet been worked out

"Concerning the Provident Fund for *Gurus*, I am unable to give the details of the scheme, because they are still under the consideration of the Government of India

"The Hon'ble Babu Surendranath Banerjee asked for details of the grant of Rs 5,000 to the Tea Association, and Rs 7,500 to the Indigo Association, and whether there was any precedent The grant of Rs 5,000 to the Tea Association is not a new matter This is the second year of the grant which is given for three years, for the purpose of assisting the Planters to obtain the services, at an estimated cost of Rs 18,000, of an expert who will be able to investigate matters relating to the cultivation and manufacture of tea The grant of Rs 7,500 to the Indigo Association is also for three years, and it is to enable them to obtain the services of a Biologist, was granted in order to enable the Planters to obtain a Biologist whose services, so the experts consulted by Government considered, would be of great advantage to the industry

"With reference to the remarks of the Hon'ble Mr Bose under the head of 'Emigration' and his enquiry as to the state of things which led to the increase in the past, and whether there is any likelihood of any improvement in the future I can only say that the amounts are entered after knowing the needs of the Colonies I have now, Sir, I think, furnished replies on all the points concerning which information was desired"

The Hon'ble MR BUCKLAND said —"As the burden of replying to the criticisms which have been offered will fall on the Hon'ble the Financial Secretary, I will confine myself to the observations that have been made in connection with the departments for the time being under my charge The first subject to which I wish to invite the attention of the Council is based on the remarks which have been made by the Hon'ble Mr Das as to the two thirds'

rule I am not quite sure that I heard all that he said, but, so far as I understood, I think he raised a question with regard to the Statutory Civil Service, and he referred to some passages in the report of the Public Service Commission of the year 1887 A great many things have happened since then, and this question has been often considered,—'Whether natives of India who fill the appointments previously held by English or European officers should get the same pay'? It seems to me quite impossible to hold out any hope that any change will be made in the system of the two thirds' rule, which has now obtained for a great many years past No doubt there are some officers in the country, such as High Court Judges, who receive the same pay whether they are natives of India or Europeans but the main principle has been accepted that Rs 1,000 a month paid to a native of India goes quite as far as Rs 1,500 a month to an English officer There is no reason why a native officer should receive the same pay as an European for doing the same work in India The question may be regarded in another way when any European officers are deputed on duty to Europe, they only receive two thirds of the pay they were receiving here, therefore I can hold out no hope that the cry raised with regard to the abolition of the two thirds' rule will meet with any consideration

"I will not follow the remarks of each individual speaker, but I propose to take them up in groups, and to deal with those relating to each group at a time

"I will first deal with the observations made with regard to the scheme submitted to Government about the improvement of the Executive and Judicial branches of the Provincial Service An entry of Rs 1,40,000 has been made in the Budget for this purpose, and on the following grounds —A scheme for the improvement of the Subordinate Judicial Service has been under consideration for the past two or three years, and this year there seemed to be a hope of some conclusion being arrived at, so that the sum of Rs 40,000 was first put in the Budget for the purpose But, as at least one Hon'ble Member in the room knows, in the course of last year a memorial was submitted to Government for the improvement of the Subordinate Executive Service, praying that something might be done when the finances come to bear a more flourishing aspect, and as the memorial came to be examined, it appeared that some remedial measures were required, the opportunity was then taken to enter in the Budget a lakh of rupees for the improvement of the Subordinate Executive Service It was then that two schemes for the improvement of the two Services were proposed by this Government I cannot at this moment enter into the details, because it was only on the 12th March that the schemes were submitted to the Government of India, and it would be quite inconsistent with official procedure to disclose the schemes, but I can go so far as to say that these will, if sanctioned, entail an annual expenditure of about two lakhs of rupees, and the sum of Rs 1,40,000, which has been entered in the Budget, means the amount which is likely to be spent in the course of this official year if these two schemes receive the sanction of higher authority within a reasonable time The Rs 1,40,000 is just a little over two thirds of the two lakhs for which we have asked, and if we obtain sanction somewhere about July, it will meet the expenditure which will be incurred in the course of the year It has been noticed that Rs 40,000 only has been allowed the Judicial branch, and one lakh to the Executive I do not anticipate that, if the two schemes are sanctioned together or one before the other, there will be any difficulty in making a re adjustment, though I cannot, of course, bind the Financial Secretary or His Honour in making this remark, but I have little doubt that something like that may be done, as money is available

"The next subject is one which was referred to by the Hon'ble Babu Surendranath Banerjee when he pleaded the cause of the Sub Deputy Collectors Up to 1895 Sub Deputy Collectors were allowed to go up for the examinations for Deputy Collectorships, but, in 1895, Government saw reason to stop this practice, and, since then, only a limited number of Sub Deputies have been allowed to become Deputies by appointment But I ought to add that every Sub Deputy must know perfectly well that, if he exerts himself and deserves well of his superior officers, he stands a very good chance of

being recommended for promotion It is within my own knowledge that last July the Board of Revenue were specially asked to submit the names of ten Sub Deputy Collectors who were qualified to be appointed Deputy Collectors They submitted ten names, and four out of these were immediately appointed, and only quite recently four more of them have been appointed Deputy Collectors in the last grade That accounts for eight out of ten, and one of the other two has not passed the required examinations, and is therefore not qualified One more remains to be selected when the next batch of promotions takes place Also at this time of the year the examination is held for the Provincial Service, and some Sub Deputies will be appointed by selection as well as the Deputy Collectors appointed by examination These gentlemen have before them the chance of being appointed Deputy Collectors in the same way as at present The whole matter of the Provincial Service has for years past been well considered, and promotions have been made with greater regularity For some time the Provincial Service has been suffering from the enormous over admissions of a previous period From 1891 to 1896, 175 men were taken in, that is, at the rate of about 35 a year I was looking at the figures the other day, and I saw that, during the last four years, it has been possible to bring in only 26 recruits to the Provincial Service The result of the over admissions was that we had for some time a long list of so called probationers The number has been greatly reduced since the re organization of 1899 there are not in the probationary grade now more than 7 men, and if these new schemes, which I have alluded to, are sanctioned, it will in future be possible to admit more men annually to the establishment by examination

"I will now pass on to the remarks that have been made with regard to the Police It will be within the recollection of the Council that the Committee who sat in 1892 made a number of recommendations which would cost Rs 7,00,000 in the aggregate, and the Government has ever since 1892 been working on the lines of these recommendations For some years the number of Sub Inspectors have been steadily increased, in accordance with the recommendations of the Committee of 1892 They recommended that Sub inspectors should be increased by 717, that is, about 68 a year Provision has been taken in the Budget for Rs 28,000 to meet the cost of turning 68 Head Constables into Sub Inspectors I believe I am correct in saying that this plan of turning Head Constables into Sub Inspectors will be completed next year or the year after At the same time, of course, the number of Head Constables is to be considerably reduced, viz, by 655 in all, and the number of Constables has been largely increased When I say that the policy of the Government has been to work upon the Committee's recommendations, it is impossible to say how far the Police will be altered in the near future, as there are always proposals and suggestions in hand for improvements in the Police

"The Hon'ble Babu Surendranath Banerjee mentioned that he would like to see a Detective branch in connection with the Mufassal establishment Now, this is a question of policy on which I am unable to give him any information, because, being a question of policy, it has to be carefully considered, especially with reference to the question whether there should be a Detective establishment in each district, or whether, as I understand is done in Scotland Yard, there should be a Detective establishment at head-quarters, from whence men would be available to be sent out whenever it becomes necessary for an intricate or important case to be investigated? I understand from something I have seen elsewhere that the Government of India is rather inclined to the latter view, but at this moment nothing more can be said on the subject

"The Hon'ble Mr Bose made allusion to the provision made in the Police Budget for four probationers in excess of the present scale The second grade of Assistant Superintendents and the probationers were some time ago amalgamated There are now 30 of these gentlemen, and as 23 is the sanctioned number, this grade contains 7 in excess Some of them will be absorbed in the course of next year, so the Accountant General has insisted upon provision being made in the Budget for four of them in excess

"The same Hon'ble Member has also referred to certain expenditure under 'Contingencies.' I have found that, in the Eastern Railway Police system, the sum entered is the same as that in the sanctioned estimate of last year, and in the Bengal and North Western and Tirhut State Railways the sum put down for Contingencies is Rs 483 less than last year

"I will now turn to the subject of Jails It has been pointed out that the charge for superintendence is larger this year than it was last year, but the explanation is very simple The officer who at present fills the post of Inspector General of Jails was only acting last year He has now been confirmed, and his pay is therefore larger There is also another item—the pay of his Personal Assistant—which has also risen in due course, and there is a larger provision under the head of 'Travelling Allowance' The increase under the head of 'Contingencies' is accounted for by higher rates, rents, taxes, servants, postage stamps, furniture, &c

"As usual some observations have been made about the diet of prisoners It need hardly be said that the food allowed to prisoners depends much more on sanitary considerations and upon the Jail Superintendents and the Doctors than upon the money available in the Budget, and I have no reason to suppose that the standard diet which has long been in force in Jails is otherwise than a healthy one, or that it should be increased in any material respect The Chief Secretary last year, Mr Bourdillon, made all the remarks that can be made on this subject It is a well known fact that prisoners actually increase in weight when in Jail, and, in individual cases, they have all reasonable comforts provided when they are sick

"The Hon'ble Mr Elworthy has referred to the subject of Jail Manufactures The principles upon which Jails are allowed to manufacture have long since been laid down by the Government of India They make things chiefly for the use of other departments, for instance, to provide cloth for the police and chaukidars and for the warders and other departments of Government Beyond that they are allowed to sell their surplus stock, to a small extent, I think, it will be admitted, of certain goods which may otherwise be bought in the bazar The figures before me show that the total value of their outturn is about 19 lakhs, of which 14½ lakhs represent the value of the goods supplied to other departments, whereas their cash sales to the public represent about 4½ lakhs The Hon'ble Member asked to be provided with a list of articles manufactured in Jails in Bengal I hold in my hand a pamphlet which gives all the information he wants, and he can obtain a copy at the small charge of 8 annas A number of the articles obtainable from Jails are of common and domestic use, but the list is swelled by a number of other things for which there cannot be any great demand Any one who wishes can provide himself with a new pattern triangle at the small cost of Rs 73, or an European automatic drop gallows of the latest Alipore pattern for a sum of Rs 328 I hardly think he would care to invest in any of these things, or even a new cooking range for a thousand men This pamphlet gives a list of all the articles which the Jails manufacture, but there is no intention whatever to aim at underselling the public trader The principles laid down by the Government of India are borne in mind by the Jail Department

"The Hon'ble Babu Boikanta Nath Sen made a suggestion with regard to the Registration Department I fully expected to see my friend opposite—the Inspector General of Registration—jump out of his seat when the Hon'ble Member proposed that this Department should be made over to the District Boards I have never before heard the suggestion made, and have grave doubts whether it will ever enter the field of practical politics The surplus of the Registration Department, which is nearly three lakhs, is absorbed in the general revenues Before that could be made over to the District Boards, it would be necessary to be sure that the Department could be worked or administered by a District Board I personally fail to see how it could be done, and I cannot hold out any hopes that the suggestion will meet with any consideration

"Then as regards the remarks made with reference to Law and Justice The Hon'ble Mr Bose called attention to the increase in the Mufassal of Rs 11,700 The simple explanation is, that provision has been made to establish a Government pleadership in Champaran and for a larger sum for fees

to pleaders in Criminal Courts It is under the same heading that the Hon'ble Babu Surendranath Banerjee made reference to certain contingencies amounting to Rs 1,200 The explanation is, that this sum is entered in the Budget to meet the increase in rents and taxes

"The only other remark which I have to make is with respect to Munsifs' residences This is an old subject, it was brought up in debate in this Council some years ago, and has been constantly alluded to Some years ago a programme was prepared for the construction of 18 Munsifs' residences to be constructed in some outlying districts in order of urgency In the Budget for 1900 1901, a sum of Rs 15,000 was provided as sufficient for four residences Steps were taken in connection with nine buildings There was an extra grant of Rs 10,000 in 1900 1901, but part of the money was diverted, and after various changes the final allotment was of Rs 17,607 for nine works There has been delay arising from various causes At the present moment there are nine works in progress, some are actually well advanced, and in others the Public Works Department have only lately got hold of the land This year the allotment on the Budget is Rs 27,500, which should suffice for these nine residences in hand and for four more to be taken up I cannot promise that, at this time next year, these will have been completed, but at any rate the work is in progress, money has been allotted, and it depends on the energy with which the Public Works Department (always, supposing that obstacles are not put in the way by the alteration of plans) spend the money allotted in this year s Budget

"The only other subject to which I have to refer is, that which was touched upon by the Hon'ble Babu Boikanta Nath Sen, about structural arrangements being made in the offices attached to Judicial Courts The Hon'ble Member seems to think that the public have a right to enter Government Offices whenever they like, whether the Government like it or not I must point out that these offices are the offices of Government, and the Government have a perfect right to keep out of them all outsiders, whether they are pleaders, or mukhtears, or barristers of the High Court, or any one else who is not in Government employ Would any merchant or attorney allow any member of the public to come into his office at will and tamper—I use the word 'tamper' advisedly—with the records there or the clerks at work in his office? It is the object of Government to try and put down, as much as possible, the tampering and corruption which are well known to prevail in these offices these orders have been passed with the best of motives, and to deal effectively with the prevailing corruption, it will be of no use to take half measures Therefore, the other day I said from my seat here that, as soon as possible, orders would be issued for structural arrangements to be made in all judicial offices to exclude all but the persons employed in those offices and to provide facilities outside the offices for those who have legitimate business with the sarishtadar, or for pleaders who have a right to look at records under certain conditions in certain cases, or for other persons requiring information I have taken the earliest steps to redeem that promise, and a Circular will be issued calling upon Judicial Officers to make suggestions I was sorry to hear the Hon'ble Member say that these orders would lead to a more impure state of things, and it seems to me an unusual ground to take, to say that, where corruption would be more difficult and more costly, there would be more of it, I should have thought that the economical argument was the other way, and that, if it can be made more costly to corrupt the Court *amla*, there would be less corruption So far as the Government are concerned the orders will be issued and the structural arrangements made in due course of time This concludes the list of subjects with which I have to deal on behalf of Government"

The Hon'ble MR BAKER said —"In winding up the debate on the Budget last year you observed, Sir, that not in your time would the Lieutenant Governor enjoy those ample balances which had been the privilege of former times, and you impressed upon us the warning that the resources of the Province must be husbanded and expended with the greatest circumspection On the necessity for economy and circumspection I need not dwell at present They are as imperative now as they have ever been in the history of the Province, although most of the gentlemen who have addressed us, advocating

measures of expenditure, have apparently lost sight of it But I venture to think that the Budget, which has been discussed to day, affords good ground for the hope that days of renewed prosperity are not far distant Three years ago, immediately after the Famine year 1897, when the Budget for the year 1898 99 was laid on the table, it was seen that there was an opening balance of only Rs 5,39,000 During the three years that have elapsed since then, this cash balance has risen to over Rs 42 00 000, notwithstanding that, during this period, we have had to spend over 13 lakhs on plague, 12 lakhs on earth quake repairs, and 14 lakhs for the protection of Darjeeling Bengal is no doubt less fortunate than Burma, where the Local Government is unable to find objects on which to spend its enormous accumulations, and where the budget grant for Public Works is 88 lakhs as compared with 45 lakhs in Bengal But if we are not absolutely rich, we have at all events enough to justify us without improvidence in embarking on a certain number of modest, but useful projects to meet the growing requirements of the Province These projects have been enumerated in the Financial Statement, and I need not recapitulate them They have been referred to in the discussion to day with general approval But, as usual, the Hon'ble Members who have addressed us have had no difficulty in bringing forward a long list of other schemes to be pressed upon our consideration Some of these are new schemes and others are old acquaintances brought forward on the Spencerian principle, that varied itera tion is the only means by which alien ideas may be enforced on reluctant minds I shall refer to one or two projects of both classes, omitting those which have been dealt with by the other Secretaries Amongst the first class of new projects which I shall touch upon, I think the foremost place may justly be claimed by that which was brought forward by the Hon'ble Mr Sutherland, and afterwards referred to by several other speakers I mean the proposals with regard to the opening out of congested areas in Calcutta The Hon'ble Mr Sutherland and some of the other hon'ble gentlemen who addressed us have expressed disappointment that no allotment for this work has been made in the Budget, and they comment on the delay that has taken place since the Building Commission of 1897 submitted their report, and I am very glad to have this opportunity of explaining generally how the matter stands The Building Commission sent in its report at the end of the year 1897 It was a very long, very elaborate, and a very important report, and it included, among many other matters, proposals for revising the Building Law of Calcutta That part of the subject was taken up first, and dealt with in connection with the Calcutta Municipal Bill, and when that Bill was put into shape by the Select Committee of this Council, the other part of their recommendations was taken in hand Government have by no means been idle All the chief difficulties of the scheme centre round the question of finance A scheme to drive a series of first class roads through the heart of Calcutta, through the most crowded parts of the town, where the need for them is greatest and the cost of land is high in proportion to the overcrowding, is a scheme the cost of which must necessarily be enormous I understand that in London, the great road from Holborn to the Strand is estimated to cost over £4,000,000 sterling, but by the application of the principle of recoupment, the London County Council estimate to reduce the net cost of the scheme to something like £400,000 No such result can be hoped for in Calcutta According to the best estimates, the cost of the full scheme which was put forward by the Building Commission for 15 miles of road, will not be less than 2¼ crores of rupees, and to devise a satisfactory method of providing this vast sum, without imposing too heavy a burden on the people, is a task of great difficulty, and one that requires anxious consideration, for the greater part of this sum will have, in some form or another, to be provided by the people of Calcutta The Hon'ble Babu Surendranath Banerjee and the Hon'ble Mr Apcar appear to have had it in their minds that the greater part of the cost of the scheme is to be borne by the Imperial Government That is not correct The people of Calcutta are those who will benefit most by the scheme, and it is only just and proper that they should pay their full share It is my personal opinion that Calcutta has a claim on the Imperial Government for some measure of assistance, but at all events, the lion's share of the cost, not

less than four fifths of the whole, must be provided by the people of Calcutta For the last two years we have been in active correspondence and communication with the Government of India and the Secretary of State on this subject as to the best means of financing this scheme This correspondence is not yet complete, and I cannot, I am sorry, take the Council into our confidence at present as to the precise nature of the proposals put forward, but I think I may go so far as to say that there are good grounds now for the hope that we have at last threshed out a scheme of finance, and that we are on the eve of effecting an agreement for the provision of the necessary funds in a manner which will be equitable to all parties, and the best practicable in the circumstances In any scheme so large as this, progress must necessarily be slow Even if the large sum required were available at once, it would not be possible to carry out such a scheme for several years, and where the money has to be raised gradually, it is scarcely possible that there shall not be considerable delay It is inevitable that at least 8 or 9 years, or perhaps more, must elapse before it can approach completion But in the meantime we are hopeful that a beginning may be made and the work started before the necessary legislation is taken in hand His Honour the Lieutenant Governor trusts to be able to start work in anticipation of the necessary legislation at an early date

"In this connection, I should like to refer to a remark which fell from the Hon ble Mr Sutherland, with regard to giving Calcutta a second lung in the form of a *maidan* at Tollygunge I entirely agree with what he said on that subject now, and also with what was said by the Chairman of the St Andrew's Dinner I agree, especially as this work, if taken up, will be not only a farsighted proceeding but it will also be comparatively inexpensive, and because it is inexpensive, it is incumbent on the Corporation to do it

THE GENERAL HOSPITAL

"I now turn to the remarks made by the Hon'ble Mr Sutherland with reference to the General Hospital He wished to know how much of the original project had been carried out, and how much had been spent as compared with the original scheme, and he referred to the paying patients block, and expressed the hope that an entirely new building, equipped with all modern appliances, would be provided This matter stands in the following position —In 1896 the Committee, presided over by Mr Risley, drew up a scheme for the re modelling and re construction of the entire hospital The estimated cost was 22 lakhs, but immediately after the estimate was prepared and before the work could be taken in hand, there occurred the Famine of 1897, and all work had to be temporarily stopped for want of funds. In 1898 it was taken up again, and it was speedily found not only that a number of necessary items in the original scheme had been omitted, but also that the provision made for several of the larger works was also inadequate When the revised estimates for the whole scheme were worked out, they were found to come up to 33 lakhs of rupees There was no possibility of providing this sum, and therefore it became necessary to re cast the whole scheme Up to the end of March last we have spent in all Rs 14,82,000 on this work in three years Of that sum the Local Government has provided half, and the Government of India the other half The works which have been practically completed are, first of all, the new block for males with which I think the Hon'ble Mr Sutherland is acquainted, the main kitchen, the Nurse's quarters, land for the whole scheme, land also for the quarters of the Superintendent, the subordinate staff and servants, furniture for the hospital, and a beginning has also been made with the infectious diseases block We have not built the proposed Female block, nor the Administrative block, we do not propose to construct a dairy, and there has been some delay in the construction of the quarters for the Subordinate Staff Most of these works, I think, may be regarded as capable of postponement As regards the paying patients' block, which it has been decided not to proceed with at present, I think the Hon'ble Mr Sutherland will desire some further explanation The reason why we considered that the construction of that block should stand over is, that the existing block for paying patients is capable, in the opinion of the Engineers, of being re modelled and improved, after which, though it would be very far from perfect, it will suffice for a number of

years to come We propose to convert the double rooms on the upper storey into single rooms for each patient, we propose to divide the large ward on the second floor into a series of single rooms, and we propose to re-furnish the whole block and provide it with electric fans In this way we shall obtain a very large saving on the original estimate, which was for 4 lakhs of rupees If, however, it should be possible to obtain subscriptions from the local public, I am in a position to say that the Government will be ready to reconsider their proposal what work will then be undertaken will depend upon what contributions are paid by the community A certain sum can, in all probability, be obtained indirectly by acting upon the three suggestions made by the Hon'ble Mr Sutherland to day I refer to what he said about the Hospital Port Dues Fund His recommendation was, that Government should take steps to put into force the proposals put forward by the recent Committee appointed to inquire into the Port Trust These were three in number One was that half the cost of the Port Health Officer should be paid by Government, instead of the whole being borne by the Hospital Port Dues Fund The second was that the rate of Hospital Port Dues should be reduced to such a figure as would be just enough to meet the expenses debitable to the fund The third was that the accumulated balance of Rs 1,14,000 should be applied to the New General Hospital I think it may be possible to give effect to this last suggestion, so that a portion of the funds for the new paying patients block can be indirectly provided in that manner As regards the other recommendations which have been made by the Committee of Inquiry into the Port Trust, I agree with them, for the same reason that the Hon'ble Mr Sutherland agrees, with the remarks of the Chairman of the St Andrew s Dinner

LOANS TO MUNICIPALITIES

"I now turn to the suggestion of the Hon'ble Babu Surendranath Banerjee with regard to Loans to the Riparian Municipalities, to enable them to carry out a scheme of water supply The Hon'ble Member is under a slight misapprehension The Budget we are discussing is the Revenue Budget, the Loans Budget is an entirely different matter, and it does not fall within the scope of our present proceedings, but as the Hon'ble Member has taken great personal interest in this matter, and as it is one of great importance, I should like to assure him that we have made provision in the Loans Budget for this purpose Originally we provided 5 lakhs to enable Riparian Municipalities to carry out a scheme of water supply, but unfortunately it was struck out by Government on account of want of funds, but in view of the importance of the project, we re cast our Loans Budget and we have been able to provide two lakhs of rupees for this purpose, and although this is very much less than will be necessary to carry out the entire scheme, it will enable these Municipalities to make a beginning

BURNING GHATS

"There is one more of the new proposals which—wish to refer to before I turn to the older projects which have been brought before this Council, and that is the suggestion made by the Hon'ble Babu Boikanta Nath Sen, that the Government, which is providing cemeteries for Mahomedans and Christians, should do something in the way of providing burning ghâts for Hindus I am afraid I cannot accept the suggestion The Burial Boards, both Mahomedan and Christian, are excluded local funds They deal exclusively with Calcutta, and it is because they are excluded local funds that such grants as we have to make to them are specified expressly in the Budget, but in the case of burning ghats, there are no such funds Burning ghats are entirely in the hands of Municipalities, both in Calcutta and in other Municipalities Any grants given for the purpose of assisting Municipalities to construct a burning ghat, or for any other purpose would appear as a contribution to the Municipalities Nor can I admit that there is any obligation on Government to assist Municipalities in this matter, it is one for which they must provide themselves

SALARIES OF MINISTERIAL OFFICERS

"Now I turn to the remarks in connection with the salaries of ministerial officers The Hon'ble Babu Surendranath Banerjee has quoted certain remarks I made on this subject in Council two years ago To what I said then I altogether adhere now I regard the question as one of great importance, which will have to be faced and considered in a sympathetic spirit But when we came to consider whether the increase should be given on the present occasion, we had to weigh the relative claims of several other projects which are before us, and the conclusion we came to was that this particular one must wait It would have cost a large sum of money, not less than Rs 1,00,000 a year It was recurring expenditure, which once incurred becomes permanent and irrevocable It was doubtful whether the Government of India would sanction it, affecting as it must the scale of salaries in other Provinces We felt that the benefits to the Province and the intrinsic necessity of the other schemes were greater We could not, for instance, give this proposal priority over the additional grants to District Boards, and I should have been sorry to see such measures as the improvement of the Provincial Civil Service, or the Provident Fund for Teachers, shelved to make way for it But Hon'ble Members may rest assured that it is not lost sight of, and that it will be taken up when a suitable occasion arises

GRAIN COMPENSATION ALLOWANCE

"As regards grain compensation to menial servants, we will give this allowance where necessary One or two applications have been received, and the matter will be considered and dealt with in the ordinary course Last year we gave these allowances in the districts of Chota Nagpur and one or two other places, and this year, if it becomes necessary to do so, you may be sure we shall do the same Full provision is made in the existing rules for the grant of compensation for the dearness of food when the price of their staple rises above a certain figure I cannot admit that these officers have any claims to further concessions

VILLAGE WATER SUPPLY

"Then there is that hardy annual, the Water Supply On this point I can do little but repeat what I have said on previous occasions Government fully sympathise with the desire of so many Members of this Council, that the people in Bengal should enjoy the advantage of a pure water supply, or, at all events, some sort of supply, but the task is one for the people themselves to undertake The Government can no more undertake to supply pure water for the whole rural population, than it could supply the same population with food, clothing or employment What is wanted is not so much new tanks, as that existing tanks should be re excavated If the villagers will only combine to provide the labour, and if landlords and zamindars will sink their personal quarrels and make their tanks available, I am certain that the greater part of those difficulties and these complaints will disappear In the meantime, District Boards are doing their share of the work During the last five years their average expenditure has exceeded a lakh of rupees a year The Hon'ble Mr Bose has pointed out that this expenditure falls short of the minimum payment of five thousand a year, which the Government some years ago directed should be spent by each Board The only reason I can give is, that the resources of District Boards have been unequal to the task The resources of many Boards were exhausted in dealing with the famine, and they have not had funds to spare for work of this description I cannot undertake to do what the Hon'ble Babu Surendranath Banerjee suggested, viz, earmark any part of the new grant to District Boards for water supply, but at all events it will be manifest that, with the additional grants it will be possible for the Boards to comply with the order passed five years ago that Rs 5,000 are to be spent on this object every year The Hon'ble Mr Bose has asked that the Registers of sources of water supply may be produced, but I do not quite see what use can be made of them My impression is that these Registers are useless I am certain that an enormous amount of labour and a good deal of expense would be

required in preparing and printing them, and I do not see what practical uses will be made of them

"As regards District Magistrates exercising their influence to promote the excavation of tanks, all I can say is that the influence of every District Magistrate s being constantly exercised in this direction

"As regards legislating to get possession of lands, I am not prepared to recommend legislation for such a one sided purpose

PROVISION FOR PLAGUE

"And now I turn to various remarks of Hon'ble Members, which do not involve expenditure In the first place the Hon'ble Mr Elworthy, in the course of his interesting speech, expressed a doubt whether we were not spending somewhat too much He pointed out that the deficit for the year was Rs 22,00,000, that being the amount by which the expenditure exceeded the revenue of the year and he doubted whether sufficient provision had been made in the Budget for plague and famine I think I can re assure the Hon'ble Member In the first place, our revenue for next year has as usual been estimated with caution In some items, such as Assessed Taxes, it has, I believe, been placed distinctly too low I have here side by side the figures showing the Budget estimates of revenue for each year since 1895-96, and the actual revenue of the year In each year of the series the actual excess over the Budget has never been less than 10¼ lakhs, and the average betterment during the period has been 15¾ lakhs Therefore I think we shall certainly find that our cash balance at the end of the year will be nearer 30 lakhs than 20 Then, again, out of the 22¾ lakhs of excess expenditure, at least 12¾ lakhs are non recurring, and there is only a comparatively small part of the whole which is recurring expenditure I have drawn up a statement showing how much is recurring and how much is non recurring The only items of recurring expenditure are the grant for the Provincial Civil Service Rs 1,40,000, that for the Provident Fund for *Gurus* Rs 2,25,000, the Dairy Farm at Pusa Rs 46,000, and that for Plague Camps, Rs 65,000, which gives a total of Rs 3,76,000 which will become permanent To this we may add the Rs 4,80,000 which we propose to give to the District Boards I should be sorry to see this reduced or withdrawn, but we have most carefully guarded against any undertaking to make it permanent, and we could withdraw it, if necessary I would remind the Council, as I did on the 30th of March last, that it is not open to the Local Government, under the present system of finance, to alienate any portion of their revenue, and we can make no promise to the District Boards that this Rs 4,80,000, or any part of it, will be continued next year until we see our way clearly It is not a final settlement of the question, but only a temporary arrangement, pending the revision of the Provincial Contract, which is due at the end of the present year As regards the provision for plague or famine, it is true we have made no provision for famine It is not usual to do so, unless there is some indication of scarcity, which happily is not the case at present And, moreover, under the orders of the Government of India, passed in 1882, we are not required to provide a reserve on that account As regards plague, we have provided Rs 5,65,000, which is Rs 2,80,000 more than we provided last year I am in the hope that this provision is ample, but in the event of it not being so, we have a further reserve under Contributions of Rs 2,84,000, which can be made available and applied to this purpose, and if the need is still greater, we shall find whatever may be necessary by making retrenchments or by postponing expenditure elsewhere

EXCISE AND LOCAL OPTION

"The Hon'ble Mr Bose, the Hon'ble Babu Surendranath Banerjee and the Hon'ble Babu Boikanta Nath Sen have made remarks on Excise matters, and the Hon'ble Mr Bose dwelt upon the question of local option As regards the latter, it does exist to this extent that under a rule passed ten years ago, Municipal Commissioners in Mufassal Municipalities are entitled to be consulted as to sites of liquor shops That rule is by no means, a dead letter it is constantly enforced, and wherever the views expressed by them appear reasonable

they are given effect to Beyond this I do not think it would be right or proper to go, and the ultimate decision must rest with the Revenue Officers I can hold out no expectation whatever that the provisions of section 84 of the Bengal Excise Act will be put in operation I know of scarcely any body of persons so little fitted by constitution, knowledge or interest to control the granting or withholding of Excise licenses as the average Mufassal Municipal Committee They may be representative of a particular class or section of the community But that class is certainly not the class which is interested in the sale of exciseable articles By entrusting Municipal Committees with licensing powers, we should subject the consumers of liquor or drugs to a class tyranny of the worst kind They would possess power without responsibility, and having no financial interest in the result, they would be under the constant temptation to earn a cheap reputation for vicarious temperance at the cost of the general tax payer The Hon'ble Mr Bose said this difficulty could be met by giving the Committees a share of the Excise Revenue, or by making it incumbent on them to raise a minimum sum I can imagine the Hon'ble Member indulging in a covert smile when putting forward this proposal But I do not think that he expected that it would be taken seriously The control of an important branch of Government Revenue must remain in the hands of Government Officers I do not propose to follow the Hon'ble Member in his dissertation on the Excise Administration of Bengal This subject has been discussed threadbare already The whole question was carefully and exhaustively considered in 1888 89 under the orders of the Government of India, and the conclusions arrived at by the Government of India and the Secretary of State, have been published in the Gazette The policy then laid down has governed the action of the Bengal Government ever since The distillery system is in force in the Presidency, Burdwan, Dacca Chittagong and Orissa Divisions (except a few outlying tracts) in the Sonthal Parganas, in parts of Chota Nagpur and in all the large towns of Patna and Bhagalpur The out still system is in force in the remainder of the province for which it is best suited That it has led to increase of drinking I totally deny The other day Maulvi Wajid Hossein, who has served for 20 years in Patna, assured me he could see no difference in that respect now from what he saw 20 years ago Persons who know the people of the adjacent districts of the North West Provinces, Benares, Goruckpur, and Mirzapore, as well as those of Bihar, state that there is not a pin to choose between them in this respect Yet the former have the distillery system, while the latter have the dual, or Patna system And in the North West Provinces the total number of liquor shops is very nearly double the number of out stills and distillery shops in the whole of Bengal taken together, in spite of the greater area and larger population of this Province There has been no abnormal increase of Excise Revenue It has risen by only 13¼ lakhs since 1895 96, or at the rate of 2 per cent per annum The Hon ble Mr Bose said that prosperity was only one cause of the rise of Excise Revenue, and he rejoiced that the constituency which he represents, judged by this standard, was not prosperous He is quite right There is another factor which affects the Excise Revenue, and that factor is the drinking habit or the drug consuming habit of the people Where Muhammadans predominate, very little liquor is drunk, the greater part of the country liquor is consumed by Hindi speaking people, and where Bengalis predominate, the use of drugs is in the ascendant I may mention that these different peculiarities of different communities are set forth in the very report from which the Hon'ble Member quoted Differences of this kind make it difficult to compare Bengal with Madras and Bombay, and still more to compare Bengal with England

"Then with regard to the reduction of Still head duty, few questions are more difficult than to accurately adjust the Still head duty to the precise pitch which will not drive people to illicit distillation That is one of the objections to the distillery system Every suggestion to raise or lower the rate of Still head duty is most carefully considered by the Board and Excise Commission Our general tendency is to raise it and not to reduce it

"The Hon ble Babu Surendranath Banerjee referred with some indignation to the fall in the price of *ganja*, and he seemed to hold that in some way

or other the Government were responsible for this The Government is no more responsible for this than for the variations of the seasons The cause of the fall in the price of *ganja* is the fact that in the previous year the season was favourable and the crop was an unusually large one In 1898 99 the total yield was 5,417 maunds, and in the following year it went up to 7,531 maunds, giving an increase of nearly 50 per cent over the previous year Government cannot regulate the retail price of the drug which must fluctuate according to supply

"Then the Hon'ble Member in referring to the explanation given with regard to the Opium Revenue, said he was unable to accept the suggestion put forward in the Financial Statement that it was due to the increased prosperity of the people I think it is a pious belief of the Hon'ble Member that no increase in the Excise Revenue can ever be due to increased prosperity He thought that we might take credit for suppressing smuggling, which he thought accounted for the increase I hope the Hon ble Member is right in thinking that the increase is due to the suppression of smuggl ng But I fear not Much of the increase comes from Calcutta, and there is reason to fear that smuggling to Burma and Chittagong is on the increase As regards the other details, I have taken notes of the information asked for, and I will furnish the Hon'ble Members with it privately There is, however, one point in connection with distribution of the grant to District Boards, which I will touch upon

FEEDER ROADS IN ORISSA

"The Hon'ble Mr Das made an appeal to us, that in making the distribu tion the Government should bear in mind the question of Feeder Roads in Orissa This is a matter in which Government has a large interest Only a month ago we gave over Rs 17,000 to the Balasore District Board for the construction of feeder roads We are fully alive to the fact that the East Coast Railway will not be complete unless feeder roads are provided, and the Hon'ble Member may be sure we will give to his division the full share which is its due

"In conclusion, I beg to express my acknowledgment to those Hon'ble Members who facilitated our task by giving previous notice of the points they were going to raise"

The Hon'ble THE PRESIDENT said —"I am not surprised at the chorus of satisfaction to day over the finances of the Province It is a long time since any one could have called them satisfactory The treasure chest was swept out by the Famine of 1896 97 As fast as it began to fill again, it was emptied by new misfortunes—misfortunes not so disastrous as befell our stricken neighbours in the Central Provinces and Bombay, but severe enough to prevent improve ment on the ordinary administrative lines of Government There was first the earthquake which cost us 12 lakhs, then came the plague, which has already cost us 22 lakhs Last of all, the landslips at Darjeeling, which have cost us in the protection of the town and railway 14 lakhs Thanks, however, to seasons of agricultural prosperity and to the stern and resolute character of my friend, the keeper of the publi purse, we have emerged, for the time, into a period of cheerful surplus Having got that surplus the question of course arose as to what we were to do with it We have had a vast amount of advice, some of it excellent, some of it not No conceivable surplus would ever meet all the delighted and sanguine suggestions that are made for its expenditure But after hearing all that has to be said, I think that on the whole in the distribu tion we have done well I will not repeat what the Hon'ble Mr Baker has so well said, but there are one or two matters, in which I have taken a special interest, on which I should like to speak to you The first is about District Boards It has long been evident that they are starved The revenues which are given them to administer are not sufficiently expansive The ferries and pounds, whose income they receive, do not, under modern conditions, expand at all, and the local cesses are enhanced slowly and gradually The result is that no new work is undertaken, or if it is undertaken this is done at the expense of those schemes, which the District Board was intended to, and indeed was bound to, maintain No new roads, for example, are made, or if they

are made, the old roads are not kept in proper repair In the great division of Rajshahi the mileage of unmetalled road has been actually reduced by 87 miles during the last five years It was absolutely necessary that the District Boards should be helped out of their dilemma, and in an incautious reply to an address at Bhagalpur 18 months ago, I promised that relief should be given In the Budget under discussion, that promise has at last been redeemed The needs and the difficulties of districts vary, but the necessary enquiries as to the distribution were made in anticipation, and substantial help is now ready The guarantee of help can only be given for the current year With the next year will come a new financial contract, and on that contract will depend the future help we can give to the Boards But the relations between the Supreme and the Local Governments are singularly like those of the Local Government with the District Boards The Local Government complains, like the District Board, that the revenues assigned for its work are not sufficiently elastic to cover the growing and imperative wants of a growing community, and at every contract there is a scramble for the increased revenue which the Central Government has jealously reserved to itself The Local Government complains like the District Board that it is starved, and urges with audacious persistence that the starving of it is in very truth the starving of the country I venture to think and hope that these views are gradually receiving less opposition in the highest quarters, and if we have frankly admitted the claims of the District Boards, well we are only doing as we would be done by If the conditions of the contract permit, our help to the Boards will be continued The improvement of the communications is a most pressing want of the interior of Bengal There is another question in regard to the District Boards, on which I should like to say a few words We want to give them the means of doing more work We have given them the means to day But the work they do must be better done The reports on their public works made it necessary to have a Committee to examine them The Committee found that the Public Works of the District Boards were, as a whole, badly done, and not only so, but very dearly and expensively done The Committee recommended—and it was not a Committee of Public Works Officers alone—that we should revert to the old system, in which the District Engineers were part of the Government machinery of Public Works To this I did not agree Such a reversal of the policy of 1882 was impossible, except on proof that nothing else would suffice, and the real cause of the complaint about District Public Works was the absence of proper professional supervision The Executive Engineer of the Government service is carefully supervised by a higher and more experienced officer of the department But the superintendence of the District Engineer is confined to his Collector, and the occasional visits of an Inspector of Works with an area too large for him to efficiently traverse—an Inspector whose comments have been in too many instances, I have seen, entirely disregarded by the District Engineer and his Board This must not be With the help of the Government of India, the cadre of the Province has been increased by two Superintending Engineers, the circles of the staff of Superintending Engineers have been reduced to manageable dimensions, and the technical instructions they give to the District Engineers in the carrying out of the works ordered by the Board must be obeyed The next matter in the Budget on which I should like to say a word is the institution of a Provident Fund for the masters of the primary schools These men are practically Government servants They are practically the only class of our servants for whom no provision is made for support in old age I think they have the strongest possible claim on our help They have an immensely important duty On them rests the development of that primary education which is recognised as so essential to the progress of a nation If they are active, it will flourish, if they are dull and despondent, it will not This is of the greater consequence in Bengal, where we have laid the foundations of a Kindergarten system in the primary school, which is designed to arouse and foster the intelligence of the scholar, but which also demands intelligence and good humour in the teachers In the Central Provinces we began the scheme of a Provident Fund, but it was s atte [illegible] the blasts of famine, and it is a particular satisfaction to me

that the circumstances of this Province have enabled us to make an actual start here The improvement of the Subordinate Judicial Service has been a matter of long correspondence The Secretary of State took one view the Judges another The plans we have submitted will, I think, give satisfaction to both It has always been an axiom that the Subordinate Executive Service should be run on somewhat parallel lines I think the axiom was a just one The altered ease and dignity of a judicial career are traditionally attractive to the learned men of India, and if the Executive is to be maintained at the standard its critics expect and demand, its emoluments must be maintained at a fairly equal level This principle has been followed in our proposals

"There are other matters of the deepest interest, the Calcutta improvements for example, on which I have nothing to add—I regret to say it, to the remarks which have been made by the Financial Secretary on behalf of this Government

"There remains one matter to which the Hon'ble Mr Elworthy has called my special attention I understand he wants any information we can give him as to the situation and the prospects of plague, specially in the city of Calcutta Let me give you, as briefly as I can, the facts In 1898, the plague began in April and culminated in June The highest number of deaths in a week was 22

"In 1899, it began in February and subsided in April The highest mortality was 278 in the week ending 7th April

"In 1900, the epidemic again began in February, again subsiding in April The highest point was 990 in the week ending 23rd March In 1901, it again began in February It has again begun to fall in April The highest point was 1,119 in the week ending 30th March You will realise the extraordinary closeness of this periodicity more clearly from the charts which I have caused to be prepared for your information than from the figures I have given you In each of the last three years there has been a strongly marked epidemic in the six weeks between February and April

"What has been done to check or prevent this? In 1898 we began with segregation and inoculation The segregation was of a different character from that hitherto tried But you remember the wild stories, the wilder credulities, the panic and the exodus Next year we tried disinfection It was notably successful The cases were few in which plague was found to have recurred in a disinfected house It did not, however, prevent the spread of plague, and in the epidemic of 1900, three times as severe as its predecessor, we tried the disinfection of all the houses surrounding an infected house In the interval of quiescence between May and December last, the Plague Officers of Calcutta, to whom I wish to pay a high tribute for patience, tact, and assiduity in their duties, succeeded in disinfecting every room of every bustee in the City It was thus we faced the epidemic of 1901 The chart and the figures I have given you for 1900 exclude suspicious cases Those for 1901 include them If you include them in 1900, the number of plague deaths in the period, 1st January to 31st March, is higher by 106 than in 1900 The two epidemics were, therefore, identical in intensity Was it due to the disinfection measures that there was no great increase in 1901? Opinions will, of course, differ, but I have myself no doubt on the matter We know from Major D ane's report on the last epidemic, the immense value of individual disinfections We have recent evidence as to the value of wholesale disinfection The town of Gaya was attacked by plague in November last It later spread to the district The Calcutta plan was introduced in the city In villages disinfection is impossible Now these are the figures Plague deaths for the week ending 1st December, City, 119, country *nil* For the week ending 5th January, City 71, country 28 For the week ending 2nd February, City 22, country 318 For the week ending 2nd March, City 20, country 666 For the week ending 30th March, City 17, country 1,559 Under identical climatic conditions, the disease abated in the city as it grew in the country In Patna city again and the rural area of the sub-divisions the figures are —Week ending 1st December, City 101, country 22 Week ending 5th January, City 362, country 97 Week ending 2nd February,

City 458, country 243 Week ending 2nd March, City 132, country, 789 Week ending 30th March, City 47, country 1,289 Again, under identical conditions of climate, plague has fallen under disinfection, whilst it was rising where there was none Lastly, the percentage of deaths in Calcutta is falling This was the observation made to me the other day at the Campbell Hospital It is confirmed by the figures given me by Major Deane In 1900 the Plague Officers saw 948 living cases of plague Of these there died or disappeared 715, or 75 5 per cent In 1901 they saw in the same period 1,438 cases, of whom 972 died or disappeared, or 67 6 per cent In most other forms of epidemic disease, a decrease in the mortality means a waning of the disease As to the prospects of the future, no man dare prophesy But the experiences of the past are hopeful Possibly wholesale disinfection months before the arrival of the epidemic was not directly worth the cost But the people who, a year ago, were strongly obstructive now co operate with a good will, which is gratifying to all who have to do with them, and the next epidemic, etc, will be more easy to meet

"In the Mufassal, the spread of the disease has been very grave The only measure you can successfully take there is evacuation Wherever plague has already been, the people have learnt its value In January last I travelled across the Patna and Gaya districts *via* Bihar, and wherever plague had appeared, the people were already in camp In Barh and the Monghyr district the plague has been in consequence this year much milder Villages that have become free have been re infected by the too early return of the villagers, or by the admission of people from infected villages Against these dangers the people are learning to guard themselves But the difficulty of moving and persuading them is immense And nothing has struck me more than the rapidity with which the disease spread in the rural areas of the district of Gaya, where the Collector, Mr Oldham, has been more successful than any other officer in the Province in winning the co operation of the people in his measures Gaya presents a new feature The people have taken evidently to inoculation Wherever they do so, they shall be heartily encouraged Its protective power, the period for which it protects, is still in much doubt, and the experiences in the Punjab and elsewhere show that, like every other measure we try, it is not a panacea But it does undoubtedly do good

"It is not to be denied that the prospects for the next winter in the Mufassal are most serious If the villagers will only help themselves, the remedy is in their own hands The people of the Kumaon hills, to whom plague is familiar, stop it at once by leaving their houses So can the people of Bengal, and in many parts they have now found this out The District Officers and their staff in the infected areas have had a tremendous task Their labours are not yet over I apologise to the Council for this long speech, after all it is not longer than some of those to which we have listened with interest I congratulate the Council on a debate of more spirit than in the circumstances I expected"

The Council was then adjourned *sine die*

CALCUTTA,
The 4th June, 1901,

F G WIGLEY,
Secretary to the Bengal Council and Assistant Secretary to the Govt of Bengal, Legislative Department

NOTICES TO MARINERS

GOVERNMENT OF BENGAL—MARINE DEPARTMENT

NOTICE TO MARINERS—No 103

[Second Publication]

PACIFIC OCEAN—PHILIPPINES—SAMAR ISLAND

(1) Kalbayok—Light established

THE British Admiralty has given notice (No 287 of 1901) that a *red* light is now exhibited from a tripod situated at the northern end of the town of Kalbayok

Approximate position, lat 12° 4 N long 124° 36 E

(2) Kathalogan—Light established

Also that a *red* light is exhibited from the Army Head quarters building at Katbalogan

Approximate position, lat 11° 46½ N long 124° 52¼ E

(3) Lutao and Pamuntangan Reefs—Beacons erected

Also, that the following beacons have been erected —

(a) A large beacon on the north end of Lutao reef, in a position bearing S 50 W distant 1½ miles from Anas point

Approximate position lat 11° 46½ N, long 124 50 E

(b) A large beacon on Pamuntangan reef, in a position bearing S 17° E distant 8 cables from Jesus point

Approximate position lat 11° 46 N, long 124° 52 E

(Variation 0 45 Easterly in 1901)

This Notice affects the following Admiralty Charts —Philippine islands No 2u 7 San Pedro bay to Libukan islands, No 2387 Katbalogan, Buri, and Daryan anchorages on sheet No 1622 Also, List of Lights part VI, 1901, page 100 and Eastern Archipelago, part I 1890, pages 328, 330

JAPAN—INLAND SEA

Kami kama gari shima—Shoals in the vicinity

THE British Admiralty has given notice (No 296 of 1901) that, during a recent survey in the vicinity of Kami kama gari shima the under mentioned dangers were discovered —

a A shoal with a depth of 3¾ fathoms stones is situated to the north eastward of the islet off the S E extreme of Kami kama gari shima, with the east extreme of the islet bearing S 51 30 W distant three fifths of a cable and the S W extreme of Okubi shima bearing S 24 20 E

Approximate position, lat 34° 9 25' N, long 132° 44 55" E

b A rock that dries 13 feet is situated on the bank on the western side of Okubi shima with the eastern extreme of the above mentioned islet bearing N 34 50 W, distant 4 cables and the N W extreme of Okubi shima bearing N 51 45 E

Approximate position lat 34° 9 5" N long 132° 45 10" E

c A shoal with a depth of 3¼ fathoms mud is situated to the southward of Shimo kama gari shima, with Ono no hana bearing N 57° 15 W distant 7 cables and the N W extreme of Koguro jima bearing S 30° 30 W

Approximate position, lat 34° 9 5? N long 132° 39 15 E

(*Variation 4¼° Westerly in 1901*)

EASTERN ARCHIPELAGO—JAVA—NORTH COAST

CAUTION —*Bantam bay—Shoal off Pontang point*

THE British Admiralty has given notice (No 299 of 1901) that the Master of the S S *Queen Olga* reports having obtained a sounding of 3¼ fathoms very soft mud off Pontang point, in a position with Tamujan besar island bearing S ?4° W distant 5 miles, and the west extreme of Babi island bearing N 24° W

Approximate position lat 5° ?? S, long 106° 18 E

CAUTION —From the above report it appears that the bank to the eastward of Pontang point has extended since it was surveyed in 1886, mariners are therefore recommended when rounding it to give it a good berth

(*Variation 0° 30' Easterly in 1901*)

This Notice affects the following Admiralty Charts —Island of Java, western portion No 1653 Sunda strait and approaches, No 2056 Also, Sailing Directions for the Eastern Archipelago, part II, 1893, page 80

NOTICE TO MARINERS—No 166

[Second Publication]

JAPAN—NIPON, SOUTH COAST

(1) Tanabé bay (Kii channel)—Rocks

THE British Admiralty has given notice (No 301 of 1901) of the existence of the undermentioned rocks in Tanabe bay, Kii channel, south coast of Nipon —

(a) A rock, named Takashimanone with a depth over it of about 5 feet is situated with the south extreme of Taka shima bearing N 31° E distant $2\frac{1}{10}$ cables and the point southward of Seto village S 73 E Shoal water extends from Taka shima to this rock

Approximate position, lat 33° 40 35" N long 135 20 05" E

(b) A rock named Takashimaose, with a depth over it of $3\frac{1}{4}$ fathoms is situated with Tō shima (Square island) bearing S 31 E distant $1\frac{3}{10}$ miles, and islet (40 feet high) off Maru yama point N 70 E

(c) A rock named Kamiyagata with a depth over it of $3\frac{3}{4}$ fathoms is situated with Tō shima bearing S 26° E, distant nearly $1\frac{1}{2}$ miles, and the islet off Maru yama point N 6?° E

(d) A rock named Nakashima with a depth over it of $2\frac{1}{4}$ fathoms is situated with Tō shima bearing S 6° E distant 8 cables and the islet off Maru yama point N 51 E

(e) A rock named Nakanoshima with a depth over it of $1\frac{1}{4}$ fathoms is situated with Tō shima bearing S 67° W distant about $1\frac{1}{2}$ cables and the islet off Maru yama point N 6 W

Sunken rocks with depths over them of less than 5 fathoms extend for a distance of $1\frac{1}{2}$ cables to the northward and southward of this rock

(f) A rock, named Tanakayose awash at low water is situated with the north extreme of Kang ri a sima bearing N 89 W distant about $6\frac{3}{10}$ cables and Hi ta shima (near Sikura village) N 20° W

Shoal water extends for $4\frac{1}{2}$ cables to the eastward of this rock

(g) A rock named Hiratoko with a depth over it of $5\frac{1}{4}$ fathoms is situated with the islet off Maru yama point bearing S 79 E distant $5\frac{3}{10}$ cables and the south extreme of Moto shima (Ebi shima) N 67 E

(h) A rock named Shizumi with a depth of $2\frac{1}{2}$ fathoms over it is situated with the north extreme of Moto shima (Ebi shima) bearing S 67° E distant about 5 cables

Approximate position lat 33° 41 10" N, long 135° 21 15" E

(i) A rock, named Takafude with a depth of $4\frac{1}{4}$ fathoms over it situated with the north extreme of Moto shima (Ebi shima) bearing S 8?° E distant about 2 miles

Approximate position, lat 33 41 10" N long 13 ° 19 50" E

(j) A rock, named Nadanohae with a depth of $1\frac{1}{4}$ fathoms over it is situated with the north extreme of Moto shima (Ebi shima) bearing S 78° E distant about 2 miles

Approximate position lat 33° 41 20" N long 135 19 35" E

(k) A rock named Choongariso with a depth of $3\frac{1}{4}$ fathoms over it is situated with Shika jima (Ichi no shima) bearing S 34° E, distant about $2\frac{1}{4}$ miles

Approximate position, lat 33° 45 15 N long 135° 19 40" E

(l) A rock named Nakanoshima with a depth of $3\frac{1}{2}$ fathoms over it, is situated with Shika jima (Ichi no shima) bearing S 34° E, distant about $2\frac{4}{10}$ miles

Approximate position, lat 33° 45 20 N, long 135° 19 35 E

NOTE —New editions of charts Nos 357 and 951 will be issued

(2) Fuku ura—Rocks—Beacon

Also that the under mentioned rocks exist in Fuku ura on the south coast of Nipon —

(a) A rock, named Nakakuiomi with a depth over it of $1\frac{1}{4}$ fathoms is situated with To saki bearing N 22° W, distant about $3\frac{1}{2}$ cables, and Sumi saki S 15 W

Approximate position, lat 33° 28 5" N, long 135 16 10 E

(b) A rock, named Kajikake, which dries 3 feet is situated with To saki bearing N 22° E, distant about 3 cables, and the summit of Inamura jima N 63 W

Shoal water of less than 3 fathoms extends for a distance half a cable to the southward of the rock

A small triangular beacon has been erected on this rock, but its existence cannot be relied on

(*Variation 4½° Westerly in 1901*)

AUSTRALIA, SOUTH—GULF OF ST VINCENT—APPROACH TO PORT ADELAIDE

Wonga shoal—Date of exhibition of the light

WITH reference to Notices to Mariners issued by this office No 144 dated 15th June 1900 No 304, dated 27th November 1900, and No 56 dated 4th March 1901, the President Marine Board Port Adelaide has given further notice (No 13 of 1901) informing masters of vessels and others that the light on Wonga Shoal, Port Adelaide, will be exhibited on the night of the 1st July 1901

The light will be of the first order, white bright flash every thirty seconds, visible around the horizon for a distance of seventeen miles

The whole structure, including tower and keepers quarters, will be on screw piles, and will be constructed of iron

The lantern, tower, and superstructure will be painted red and the keepers quarters white

Approximate position, latitude 34° 50 2 S longitude 138° 26 58″ E

As notified in Notice to Mariners No 8 of 1900 a temporary light of the third order revolving every thirty seconds, visible about fifteen miles, will be exhibited from a temporary tower on the old Port Adelaide lighthouse on and after Monday, April 29th during the removal of the lighting apparatus and from July 1st 1901, until the old lighthouse is dismantled and the removal of the structure completed a riding light will be exhibited therefrom

From July 1st 1901 a white occulting light visible for a distance of five miles, will be shown from a buoy placed in the position now occupied by the red buoy, to mark the entrance to the river

This affects Admiralty plans Nos 1 30 and 1 2

	Inches
The mean pressure of the seven days	29 630
The average pressure of the corresponding period for 24 years Surveyor General's Office	29 598
	Hours
The total number of hours of bright sunshine	60 1
The maximum possible number of hours of sunshine	93 1
The mean temperature of the seven days	86 8
The average temperature of the corresponding period for 24 years, Surveyor General's Office	86 5
The extreme variation of temperature	23 0
The maximum temperature	96 9
	Miles
The highest velocity of the wind in one hour	17
	%
The mean relative humidity	77
The average relative humidity of the corresponding period for 24 years Surveyor General's Office	75
	Inches
The total fall of rain from 26th May to 1st June 1901	1 98
The average fall of the corresponding period for 24 years, Surveyor General's Office	1 45
The total fall from 1st January to 1st June 1901	12 14
The average fall of the corresponding period for 24 years, Surveyor General's Office	9 76

The mean pressure temperature etc, are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides, and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard, Newman's No 86, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

o, overcast, g, gloomy, d, drizzling rain, p, passing temporary showers, t, thunder, <, lightning, /, strong wind, ⌂, dew

REVENUE DEPARTMENT—(LAND REVENUE)

NOTIFICATION—No 501T R

Patna

The 4th June 1901 —Whereas in diara Mallahi pargana Gyaspore tauzi No 926, situated in Pabei, station Barh in the district of Patna, a serious dispute has long been existing between landlords and tenants and whereas this dispute may be settled by the preparation of a record of rights by a Revenue officer, the Lieutenant Governor of Bengal in exercise of the powers conferred on him by section 101 (2) (b) of the Bengal Tenancy Act VIII of 1885, as amended by Act III (B C) of 1898 is pleased to direct that a survey shall be made and a record of rights prepared in respect of the lands situate within the boundaries of the said mauza diara Mallahi

The particulars to be recorded in the said survey and record of rights shall be the following —

(a) The name of each tenant or occupant

(b) The class to which each tenant belongs that is to say, whether he is a tenure holder, raiyat holding at fixed rates settled raiyat, occupancy raiyat non occupancy raiyat or under raiyat, and if he is tenure holder, whether he is a permanent tenure holder or not and whether his rent is liable to enhancement during the continuance of his tenure

(c) The situation and quantity and one or more of the boundaries of the land held by each tenant or occupier

(d) The name of each tenant s landlord

(e) The money rent payable at the time the record of rights is being prepared or if a produce rent is taken by appraisement or division of the produce, in what proportion

(f) The mode in which the rent has been fixed, whether by contract, by order of a Court or otherwise

(g) If the rent is a gradually increasing rent, the time at which, and the steps by which it increases

(h) The special conditions and incidents, if any, of the tenancy

(i) If the land is claimed to be held rent free, whether or not rent is actually paid, and if not paid, whether or not the occupant is entitled to hold the land without payment of rent and if so entitled under what authority

(j) The name of each proprietor with the character and extent of his interest, and the situation quantity and one or more of the boundaries of each proprietor's private lands as defined in Chapter XI of the Act

SURVEYOR'S REMARKS

(Col 20)

I hereby declare as follows, viz —

(1) That on the day of 190 , I inspected the machinery of the steam ship named in the space, marked column 1, in this form and all the safety valves and fire-hose on board the same

(2) That the machinery of the said ship is sufficient for the service intended and in good condition

(3) That the said machinery will, in my judgment, be sufficient until the day of next

(4) That the safety valves and fire hose are such and in such condition as required by the rules under Act VII of 1884

(5) That the weight to be placed on the safety valves in the said ship is not to exceed the "pressure per square inch in lbs" stated in column 18 in this form, and that such weight has been placed on them accordingly

(6) That the said ship, as regards her machinery, is, in my judgment, fit to ply as a sea going steam ship

DATED AT
This day of 190

Engineer Surveyor to the Govt of Bengal under Act VII of 1884

I hereby declare as follows, viz —

(1) That on the day of 190 , I inspected the hull of the said ship and the boats, life saving appliances, lights, signals, and other equipments on board the same, and the certificates of the master, mates and engineers

(2) That the hull of the said ship is sufficient for the service intended and is in good condition

(3) That the boats, life saving appliances, lights, signals, compasses and shelter for deck passengers on board the said ship, and the certificates of the master and mate or mates, are such and in such condition as required by the Acts and Rules in force on the subject

(4) That the hull of the said ship and the equipments before named will, in my judgment, be sufficient until the day of next

(5) That the said ship is, in my judgment, fit to ply as a sea going steam ship with the number of passengers stated in the space, marked column 11 in this form, when there is no encumbrance of the space measured for the passenger accommodation, but is not fit to ply as a sea going steam ship with a greater number of passengers

(6) That the certificate or certificates of the engine driver, engineer or engineers is or are such and in such condition as required by Act VII of 1884

DATED AT
This day of 190

Shipwright Surveyor to the Govt of Bengal under Act VII of 1884

NOTICE

When this Declaration has been completed by the Surveyor, it is to be given to the Owner or Master who is required by Section 12 of the Indian Steam Ships Act, VII of 1884, to transmit it to the Port Officer within fourteen days after the date of the receipt thereof The same section provides that the Owner or Master shall forfeit a sum not exceeding five rupees *for every day* that the sending of the Declaration is delayed beyond the period of fourteen days above specified

To be filled in by the Surveyor

* This Declaration was (given) (sent by Post) to the Person named opposite, by the Surveyor whose Signature it bears, on the date stated opposite } Person ______ Date ______

This Declaration was received this ______ day of ______ 190 ___ } by me ______

(State whether Owner or Master)

And transmitted to the Port Officer this ______ day of ______ 190 } by me ______

(State whether Owner or Master)

Port or Mercantile Marine Office to which the Certificate is to be sent }

Name and address of the person to whom the Certificate is to be delivered on application }

State whether Owner, Agent, or Master of the Vessel

After the Owner or Master has signed the above receipt for this Declaration and has filled in the name of the Port or Mercantile Marine Office to which he wishes the Certificate to be sent, he is to send the Declaration in an envelope addressed to The Port Officer, Port Office, Calcutta

When this Declaration has been received at the Port Office and is found satisfactory by the Local Government and not until then, the Certificate in duplicate will be delivered through the Port Office named above at which office the Owner, Agent or Master named above for that purpose must apply for it and pay the necessary fee, expenses, and forfeiture (if any) charged under the Indian Steam Ships Act, 1884

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1901

WITH reference to Notification No 5058F in the *Calcutta Gazette* of the 28th December 1892 Part I, page 1172 the ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH will be given this year to the author of the best original essay composed during the year 1901, giving the results of original research or investigation by the essayist on *Mathematics*

2 Any native of Bengal including any Eurasian or domiciled European residing in Bengal, may compete for the prize

3 The essays of competitors *must be* sent in to the President of the Bengal Asiatic Society, 57 Park Street, Calcutta, by the end of December 1901 The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1902

Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal In the case of no essay being deemed by the Trustees to be of sufficient merit no prize is to be awarded, but the amount is to be retained so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay

BAICHARAN GHOSH, for Collector

Advertisement of Sale

NOTICE is hereby given that the occupancy right of the tenants in the undermentioned plots of land no longer required by Government, situated in the villages of Koyah and Bothlagiri in the district of Rangpur will be put up to sale at 11 o'clock on Thursday the 25th July 1901 corresponding with the 9th Sravan 1308 Bengali at the Saidpur Court house. The purchasers of the several plots of land will be subject to the following conditions —

1st —The purchasers will have no power to make any excavations on the land nearer than 15 feet from the railway fencing or plough the lands closer than 3 feet from its foundation.

2nd —If the amount of purchase money does not exceed Rs 100 the whole amount must be paid down at once.

3rd —If the amount of purchase money exceed Rs 100 one fourth of the amount must be immediately deposited. If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day the sale shall be cancelled the sum deposited being forfeited to Government and the lot again put up for sale at the risk of the defaulting purchaser after issue of advertisement, as in the case of original sale.

4th —The plots of land will be sold revenue-free to the highest bidder.

5th —The purchasers shall be put in possession on receipt by the District Collectors of the orders of the Board confirming the sale.

The Indian Law Reports

Published under the Authority

THE Indian Law Reports published under the authority of the Governor General in Council appear in monthly parts published as soon as possible after the first of each month at Calcutta, Madras, Bombay and Allahabad. The series comprise four series, one for the Calcutta High Court, another for the Madras High Court, a third for the Bombay High Court, and a fourth for the Allahabad High Court. The cases decided by the Privy Council on appeal from each High Court are included in the series for that Court. Cases decided by the Privy Council on appeal from India not subject to any High Court are reported in the Calcutta Series.

The Calcutta Series is distributed by the Bengal Secretariat Book Depôt, and the Madras, Bombay and Allahabad Series are distributed direct from Madras, Bombay and Allahabad respectively.

In supersession of the previous advertisements on and from the 1st January 1899 the terms of subscription and sale will be as follows for the reports from 1876 —

Terms of subscription payable annually in advance

PACIFIC OCEAN—Fiji islands

Caution —Extensive bank reported to the north eastward

The British Admiralty has given notice (No 306 of 1901) that the S S *Manapouri* on the 7th January last, saw the bottom and obtained soundings of 13 fathoms over a distance of about 11 miles, in approximately lat 15° 55 S long 176° 50 W

This is near the position of the shoal reported by Captain Wilson of the schooner *Zephyr* in 1875, who stated that in lat 15° 58 S., long 177 10 W he saw an extensive shoal on which there was a rock awash (*see* Notice to Mariners No 58 of 1876)

In June 1876 H M S *Pearl*, when passing the reported position of the shoal obtained two soundings o 5½ fathoms at night Sail was shortened and course altered, but almost immediately afterwards no bottom could be obtained at 12 fathoms The position given by H M S *Pearl* was lat 16° 0 S long 176° 6 W

In 1879, Captain Carmichael of the schooner *Louisanna* reported obtaining soundings of from 15 to 17 fathoms in lat 15° 56 S, long 176 56 W

The Zephyr shoal was searched for in 1895 by H M Surveying vessel *Penguin*, Commander A Balfour and soundings of 11 fathoms were obtained in lat 15° 53 S, long 176° 46 W, or near the position given by the S S *Manapouri*

The shoaler water reported by H M S *Pearl* and by the schooner *Zephyr* was not found, although the weather was somewhat rough so that Commander Balfour was of the opinion that did such soundings exist the sea would have been breaking over the locality

In consequence of the above reports Mariners are warned that much shoaler water may exist in this locality than is at present shown on the Charts

This Notice affects the following Admiralty Charts —Pacific Ocean, south west sheet, No 780 Fiji islands to Samoa island, No 1829 Also Sailing Directions for the Pacific islands Vol II, 1900 page 257

AUSTRALIA, SOUTH—STREAKY, SMOKY, DENIAL AND MURAT BAYS

Beacons and buoys established

THE British Admiralty has given notice (No 324 of 1901) that the following beacons and buoys have been established in the undermentioned bays on the south coast of Australia —

Streaky Bay

(*a*) A red pile beacon with a ball as topmark has been erected in a depth of 6 feet on the eastern extremity of the South sand, with the house near Perlubie Point bearing East, distant 2 miles

Approximate position, lat 32 38½ S, long 134° 15 E

Dashwood channel, north side —

(*b*) A black buoy surmounted by a framework and diamond has been moored in a depth of 4 fathoms with Cape Bauer bearing S 24° W, distant 8$\frac{7}{10}$ miles and Brown Point N 80° W

(*c*) A black buoy surmounted by staff and diamond has been moored in a depth of 3 fathoms, with Cape Bauer bearing S 34° W, distant 9$\frac{3}{10}$ miles, and red beacon on South sand, S 60° E

Dashwood channel south side —

(*d*) A red buoy surmounted by staff and ball has been moored in a depth of 4 fathoms, with Cape Bauer bearing S 20° W, distant 7$\frac{8}{10}$ miles and De Mole point, N 50° W

(*e*) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms with Cape Bauer bearing S 38 W, distant 9$\frac{3}{10}$ miles, and De Mole point, N 60 W

There is a depth of 3 fathoms throughout this channel at L W O S

Smoky Bay

Waterwitch channel north side —

(*a*) A black buoy surmounted by staff and diamond has been moored in a depth of 3½ fathoms with Cape d Estree bearing N 20° E, distant 2$\frac{7}{10}$ miles, and Saddle Peak, N 87° E

Approximate position, lat 32° 18¾ S, long 133° 44 E

(*b*) A black buoy surmounted by staff and diamond has been moored in a depth of 3 fathoms, with west point of Eyre island bearing S 10° E distant 3$\frac{8}{10}$ miles and Saddle peak S 88° E

Waterwitch channel, south side,—

(*c*) A red buoy surmounted by staff and ball has been moored in a depth of 3½ fathoms, with Cape d'Estree bearing N 20° D, distant 3$\frac{4}{10}$ miles, and mount Younghusband, N 56° W

(*d*) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms, with the western end of Eyre island bearing S 8° E, distant 3 miles, and Saddle peak, N 84° E

Denial Bay

Yatala channel, north side —

(a) A black buoy surmounted by staff and diamond has been moored in a depth of 2½ fathoms with cape Vivonne bearing S 68 E, distant 2½ miles, and Cape Thevenard, N 5° E

Yatala channel south side —

(b) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms with Bird rock bearing N 68° E, distant about 8 cables

This channel has a depth of 2½ fathoms throughout

Murat Bay

The north end of the spit at the entrance to this bay has been marked by black beacon with diamond topmark erected in a depth of 6 feet It has been placed on the chart with Daphne rock bearing S 62°E, distant 8 cables

Approximate position, lat 32° 9½ S long 133° 38 E

(Variation 3° Easterly in 1901)

Kami kama gari shima—Shoals in the vicinity

THE British Admiralty has given notice (No 290 of 1901) that, during a recent survey in the vicinity of Kami kama gari shima, the under mentioned dangers were discovered —

a A shoal with a depth of 3¾ fathoms, stones is situated to the north eastward of the islet off the S E extreme of Kami kama gari shima, with the east extreme of the islet bearing S 51° 30 W, distant three fifths of a cable, and the S W extreme of Okubi shima bearing S 24 20 E

Approximate position, lat. 34° 9′ 20″ N, long 132° 44 55″ E

b A rock that dries 13 feet is situated on the bank on the western side of Okubi shima, with the eastern extreme of the above mentioned islet bearing N 34°

50 W distant 4 cables, and the N W extreme of Okubi shima bearing N 51 45 E

Approximate position, lat 34° 9 5" N long 132° 45 10" E

c A shoal with a depth of 3¾ fathoms, mud is situated to the southward of Shimo kama gari shima, with Ono no hana bearing N 57° 15 W distant 7 cables and the N W extreme of Koguro jima bearing S 30° 30 W

Approximate position, lat 34° 9 55 N, long 132° 39 15 E

(Variation 4¼ Westerly in 1901)

This Notice affects the following Admiralty Chart —Yanagi no Seto to Neko Seto, No 1 06 Also, China Sea Directory, vol IV, 1894, pages 407, 408

EASTERN ARCHIPELAGO—JAVA—NORTH COAST

CAUTION —*Bantam bay—Shoal off Pontang point*

THE British Admiralty has given notice (No 299 of 1901) that the Master of the S S *Queen Olga* reports having obtained a sounding of 3¼ fathoms very soft mud off Pontang point in a position with Pamujan besar island bearing S 74° W, distant 5 miles, and the west extreme of Babi island bearing N 24° W

Approximate position, lat 5° 55 S, long 106° 18 E

CAUTION —From the above report it appears that the bank to the eastward of Pontang point has extended since it was surveyed in 1886 mariners are therefore recommended when rounding it to give it a good berth

(Variation 0° 30 Easterly in 1901)

NOTICE TO MARINERS—No 166

Third Publication]

JAPAN—NIPON, SOUTH COAST

(1) Tanabé bay (Kii channel)—Rocks

THE British Admiralty has given notice (No 301 of 1901) of the existence of the undermentioned rocks in Tanabé bay, Kii channel, south coast of Nipon —

(a) A rock, named Takashimanone, with a depth over it of about 5 feet, is situated with the south extreme of Taka shima bearing N 34° E, distant 2$\frac{9}{10}$ cables, and the point southward of Seto village, S 73 E Shoal water extends from Taka shima to this rock

Approximate position, lat 33° 40 55" N, long 135° 20 56" E

(b) A rock, named Takashimaose, with a depth over it of 3¼ fathoms, is situated with Tō shima (Square island) bearing S 34° E, distant 1$\frac{3}{10}$ miles, and islet (40 feet high) off Maru yama point N 70° E

(c) A rock named Kamiyagata with a depth over it of 3¾ fathoms is situated with Tō shima bearing S 28° E, distant nearly 1$\frac{3}{10}$ miles, and the islet off Maru yama point N 67° E

(d) A rock named Nakashima with a depth over it of 2½ fathoms is situated with Tō shima bearing S 6° E distant 8 cables and the islet off Maru yama point N 51° E

(e) A rock named Nakanoshima with a depth over it of 1½ fathoms is situated with Tō shima bearing S 67° W, distant about 12½ cables and the islet off Maru yama point N 6° W

Sunken rocks with depths over them of less than 5 fathoms extend for a distance of 1½ cables to the northward and southward of this rock

(f) A rock, named Tanakayose, awash at low water is situated with the north extreme of Kang rha sima bearing N 89 W distant about 6$\frac{3}{10}$ cables and Hata shima (near Sikura village) N 20° W

Shoal water extends for 4½ cables to the eastward of this rock

(g) A rock, named Hiratoko, with a depth over it of 3½ fathoms, is situated with the islet off Maru yama point bearing S 79 I distant 8$\frac{1}{10}$ cables and the south extreme of Moto shima (Ebi shima) N 67 E

(h) A rock, named Shizumi, with a depth of 2½ fathoms over it is situated with the north extreme of Moto shima (Ebi shima) bearing S 67° E, distant about 5 cables

Approximate position, lat 33° 44 10″ N, long 135° 21 15″ E

(i) A rock, named Takafude with a depth of 4½ fathoms over it situated with the north extreme of Moto shima (Ebi shima) bearing S 82° E, distant about 2 miles

Approximate position, lat 33° 44 10″ N, long 135° 19 30″ E

(j) A rock named Nadanohae, with a depth of 4½ fathoms over it is situated with the north extreme of Moto shima (Ebi shima) bearing S 70° E distant about 2 miles

Approximate position lat 33° 44 20″ N long 135 19 3ȷ E

(k) A rock named Chongarise with a depth of 3½ fathoms over it is situated with Shika jima (Ichi no shima) bearing S 34° E, distant about 2½ mile

Approximate position, lat 33 45 15″ N long 135° 19 40″ E

(l) A rock, named Nakanoshima with a depth of 3½ fathoms over it, is situated with Shika jima (Ichi no shima) bearing S 34° E, distant about 2$\frac{4}{10}$ miles

Approximate position, lat 33° 45 20 N, long 135° 19 35″ E

NOTE —New editions of charts Nos 357 and 951 will be issued

(2) Fuku ura—Rocks—Beacon

Also that the under mentioned rocks exist in Fuku ura on the south coast of Nipon —

(a) A rock named Nakakuromi with a depth over it of 1½ fathoms is situated with To saki bearing N 22° W, distant about 3½ cables, and Sumi saki S 45° W

Approximate position, lat 33° 28 5″ N, long 135° 46 40 E

(b) A rock, named Kajikake, which dries 3 feet, is situated with To saki bearing N 22 E distant about 3 cables, and the summit of Inamura jima N 63° W Shoal water of less than 3 fathoms extends for a distance half a cable to the southward of the rock

A small triangular beacon has been erected on this rock, but its existence cannot be relied on

(Variation 4½° Westerly in 1901)

This Notice affects the following Admiralty Charts —Kii channel to Owase bay, No 951 bay of Tanabe on sheet No 357 Oo sima harbour on sheet No 356 Also, China Sea Directory vol IV, pages, 257, 258, 259 and 261

AUSTRALIA, SOUTH—Gulf of St Vincent—Approach to Port Adelaide

Wonga shoal—Date of exhibition of the light

With reference to Notices to Mariners issued by this office No 144 dated 15th June 1900 No 301 dated 2[illegible]th November 1900 and No 56 dated 4th March 1901 the President Marine Board Port Adelaide has given further notice (No 13 of 1901) informing masters of vessels and others that the light on Wonga Shoal Port Adelaide, will be exhibited on the night of the 1st July 1901

The light will be of the first order white bright flash every thirty seconds visible around the horizon for a distance of seventeen miles

The whole structure including tower and keepers quarters will be on screw piles and will be constructed of iron

The lantern tower and superstructure will be painted red and the keepers quarters white

Approximate position latitude 34° [illegible] 2[illegible]″ S longitude 138° 26′ [illegible]8″ E

As notified in Notice to Mariners No 8 of 1900, a temporary light of the third order revolving every thirty seconds visible about fifteen miles, will be exhibited from a temporary tower on the old Port Adelaide lighthouse on and after Monday April 29th during the removal of the lighting apparatus and from July 1st, 1901, until the old lighthouse is dismantled and the removal of the structure completed a riding light will be exhibited therefrom

From July 1st 1901 a white occulting light visible for a distance of five miles will be shown from a buoy placed in the position now occupied by the red buoy to mark the entrance to the river

This affects Admiralty plans Nos 1750 and 17[illegible]2

RESULT OF THE EXAMINATION FOR ADMISSION TO THE EXECUTIVE BRANCH OF THE PROVINCIAL CIVIL SERVICE AND THE SUBORDINATE CIVIL SERVICE HELD IN APRIL 1901

No 602A —D

RESOLUTION

APPOINTMENT

Dated Darjeeling, the 6th June 1901

READ—

The Resolution of the 1st June 1900, reviewing the result of the examination held in that year and appointing candidates to be probationers in the Executive Branch of the Provincial Civil Service and in the Subordinate Civil Service

The Notification of the 31st December 1900 publishing rules for the examination of 1901 for admission to the Executive Branch of the Provincial Civil Service and to the Subordinate Civil Service

The Reports of the Examiners at the examination held on the 9th, 10th, 11th and 13th April 1901

The three Probationary Deputy Collectors and two Probationary Sub Deputy Collectors appointed on the result of the examination held in 1900 have all been absorbed into officiating or substantive *pro tempore* appointments A Probationary Deputy Collector and a Probationary Sub Deputy Collector elected on the result of the Agricultural Examination of the Sibpur Engineering College still remain to be provided with similar appointments

2 In December last it was notified that at the examination to be held this year five candidates would be selected for Probationary Deputy Collectorships, on a subsistence allowance of Rs 50 a month, and three for Probationary Sub Deputy Collectorships, on a subsistence allowance of Rs 30 a month It was announced that three Probationary Deputy Collectorships would be given to the first three candidates on the list in order of merit, that for the remaining two Probationary Deputy Collectorships two candidates would be selected by the Lieutenant Governor from those who had obtained not less than one third of the total marks and that a similar selection would be made for the Sub Deputy Collectorships

3 The examination was held on the 9th April and the three days following. One hundred and five applicants obtained permission to compete and 99 actually appeared and sent in papers, of whom 12 were Muhammadans, 5 Bihari Hindus, and 2 Uriyas The total number of candidates who obtained one third marks and above was 96

4 The following three candidates, who gained the three highest places in order of merit, are, in accordance with the terms of the notification of 31st December 1900, entitled to, and will receive, appointments as Probationary Deputy Collectors —

	Number of marks
Babu Rebati Mohan Chakravarti, M A	596
" Akshay Kumar Sur B A	571
" Praphulla Sankar Sen M A	566

The Lieutenant Governor selects Babu Dayanidhi Das, B A, a Uriya for the fourth appointment, and Maulvi Syed Abdus Samad, B A, a Bihari Muhammadan for the fifth appointment

These probationary officers will receive a subsistence allowance of Rs 50 per mensem, and, if the reports from the districts in which they are stationed are favourable, they will, after such period of probation as may seem advisable be appointed to the officiating grade, or if possible to the eighth grade of Deputy Magistrates and Deputy Collectors, as vacancies occur They will not be vested with magisterial powers until they are so appointed Separate orders will be passed posting these officers to districts.

5 The following are the three candidates selected by the Lieutenant Governor to be Probationary Sub Deputy Collectors—

Babu Bhuban Mohon Chatterji, B A
" Jitendra Nath Sircar, B A
" Amarendra Nath Pal Chaudhuri, B A

These probationary officers will receive a subsistence allowance of Rs 30 per mensem at present, and, if they are satisfactorily reported on, will be gradually absorbed into the fourth grade of Sub Deputy Collectors as vacancies occur Separate orders will be passed posting them to districts

6 The above appointments are subject to the condition that the candidate in each case must obtain the medical certificate of fitness required by rule 5 of the rules contained in the Notification of the 31st December 1900, quoted in the preamble

ORDER —Ordered that a copy of the above Resolution be published in the *Calcutta Gazette*

By order of the Lieutenant Governor of Bengal,

C E BUCKLAND,

Offg Chief Secy to the Govt of Bengal

ANNUAL ADMINISTRATION REPORT OF THE METEOROLOGICAL DEPARTMENT FOR 1900 1901

The following report is published for general information

F A SLACKE,
Secretary to the Govt of Bengal

DARJEELING,
The 8th June 1901

The Bengal Meteorological Department was under my charge from 1st April to 24th July and again from 28th September to the end of the official year I was absent on privilege leave from 25th July to 27th September, when Mr G W Kuchler, Assistant Meteorological Reporter to the Government of India, acted for me

2 On the 31st March 1901, the number of observatories under my direct control was 46, i e, one less than on the same date last year The decrease was due to the voluntary observatory at Shortt's Island having been closed on the 31st July The observatory was situated in the Light house grounds and as the Light house was ordered by the Government of Bengal to be dismantled owing to encroachment by the sea, the observatory had to be closed

3 Purulia and Daltonganj observatories, which were started and hitherto maintained by the Government of Bengal, were, by order of the Government of India, transferred to the Imperial Meteorological Department, with effect from 1st April 1900 They have hence been classed as "third class observatories" instead of as "voluntary observatories" in the table given below

4 The following table gives the names and distribution of these 46 observatories —

Second class observatories

Chittagong	Darjeeling	Hazaribagh
Darbhanga	False Point	Saugor Island

Third class observatories

Arrah	Daltonganj	Narayanganj
Balasore	Dehri	Naya Dumka
Bankura	Dinajpur	Noakhali
Barisal	Faridpur	Pamban (in Madras)
Berhampore	Gaya	Patna
Bhagalpur	Jalpaiguri	Puri
Bogra	Jessore	Purnea
Burdwan	Krishnagar	Purulia
Buxar	Malda	Rampur Boalia
Chaibassa	Midnapore	Ranchi
Chapra	Motihari	Raniganj
Comilla	Muzaffarpur	Rangpur
Cuttack	Mymensingh	Sirajganj

Voluntary observatory

Cooch Behar

5 From the above table it will be seen there were six second class observatories recording three sets of observations (viz, at 8 A M, 10 A M, and 4 P M), thirty nine third class observatories recording one set of observations (viz, at 8 A M) and one voluntary observatory, which also records one set of observations at 8 A M

6 As stated in previous administration reports, daily weather telegrams were received from the first class observatory at Alipore and from nineteen other stations in Assam, Burma, Madras, and Ceylon for inclusion in the daily weather report issued by this office

7 There has been no alteration in the system of observations hitherto in force, except that the record of pressure and temperature by automatic instruments was introduced at the stations given below —

Station	Date of commencement of observation
Puri	1st September 1900
Cuttack	29th August
Chittagong	8th March 1901

An additional allowance of Rs 5 per month has been sanctioned for the observers at the abovenamed stations for these barograph and thermograph observations

8 *Inspection of observatories* — By an order of the Government of Bengal (No 147, dated 11th January 1901), I have been directed to inspect eight or ten observatories each year at times when weather is of so settled a character that the issue of the daily weather report may be carried out by my head clerk I have also been directed to so arrange that each observatory is inspected at least once in two years Under this arrangement I visited Saugor Island on the 7th and 8th March, and Midnapore on the 2?th March

The following observatories were also inspected during the past year —

By Mr Eliot Meteorological Reporter to the Government of India and Director General of Indian Observatories —

Gaya—Inspected on 3rd and 4th February

By Babu Jati Lal De, head clerk Meteorological Office, Bengal—

Malda—Inspected on 10th and 11th February
Purnea—Inspected on 14th and 15th ,,
Rangpur—Inspected on 16th and 17th ,,

By Mr C Gaetine, an officer of the India Meteorological Office—

Cuttack—Inspected on 27th and 28th August
Puri—Inspected on 30th and 31st ,,
Midnapore—Inspected on 6th January
Balasore—Inspected on 8th ,,
Chaibassa—Inspected on 25th and 26th February

9 The observatories at Gaya Saugor Island, Cuttack Puri and Malda were found to be in good condition at the time of inspection while those at Rangpur Midnapore, Balasore and Purnea were in, more or less unsatisfactory condition

10 *Second class observatories* —Very accurate observations were received from Hazaribagh and Darjeeling, and the remaining observatories generally did good work

11 *Third class observatories* —The observers at Barisal Berhampore, Bogra, Burdwan, Cuttack Dinajpur, Krishnagar, Muzaffarpur Narayanganj, Patna Raniganj and Sirajganj submitted accurate observations throughout the year The observers at Faridpur, Motihari, Purnea and Rangpur have been careless as before The observer at Pamban seems to have paid less attention to his work than in previous years Generally correct observations were received from the remaining observatories

12 The Rangpur observatory has for some time past, been in an unsatisfactory condition Both Babu Gopal Chandra Mitra, Signaller and Babu Barada Charan Sircar, Postmaster, who acted as observers seemed not to take the least interest in the work The latter left Rangpur in January last, when Babu Nibaran Chandra Banerjee took over charge The observatory was visited on the 16th and 17th February when it was found to be in tolerably good condition Since the inspection there has been some improvement

13 The Purnea observatory continued to be in a most unsatisfactory condition, and the observer Syed Izhar ud din Ahmad, Civil Hospital Assistant failed to give satisfaction in his work He was transferred from Purnea in October 1900, when Babu Kristo Kumar Das, Civil Hospital Assistant, was appointed observer The observatory was inspected on 14th and 15th February when it was found to be in bad condition The observer knew his work but apparently took very little interest in it Since the inspection there seems to have been some improvement in the nature of the observations submitted

14 *Voluntary observatories* —As stated in paragraph 2 of this report, the Shortt's Island observatory was closed on the 31st July 1900 The observations recorded by Mr W D'Crutz, the Light house keeper, were, for the most part, accurate and trustworthy The observatory at Cooch Behar continued to send accurate observations

15 It was stated in paragraph 11 of my last administration report that arrangement had been made for the removal of the Malda observatory from the Hospital grounds to the Circuit house compound The removal was effected on 1st August 1900 The thermometer shed has been erected on a piece of open ground close to the Post office The wind instruments have been fixed to the roof of the Circuit house and the rain gauge close to the shed The position of the wind instruments was, however, found on inspection by my head clerk in February last, to be very unsatisfactory owing to the close proximity of lofty trees Arrangements are being made for the removal of the windvane and anemometer to a better site

16 The following observers were granted special awards by the Meteoro logical Reporter to the Government of India and Director General of Indian observatories for storm observations, &c, taken by them during the past year —

Station	Amount	Station	Amount
1	2	3	4
	Rs		Rs.
Barisal	24	Rampore Boalia	1-4
Burdwan	7	Saugor Island	2 8
Mymensingh	1 8	Shortt's Island	36
Puri	2	Pamban	5

17 *Work at and inspection of rain gauge stations* —The number of rain gauge stations on the 31st March 1901 was 362, i e, 7 more than on the corresponding date in 1900 The increase is due to the establishment of the following stations —

Station	District
1	2
Barkol	Chittagong Hill Tracts
Katbari	Singhbhum
Serai Killa	Ditto
Kharswan	Ditto
Chhindipada	Angul
Tikerpara	Do
Kumerkhole	Do

18 The work of inspection of rain gauges by local officers was very satisfactorily done during the past year Three hundred and one visits of inspection were made The total number of rain gauges inspected was 194 Generally the rain gauges and the rainfall records were found to be in good

order These frequent visits of the inspecting officers have resulted in a marked improvement in the nature of the rainfall returns submitted by the rain registering officers

19 The following table shows the distribution of the 362 rainfall stations in the various districts in Bengal, as it stood on 31st March 1901 and the number of stations inspected in each district during the past year —

DISTRICT	Number of rain gauge stations	Number of rain gauge stations inspected	DISTRICT	Number of rain gauge stations	Number of rain gauge stations inspected
1	2	3	4	5	6
Burdwan	5	5	Chittagong	7	5
Birbhum	6	1	Chittagong Hill Tracts	3	2
Bankura	10	9	Patna	6	3
Midnapore	8	7	Gaya	10	9
Hooghly	3	1	Shahabad	14	5
Howrah ..	3	1	Saran	9	3
24 Parganas	9	4	Champaran	5	3
Nadia	5	Nil	Muzaffarpur	7	3
Murshidabad	9	3	Darbhanga	5	3
Jessore	5	4	Monghyr	10	4
Khulna	12	8	Bhagalpur	8	6
Rajshahi	6	3	Purnea	7	Nil
Dinajpur	10	10	Malda	4	2
Jalpaiguri	6	3	Sonthal Parganas	20	13
Darjeeling	7	3	Cuttack	8	2
Cooch Behar	5	Nil	Balasore	7	1
Rangpur	8	5	Puri	9	1
Bogra	4	2	Hazaribagh	6	4
Pabna	2	2	Ranchi	11	5
Dacca	5	3	Palamau	10	6
Mymensingh	10	3	Manbhum	7	6
Faridpur	3	2	Singhbhum	10	4
Backergunge	7	6	Orissa Tributary Mahals ..	8	Nil
Hill Tippera	1	Nil	Angul	11	6
Tippera	8	7	Tibet	1	Nil
Noakhali	7	6			

20 From the above table it will be seen that no rain gauges were inspected in the districts of Nadia, Cooch Behar and Purnea, while in Birbhum, Hooghly, Howrah, 24 Parganas, Murshidabad, Darjeeling, Mymensingh, Shahabad, Saran, Muzaffarpur, Monghyr, Cuttack, Balasore, Puri, Ranchi and Singhbhum, nearly half or more than half of the number of stations were not visited

21 The system of supplying rain gauges and measure glasses to the rain registering officers in Bengal from the Meteorological Office, Bengal, by an arrangement mentioned in paragraph 17 of my last administration report was found to work satisfactorily

22 *Departmental reports* —The short annual report on the meteorology of Bengal for the year 1900 with two maps illustrating the actual and percentage rainfall was prepared before the close of the past official year (It was submitted to the Government of Bengal on 12th April 1901)

23 The report on the meteorology of Bengal for the monsoon season of 1900 was prepared and submitted to the Government of Bengal on the 11th January 1901 The usual number of rainfall maps illustrating the distribution of rainfall over the province, the district variation from the normal and the percentage variation from the normal for the monsoon period of 1900 were also prepared and submitted to Government with the monsoon summary

24 The monthly rainfall table for Bengal and the meteorological table for Bengal and Assam with a summary of the chief features of the weather of the month was published in the *Calcutta Gazette* about the middle of every month

25 The following annual rainfall tables were prepared and published in the *Calcutta Gazette* —

Table I—Showing the monthly and annual rainfall at 360 stations in Bengal for 1900

Table II—Showing the monthly and annual average rainfall at 251 rainfall stations in Bengal

Table III—Comparison table of the rainfall of 1900 at 204 rainfall stations in Bengal with averages of previous years

Addenda to the rainfall table of the Province of Bengal for the year 1900

26 A set of three charts showing the distribution of actual rainfall, the variation from the normal and the percentage variation was prepared and submitted monthly to the Government of Bengal and furnished to the Sanitary Commissioner for Bengal during the period May to October 1900

27 The Bay of Bengal and Bengal daily weather report dealing with observations taken at 66 meteorological observatories was published from 1st May to 31st October, and the smaller report, the Bay of Bengal report, was published during the rest of the year

28 The daily flag signal message to Saugor Island and Elephant point (Rangoon) and the daily weather telegram to the following officers were continued throughout the year —

Port Officer, Akyab
Ditto, Moulmein
Ditto, Rangoon
Ditto, Negapatam
Ditto, Coconada.
Vice Chairman, Port Commissioners, Rangoon
Deputy Port Conservator, Madras
Port Conservator, Cuddalore
Ditto, Porto Novo

29 The daily weather telegram was sent to the Port Officer, Chittagong, from 16th May to 16th November (inclusive)

30 The Port Conservator, Calingapatam, has been added to the list of recipients of the daily weather telegram The telegram was sent to him regularly on Fridays, Saturdays and Sundays commencing from 5th October 1900

31 The weather telegram to the Master Attendant, Colombo, was discontinued from 16th February 1901 by order of the Meteorological Reporter to the Government of India and Director General of Indian observatories Instructions have, however, been received to send him telegrams when a cyclone is forming in the Bay and thereafter until the cyclone has dispersed

32 Warnings of expected heavy rainfall were sent to—

The Superintending Engineer, Orissa Circle
Ditto, Sone Circle
Ditto, South western Circle
The Executive Engineer, Cossye Division
Ditto, Balasore Division
Ditto, Akhoyapada Jajpur Division
The Proof Officer, Balasore
The Superintendent of Telegraphs, Madras Division
Ditto, Bengal Division
The Traffic Superintendent, East Coast Railway
The Engineer in Chief, East Coast Railway

33 Information of the occurrence of rainfall above one inch at Daltonganj was sent to the Sub Engineer, Dehri Workshops

34 The following officers have been added to the list of recipients of telegrams of expected heavy rainfall by order of the Meteorological Reporter to the Government of India and Director General of Indian observatories —

The Executive Engineer, Eastern Sone Division
Ditto, Arrah Division
Ditto Buxar Division
The Sub Engineer, Dehri Workshops

35 There was no addition or alteration in the code of storm signals

36 The dates of the principal storms and barometric depressions occurring during the past year are given in the first of the two following tables, and the action taken in the matter of issuing storm warnings and hoisting storm signals is indicated in the second of these tables —

Table giving a brief statement of the storms which affected the Bay of Bengal Coasts during the year 1900 1901

Number of storm	Period of depression or storm	Character of storm	Coast affected
1	2	3	4
1	June 10th to 12th	Cyclonic storm of moderate severity which began in the south or south east of the Bay about the beginning of the second week of June and moving north westward crossed the Orissa Coast on the 12th	Orissa and Bengal coasts
2	July 13th	Feeble barometric depression formed at the head of the Bay and developed and moved from the place of its formation so quickly that it only formed a feature of the weather for a day or two at most The influence which it exerted on the weather was also of the slightest	Ditto
3	July 30th to August 1st	Small cyclonic storm which appeared in the north west of the Bay at the end of July and passed inland in the neighbourhood of Balasore on the 1st of August	Ditto
4	August 9th to 11th	Small cyclonic storm formed off the Orissa coast and developing slowly reached its greatest intensity by the morning of the 11th of August when its centre was in the immediate vicinity of False Point It crossed the coast on the same day and passed rapidly inland in the direction of the Central Provinces	Ditto
5	August 17th to 19th	On the 16th of August weather became unsettled at the head of the Bay and a cyclonic storm gradually formed which reached its greatest intensity on the morning of the 19th when at 8 A M its centre was slightly to the south west of Saugor Island and moving in the direction of Balasore The storm proved to be one of exceptional severity for the period of the year	Ditto
6	September 16th and 17th	Barometric depression surrounded by a well defined cyclonic circulation of winds Its centre was off the Orissa coast at no great distance from False Point on the 16th of September The depression was one of slight importance and considerably below the average depth at the end of the monsoon season By 8 A M on the 17th the centre had moved westwards across Orissa	Ditto
7	September 18th and 19th	A new centre of disturbance was shown near Saugor Island on the 18th when pressure was nearly 2 inch below the normal By 8 A M on the 19th the centre of low pressure which was near Saugor Island had apparently moved westward and the exceptionally heavy rainfall had begun in South West Bengal	Ditto
8	October 4th to 6th	Shallow depression which was over the centre of the Bay with general cyclonic winds on the 3rd and 4th of October It became a well defined cyclonic storm when it was close to the Orissa coast on the morning of the 6th The greatest defect was 3 inch so that the depression was of the kind usual in the monsoon season In crossing Orissa it became diffused and partly filled up	Ditto
9	October 23rd and 24th	Barometric depression which entered the Bay from the east about the 20th of October and developed into one of considerable depth while crossing the Bay towards the Madras coast which it crossed on the 24th	Circars and Coromandel coasts
10	November 2nd and 3rd	Barometric depression which formed over the central parts of the south of the Bay at the beginning of November and became diffused on approaching the Madras coast on the 3rd. It caused cloudy weather with a few light showers over a wide area.	Ditto.

Table showing the action taken by the Bengal Meteorological office in warning the coasts affected by the storms enumerated in the previous table

In column 5 of the above table Calcutta indicates both the Port Office Calcutta and the Deputy Director Indian Marine Government Dockyard, Kidderpore, Calcutta.

37 The thanks of the Department are due to the tea and indigo planters, to the Moravian Missionaries at Pedong and to Mr H F Hobson of Yatung (in Tibet) who have kindly continued to send rainfall returns during the past year, to the Surveyor General, Ceylon, for sending meteorological observations taken at Colombo and Trincomallee for the daily weather report and to Messrs Mackinnon Mackenzie & Company, Agents of the British India Steam Navigation Company for allowing the commanders of their vessels to telegraph summaries of the weather experienced during their voyages

38 *Office establishment*—As in past years the various members of my office staff have performed their duties to my satisfaction In the closing months of 1900 and the opening months of the present year, the work was carried on under exceptional difficulty, in consequence of frequent sickness, which, I think, must have been due to exposure during the heavy rain in the latter half of September Soon after that period of flood two of my clerks died, and for some months afterwards some of my more experienced clerks were absent at intervals on sick leave

C LITTLE,

Meteorological Reporter to the Govt of Bengal

METEOROLOGICAL OFFICE, BENGAL,
The 29th May 1901

REPORT UNDER SECTION 41 OF BENGAL ACT I OF 1893 OF THE WARE HOUSES IN CALCUTTA FOR THE YEAR ENDED 31st MARCH 1901

No 1879M — The 26th May 1901 —The following report is published for general information

E N BAKER,
Secy to the Govt of Bengal

No 717M, dated Calcutta, the 22nd May 1901

From—The HON BLE MR R T GREER, I C S, Chairman of the Corporation of Calcutta,

To—The Secretary to the Government of Bengal, Municipal Department

I HAVE the honour to submit the following report, under section 41 of Act 1 (B C) of 1893, of ware-houses in Calcutta for the year ended 31st March 1901

2 During the year under report the fees under section 10 of the aforesaid Act continued to be levied at 7½ per cent on the annual valuation of the ware houses

3 The following statement describes the result of application for licenses —

Applications: Pending since last year	Applications: Received during the year	Total	Nature of application	Number sanctioned	Number refused	Number pending
3	7	10	Jute	5	3	2
1	55	56	Wood, &c	49	1	6
4	62	66		54	4	8

4 During the year under review 28 licenses were issued for 1899 1900 and 597 for 1900-1901 The following is a statement of the aggregate amount of receipts during the year —

	Rs	A
License fees for 1899 1900	1 303	8
Ditto 1900 1901	24,016	8
Mutation fees and fines	149	0
Total	25,469	0

5 Of 584 licenses for ware houses in 1899 1900, 561 were renewed, 5 cancelled as vacant or unoccupied or not assessable under the Act, while the license fees of 18 remained unrealised at the close of the year

6 The following statement shows the receipts and disbursements of the Ware house Fund during the year 1900 1901 —

Receipts	Amount	Total	Disbursements	Amount	Total
	Rs. A P	Rs. A. P		Rs A. P	Rs. A. P
To Jute Ware-house license fees	25 324 0 0		By contribution to the Fire Brigade (exclusive of Rs 30 964-8 paid from General Fund)	30,964 8 0	30 964 8 0
Miscellaneous receipts and fines	145 0 0	25 469 0 0			
Balance at the commencement of the year	22,182 0 9		Balance at the close of the year—Cash in the Bank of Bengal	16 866 8 9	16,866 8 9
Due from General Fund	180 0 0	22 362 0 9			
Total	...	47 831 0 9	Total		47 831 0 9

7 Appended is a list of ware houses licensed in 1900 1901

List of Warehouses other than Jute licensed in 1900 1901

REPRESENTATION OF THE BHAGALPUR DIVISION IN THE COUNCIL OF THE LIEUTENANT GOVERNOR OF BENGAL

THE following correspondence is published

C E BUCKLAND,
Offg Chief Secy to the Govt of Bengal

No 920J, dated Bhagalpur, the 31st May 1901

Memo by—H C WILLIAMS, Esq, Commissioner of the Bhagalpur Division

COPY of the following submitted to the Chief Secretary to the Government of Bengal

I support the petition of the Landholders' Association They are loyal supporters of the Government, and in the matter of subscriptions to deserving objects and also in public spirit, set an example to other Divisions, and they certainly seem to have good grounds for their complaint that they have lost their opportunity for election through no fault of their own

---

Dated Bhagalpur the 30th May 1901

From—BABU TARINI PRASAD, Secy to the Bhagalpur Landholders Association

To—The Commissioner of the Bhagalpur Division

IN accordance with a Resolution passed at the meeting of the Bhagalpur Landholders' Association held on the 24th instant I beg most respectfully to submit to you a copy of the memorial relating to the Council election adopted at the meeting and pray that you may be pleased to forward the same to Government with such favourable remarks thereupon as you may think fit

---

TO THE HON BLE SIR JOHN WOODBURN, K C S I,
Lieutenant Governor of Bengal

The humble memorial of the Bhagalpur Land holders Association

MOST RESPECTFULLY SHEWETH

That your memorialists desire to approach your Honour with this humble representation regarding the Resolution No 215A D dated the 13th May 1901 published in the Supplement to the *Calcutta Gazette* of the 22nd May 1901 and the Notification No 217A D dated the 13th May 1901 published in the *Calcutta Gazette* of the 15th May 1901 inviting the District Boards of the Patna Division to recommend a member for the Local Council

That your memorialists feel aggrieved that the Bhagalpur Division has not been invited to nominate a member this year Since the creation of the reformed Legislative Council in 1893 the Bhagalpur Division has not been represented by a member chosen by its own constituencies In 1895 the District Boards of the Bhagalpur Division were invited to nominate a member in pursuance of a scheme of rotation which had been determined by the Government of Sir Charles Elliott by his Resolution, dated the 25th March 1893 The election however proved infructuous for reasons to which it is unnecessary to call attention, though to your humble memorialists, it was a matter of personal gratification that their President the Maharaja of Gidhour, was on that occasion nominated to a seat in the Council Under the scheme of rotation it was the turn of this Division to recommend a member to the Local Council in 1899 But the Division was not invited to exercise this valued privilege that year as it was found necessary in the interests of an important public measure, the Calcutta Municipal Bill, to confer the right of nominating a member [illegible] upon the Presidency Division

Obviously, under the circumstances your memorialists felt that this Division was entitled to the privilege at the earliest opportunity, when the constituencies would again be invited to

nominate their members Such an opportunity has now occurred, but your memorialists regret to find that the expectations which they have so long entertained are as far from realization as ever Through sheer force of circumstances Bhagalpur has till now been less fortunate than the other Divisions in the Province Every Division has since 1893 twice exercised the privilege of nominating a member to the Council The Presidency Division has exercised the privilege three times the Patna Division will have exercised it thrice when its District Boards will have returned a member this year Your memorialists beg leave respectfully to submit that in point of wealth culture and public spirit this Division is fit to take its place by the side of the most advanced Divisions in the Province

The scheme of rotation sketched in the Resolution of the 20th March 1893 is illustrative and Sir Charles Elliott did not consider himself and his successors bound by it Your memorialists submit that it was with reference to this reservation and the necessities of the occasion that in the year 1899 the Municipalities of the Bhagalpur Division were not invited to return a member for the Council If this Division were to wait until other Divisions had enjoyed that privilege in due course of rotation the District Boards of this Division will come in in the year 1903 and the Municipalities in the year 1907 Your memorialists however, venture to submit that when in the year 1899 Bhagalpur was not called upon to nominate a member it was never intended that it was to lose one chance altogether On the contrary the people of Bhagalpur have always hoped and have been suffered and encouraged to indulge in the hope that their claims would be considered at the earliest opportunity Now that such an opportunity has come it would be a grievous disappointment to the people if their claims be again overlooked The people hail the privilege as an inestimable boon to them and cannot adequately thank the Government for it How highly this privilege is valued will appear from the addresses which were presented to your Honour when you were pleased to visit Bhagalpur in July 1899

The Municipal address thus referred to this matter —

"According to the rotation originally prescribed by the Government it will be the turn of the Municipalities of the Bhagalpur Division to recommend a member for appointment to the Bengal Legislative Council on the retirement of the Hon'ble Member of the Chittagong Division We hope that this arrangement may be adhered to and the Municipalities of this Division will be called upon by the Government at the time proposed to exercise the privilege of election which privilege, we need hardly say, is much valued by us"

Your memorialists of the Bhagalpur Landholders' Association also approached your Honour with an address in which they pointedly called attention to the fact that this Division had not returned a member since the creation of the reconstituted Council They said as follows —

"We highly value the privilege which has been conferred on the people of electing their representatives to the Local Legislative Council According to the rotation previously laid down it will be the turn of the Municipalities of this Division to recommend a member for a seat in the Bengal Council on the retirement of the Hon'ble Member for Chittagong We hope and trust that this Division will not be deprived of its turn more especially as since the privilege has been granted this Division has not been fortunate enough to have a member in the Council as recommended by the representatives of the people, though the appointment of the President of this Association as a member of it when a tie took place at the election in the Division in the year 1895 was doubtless gratifying to us"

Your Honour's reply is thus reported in the *Behar News*, a local weekly —

"His Honour said that the Municipalities of the Bhagalpur Division to recommend a member for appointment to the Bengal Legislative Council must of necessity await their turn, as it comes to them after the retirement of the Hon'ble Member of the Chittagong Division and that of the Dacca Division next year He had promised the election to the seat next year to the Dacca Division, after which only the Bhagalpur Division will get its turn in rotation"

That your memorialists gather from the reply of your Honour that the turn of the Bhagalpur Division would come after the retirement of the Hon'ble Member of the Chittagong Division and after the claims of the Dacca Division had been satisfied Both these conditions have now been fulfilled, and your memorialists naturally looked forward to their Division being invited in 1901 to nominate a member to the Council

It is true that the Notification has already appeared in the Gazette inviting the Patna Division to nominate a member But your memorialists feel that their prayer is such a just one and that the considerations in favour of their exercise of this much valued privilege are so overwhelming that they are confident that from a just wise and benevolent ruler of your Honour's wide experience and large administrative capacities they cannot but receive a sympathetic and indulgent hearing and that your Honour would be pleased to invite the Division to which they belong to nominate a member this year to your Honour's Council

And your memorialists, as in duty bound, shall ever pray

BHAGALPUR TARINI PROSAD,

The 30th May 1901 *Secretary*

No 679A D dated Darjeeling the 8th June 1901

From—C J BUCKLAND, Esq C I E Offg Chief Secy to the Govt of Bengal,
To—The Commissioner of the Bhagalpur Division

I AM directed to acknowledge the receipt of your memorandum No 920J, dated the 31st May 1901, forwarding a memorial, dated the 30th idem, from the Bhagalpur Landholders' Association, praying that the Bhagalpur Division may be invited to nominate a member this year to the Lieutenant Governor's Council, and to reply as follows

2 Under the Regulations framed in 1893 under section 1 (4) of the Indian Councils Act, provision was made for the nomination to seven seats by the Lieutenant Governor on the recommendation of certain bodies Among these bodies were—

(B) such Municipal Corporations or groups of Municipal Corporations other than the Corporation of Calcutta as the Lieutenant Governor may from time to time prescribe, and
(C) such District Boards and groups of District Boards as the Lieutenant Governor may from time to time prescribe

Two seats in the Council were assigned for the recommendation of each of these two bodies, and the Municipalities and District Boards of the Province were grouped respectively by divisions in distinct portions of the scheme of rotation then proposed for the purpose of making such recommendations These two bodies are quite distinct, and, in the absence of any special reason, the seats assigned to one never have been and cannot be offered to the other for recommendations to be submitted The whole memorial now under consideration is based on the erroneous assertion that the Bhagalpur Division should be regarded as a single constituency This is not the case, and never has been the intention of Government For purposes of representation in the Council, the Municipalities of the Division are separate from the District Boards of the Division The latter had their turn in 1895 The turn of the former is not due till next year

3 The seat for which the District Boards of Patna have been invited to nominate a candidate is that to be vacated on 27th July next by the Hon'ble Babu Baikantha Nath Sen, the representative of the Burdwan District Boards The last occasion on which the District Boards of Patna elected a representative for nomination was in 1893, and since that date the District Boards of every Division have been invited once each to select a candidate, the Bhagalpur Division having its turn in 1895 The turn of the District Boards of the Patna Division has therefore come round again, and, in the absence of any special grounds, the Lieutenat Governor sees no reason for inviting the District Boards of the Bhagalpur Division to nominate this year in supersession of the claims of the District Boards of the Patna, Chittagong and Dacca Divisions In the ordinary course the turn of the District Boards of the Bhagalpur Division will come in 1904

4 Owing to special reasons which were set forth at the time, it was in 1899 considered desirable to invite the Municipalities of the Presidency Division to nominate a candidate for one of the seats assigned to Municipalities, so that the turns of the Municipalities of the Dacca and Bhagalpur Divisions, which then stood next in order on the roster drawn up in 1893, were temporarily postponed In 1900 the representative of the Chittagong group of Municipalities vacated his seat, and the Dacca group were invited to nominate a candidate This year the representative of the Presidency group of Municipalities vacates his seat, and in the ordinary course the Municipalities of the Bhagalpur Division would have been invited to recommend a successor, but owing to the modification of the rules which came into force in June 1900 (as the Bhagalpur Landholders' Association were informed in my predecessor's letter of 2nd March 1900) not more than one seat in the Council may be assigned on the recommendation of groups of Municipalities The Lieutenant Governor is therefore precluded from inviting the Bhagalpur Municipalities to nominate a candidate for a seat in the Council until the representative of the Dacca group of Municipalities vacates his seat in September 1902 In accordance with the modified rules the British Indian Association has been invited to

recommend a gentleman for nomination to the seat to be vacated this year by the representative of the Presidency Municipalities

5 It is clear, therefore, that neither the Municipalities nor the District Boards of the Bhagalpur Division have any claim whatsoever to recommend for that vacancy which has now been offered to the District Boards of the Patna Division, and that the Bhagalpur Landholders' Association are under a misapprehension when they consider that their Division as a whole has any grievance in this matter

6 I am to request that the Bhagalpur Landholders Association may be informed of these facts in reply to their memorial A copy of the correspondence will be published in the *Calcutta Gazette*

WEATHER AND CROP REPORT

For the week ending the 10th June 1901

Burdwan—Rainfall at Sadar 1 29 Kalna 0 00 Katwa 0 30 Raniganj 0 15 Weather hot and threatening Sowing of paddy and jute continues Fodder and water sufficient Common rice selling as follows —

Abstract of the Results of Meteorological Observations taken at the Alipore Observatory in the month of May 1901

	Inches	Date	H
The mean pressure of the month	29 683		
The average pressure of May from 24 years registers	29 6[illegible]6		
The highest pressure in the month	29 902	1s	10
The lowest pressure in the month	29 197	6th	16
The range of pressure	0 40[illegible]		
	Hours		
The total number of hours of bright sunshine during the month	278 7		
The maximum possible number of hours of sunshine	408 3		
	F		
The mean temperature of the month	86 9		
The average temperature of May from 24 years registers	86 1		
The highest temperature in the month	104 0	9th	
The lowest temperature in the month	70 2	19th	
The range of temperature during the month	33 8		
The mean daily range of temperature	19 3		
The greatest range of temperature in one day	29 7	9th	
	Per cent		
The mean humidity of the month	74		
The average humidity of May from 24 years registers	73		
	I		
The mean vapour tension of the month	0 93[illegible]		
The average vapour tension of May from 9 years registers	0 933		
The mean cloud proportion of the month	3 40		
The average cloud proportion of May from 24 years registers	4 17		
	Inches		
The total rain fall of the month	6 22		
The total rainfall indicated by a Beckley s self registering rain gauge (mouth of the gauge about 52 feet above the ground)	[illegible]		
The average fall of May from 48 years registers	[illegible] 40		
The greatest fall in 24 hours	2 94	19th	
	Days		
The number of rainy days in the month	6		
The average number of rainy days in May from 24 years registers	13		
	F		
The mean maximum equilibrium temperature of solar radiation during the month	149 1		
The mean difference of sun and air temperatures	52 8		
The greatest sun temperature	1[illegible]7 9	7th	
The greatest excess of sun over air temperature	57 0	5th & 6th	
The mean temperature of the nocturnal radiation thermometer on woollen cloth	74 4		
The mean depression of the nocturnal radiation thermometer below the minimum air temperature at 4 feet above the ground	3 0		
The greatest depression of the nocturnal radiation thermometer below the minimum air temperature	4 2	4th	
	Miles		
The mean movement of the wind per day	158 8		
The greatest movement of the wind in one day	2[illegible]6 0	12th	
The greatest movement of the wind in one hour	22 0	18th	10 to 11 P M

The number of hours with winds from each of the 8 points—
N 8 NE 12 E 18 SE 184 S 360, SW 105 W 9 NW [illegible] Calm 13

The results of observations at the Alipore Observatory are not rigorously comparable with the registers of past years (at the Park Street Observatory) The barometer is about 3 feet higher at Alipore and other things being equal, reads therefore 003 lower The diurnal range of temperature is also greater at Alipore, and the mean temperature apparently about 0 5 higher and finally, the thermometer which furnished the record of temperature at the Surveyor General s Office during 20 years and upwards is found to read 0 6 higher than the Kew Standard thermometer which is the standard of reference at the present Observatory

G W KUCHLER

For *Meteorological Reporter to the Govt of India and Director General of Indian Observatories*

METEOROLOGICAL OFFICE GOVT OF INDIA,
Alipore (Calcutta), the 10th June 1901

Results of the Meteorological Observations taken at the Alipore Observatory from 2nd to 8th June 1901

	Inches
The mean pressure of the seven days	29 500
The average pressure of the corresponding period for 24 years Surveyor General s Office	29 581
	Hours
The total number of hours of bright sunshine	55 4
The maximum possible number of hours of sunshine	93 8
The mean temperature of the seven days	88 8
The average temperature of the corresponding period for 24 years, Surveyor General's Office	86 3
The extreme variation of temperature	23 8
The maximum temperature	99 2
	Miles
The highest velocity of the wind in one hour	16
	%
The mean relative humidity	74
The average relative humidity of the corresponding period for 24 years, Surveyor General s Office	77
	Inches
The total fall of rain from 2nd to 8th June 1901	0 01
The average fall of the corresponding period for 24 years Surveyor General s Office	1 79
The total fall from 1st January to 8th June 1901	12 1
The average fall of the corresponding period for 24 years Surveyor General s Office	11 5

The mean pressure temperature etc are deduced from the traces of the Barograph and Thermograph and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman s No 86 formerly at the Surveyor General s Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office, and based on Regnault s modifications of August s formula

The directions and the movement of the wind are taken from the trace of a Beckley s anemograph

The mouth of the rain gauge is one foot above the ground

d, drizzling rain, t, thunder, <, lightning o, overcast

Secy to the Govt of Bengal

The 18th June 1901

No 78Marine—In exercise of the powers conferred on him by section 6 of Act X of 1889 (The Indian Ports Act) the Lieutenant Governor of Bengal proposes to make the following rules to regulate the action to be taken in the case of vessels arriving in the Port of Calcutta with persons suffering from infectious or contagious diseases, common in India including the disposal of dead bodies

These rules will be taken into consideration a month after their publication in the *Calcutta Gazette* and the Lieutenant Governor will be glad to consider any observations or criticisms which any person may desire to make within this period

R B BUCKLEY,
Secy to the Govt of Bengal

Draft rules relating to diseases common in India to be issued under section 6, sub section (1), clause (p) of the Indian Ports Act, 1889, as amended by Act III of 1901

SECTION I—FOR THE GIVING OF NOTICE

Rule 1—The master of every in-coming vessel on board of which there is or has been during the previous seven days, either among the passengers or crew, any case of cholera,

small pox, measles, scarlatina or other epidemic disease or of diphtheria, or, in the case of a vessel not carrying a doctor, any death from any cause or if two or more deaths from unknown or suspicious causes have occurred on the voyage shall report every such case or death to the pilot immediately upon his going on board at the Sandheads, and the pilot shall hoist a signal which shall be during the day flag R of the Commercial Code at the main, and during night two white lights one over the other, at the fore and the pilot in charge in addition to hoisting the signal R at the main, is to telegraph from Saugor, or the nearest telegraph station, the name of the particular disease, number of cases on board and number of deaths from epidemic disease or other suspicious causes that have occurred during the voyage both to the Port Officer and to the Health Officer of the Port of Calcutta, using table 22 of the Pilots Cypher Code

Rule 2 —The Port Officer on receiving information by telegraph from Saugor or any telegraph station, that a vessel, having small pox on board has passed the station upwards shall at once communicate the information to the Health Officer of the Town and the Deputy Commissioner of Police with a view to obtain the services of vaccinators with a supply of lymph in sufficient time to commence the necessary vaccine operations immediately after the ship s arrival and to obtain the assistance of the police for removing cases of small pox or other contagious diseases on the ship s arrival to the Campbell Hospital

Rule 3 —The Deputy Commissioner of Police shall, as early as possible after receipt of this information instruct the River Police Inspector to place himself in communication with the Health Officer of the Port to receive such instruction as that officer may consider to be necessary for the efficient operation of these rules and for the removal of the sick to hospital

SECTION II—BERTHING OF THE VESSELS

Rule 4 —If the number of deaths or cases of disease referred to in rule 1 do not exceed two, the vessel will not be prohibited from proceeding to her usual place of anchorage in the harbour, and the passengers or crew not suspected to be suffering from any of the diseases described in rule 1 need not (except in the case of pilgrim and emigrant ships) be detained on board pending the inspection of the Port Health Officer, but the master of the vessel will be held responsible that no one of the passengers or crew suffering from or suspected to be suffering from any such disease is allowed to depart before this inspection The master shall also prevent the landing of infected bedding clothes or personal effects which he has reasonable cause to consider likely to be infected

Rule 5 —If the number of deaths within the previous five days has exceeded two or the cases of any such disease are, or have been during the previous five days, more numerous than two, or when from their occurring on pilgrim or emigrant ships or for other special reasons further precautions may be deemed advisable, the master shall hoist the signals referred to in rule 2 above and anchor the vessel at Mateabrooz and shall not allow any of the passengers or crew to leave the vessel until the Port Health Officer has made his inspection

Rule 5 (a) —In the case of a pilgrim or emigrant ship the pilot should notify the fact by signal from Saugor and should not proceed beyond Diamond Harbour without the permission of the Port Health Officer

Rule 6 —So long as the abovementioned signals are shown, no tindal or other person in charge of or navigating any boat shall, without the permission of the Port Officer attempt to make such boat fast to, or shall take it alongside, such vessel except the Harbour Master who may be allowed to take over charge of the vessel from the pilot, who may then be allowed to leave the vessel.

SECTION III—THE INSPECTION OF THE VESSEL

Rule 7 —Whenever the Port Health Officer receives the notice referred to in rule 5 above he shall proceed on board the vessel and examine her, and the master shall give him every facility for the examination of the passengers, crew personal effects, cargo, and any part of the ship In the case of a report of a death or deaths from any cause on a ship not carrying a doctor, he shall institute such enquiries as he may deem necessary to determine the cause of the death or deaths If he is satisfied that the death or deaths was or were not due to cholera, small pox or other infectious or contagious disease declared by the Governor General in Council to be common in India he shall permit the vessel to proceed to anchorage and to discharge passengers and cargo without any further restrictions If he is not so satisfied, he shall proceed as provided in rule 9 *et seq* of these rules The inspection by the Health Officer will ordinarily take place between sunrise and sunset

Rule 8 —On the completion of the inspection provided for in rule 7, such of the passengers and crew as are found to be free from any of the abovementioned diseases and unlikely to carry infection, shall be allowed to land All baggage personal effects and cargo except such articles as the Health Officer is entitled to disinfect may also be landed

Rule 9 —If a case of any of the diseases mentioned in rule 1 happen on any vessel after she has entered dock, the master shall forthwith cause information thereof to be given to the dock master and shall be responsible that the sick person shall be isolated as much as possible and that free communication with the dock wharf is stopped until the Health Officer has inspected the vessel and enquired into the case

NOTE —The regulations in sections 4 5, and 6 should be carried out only when the Port Health Officer considers them necessary either to prevent the spread of disease or for other reason

SECTION IV—THE TAKING OF THE SICK TO HOSPITAL

Rule 10—When the Health Officer considers it necessary in order to prevent the spread of disease or for any other reason he may inspect the vessel, including the passengers and crew and may arrange for the conveyance of all persons suffering or suspected by him to be suffering from such disease to Campbell Hospital, unless the sick person or his friends can make adequate provision elsewhere

Rule 11—The Health Officer shall inform the Municipal Health Officer in all cases in which he arranges for the conveyance of a patient to Campbell Hospital or other place within Municipal limits, and shall furnish the address of any private accommodation to which he permits the removal of a patient

Rule 12—Where small pox is the disease on account of which the vessel is deemed infected the Port Health Officer shall offer without charge vaccination or re vaccination of all persons willing to be operated upon, and shall cause to be vaccinated with the consent of their guardians all children below ten years and over six months of age who do not bear marks of vaccination or of small pox

SECTION V—THE DISINFECTION OF INFECTED ARTICLES

Rule 13—The Port Health Officer shall, if he considers it necessary, either himself undertake, or direct the master of the vessel to undertake, the destruction or disinfection of all clothing bedding and other articles of personal use which have been used by any person suffering from any of the diseases above mentioned and are or likely to have been soiled with infective matter or to retain infection

Rule 14—When a vessel with one or more of the abovementioned diseases on board has passengers in a filthy and unwholesome condition the Port Health Officer may cause the clothing and personal effects of such persons to be disinfected before allowing their disembarkation

Rule 15—In the case of undecked native craft the Port Health Officer may direct the disinfection or in special cases the destruction of food stuffs which have been exposed to contamination and he thinks likely to be infected

SECTION VI—THE DISINFECTION OF THE INFECTED PARTS OF A VESSEL

Rule 16—The Port Health Officer shall, as the result of the examination made under rule 7 above, direct the disinfection of any portion of the ship that has actually been exposed to contamination and may prohibit the discharge of bilge water or water ballast within port limits It the disease is cholera the Health Officer may direct the master to have the bilges and water tanks emptied and cleaned

SECTION VII—GENERAL

Rule 1—The methods of disinfection, both of articles and vessels, shall be those prescribed in the appendix to these rules

Rule 18—Dead bodies shall be disposed of as follows —

1 If a death occurs on board a vessel before the vessel enters Port limits the body shall be buried at sea, in not less than 9 fathoms of water in such manner as shall insure its sinking at once and remaining below water

2 If a death occurs during the day on board a vessel within Port limits, the ensign and house flag are to be immediately lowered half mast and kept in such position from sunrise to sunset as long as the body remains on board

3 The master of the vessel will cause the death of any person on board to be made known at once to the police, either by letter or otherwise and shall also forward to the Port Officer a written report as soon as possible after the occurrence, in which all the circumstances attending the death are to be fully detailed

4 No dead body is to be removed from the ship, within Port limits, without the permission of the Police authorities Unless the special permission of the senior officer of Police at the Port to its interment on shore shall have been obtained, a dead body shall be buried at sea in not less than 9 fathoms of water, in such manner as shall insure its sinking at once and remaining below water

Rule 19—The master of an infected vessel shall comply with all the directions which the Port Health Officer considers it necessary to give under the foregoing rules

NOTE—The penalty for disobedience is prescribed in the new sub section (3) which the draft Bill adds to section 6 of the Indian Ports Act.

Rule 20—Nothing in these rules shall be deemed to prevent a vessel whose master is unwilling to submit to the above regulations from proceeding to sea provided that there has been no communication between such vessel and the shore or with other vessels in the Port

APPENDIX

Instructions for disinfection

1 Personal effects, rag , infected bandages papers and othe articles without value should be destroyed by fire

2 Under clothing bedding wearing apparel mattresses carpets &c which are contaminated or suspected and other articles to be disinfected should be exposed for fifteen minutes to saturated steam under pressure if possible at a temperature of not less than 100 C (212 F), care being taken that the steam shall reach all parts of each article to be disinfected

3 Disinfecting solutions—

(a) Solution of corrosive sublimate of 1 part in 1,000 with the addition of ten parts of chloride of soda

The solution should be coloured with aniline dye or indigo It should not be placed in metal vessels

(b) A 5 per cent solution of pure crystallized carbolic acid or 5 per cent of crude commercial carbolic acid free from tar in warm solution of soft soap

(c) Fresh slaked lime *

4 Special instructions to be observed in the employment of disinfecting solutions—

The linen clothing and articles, soiled by the excreta of patients should be soaked in the solution of corrosive sublimate The solution of pure carbolic acid and the solution of soap and carbolic acid are equally suited to this purpose All articles should remain in the solution for at least six hours

Articles which cannot be subjected to the temperature of the steam (100 centigrade) without injury such as leather goods woollen articles stuck together with glue felt, velvet silk &c should be washed with the solution of corrosive sublimate coin can be disinfected with the solution of soap and carbolic acid

Persons engaged in nursing the sick should wash their hands and faces with the solution of corrosive sublimate or with one of the carbolic solution

The carbolic solutions will be useful more particularly for disinfecting articles such as metals, instruments &c which can neither be subjected to a temperature of 100° centigrade nor placed in contact with corrosive sublimate They may also be used at ports not provided with a disinfecting stove of the prescribed pattern

Slaked lime is particularly recommended for disinfecting excreta Expectorated matter should be burnt

5 Disinfection of ships with plague patients on board—

The cabin or cabins and all parts of the ship occupied by the sick or suspected should be cleared out and all articles in them should be treated as described above

The partitions should be disinfected with the solution of corrosive sublimate with an addition of ten parts of alcohol The washing should commence from the top horizontally and be continued downwards so that the whole surface of the partition becomes covered with a coating of minute drops

The boarding should be washed with the same solution

Two hours after the walls and flooring should be washed over with plenty of water

6 Disinfection of the hold of an infected ship—

To disinfect the hold sulphate of iron in quantity sufficient to neutralize the sulphurated hydrogen, should first be thrown in the bilge water should be pumped out and the hold washed with sea water Solution of corrosive sublimate should then be thrown in

The bilge water should not be pumped out while the ship is in port

R B BUCKLEY
Secy to the Govt of Bengal

---

* To get very strong slaked lime take lime of good quality I ko t by moi ten ng it gradually with half its weight f wa e When the operation is completed put the powder in a carefully corked receptacle and place it in dry p t As each kilogramme of lime absorbs 500 grammes of water in order to become slack t acquire a volume f 2 litres 200 and it is sufficient to dilute it with double its volume f water say 4 kilogrammes to obtain whitewash h cl will be of about 20 per cent strength of lime

NOTIFICATION

No 48 ,T M—The 31 t May 1901—In exercise of the powers conferred by section 1(of the Lepers Act, 1898 the Lieutenant Governor is pleased to make the following rules for carrying out the purposes of the Act in the Albert Victor Asylum at Gobra

1 (1) The executive charge of the Asylum shall be vested in the Commissioner of Police Calcutta under the control and supervision of the Board, appointed under section 5 of the Act

(i l t l

(2) The Deputy Commissioner of Police Calcutta, shall be *ex officio* Secretary to the Board

2 (1) The Board shall meet at least once every three months for the transaction of business at such place as may be fixed by the President The President may also call a special meeting at any time Three members shall form a quorum The proceedings of the Board shall be recorded in a book to be kept for that purpose

M t ,s f tl l l

(2) The Board at its ordinary meetings shall appoint two or more of its members one of whom shall be the Medical Officer to fulfil the requirements of section 13 of the Act until the date of its next meeting

(3) The inspection book kept under section 13 shall be laid before the Board and the Board may enter any remarks that it may deem proper in regard to the condition of the Asylum and its inmates and any suggestions for the management of the Asylum

3 The Secretary shall submit to the Local Government a copy of all remarks entered by the members of the Board in the book kept under section 13

f j t n on ık

4 When a Magistrate sends a leper to the Asylum under section 9 he shall cause to be attached to the warrant of detention (Form C) a descriptive roll containing the following particular namely —

D scri t e r ll

1 Name	5 Caste or religion
2 Father's name	6 Place of abode
3 Age	7 Occupation
4 Sex and condition	8 Family history if known

9 List of property sent with him

5 (1) The Superintendent of the Asylum shall be responsible for the carrying out of all rules and orders affecting the Asylum for the maintenance of order and discipline therein and for the comfort and well being of the inmates in respect of general and medical treatment

General duties of Superintendent

(2) He shall report to the Secretary, as they occur, all escapes, breaches of discipline sudden deaths and outbreaks of epidemic disease and the measures taken to prevent the spread of such disease

(3) In cases of escape he shall also forward a report to the nearest thana, with a description of the leper to enable the police to take measures to effect a recapture

(4) He shall satisfy himself that all articles supplied for use in the Asylum are of the quality contracted for

(5) He shall keep the following registers and book, namely —

a General Register in Form I,
two Daily Registers of Rations, in Form II and Form III, respectively and
a Cash book, in Form IV

and shall furnish to the Secretary the following annual returns namely —

a return of Admissions and Discharges, in Form V
a return of Admissions in Form VI
a return of patients in Hospital, in Form VII and
a return of the sanctioned Establishment in Form VIII

and shall keep such other registers and accounts, and furnish such other returns as may from time to time be prescribed by the Secretary

(6) He may, in cases of misconduct, suspend any person serving under him, except the Hospital Assistant reporting the circumstances to the Secretary, who alone shall have powers of dismissal

Appointment and duties of Hospital Assistant

6 (1) A Hospital Assistant shall be appointed by the Inspector General of Civil Hospitals

(2) The Hospital Assistant shall reside on the Asylum premises and shall not engage in private practice except with the sanction of the Board

(3) He shall act in immediate subordination to the Superintendent

(4) He shall visit every part of the Asylum and inspect all the inmates daily and shall attend to the comfort and cleanliness of the inmates and see that every inmate occupies at night the sleeping place or bed which has been set apart for him and that every part of the building and all furniture or fittings &c are kept clean, and that all cooking and other vessels and all other articles including food, belonging to the inmates are kept in the places which are set apart for them

(5) He may order any additions or alterations of diet for the sick and recommend a special diet for any inmates of the Asylum whose condition appears to require it

(6) He shall satisfy himself that the food is of good quality and well cooked

(7) He shall attend the officials and their families residing on the premises

(8) In the event of any epidemic disease appearing, he shall at once make a report to the Superintendent

(9) He shall keep a Case book in Form IX for each leper in the Asylum

Appointment of [illegible]

7 All subordinates shall be appointed by the Board, but the Secretary shall have power in case of a vacancy occurring from any cause to appoint a temporary substitute

[illegible]

8 When a leper is admitted into the Asylum the Superintendent after satisfying himself that the medical certificate (Form B) and the Magistrate's warrant (Form C) are in order shall make the necessary entries regarding the leper in the General Register in Form I shall cause the leper to be thoroughly searched and to wash himself and shall then provide him with such articles for his use in the Asylum as may be prescribed by the Board

Clothes and property of lepers

9 (1) The Superintendent shall take charge of and enter in a separate register all clothes and property brought by any leper into the Asylum

(2) No article shall be brought into the Asylum without the Superintendent's permission

Diet and routine

10 The scale of diet the hours of meals and the general routine of the Asylum shall be prescribed by the Board

Conduct of lepers

11 The pauper lepers shall keep their own wards clean and tidy fold up their bedding and obey all orders lawfully given by the Superintendent

Employment of lepers

12 The pauper lepers shall be employed on such light occupations as may be determined by the Board

Supplies

13 All articles required for the Asylum shall be obtained by contract, tenders for which shall be publicly invited and shall be opened and decided on at a meeting of the Board

Members to inspect supplies

14 The members appointed under section 2 clause 2, shall inspect the supplies and make a note of having done so

15 (1) The Superintendent should report to the Board at each of its meetings the number of inmates of each class who are in the Asylum, and whether there is any over crowding in any section, or the number of vacancies in any ward

(2) No pauper leper confined in the Asylum shall be provided with less dormitory accommodation than 68 superficial feet and 910 cubic feet

(3) No pauper leper should be admitted into the Asylum or into any section of it, should there be overcrowding, without the consent of the Board and only then as a temporary measure

16 To such pauper lepers as are well conducted a daily allowance of tobacco and betel shall be granted

17 With the approval of the Superintendent clothing food and sweetmeats or other luxuries may be supplied to pauper lepers by friends

18 For escape or other serious misconduct a pauper leper may be confined to his dormitory or in a cell under the orders of the Commissioner of Police or the Secretary for any period not exceeding a week and for other breaches of discipline the privileges allowed by the rules or any portion of them may be forfeited under the orders of the Commissioner or the Secretary for a period which may extend to one month

For minor breaches of discipline the Superintendent may order the forfeiture of the privileges for a week, and confinement in a cell for not more than 24 hours

19 All orders passed under Rule 18 shall be entered in a register which will be kept for the purpose and should be submitted regularly to the visitors and to the Board

20 The Local Government may appoint from time to time as visitors gentlemen of position who are likely to take an interest in the welfare of the inmates of the Asylum

(1) Every visitor so appointed shall hold office for two years but can be re appointed on the expiration of any such term, at the discretion of Government

(2) The Secretary shall make arrangements with regard to the turn of visiting &c

(3) A visit must be made by one or more of the visitors at least once a month Except in exceptional circumstances visitors should not visit the Asylum after nightfall or before sunrise

(4) Visitors should visit every ward, yard, and cell, and see every inmate at the time of their visit and in every case of complaint made to them should enquire what the rules in force are and whether these are observed or not and they should ascertain generally whether rules and orders are adhered to They may examine all prescribed registers and should examine the punishment register, and see that punishments are properly recorded

(5) A visitors book (to be prescribed by the Board) shall be kept in the Asylum and shall be presented to every visitor, when he has completed his inspection of the Asylum Every visitor shall record the date and hour of his visit and any remarks he may care to make (Such remarks should be limited to a statement and fair criticism of the actual facts which come to his knowledge and any suggestions he may wish the Board to consider) This book will be laid before the next meeting of the Board and the Board may if necessary forward a copy of the remarks to Government, together with its own observation

21 A copy of these rules in English and in the Vernacular shall be hung up in each ward

Director of Public Instruction, Bengal

THE ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH FOR 1901

WITH reference to Notification No 5058F in the *Calcutta Gazette* of the 28th December 1892, Part I, page 1172, the ELLIOTT PRIZE FOR SCIENTIFIC RESEARCH will be given this year to the author of the best original essay composed during the year 1901, giving the results of original research or investigation by the essayist on *Mathematics*

2 Any native of Bengal, including any Eurasian or domiciled European residing in Bengal, may compete for the prize

3 The essays of competitors *must be* sent in to the President of the Bengal Asiatic Society, 57 Park Street, Calcutta, by the end of December 1901 The prize will be adjudged to the best competitor, and awarded publicly at the Annual General Meeting of the Asiatic Society in February 1902

Preference will be given to researches leading to discoveries likely to develop the industrial resources of Bengal. In the case of no essay being deemed by the Trustees to be of sufficient merit, no prize is to be awarded, but the amount is to be retained so that in any future year two or more prizes may be given, or the prize may be enhanced in the case of an exceptionally good essay.

J. WOODBURN,
President of the Asiatic Society of Bengal.

T. RALEIGH,
Vice-Chancellor of the Calcutta University.

DECLARATION

No 524T M—The 1st June 1901—Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken up by Government at the expense of the Khirpai Municipality for a public purpose, viz, for the construction of a public latrine in the village of Khirpai pargana Chandrakona zilla Midnapore, it is hereby declared that for the above purpose a piece of land measuring more or less, 4 cottahs and 8 chitaks of standard measurement, is required The land is bounded on the north by Thakur Das Singh's khamar land, on the south by Municipal road and Pria Nath Roy's land, on the east by Tanti Doba, and on the west by a kutcha road

Midnapore

A plan of the land may be inspected in the office of the Collector of Midnapore

This declaration is made, under the provisions of section 6 of Act I of 1894 to all whom it may concern

E N BAKER,
Secy to the Govt of Bengal

Noakhali Collector's Office the 26th April 1901 — [illegible] D. [illegible], Collector

Notification A

NOTICE is hereby given under sections 6 and 13 Act XI of 1859 that the undermentioned estates and shares of estates in the district of Cuttack will be put up for sale at the office of the Collector of that district on the 9th day of July 1901 for arrears of revenue and other demands which by law are realisable as arrears of land revenue.

When in columns 6, 7 and 9 of the appended statement it is stated that only a share is to be sold it is to be understood that a separate account is kept for that share.

Cuttack Collectorate, th 1 t Jun 1901 J T HEBAIT Collector

GOVERNMENT ESTATE No. 1

[*See Rule 10 Section III Chapter III Page 20 of Board's Rules 1858*]

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situate in the district of Bankura will be put up to sale at the Bankura Collectorate on the 20th July 1901 corresponding with 4th Srabun 1308 B S

The purchaser will be subject to the following conditions of sale —

Conditions of sale

1st —The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale The purchaser of the estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity

2nd —The sale to be subject to existing leases and to the right conferred by the settlement proceedings and by the laws in force and purchaser to be bound to respect the rights of resident cultivators who have signed the sch dule of assessment prepared by the revenue authorities

3rd —If the amount of purchase money does not exceed Rs 100 the whole amount to be paid down at once

4th —If the amount of purchase money exceed Rs 100 one fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one or if that day be a closed holiday then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale

PART IVA

Proceedings of the Bengal Legislative Council

GOVERNMENT OF BENGAL

LEGISLATIVE DEPARTMENT

Abstract of the Proceedings of the Council of the Lieutenant Governor of Bengal, assembled under the provisions of the Indian Councils Acts, 1861 and 1892

The Council met in the Council Chamber on Friday, the 12th April, 1901

Present

The Hon'ble SIR JOHN WOODBURN, K C S I, Lieutenant Governor of Bengal, *presiding*
The Hon'ble MR P NOLAN
The Hon'ble MR C E BUCKLAND, C I E
The Hon'ble MR R B BUCKLEY
The Hon'ble MR F A SLACKE
The Hon'ble MR E N BAKER, C S I
The Hon'ble MR R T GREER
The Hon'ble BABU TARINI KUMAR GHOSE
The Hon'ble MAULVI SYED MAHOMED
The Hon'ble MR J G APCAR
The Hon'ble DR ASUTOSH MUKHOPADHYAYA, M A, D L, F R A S, F R S E
The Hon'ble BABU BOIKANTA NATH SEN
The Hon'ble BABU SURENDRANATH BANERJEE
The Hon'ble MR H ELWORTHY
The Hon'ble MR G H SUTHERLAND
The Hon'ble MR M S DAS
The Hon'ble MR A M BOSE
The Hon'ble ASIF KADR SAIYID WASIF ALI MIRZA OF MURSHIDABAD

QUESTIONS AND ANSWERS

INDIAN REFRESHMENT ROOMS AT RAILWAY STATIONS

The Hon'ble BABU SURENDRANATH BANERJEE asked —

1 (a) Is the Government aware that both the East Indian and the Eastern Bengal Railway authorities put up to auction sale the right of selling Indian refreshments, which yield a fair revenue, paid by the Indian passengers, principally third class passengers?

(b) Is it the case that the aforesaid Railway authorities afford no facilities for the establishment of Indian refreshment rooms at the stations, whereas great facilities are afforded by them to the Managers of European refreshment rooms at the different stations, who are permitted free passes for their servants and goods and no rents are charged for the rooms occupied by them in the stations?

(c) Is the Government aware that not long ago the East Indian Railway authorities refused the application of some Hindus who had applied to be allowed to establish refreshment rooms for Hindus at the Railway stations, without giving any reasons for such refusal?

(d) Having regard to the fact that the bulk of the revenue from passenger traffic is contributed by Hindu and Muhammadan passengers, will the Government consider the propriety of recommending to the East Indian and the Eastern Bengal Railway authorities to favourably consider the proposal for the establishment of refreshment rooms for the convenience of Hindu and Muhammadan passengers at suitable railway stations, and subject to the same conditions which apply to European refreshment rooms?

The Hon'ble MR BUCKLEY replied —

"(a) Yes It is the custom on the Eastern Bengal Railway On the East Indian Railway, the auction system has been experimentally introduced at one station only, Bankipur

"(b) The arrangements in force on the two lines referred to are not identical On the Eastern Bengal Railway no rents are charged, and free passes for servants and goods are given On the East Indian Railway neither of these concessions is allowed

"(c) and (d) The suggestion made will be brought to the notice of the Railway administrations referred to The Eastern Bengal Railway has at present under consideration a proposal to have refreshment stalls erected at changing stations The East Indian Railway is now erecting such stalls It is doubtful if the establishment of refreshment rooms would be so popular with the classes mainly concerned as the existing arrangements, under which the vendors of native refreshments have access to the platforms and sell to passengers in the railway carriages"

INCOME TAX OFFICE IN CALCUTTA

The Hon'ble BABU SURENDRANATH BANERJEE said —

II (a) I have the honour to call attention to the charges of corruption made against some persons connected with the Income Tax office in Calcutta, and to ask if the Government has made enquiries about them? If so, will the Government be pleased to state the result of such enquiries and also the names of the officers by whom such enquiries were made?

(b) Is it the case that one Kasso Das presented a petition to the Board of Revenue, through his Solicitor, Babu Kali Nath Mitra, C I E, in which he repeated the charges of corruption made against the aforesaid persons?

(c) Is it the case that Mr Oldham, late Member of the Board of Revenue, in a note upon this petition, observed — 'It is understood that the traders concerned have given bribes?"

(*d*) Is it true that in this case the enquiry was made by the Officiating Collector, against whose Department the charge was made, and that all the enquiry that was made by this Officer consisted of his asking Kasso Das whether he paid any Income Tax, and whether he had any house in Calcutta, and, on his answering in the negative, he was sent away without further enquiry?

(*e*) If so, will the Government be pleased to direct a fresh enquiry upon the petition by an independent officer?

The Hon'ble MR BAKER replied —

"A petition was received by Government last year purporting to be signed by one Radha Kissen Muralidhar, in which charges of corruption and blackmail were brought against persons connected with the Income Tax office, especially against one Ram Narain Jalal, who is said to be an informer

"The allegations made were fully enquired into by the Officiating Collector of Income Tax, by the Commissioner of Presidency Division and by the Board, and the whole of the papers have been laid before Government There is no such person as Radha Kissen Muralidhar, and the Lieutenant Governor is satisfied that the petition is the outcome of a mere personal intrigue The reasons which have led the Lieutenant Governor to this conclusion are set forth in my letter No 1276 S R, dated the 19th February, 1901, of which a copy will be laid on the table

"As regards the petition of Kasso Das, it has been ascertained that the facts are substantially as stated in the question No specific statements were made in this petition, which in other respects bears a strong resemblance to that of Radha Kissen Muralidhar and the two irregular notices attached to it were more than three years old The Lieutenant Governor fully approves of Mr Oldham's action in refusing to promise immunity to the petitioner and his friends, or to hold a private and *ex parte* enquiry, and considers that no further action is called for"

THE PURI MUNICIPAL BOARD

The Hon'ble MR M S DAS asked —

I —Will the Government be pleased to furnish a statement showing the amount that the Puri Municipal Board have drawn from the Lodging house Fund in each of the last five years?

The Hon'ble MR BAKER said —

"I lay on the table the Statement asked for

URIYAS IN GOVERNMENT SERVICE

The Hon'ble MR M S DAS said —

II (*a*) I have the honour to draw the attention of Government to the following Resolution of the Government of Bengal (Appointment Department), dated the 6th March, 1901 —

"Ordered that the petitioners be informed that copies of the petition have been forwarded for consideration to the several departments concerned The interests of the Uriyas are not overlooked and it is as open to them as to any other class or section of the community to compete in the public examinations and to take advantage of the opportunities offered by Government for employment

and I beg to ask whether the several departments concerned have been requested to give sufficient notice by advertisements in the Uriya Gazette or local news papers, inviting candidates in cases where the appointment goes by selection and not by the result of competitive examination, especially where the head of the Department has his office in Calcutta?

(b) Were any additional hands in the inspecting and clerical staff employed in the Salt Department when that Department was re-transferred to the Bengal Government?

(c) If any additional hands were employed, will the Government be pleased to state the official designation and pay of each employé, as also his race, whether he is a native of Bengal or Orissa?

(For the purpose of this question Bengalees, who are settled residents of Orissa, may be reckoned as residents of Orissa)

(d) If any additional hands were appointed, who made the appointments?

(e) Were they made by competitive examination or by nomination?

(f) What steps were taken to notify to the people of Orissa these vacancies and to give them opportunities to apply or compete for them?

The Hon'ble MR BAKER replied —

"No The suggestion to advertise was not made The instructions to the Departments had been communicated to the petitioners

"As regards the second part of the question, the clerical and subordinate Inspecting staff of the Salt Department is appointed by the Commissioner of Excise and Salt, and Government has no information on the subject"

SETTLEMENTS IN ORISSA

The Hon'ble MR M S DAS said —

III (a) The Local Government having assessed an enhanced revenue on the estates of Balrampore, Rugree and Chowsitpara in Orissa, the zamindars of these estates being desirous of petitioning to the Government of India against the decision of the Local Government, applied to the Commissioner of Orissa for copies of the opinions of the following officials who had expressed their opinion on the question of enhancing the revenue of those estates, viz, Mr E F Growse, the Collector of the district, Mr S L Maddox, the Settlement Officer of Orissa, Mr W C Macpherson, the Director of Land Records, Mr C R Marindin, the Commissioner of Orissa, and the Hon'ble Mr G Toynbee, of the Board of Revenue, but the Commissioner refused to give the copies, though it was brought to the notice of the Commissioner that the zamindars of these estates intended to place the opinions before the Government of India to enable the Supreme Government to do justice to them This is substantially the zamindars' statement in their memorial to His Excellency the Viceroy and Governor General in Council

(b) Will the Government be pleased to direct the Local Officers having the custody of the records of the recent settlements in Orissa to furnish copies of papers which parties may require to bring to the notice of the Local or the Supreme Government their grievances? Is the Government aware of the fact that during and after the settlements of Orissa in 1839 40 every facility was given to obtain copies of the opinions of local officials, and the zamindars of the three estates named above were furnished with copies of the recommendations of the Commissioner and of the Hon'ble Board of Revenue not to enhance the revenue of their estates?

The Hon'ble MR SLACKE replied —

"The Government has no information as to the action of the Commissioner of Orissa, but if he refused copies, he only acted in accordance with Rule 22, page 27, of the Board's Records Manual The Lieutenant Governor, however, is quite willing, as a special case, to give the zamindars of the three Estates named in the question copy of any of the opinions mentioned for which they may apply"

THE BENGAL FINANCIAL STATEMENT FOR 1901 1902

The Hon'ble MR BAKER moved for the discussion of the Bengal Financial Statement for 1901 1902

CHINA SEA—PESCADORES ISLANDS

Reef islands—Position of the shoals in the vicinity

THE British Admiralty has given notice (No 348 of 1901) that the following rocks exist in the vicinity of the Reef islands, Rover group —

1 A rock with a least depth of 2¼ fathoms over it, and 9 fathoms around, situated with the north east extreme of Steeple island bearing N 40° W, distant 23 cables

Approximate position, lat. 23° 15¼ N, long 119 31¾ E

2 A rock with a least depth of 3 feet over it, is situated with Flat rock bearing N 55° E, distant 4¼ cables

3 A rock with a depth of 4¾ fathoms over it, is situated with Flat rock bearing N 70° W, distant 6 cables

4 A shoal with the least depth of 4¼ fathoms extends in the direction of S 56° E for a distance of about one mile from the outer rock off the south-eastern extreme of the Reef islands

5 The 3-fathom contour line of Iwasaki rock extends about one cable in a south easterly direction from the centre of the shoal

Approximate position, lat 23° 19 N, long 119° 30 E

CAUTION —The positions of the Reef islands as shown on the chart are stated to be incorrect

(Variation Nil in 1901)

This Notice affects the following Admiralty Chart —Pescadores islands No 1961 Also, China Sea Directory, vol III 1894 page 211 and Supplement, 1898, page 17

PACIFIC OCEAN—FIJI ISLANDS

Caution —Extensive bank reported to the northeastward

THE British Admiralty has given notice (No 306 of 1901) that the S S *Manapouri* on the 7th January last saw the bottom and obtained soundings of 13 fathoms over a distance of about 11 miles, in approximately lat 15° 55 S long 176° 50 W

This is near the position of the shoal reported by Captain Wilson of the schooner *Zephyr* in 1875 who stated that in lat 15 58 S, long 177 10 W he saw an extensive shoal on which there was a rock awash (*see* Notice to Mariners No 58 of 1876)

In June 1876 H M S *Pearl*, when passing the reported position of the shoal obtained two soundings of 5½ fathoms at night Sail was shortened and course altered but almost immediately afterwards no bottom could be obtained at 12 fathoms The position given by H M S *Pearl* was lat 16° 0 S, long 176° 6 W

In 1879, Captain Carmichael of the schooner *Louisiana* reported obtaining soundings of from 15 to 17 fathoms in lat 19° 56 S long 176 36 W

The Zephyr shoal was searched for in 1890 by H M Surveying vessel *Penguin*, Commander A Balfour and soundings of 11 fathoms were obtained in lat 19° 53 S, long 176 16 W or near the position given by the S S *Manapouri*

The shoaler water reported by H M S *Lark* and by the schooner *Zephyr* was not found, although the weather was somewhat rough so that Commander Balfour was of the opinion that did such soundings exist the sea would have been breaking over the locality

In consequence of the above reports, Mariners are warned that much shoaler water may exist in this locality than is at present shown on the Charts

This Notice affects the following Admiralty Charts —Pacific Ocean, south west sheet No 780 Fiji islands to Samoa island, No 1829 Also Sailing Directions for the Pacific islands Vol II, 1900 page 2

Kipa Kipa (Lasolo) Bay—Reefs reported—Particulars of others

The British Admiralty has given notice (No 327 of 1901) of the existence of the following reefs in Kipa Kipa or Lasolo Bay —

(*a*) A reef about 300 yards in diameter with a depth of 2 fathoms over it in approximately lat 3 1 S long 122 3 E This reef, which is circular in form is steep-to and distinguished by discoloration of the water, is situated about 400 yards within the 100 fathom contour line of soundings

(*b*) The reef in approximately lat 3 2 S long 122 24 E and marked D on the chart is correctly placed and has a depth of 1 foot over it with soundings of 20 to 25 fathoms around it

(*c*) The reef in approximately lat S long 122 28 E has a depth of 7 feet over it it is about 400 yards long in an easterly and westerly direction and 200 yards broad Depths of 20 to 25 fathoms surround it

(*d*) A reef with a depth of feet over it 500 yards long in a north westerly and south easterly direction and 200 yards broad, is situated in approximately lat 3° 30½ S long 122 28½ E

(*e*) A fairly extensive reef with a depth of 10 feet over it is situated about 1½ miles south eastward of the north point of Hans Island in line with Labenaki Peak in approximately lat 3° 29 S long 122 30 E Between the last two mentioned reefs depths exceeding 0 fathoms were obtained

RESOLUTION ON THE ADMINISTRATION REPORT OF THE JAIL DEPARTMENT FOR THE YEAR 1900

No 416P —D

RESOLUTION

JAILS

Darjeeling, the 13th June 1901

READ—

The Report on the Administration of the Jail Department for the year 1900

Read also—

The Reports for the years 1898 and 1899 and the Resolutions of Government recorded thereon

IN 1897 the number of convicts admitted to the jails in the Province rose to an extraordinarily high figure, but the numbers returned to the ordinary average in the two succeeding years In 1900, however, there has again been a most marked rise from 35,600 to 39 324—a figure which has only been exceeded during the decade in 1897 It does not of course fall within the province of the Jail Department to comment on the reasons for this increase, which must be looked for in the report on the police administration, but the increase

has been most marked in the short term prisoners, especially those convicted for theft, and among the jails showing the greatest rise are those of the Chota Nagpur and Orissa Divisions, where alone during the past year scarcity has been felt In spite, however, of the number of admissions of convicts falling in the years 1898 and 1899 to the average of the six years preceding 1897, the average jail population of convicts has during these years been considerably higher than in any year before 1897 In the year under review the average jail population of convicts alone has risen from 17,265 to 18,493 in 1897 the average population of convicts was 17,366, and as the number of admissions in the two following years was not greater than before the famine, the rise in the average population can only be due to an increase in the number of long sentences, that is, in the number of persons convicted for serious crimes From a jail point of view the position deserves serious consideration Excluding hospitals and observation cells, the jails of the province provide altogether accommodation for an average of 17,808 convicts During the year the average convict population (excluding the sick) was 17,332 The margin is dangerously narrow, and even with the freest system of transfers, it is impossible to avoid serious overcrowding in some of the jails where the prisoners are chiefly short term convicts The system of cubicles is being gradually introduced, and it is clear that, if the average population continues so high, it will be necessary to add considerably to the jail accommodation

2 The statistics of the convicts disclose no very striking variations from the previous years Roughly 2 per cent more were Hindus, and the proportion of Muhammadans decreased by the same amount The number of illiterates remained constant at 89 97 per cent of the whole, but the percentage of the cultivating class was slightly lower at 59 99 per cent The number of habitual convicts admitted during the year rose to 7,030 The number of juvenile prisoners rose from 107 to 171, of whom 43 were girls As only 7 of these were sent to the depot for girl convicts at Bhagalpur, it is presumed that the rest were sentenced to terms shorter than three months The very considerable rise in the number of juvenile offenders sent to jail is unsatisfactory, and it is hoped that it arises from merely temporary causes and does not mean that the courts are paying less attention to the more suitable methods provided by law for dealing with juvenile offenders The number of cases in which solitary confinement formed part of the sentence has risen from 85 to 307, and this form of punishment has been more frequently used for the purposes of jail discipline

3 The mortality in the jails almost throughout the Province was unusually high the death rate rose from 23 4 to 40 3, and was higher than it had been since 1894 The report was silent as to the causes of this abnormal rise, but careful explanation was very plainly needed

The Inspector General now represents rightly that the year was an unhealthy one the provincial death rate was 36 63 as compared with 31 21 for 1899 and 26 32 for 1898 In nearly every district the death rate was greatly above the average The price of food grains ruled high throughout the Province in consequence of the large exports to the famine stricken districts of Western India Except in Palamau and parts of Ranchi, there was no actual famine, but the high price of grain everywhere no doubt drove many of the poorer classes to crime The statistics in Statement No XVII show that the high death rate of last year was directly due to the poor condition in which so many of the prisoners were admitted While the death rate among prisoners who had been less than six months in jail was 54 7 per thousand, it was only 36 per thousand among those between six months and a year in jail, 27 5 among those from one to two years, 22 4 among those from two to three years

Another cause of the high mortality in the jails was the prevalence of cholera The Inspector General reports that there were cases of this disease in 18 of the central and district jails and in several of the subsidiary jails, and there were 78 deaths Out of a death rate of 47 per thousand among under-trial prisoners, no less than 9 9 was due to cholera, contracted in nearly every case either before arrival in jail, or while attending court The death-rate from cholera among convicts was 4 2 per thousand, and if this disease were

excluded, the death rate would be 3.4 In 1898 there were only 3 deaths from this disease and the same number in 1899 In nearly every instance the introduction of cholera was clearly traced to newly admitted prisoners or to under trial prisoners attending court There was a severe epidemic of cerebro spinal fever at the Bhagalpur Central Jail, which resulted in 17 deaths Too little is known about this disease at present to say what is its cause or how it can be guarded against The large number of deaths from phthisis and pneumonia is attributed to overcrowding and defective ventilation caused by the unusual number of convicts, which kept most of the jails filled almost to the limit of their capacity

The Inspector General of Jails also attributes part of the high death rate of the year to the absence of many of the most experienced Superintendents Owing to the recall to military duty of so many officers, only 19 of the 48 jails of Bengal were under the charge of officers of the Indian Medical Service, the others were under the superintendence of Military Assistant Surgeons, native Assistant Surgeons, or medical men temporarily engaged, who, though they may be sufficiently careful in their treatment of the sick, are not equally attentive to all the little details of management on which to so great an extent the healthiness of a jail depends This may be true, but other Provinces suffered from the same disadvantage

4 Coming now to details, it appears that, of the 48 central and district jails in the Province, in 12 the death rate was below 25 per thousand, and in 16 below 30 per thousand These 16 jails include 5 out of the 8 central jails, which habitually show much better results than district jails being on the whole much better constructed, and no doubt better managed, while as a rule only selected prisoners are sent to them

In the following 11 jails the death rate exceeded 60 per thousand—Burdwan, Hooghly, Jalpaiguri, Rangpur, Mymensingh, Faridpur, Barisal, Chittagong, Chapra, Motihari and Daltonganj In 4 of these, Hooghly, Chapra, Motihari and Daltonganj, there were severe epidemics of cholera The other jails in the list are all situated in the most unhealthy districts in the Province, and ordinarily show death rates greatly above the provincial average Four of these jails (Jalpaiguri, Mymensingh, Faridpur and Motihari) were selected as representative, and the table below shows the death rate of the corresponding districts and of the districts (and their jails) adjacent to each —

Name of Jail	Death rate in jails		Death rate in districts	
	1900	Five previous years	1900	Five previous years
1	2	3	4	5
Jalpaiguri	*83.8*	*25.0*	*45.20*	*35.56*
Dinajpur	39.0	64.2	45.85	37.17
Rangpur	60.3	51.5	32.52	33.83
Mymensingh	*68.2*	*24.0*	*34.38*	*28.31*
Dacca	34.3	15.8	42.33	30.98
Faridpur	*91.3*	*36.7*	*47.97*	*38.23*
Noakhali	36.8	11.2	42.11	34.72
Barisal	73.5	68.1	38.86	37.87
Motihari	*88.0*	*40.1*	*42.28*	*31.61*
Chapra	86.9	56.8	33.86	29.32
Muzaffarpur	41.1	50.8	35.68	32.51

The Inspector General has submitted a detailed explanation of the high mortality in the four jails as below —

Jalpaiguri Jail — There were six deaths—three due to malarial fever or its sequelæ, two to diarrhœa, and one to dysentery The casualty roll shows that five of these prisoners were noted as being in bad health when admitted into jail and one in indifferent health, four were sent straight to hospital on admission, three of whom died within a month, and the fourth in little more than two months But for these deaths the death rate would have been 27 9 instead of 83 8 With an average jail population of only 70, great variations in the death rate must be anticipated The jail showed a low death rate for the previous quinquennium, in two years of which no death occurred No fault is to be found with the jail itself, which is on the latest plan, it is supplied with a Pasteur Chamberland filter, and the prisoners are allowed a ration of meat four times a week Dinajpur showed a lower death rate than the quinquennial average, but such variations cannot be satisfactorily explained

Mymensingh Jail —There were 31 deaths The principal causes were dysentery (11), pneumonia (6), and general debility (5) Of those who died, 6 were in good health on admission, 15 were admitted in indifferent health, and 10 in bad health During the year temporary buildings had to be erected to provide accommodation for the prisoners in excess of the capacity of the permanent wards, it being impossible to find room in the Dacca or any other jail for the excess There was no overcrowding in any of the wards, but too many buildings were and are still crowded within the enclosure The new two storey barrack which has been sanctioned will, when completed, make it possible to clear away the temporary buildings The quinquennial death rate in the Dacca Jail was only 15 8 the death rate in it has been very low for some years, only selected prisoners are sent to it, as in the case of other central jails, it has been built on the most recent plan, and above all it has been under the charge of one of the most experienced and careful medical officers of the Province

Faridpur Jail —There were 29 deaths 14 due to dysentery, 6 to pneumonia, and 3 to phthisis This is a very badly constructed jail, the wards being on a bad plan and all crowded together During the year it was under the charge of a temporarily engaged medical officer, inexperienced in jail management, and there was injudicious management in the allotment of labour and a want of care in bringing under treatment prisoners who were in poor condition The death rate for the five previous years in the small Noakhali jail was 11 2, there having been no deaths in two of the years

Motihari Jail —There were 27 deaths, 7 due to cholera, 6 to diarrhœa or dysentery, 5 to anæmia and general debility, and 4 to pneumonia Of the 20 who died from diseases other than cholera, 8 were reported to be in good health on admission, 7 in indifferent health, and 5 in bad health This is a well constructed jail, but the district adjoining the Terai is notoriously unhealthy

6 Of the remaining eleven jails, Burdwan, Hooghly, and Chittagong are, on the average of the previous five years, fairly healthy Barisal and Chapra steadily improved during the previous two years as the result of more sanitary construction The jails on which the attention of the Inspector General must be carefully concentrated during the current year are Rangpur, Faridpur, Barisal, Motihari and Daltonganj The last, the only one which the Lieutenant Governor has not himself seen, is a discredit to the administration It is a small jail, but the death rate is always the worst in the Province, and the Inspector General is requested to submit a special report on it with recommendations for its improvement

7 The prisoners were employed as usual mainly on manufactures, and the number told off for duties which are not of an irksome kind is steadily reduced to a minimum Although the number of convicts was very large, the high proportion of sick reduced the average number available for remunerative labour, and the cash earnings of the year were Rs 2,89,250, or Rs 16 per head of average number sentenced to labour, against Rs 4,55,932, or Rs 26 15 per head in 1899, when the cash profits were unduly swollen by the

clearance of old stock owing to the demands for South Africa Taking into account the stock and liabilities at the beginning and close of the year, the profit was Rs 4,85,633, or Rs 26 14 per head, as against Rs 4,98,685, or Rs 29 7 per head, in the previous year As against this, the total cost of the jails, excluding public works charges, was Rs 15,75,727, or an average of Rs 75 14 5 per prisoner The total public works charges amounted to Rs 98,762, which included the cost of building three new subsidiary jails In several jails the repairs and construction works were carried out by jail labour and, provided this is done under proper supervision, it is an economical and desirable method of employing prison labour

8 During the year the scheme for improving the warder service by readjusting the grades and increasing the pay was sanctioned by the Government of India It is hoped that the service will now be sufficiently attractive to facilitate recruitment and strengthen discipline

9 There is one other matter on which the Lieutenant Governor would have been glad to see some remarks by the Inspector General Three years ago the system of marks for good conduct was certainly not understood by the convicts in general It was the exception to find a convict who knew how much remission of his punishment he had actually earned It is now rare to find a convict who does not, and it should be at last possible to judge whether the system is in truth effective in the prevention of prison offences and worth the trouble it entails The Lieutenant Governor cannot say that the evidence of the returns is very satisfactory In 1896, on a prison population of 15,895 there were 35,548 prison offences, a ratio of 2 2 per prisoner, in 1900, on a prison population of 18,153, there were 41,576 prison offences, still a ratio of 2 2 The character of the prison offences seems to have been also unchanged for the better In 1896 the major punishments were 9 per cent of the total, in 1900 they were 11 2 per cent But these are figures for the grand total of the prisoners The mark system is applied only to prisoners whose term exceeds a year The figures have therefore been taken out for the eight central jails, where the system must apply to all the prisoners In these eight jails the number of prisoners in 1896 was 8,464, the number of prison offences 18,892, the number of major punishments 2,654, the ratios 2 2 and 14 0, respectively In 1900 the number of prisoners was 9,766, the number of offences 22,855, of major punishments 3,426, the ratios 2 3 and 15 0, respectively The Inspector General has elsewhere expressed the opinion that the mark system does improve the discipline and behaviour of the convicts to whom it is applicable The figures so far do not support the opinion, but they are not conclusive for a reason to be presently given The Lieutenant Governor, however, desires that the matter will receive the special attention of the Inspector General in his next report The reason why the figures are not conclusive is this The returns show extraordinary differences in the number and character of the prison offences in the different central jails In Dacca there are 43 offences for every 100 convicts in Bhagalpur there are 323 in Dacca 8 are followed by major punishments, in Bhagalpur 60 It seems improbable that there should be such violent difference between the character of the convicts at Dacca and at Bhagalpur But in Calcutta there are two central jails within a quarter of a mile of each other In the Alipore Jail in 1900 there were 33 offences per hundred prisoners and 52 major punishments, in the Presidency Jail there were 557 offences and 38 major punishments In 1896 it was exactly the other way The Inspector General explains these remarkable discrepancies by the idiosyncrasies of Jail Superintendents One man records every offence, however slight, another overlooks and omits the trifling ones The Lieutenant Governor suggests that it is the function of the Inspector General to bring these idiosyncrasies somewhat closer to a common standard, and he must at the least, by the maintenance in individual jails of a single method, secure the record of some positive evidence which shall support or gainsay the divergent opinions on the merits of the mark system

10 The Jail Report for the year is conspicuous for its shortness, but the Government of India never contemplated such compression that cardinal points in the administration of a department escape mention by the reporter

Although the report is thus deficient, the Lieutenant Governor is glad to acknowledge the careful and excellent work done by Lieutenant Colonel Mann throughout the year

ORDER —Ordered that a copy of this Resolution be forwarded to the Inspector General of Jails for information and guidance

Ordered also that a copy of this Resolution and a copy of the Report be submitted to the Government of India in the Home Department

Ordered also that a copy of this Resolution be published in the *Calcutta Gazette*

By order of the Lieutenant Governor of Bengal,

C I BUCKLAND,

Offg Chief Secy to the Govt of Bengal

RESOLUTION ON THE REPORT ON THE WORKING OF THE EDEN SANITARIUM AND HOSPITAL FOR THE YEAR 1900

MUNICIPAL DEPARTMENT—MEDICAL

Dated Darjeeling, the 12th June 1901

RESOLUTION No 73 T—M

READ—

The Report on the working of the Eden Sanitarium and Hospital for the year 1900

Read also—

The Report for the year 1889 and the Resolution recorded upon it.

The convalescent side of the Eden Sanitarium at Darjeeling remained open from 11th March to 3rd November 1900, and the hospital portion throughout the year The number of admissions fell from 428 to 384, a number lower than the lowest figures recorded during any of the past ten years The decrease occurred among the patients admitted to the second and third classes, and is attributed to the reduction in the number of visitors to Darjeeling caused by the disaster of 1899 The admissions in other classes show an increase

2 Of the 384 persons admitted during the year, 280 were patients and 104 relatives and friends, against 352 and 76, respectively, in the previous year The daily average number of patients shows a decrease from 38 64 to 21 17, and the average length of time spent by each patient in the institution was much less than in the previous year Debility and malarial fever were as usual the most common complaints, and accounted for 70 and 97 admissions, respectively Four patients died against ten in 1899, while 15 left relieved and 261 completely cured The total number of operations shows a slight reduction, viz , from 84 to 80, but all of them proved successful Nine persons at different times occupied free beds against 12 in the previous year As remarked last year, there is still plenty of room for public charity to supplement and extend this most useful form of help

3 The total income of the institution amounted to Rs 27,799 against Rs 36,800 in 1899, thus showing a decrease of Rs 9,001, which is due to the reduction in the number of patients The expenses, on the other hand, rose from Rs. 34,398 to Rs 35,372, chiefly owing to the inclusion of Rs 4,709, cost of fittings and furniture of the Surgical Block lately purchased The year closed with a balance of Rs 4,849 The average daily cost of diet per patient was the same as in the previous year, viz , Re 1 6

By order of the Lieutenant Governor of Bengal,

E N BAKER,

Secretary to the Govt of Bengal

SUMMARY OF THE METEOROLOGICAL AND RAINFALL OBSERVATIONS TAKEN IN BENGAL AND OF THE METEOROLOGICAL OBSERVATIONS TAKEN IN ASSAM, FOR THE MONTH OF MAY 1901

WEATHER during May was not of a noticeably exceptional character, though the meteorological elements, and especially pressure underwent rather large and rapid oscillations at times The air was comparatively still and no serious disturbance occurred, though the the occurrence of such disturbances is not unfrequent towards the end of the month The only cyclonic storm over the Bay began about the end of the third week and was of the feeblest kind After it entered the north of the Bay it became diffused and was followed by a general fall of pressure over the Province and Assam Towards this low pressure area the moist winds from the Bay flowed freely for a few days and gave a fair amount of rain to the extreme east About the end of the month the rainfall area extended westward and the showery weather became general over the Province

The most important feature of the weather of the month was the continued absence of rainfall in the east particularly in Assam and East Bengal Silchar and Dhubri received [illegible] and 8 inches respectively —in the former case considerably less than half the average and in the latter about half while in East Bengal there was an average defect of more than [illegible] inches In the other divisions of the Province the fall for the month was between 1 and [illegible] inches in defect except in South West Bengal where very nearly the normal amount was received and in Bihar which was in slight excess

Showery weather was fairly continuous throughout the month, with no well marked period of intense heat except in the west rn districts In this respect conditions were not unlike those of last year in the same month and the quantity of rainfall was very similar even to the rather large [illegible] in East Bengal But the comparison fails as regards Assam, in part of which the rainfall was as much in excess as in the present year it has been in defect

The course usually followed by cyclonic storms in May when leaving the Bay is to the north or north east so that the very slight disturbance of that kind during the month under review was not exceptional But the fact of its breaking up before it reached the coast is a feature of some importance and the more important because a subsequent disturbance has behaved in a similar manner It is not unusual for cyclonic disturbances, on which the development of monsoon conditions is largely dependent, to show similar peculiarities for months together and in consequence of this feature the progress of the early disturbances of the season give a fairly reliable indication of the character of the early part of the monsoon [illegible], if not of the date of commencement So far as can be gathered from what has occurred since the beginning of May the comparative absence of rainfall in Assam and the east in parts of Bengal will not continue much longer

At the beginning of the month pressure and temperature both differed largely from the normal The actually highest readings were reported from Assam and there was a large excess in Bengal Bihar as well as though to a smaller extent in other parts Temperature was high over the north of the Province while in Orissa and the Circars probably owing to the north easterly winds set up by the high pressure in the north east it was exceptionally cool Scattered showers were falling in East and North Bengal and Orissa Pressure fell on the following day and continued to do so till the 5th owing to the approach of a depression from the west On the morning of the 5th the area of lowest pressure was in Orissa where there was defect of about 2 inch the fall during the previous 24 hours being 16 inch on the coast between Cocanada and False Point Winds were irregular in Orissa, but generally there was a cyclonic arrangement so that the prevailing direction was between east and north at all stations to the north of a line joining Gopalpur and Diamond Island Though the depression was of considerable depth, there was less wind than usual on the coast of Orissa and the Circars, the highest velocity reported during those days being 19 miles an hour at Vizagapatam On the 6th the depression was diffused over the east of the Bay

Weather was less settled than usual in Bengal while the disturbance was approaching Orissa Showers were frequent in the south western districts and continued with a brief interruption on the 6th until the 7th when pressure was beginning to recover The pressure distribution remained abnormal for some days after the diffusion occurred Readings were everywhere below the normal but by larger amounts in the north east of the Province and Assam than in the west and south The greatest defect on the 8th was 17 inch in North Bengal and the west of Assam, and in western districts where pressure was rising moderately, defect was 05 inch It was not till the 12th that the distribution became normal, and then there was a rapid rise which began in North Bengal, and spreading southward and westward caused high pressure and a steep gradient over the Province and a very uniform distribution over the Bay

Between the 7th and 12th rainfall was chiefly in the east, where some heavy falls occurred and temperature was several degrees above the normal in all parts of the Province After the change of pressure on the 12th and the rather sudden change of winds from

westerly to easterly, local disturbances again began, and rainfall was more general except in Bihar and Chota Nagpur The unsettled conditions passed westward slowly, and by the 14th fairly general rain was falling in the western districts A fall of temperature followed the rainfall westward and between the 13th and 16th mean temperature was normal or slightly below Then on the 17th a rapid fall occurred in the north of the Province but the rather large defect had almost disappeared on the following day

During these days at the end of the second week and beginning of the third when there was a steep pressure gradient over the Province and the adjacent part of the Bay, and an exceptionally uniform distribution in the south and centre of the Bay, the strongest winds of the month were experienced in the north west angle while on the Burma Coast very calm weather prevailed The highest velocity was 27 miles an hour for the three days, 15th to 17th, at Saugor Island

After rather large pressure oscillations over the Province on the 18th and 19th accompanied by fairly general rainfall pressure began to fall in the south east of the Bay, and signs of the first cyclonic disturbance of the season began to appear It was not till the 22nd that it assumed any definite shape, and there was then a diffused depression over the south of the Bay with indraught towards it from both the Madras and Burma coasts It moved northwards during the three subsequent days but as it approached the north of the Bay, it became diffused and practically ceased to exist as a cyclonic disturbance There remained however a fairly steep pressure gradient over the Bay, and for the sea on a fairly strong air movement which caused weather of the south west monsoon type on the Burma coast as far north as Akyab

While the depression was moving northwards over the east of the Bay winds over the Province became more easterly and in places north easterly Rainfall as usual in such circumstances diminished and fewer showers fell during those days than at any other part of the month After the depression became diffused the moist winds from the Bay penetrated inland towards Assam and on the 29th showery weather became general and falls were most heavy in the west of Bihar It was owing to the general heavy fall on the 29th that the average rainfall in Bihar was compared with the normal heavier than in other divisions

From the 27th to the 29th pressure was steadily rising at inland stations and the showery weather over the Province was due more to the steep gradient from east to west which enabled the moist air following the previous disturbance to pass westward than to a continuance of that disturbance With the showery conditions temperature which was several degrees above the normal fell considerably and during the last few days comparatively cool weather became general over the Province

Pressure was less settled than usual during the greater part of the month but in the absence of any large disturbance which would be likely to cause low readings of the barometer for a considerable length of time or any marked condition of the atmosphere over an extended area the oscillations were of short duration and generally about the normal for the time Mean pressure for the month was therefore little different from the normal pressure of the month as a whole and was generally above Excess was between 01 and 02 inch at most of the stations in Bengal Proper and Orissa and practically normal in Bihar and Chota Nagpur There was a slightly steeper gradient than usual from west to east over the centre of the Bay, as the difference from the normal varied from excess of 03 inch in the Circars to defect of 02 inch in the south of Burma

Temperature also underwent considerable oscillations about the normal, the changes being due chiefly to the occurrence of local thunderstorms with rain, except in the early part of the month when the low temperature was connected with more extended causes very cool weather for the season being at that time prevalent over a great part of the Indian peninsula Maximum readings relatively to the normal were on the whole higher than minimum, as the former on an average for the month were in excess in the north of the Province by moderate amounts and normal or in slight excess in the south, while the latter was normal or in slight defect

In Assam and East and North Bengal mean excess was between 1° and 1°5 In Bihar and Chota Nagpur it was about half a degree and in South West Bengal and Orissa rather less

Rainfall was below the normal in all divisions except Bihar where there was a small excess The deficiency increased towards the east or south east the greatest difference being 4 5 inches in East Bengal which received 5 7 instead of the normal fall of 10 2 inches In North Bengal, Orissa and Chota Nagpur the average defect for the division was between 1 and 2 inches, and was comparatively greater in the two last

Showers were as has already been stated of frequent occurrence in all parts of the Province except Bihar and the deficient rainfall for the month as a whole is due to the showers being in most cases lighter than usual The number of rainy days though below the average in Bengal Proper and Chota Nagpur was practically normal, except in East Bengal where 8 occurred instead of 11 in ordinary years

The following table gives full data for comparison of the actual and normal rainfall of the month of May for all districts of the province The figures are derived from the average and actual rainfall of the rain reporting stations in each district due allowance being made for the area which each station represents This gives a more accurate average than the arithmetical means given in the monthly tables The first column gives the normal

or average district rainfall as determined from the observations of the past 25 years The second column gives the actual district rainfall as determined from the weighted actual rainfall of the month at the reporting stations in each district The third column expresses the ratio of the actual district rainfall of the past month to the normal rainfall as a percentage The fourth column gives the same information as the third in a slightly different form, stating as a percentage how much the district rainfall of the month varied in excess or defect from the normal —

Percentage Table for May 1901

Division	District	Normal district rainfall for May	Actual district rainfall for May 1901	Percentage of actual to normal rainfall	Percentage excess (+) defect (−)

The mean pressure of the seven days	Inch 29 1)2
The average pressure of the corresponding period for 24 years Surveyor General's Office	29 5)2
The total number of hours of bright sunshine	H 28)
The maximum possible number of hours of sunshine	91 2
The mean temperature of the seven days	88)
The average temperature of the corresponding period for 24 years, Surveyor General's Office	8) 1
The extreme variation of temperature	31 4
The maximum temperature	108 4
The highest velocity of the wind in one hour	Mil 18
The mean relative humidity	% 72
The average relative humidity of the corresponding period for 24 years, Surveyor General's Office	81
The total fall of rain from 9th to 15th June 1901	Inch 1 44
The average fall of the corresponding period for 24 years, Surveyor General's Office	3)2
The total fall from 1st January to 15th June 1901	13 59
The average fall of the corresponding period for 24 years Surveyor General's Office	15 07

The mean pressure temperature etc, are deduced from the traces of the Barograph and Thermograph, and from eye observations

The maximum and minimum temperatures are obtained from self registering thermometers All the thermometers are verified and the readings have been corrected to a standard constructed and verified at the Kew Observatory They are exposed under a thatched shed open at the sides and are suspended four feet above the ground

The barometer readings are corrected approximately to those of the standard Newman's No 80, formerly at the Surveyor General's Office

The hygrometric elements are obtained from Tables III IV and V of the official tables computed in the Meteorological Office and based on Regnault's modifications of August's formula

The directions and the movement of the wind are taken from the trace of a Beckley's anemograph

The mouth of the rain gauge is one foot above the ground

o, overcast, g, gloomy, d, drizzling rain, p, passing temporary showers, t, thunder, <, lightning, /, strong wind

METEOROLOGICAL OFFICE, GOVT OF INDIA,
Alipore (Calcutta), the 1(th June 1901

JOHN ELIOT,
Meteorological Reporter to the Govt of India and Director General of Indian Observatories

EXPLANATION SHEET ATTACHED TO SCHEDULE OF NORMAL RATES OF PRICES PREPARED BY THE DEPARTMENT OF LAND RECORDS AND AGRICULTURE BENGAL

[N B—No rates re shown in the schedule which are not the averages of at least two quotations for the sin month in different years Prices current of the y ars 1896 and 1897 which were years of famine have b en left out of alculation and those for 1894 and 1895 have been substituted for them—vide rule 3 (i) Part I Chapter I of the Bengal Famine Code of December 1895]

Birbhum—Prices of Indian corn at Rampur Hât have not been reported for January 1900 October 1898 to 1900, and for the April and July quarters of the whole quinquennial period

Bankura—Quotations of prices for barley at Sadar are available only for April 1898 to 1900, and for October 1895

Hooghly—The prices of barley at the Sadar mart are forthcoming only for January and July 1894 and 1895 and for April 1894 The price of wheat for the same mart is not available for October 1895 Hence average of four years only is given

Howrah—Prices of gram are not furnished for 1894 and 1895 for the Sadar, Mohiari and Ulubaria mart Hence three years average has been shown The price of rice at the Ulubaria mart is not available for July 1895

24 Parganas—Quotations of prices of rice and gram for the Kidderpur mart and of gram for the Barasat and Mograhat marts for 1894 and 1895 are not forthcoming Hence three years average is shown The price of rice at Mograhat for July 1898 has not been received and so average price for four years only is given in the schedule

Calcutta—The price of jowar is not given for April, July and October 1900 Hence four years average has been taken

Nadia—Quotations of prices of barley gram and wheat are very incomplete Hence averages of three or four years and in the case of wheat in Meherpur for two years only, have been taken

Murshidabad—Price of *Dudhi* wheat at Berhampore is furnished for two years only That for barley in the same mart is given only for two years for the January and October sales, and for three years for April and July The price of barley at Kandi for January last is not available Prices of wheat barley and gram at Lalbagh are not quoted for 1894 and 1895 and for some quarters of the other years Hence averages of three years or two years have been taken in the above cases The price of wheat, rice and gram for 1899 for the Jangipur mark t is not given, and so four years average has been taken January and October returns for 1898 and 1900 for barley at Jangipur are not furnished, and for April and July returns four and three years figures, respectively, are available and averages have been taken accordingly

Jessore—Only the April and July returns of the price of gram at Magura and the January return of the price of gram at Bongaon are available for two years only and accordingly two years average furnished in the schedule

Rajshahi—The price of wheat at Boalia for October 1898 is not given and so four years average has been taken

Dinajpur—Price of barley at the Railway Bazar Hat is not given for January 1894 and 1895 April 1898 October 1900 and for July of 1894, 1898 and 1900 Averages of the remaining years in each case have been taken

Jalpaiguri—Figure for barley at Sadar for one year (1894) only is given, which has therefore been rejected

Darjeeling—Figures for barley at Kurseong are available for 1894 and 1895 only Those for wheat at Siliguri are forthcoming only in the July returns of 1899 and 1900 Of Indian corn in the same market no figures are available for 1894 and 1895 and for October 1900 Average of the remaining years in each case has been taken

Rangpur—Prices of Indian corn for 1894 and 1895 and of both wheat and Indian corn for April 1900 for the Sadar mart are not quoted The price of rice at Kurigram for April and July 1898 are also not forthcoming Averages of the remaining years only have been taken in each of these cases

Dacca—The price of rice at Munshirhat is not given in the January April and July returns of 1900 and the October returns of 1899 and 1900 Hence averages of four and three years respectively have been taken Quotations of the price of gram at Munshirhat and Mirkadem are not given for 1894 and 1895, and also for 1900 as regards the former

Mymensingh—Figures for gram at Netrokona are not available for 1894 and 1895 The price of barley at Nasirabad for January and April 1898 and for January and July of 1900, is not available In all these cases averages are based on the returns of the remaining years

Faridpur—For the Goalundo market, prices of wheat, barley rice and gram are not reported for 1894 Prices of common rice and gram in 1894 at Sadar, and of rice at Madaripur, are not available so four years average has been taken in these cases Quotations for barley in the Sadar mart are also incomplete

Backergunge—The prices of new rice at Barisal Patuakhali and Pirojpur are not given in the January returns prior to 1898, and none of the returns of 1894 and 1895 as regards the mart at Bhola Quotations for gram at Barisal are not given for January 1891 and at Pirojpur for the years 1898–1900 Accordingly the averages are based on the remaining returns

Tipper—The price of rice is not quoted for any of the marts in the January and April returns of 1894 Therefore four years average has been taken There was only one quotation for the prices of gram and wheat at Comilla for January and April 1895, which was therefore rejected

Noakhali—Prices of rice at the Kalitara Hat and Fenny Hat are not reported in the January and April returns of 1894 and also in the July return of the same year for the former and accordingly four years average has been taken

Chittagong—Figures for wheat at Sadar are not given for the years 1898–1900 Hence two years average has been furnished

Patna—Price of Indian corn is not given in the return for the Sadar mart for April and July 1900 and in the Barh return for January April and July 1900 and for July 1895 Averages have been taken of the remaining returns only In the April and July returns of 1900 and in the return for October 18 8 the price of *jowar* at Sadar is not quoted and so four years average has been taken Only the October returns for *marua* excepting the one for 1899 are forthcoming The average is therefore furnished for the October quarter alone and that for the four years for which returns have been received For the Bihar mart, no price has been quoted for wheat, barley rice and gram for April 1900 The average given therefore relates to the remaining four years The figures for *jowar* in the Bihar mart for January 1895 January and April 1898, January 1899 and April and July 1900 have not been received For the Dinapur mart prices of wheat barley, rice *jowar* gram and Indian corn were not received for January 1898 and 1899 Accordingly, three years average has been taken in those cases

Gaya—The price of Indian corn at Sadar for January 1900 is not given The price of barley in July 18 4 and 1900 and for October 1900 in the Nawadah market is also not forthcoming That of Indian corn in the same mart is not quoted for October 1899 The prices of wheat barley rice and gram for October 1900 in the Aurangabad market have not been reported and therefore four year average has been given in this schedule in these cases No information regarding the prices of *marua* and Indian corn in October 1898–1900 in the same mart is available The price of Indian corn is also not forthcoming in the return for January 1898—1900 Only two years averages have therefore been furnished in the schedule in these cases Regarding barley also, in the same mart the necessary information is lacking in the returns for January 1894 and 1895 and for October 1900 The returns for *marua* and Indian corn for the Jahanabad mart are likewise very incomplete

Shahabad—Quotations of the prices of wheat barley rice and gram for the Arrah mart are not given for the January April and July quarters of 1898 and for the October quarter of 1898 and 1900 The price of Indian corn for January April and October 1898 and 1900 in the same mart is also wanting Returns of the prices of wheat barley rice and gram in the Buxar market have not been received for October 1898, and those for the same grains in the Bhabua mart for January 1898 are also wanting Averages have in all those cases been calculated on the remaining returns The figures for *jowar bajra, marua* and Indian corn at Buxar Sasaram and Bhabua are also defective to a great extent

Saran—The price of *marua* in the Chapra mart is not quoted for January and April 1898, July 1898 and 1899 and for October 1899 and that for the Gopalganj market is not reported for July 1894 and for April 1899 and 1900 For barley in Siwan no prices are quoted in the January returns of 1898 and 1900 For *marua* also no prices are quoted in the returns of the same mart for October 1898, July 1898–1900 and April 1899 and 1900 The averages given in the schedule are based on the remaining quarterly returns in each case

Champaran—The price of Indian corn in July 1894 at Motihari, and in October 1895 and July 1894 1895 and 1900 at Bettiah are not available Of *marua* in the former market no price is quoted in the January and April returns of 1894 1895 and 1898 in the July returns of 1894, 1898 and 1899 and also in the October returns of 1898 and 1899 In the January return of 1894 for Motihari, price of barley is omitted The prices of *jowar* and *bajra* and *marua* are not stated in the Bettiah returns of January 1898—1900 For barley and rice in the same market no returns have been received for July and October 1895 The prices of barley in January 1898 and of gram in April July and October 1895 in the same mart have not been returned In all the above cases the averages given in the schedule are based on the returns of the remaining quarters and years

Muzaffarpur—Quotations of the price of *marua* in the Sadar mart are not given in the returns for January and October 1895 and those of Indian corn in the Hajipur mart are not reported for July 1899 and 1900 Information regarding the price of barley in Hajipur in January 1894 and 1898 and in April 1900 is also wanting The remaining years average has therefore been given in the schedule in each of the above cases

Darbhanga—The prices of wheat barley, rice, *marua* gram and Indian corn in the Madhubani mart are not available for October 1900, and therefore four years average has been given in the schedule The price of Indian corn at Sadar in July 1899 and at Samastipur in July 1894 is not available Quotations of the price of barley at Samastipur are also wanting for January 1895, 1898 and 1900, and for October 1894 and 1899

Monghyr The Sadar market returns for January 1899 and 1900 July 1898—1900 and for April 1900 are silent regarding the price of barley The price of *jowar* at Sadar is not quoted in the April returns of 1898 to 1900, and the Begusarai returns for January of the same years do not furnish the price of *jowar* Quotations of the prices of wheat and Indian corn at Begusarai are not given in the returns for April, July and October 1895 The price of barley at Begusarai in January 1898 and at Jamui in July 1894 is not available The Jamui returns of October 1899 and 1900 are silent regarding the price of *marua* In the Sadar returns of January 1900 April 1895 1898 and 1900 July 1898—1900 and October 1899 and in the Jamui returns for January 1900 April 1895 and 1900, July 1895 1899 and 1900 and for October 1899 and 1900 the price of Indian corn is wanting The averages in all these cases as given in the schedule, are based on the returns of the remaining years

Bhagalpur —The price of Indian corn for October 1900 in the Sadar mart and in the Banka market for January 1894 and 1900 April 1894 1895 and 1900 and for July 1894 and 1899 is not available For January 1898 and July 1899 the price of wheat at Banka is not quoted Quotations of the prices of gram at Banka and Supaul are not given for January 1900 The price of barley at Banka is not shown in the returns for April 1898, and July 1895 1899 and 1900 and the price of *marua* at Supaul for January 1895 is also not forthcoming Accordingly the average prices quoted in the schedule refer only to the remaining returns

Purnea —In the July and October returns of 1898 the price of gram at Kasba is not given and hence four years average has been taken

Malda In the April returns for 1899 and 1900, in the July return of 1900, and in the October return of 1899 the price of wheat at English Bazar is not given The price of *bajra* in the same market is not reported in the January and April returns of 1899 and 1900 and in the July returns of 1894 1899 and 1900 The price of gram in the same mart is not forthcoming in the April and July returns of 1900 Quotations for Indian corn in English Bazar are not given for January 1899 and 1900, April 1898—1900 and for October 1898 and 1899 For the Bholahat Nawabganj mart no price is quoted for rice in the January and April returns of 1894 for wheat in the April returns of 1894, 1898 and 1900 and in the July and October returns of 1894 and 1895 for gram in the April and July returns of 1894 1895 and 1900 and in the October returns of 1894 and 1895 and for Indian corn in the returns for January 1894 1899 and 1900, and for October 1894 1895 and 1899 Accordingly average prices of the remaining years have been furnished in the schedule in all these cases

Sonthal Parganas —No return for the Godda mart has been received for 1898 The price of Indian corn at Dumka is not given for April 1900 and of barley in the same mart no figures are available for 1894 and 1895 The price of *marua* at Godda is not reported for 1899 and 1900 and that of wheat at Jamtara is not available for the years 1898 to 1900 In the Godda returns for April 1900 and October 1899 the price of wheat is not stated and in the returns for the first three quarters of 1900 and for October 1899 the price of Indian corn at Godda is wanting The Godda returns for January and July of 1900 and for October 1899 and 1900 are silent about the price of barley The Jamtara returns for the first three quarters of 1898 and for October 1900 do not give the price of Indian corn The price of Indian corn at Rajmahal is not available for January 1895 and 1900 July 1894 1899 and 1900 and for October 1894 and that at the Pakur mart is not available for January and April 1894 and 1900 July 1899 and 1900 and for October 1899 No quotation of the price of barley at Rajmahal is given for April 1895 and 1899 July 1894 and 1895 and for October 1894, 1895 and 1898 In all the above cases therefore, the average prices have been based on the returns for the remaining years of the quinquennium

Hazaribagh —No returns for the Giridih mart have been received for the years 1898 1899 and 1900 and consequently the averages of the remaining two years only could be given in the schedule in respect of all kinds of grain

Ranchi —For January 1898 and April 1894 the price of barley at the Sadar mart is not available and the price of Indian corn in the same mart in April 1900, July 1899 and 1900 and October 1899 has not been returned In the Palkot return for April 1898—1900 the price of barley is not quoted while that of rice is wanting in the January returns of 1894 and 1898 and in the returns for April 1900 and October 1894 In the January returns of 1894 1898 and 1900 and in the returns for April 1900, July 1898 and October 1895 and 1899 the price of wheat at Palkot is not quoted The price of *marua* in the same mart in July 1894 and 1899 and in October 1894 is not forthcoming and that of gram is not given in the returns of January 1894 and 1898 April 1900 and October 1894

Palamau —The price of barley in January 1898 and April 1894 in the Daltonganj market not being available four years average has been shown in the schedule For Indian corn only three year average could be given as the returns of April 1894 and 1895 and July 1899 and 1900 do not give quotations of its price In regard to *marua* also no information is available regarding its price in January 1894 and 1900, April 1894, 1898 and 1900, and in July and October of 1894

Manbhum —Regarding the Purulia mart the following information is wanting —

The price of barley in July 1898 and in October 1894 and 1898

The price of *jowar* in January and April of 1894, 1895 and 1898, and in July 1894, 1895 and 1899

The price of *bajra* in October 1894 1895 and 1898

The price of Indian corn in January and April of 1895 and 1899 and in October 1894 and 1895

In the returns of the Gobindpur mart the following prices are not quoted —

The price of wheat in January 1898 and in April 1900

The price of barley in April 1894 1895 and 1900

The prices of rice and gram in April 1900

The price of *marua* in October 1894 1895 and 1899

The price of Indian corn in January 1899 and 1900 April and July 1898 1899 and 1900, and in October 1899

The average prices given in the schedule in each of these cases refer to the returns for the remaining years of the quinquennium

Singhbhum —The price of Indian corn at Chaibassa is not given in the October returns of 1894, 189 and 1898, and so two years average has been shown in the schedule

NOTIFICATION No 761T R

The 20th June 1901 — It is hereby notified for general information that the Lieutenant Governor of Bengal has been pleased to make the following revised rules under section 5 of the Bengal Contagious Diseases (Animals) Act VIII of 1880, in supersession of those published under Government notification of 23rd February 1886 —

F A SLACKE,

Secy to the Govt of Bengal

GENERAL DEPARTMENT—(ECCLESIASTICAL)

NOTIFICATION —No 2210

The 25th June 1901 —The following revised subsidiary rules for the erection repair and endowment of monuments in Government cemeteries are published for general information in supersession of the rules which were promulgated with Notifications No 2761, dated the 25th August 1896 No 402T —G, dated the 11th June 1897 and No 587T —G, dated the 2nd October 18 7

F A SLACKE

Secy to the Govt of Bengal

No 247 dated Simla the 7th June 1901

NOTIFICATION—By the Government of India Home Department

THE following revised subsidiary rules for the erection repair and endowment of monuments in Government cemeteries throughout India except in the Madras Presidency, are published for general information and guidance —

Subsidiary rules for the erection, repair and endowment of monuments in Government Cemeteries

APPLICATION FOR ERECTION OF A MONUMENT

I —A person desiring to erect a monument should submit his application in the Form A (annexed) with a dimensioned drawing of the monument drawn to scale and a detailed estimate to the Chaplain or other officer in charge of the Cemetery

II —The Chaplain or other officer in charge will (unless the monument is a single stone monument as defined in the margin) send on the application with the drawing and estimates, with a forwarding letter (Form B annexed) to the Executive Engineer in charge of the cemetery The Executive Engineer will fill in column 7 and examine and countersign the drawing and the estimate, and return the application, with the drawing and the estimate to the Chaplain

A s gl stone m um t s a m l st g f a ıl r h l l or l b r a s y f u l t n s s th t tal h ght t x l g s feet th f m ry n w d 3 f t 6 h th f y g ve

The r pa r of fragile or cost y work liable to receive damage cannot be undertaken by Government, and should not be taken into consideration in the estimate of column 7 (b)

III —On return of the application by the Executive Engineer the Chaplain will see that the application in Form A is correctly filled in sign the memorandum at the foot of the form and forward it with the enclosures to the Archdeacon If the deceased belonged to some other denomination than that of the Church of England the Chaplain shall obtain a certificate of approval of the design from the Minister of the denomination to which the deceased belonged, and forward it with the application to the Archdeacon

N t —Il t o pl s ry f nd m t t b k a y a f m me ts ere t d t th le c s d comra t s by R l h l l r m n m n ed ffi er

IV —The Archdeacon will permit the monument to be erected or refuse to do so If permission is given, the Chaplain will advise the applicant of the sanction in Form D (annexed), and instruct him to pay the amount of the endowment calculated as in Rule VI to the Executive Engineer who will grant the applicant a receipt in Form C (annexed

V —The Chaplain must inform the Executive Engineer in Form D (annexed) as soon as the monument is ready for erection and the latter will see that it is set up in accordance with the drawing and the estimate sanctioned, and will enter the monument upon his list for repairs by the Public Works Department The Chaplain will in communication with the Executive Engineer send in April every year to the Archdeacon a list of the monuments erected and endowed during the year ending March 31st together with the amounts of the endowment fee

AMOUNT OF ENDOWMENT

VI —An endowment fee of Rs 1 › will be charged when a person wishes to endow a single stone monument The payment will not be compulsory

Other monuments shall be divided into two classes—

(1) plain and solid monuments, which are likely to require only occasional repair and

(2) elaborate monuments and other monuments which are likely to require special attention or frequent repair

An endowment fee of Rs 30 shall be charged for monuments of the first of these classes and of Rs 7 › for monuments of the second class The classification will rest with the Executive Engineer, but any person objecting to his decision may appeal to the Superintending Engineer With the sanction of the Superintending Engineer, a higher fee may be charged in cases where fees on the classified scale are clearly insufficient

N t —In the case of hid mo t the fe m y b ed ed t R 20 d R 50 provided th t the mo u nt d s not e ceed 5 3

No addition to an existing monument in a Government cemetery will be allowed beyond mere lettering on existing slabs, head stones, or crosses, unless the whole monument i endowed

VII —The endowment is intended to cover the expense of ordinary annual maintenance re lettering and repairs, but not the risk of accidents due to floods or earthquakes or other extraordinary causes It is open to any person to provide for extraordinary repairs by making a special endowment in addition to the ordinary endowment fixed by the Executive or Superintending Engineer under Rule VI The special endowment must, however, be limited to the amount necessary to cover such work as the Government officers can undertake to execute

VIII —When an endowment is paid to the Executive Engineer, in accordance with Rules IV and VI the amount must be entered in the Divisional Cash book as a deposit received and paid into treasury with a Remittance Note in Form G (annexed) for credit to Civil Department The Executive Engineer will forward the Treasury Officer s receipt with his monthly accounts to the Examiner of Accounts in support of the debit to Deposits, a note to the effect that this has been done being entered in red ink across the block foil of the Remittance Note

The Examiner will from these receipts maintain a Register in Form H (annexed) showing the endowments for each cemetery in his Province The Civil Account Officer will

credit to a head Cemetery Endowment Fund under the major head Savings Bank Deposits — Bank Accounts all sums received on account of these endowments, but will show no details regarding the cemeteries

After the amount has been paid into the treasury the Executive Engineer will enter it in the Register of Endowments Form E (annexed) (Part I)

IX —The Executive Engineer shall maintain an account of all ordinary and special endowments in Form F (annexed) (Part II) A separate ledger account shall be opened in Form F (annexed) (Part III) for each monument, for which a special endowment exceeding Rs 25 has been made under Rule VII

Note —The provision as to separate accounts should be applied ... of these rule

X — The interest calculated under Rule XI on the deposit shall be used in meeting the expenditure for the repair of those monuments for whose preservation deposits have been made In no circumstances should the capital sum be applied to meet such expenditure, nor should the interest be separate for each monument The interest accruing on the deposits shall form a common fund to be used exclusively for the repairs of all endowed tombs provided that the interest on deposits for which separate accounts are opened under Rule IX shall be used exclusively for the particular monument on account of which the deposit is made

If a monument becomes so damaged as not to admit of repair the Chaplain shall communicate with the friends of the deceased or when such communication is not possible advertise three times in the *Gazette of India* and the Gazette of the Province and if no person will undertake to restore it, the monument shall be treated at the next repairs in such manner as the Chaplain may decide to be necessary for the maintenance of the Cemetery in decent order provided always that any inscribed slab or tablet which formed part of it shall be placed over the grave in simple masonry or be inserted in the wall of the Cemetery and shall be carefully preserved

XI —Joint estimates shall be framed in October of each year by the Executive Engineer and the Chaplain or other officer in charge of the Cemetery of the cost of repairs of endowed tombs, during the following official year and the aggregate of the sums so estimated shall not exceed the estimated interest at 3½ per cent per annum on the capital sum deposited up to the 31st March preceding The Executive Engineer should budget annually for the grant required such grant would be entered in a lump sum under the head Civil Works without any distinction between ordinary and special endowments

XII —The Civil Account Officer of each Province will in his final accounts for March debit to 14—Interest by credit to the Public Works Department the interest at 3½ per cent calculated on the amount standing at credit of the deposit head on 31st March On receipt of the credit the Examiner of Public Works Accounts will distribute the amounts between the cemeteries of the Province, and advise the Executive Engineer concerned of the amounts so credited On receipt of such intimation the Executive Engineer will credit the amount in his divisional accounts as Public Works revenue under the head Interest on Endowments for Repairs of Monuments, and then fill in the interest column in Form E (Part II)

ENDOWMENT OF EXISTING MONUMENTS

XIII —When application is made for the endowment of an existing monument, the above procedure should be followed as far as applicable The application in Form A must be submitted to the Chaplain or other officer in charge and forwarded by him to the Executive Engineer The latter besides framing an estimate of annual repairs, must estimate the cost of placing the monument upon a suitable foundation if he is satisfied that such a foundation does not exist The application should be sent to the Archdeacon and with his consent the monument will be brought on to the books of the Public Works Department The cost of the foundation should be paid over to the Executive Engineer, who will carry out the work without delay

XIV —In order that the Local Government or Administration may know that the tombs are kept in proper repair, an Annual Report in Form F (annexed) should be forwarded as soon as possible after the close of the accounts for a financial year by the Executive Engineer with respect to their condition, for each cemetery, to the Examiner of Public Works Accounts who will consolidate the returns so received and render a general return to the Local Government or Administration The account will merely show the totals for each cemetery as taken from the Executive Engineer's accounts

The reports sent to the Examiner should contain remarks both by the Chaplain and Executive Engineer as to the state of the tombs for which endowments have been made

Note —The foregoing rules are applicable to Cenotaphs erected in Church compounds but the previous consent of the Local Government to the construction of a Cenotaph is very necessary

Form A

Application to erect a monument in the Government Cemetery at

(Referred to in Rules I III, and XIII)

1 Name and address of the applicant

2 Name of the deceased

3 Denomination to which he belonged

The 25th June 1901

BUKHTIARPUR BIHAR TRAMWAY

No 100R —Notification —It is hereby notified that an application has been duly made to the Local Government of Bengal by Messrs Martin and Company of Calcutta for and on behalf of a Company about to be formed and to be called the Bukhtiarpur Bihar Light Railway Company, Limited, for sanction to the construction of a line of tramway between Bukhtiarpur on the East Indian Railway Line and the town of Bihar, within the district of Patna and whereas it appears to the Local Government expedient and proper that the said application should be granted, the Local Government in pursuance of section 5 of the Bengal Tramways Act, 1883 makes the following Order

D JOSCELYNE
Secy to the Govt of Bengal

PRELIMINARY

1 This order may be cited as the Bukhtiarpur Bihar Tramway Company Order

Short title

2 The several words and expressions to which meanings are assigned by the Bengal Tramways Act, 1883 have in this Order the same respective meanings —

Interpretation clause

Provided that in this Order the expression the tramway ' or the undertaking shall mean the tramway and works and undertaking by this Order authorised except where the context may require a different meaning and the words "the Act shall mean the said Bengal Tramways Act 1883

3 (1) The tramway authorised by this Order shall be constructed, maintained and worked subject to the provisions of the Act, of the rules from time to time in force under the Act and of this Order

Law applicable to the tramway

(2) No powers or rights shall be deemed to have been conferred on the Promoters or to have been relinquished by Government except as in this Order expressly provided

4 Messrs Martin and Company, Calcutta, shall be the Promoters for the purposes of this Order, and are in this Order referred to as "the Promoters" and this expression shall except where the context may require a different construction, include the Company to be formed and called the Bukhtiarpur Bihar Light Railway Company, Limited hereafter in this Order referred to as 'the Company '

Promoters and Company

CONSTRUCTION OF TRAMWAY

5 The Promoters shall construct and maintain subject to the provisions specified in this Order, and to the agreements made between the Promoters and the Local Authorities, which are set forth in the First Schedule attached to this Order and in accordance, also with plans and sections deposited by the Promoters with the Local Government, the tramway hereinafter described with all proper establishments, rails, bearings, stations offices, works rolling stock, and conveniences connected with the tramway or required for the purpose thereof

Authority to Promoters to construct tramway

6 (1) Subject to any extension of time that the Local Government may see fit to grant the Promoters shall complete and equip the same in every respect for opening and working for traffic to the satisfaction of the Local Government within three years from the date of this Order

Date for completing the tramway

(2) In the event of the said Promoters failing to commence the construction and to complete and equip the tramway as provided in the first paragraph of this clause, then in any such case the Local Government shall be at liberty to revoke this Order and the Local Government shall thereafter be at liberty to enter into any arrangements with any other person or persons for the construction of a tramway from Bukhtiarpur to Bihar and in the event of this Order being revoked by reason of the said Promoters failing to complete and equip and open for traffic, the said tramway within the period of three years from the date of this Order the Local Government shall have the option of taking over all the permanent way and rolling stock of the tramway at a reasonable valuation to be determined by the Local Government, and in the event of the Local Government exercising this option, all the other works and the buildings of the tramway may be dealt with under the provisions of the Act relating to the discontinuance of tramways, as a tramway whereof the discontinuance has been proved to the satisfaction of the Local Government

If, however the Local Government do not desire to exercise the option of taking over the permanent way and rolling stock of the tramway as herein provided then and in such case the tramway including the permanent way, the rolling stock and all the buildings and works of every kind connected therewith may be dealt with under the provisions of the Act relating to the discontinuance of tramways as a tramway whereof the discontinuance has been proved to the satisfaction of the Local Government

7 The Tramway authorised by this Order is a single line with necessary passing places within the district of Patna from the East Indian Railway Station of Bukhtiarpur to the town of Bihar, a distance of about 18¾ miles along the District Road The line will start close to and south of Bukhtiarpur Station run in an easterly direction and join the District Road at a point about half a mile (36 71 chains) It will then run in a southerly direction on the east side of the road and following it to Cheru where it is proposed to have a flag station 4½ mileage (221 45 chains) Thence the alignment following the District Road will pass through the villages of Delin (294 00 chains) and skirt the villages of Rupuspur on the east to Vina Crossing Station, mileage 9 25 (4[?]6 20 chains) Leaving Vina the line will pass by the village Dhamoulee on the east to Mora Flag Station, mileage 14½ (766 70 chains) Proceeding thence the line will pass close to the large and important village of Mora on the east to Soh Flag Station mileage 16 (846 80 chains) and thence to Bihar the terminus mileage 18¾ (972 42 chains)

Description of the tramway authorised

8 The Promoters may use for the construction of the tramway but not for the purposes of any building or erection connected therewith one side of the road over which the tramway is to run 8 feet in width

[illegible] limitation

In cases where there are no buildings on that side of the road on which the tramway is laid the said width of 8 feet shall be measured from the gutter on that side of the road or where the road is on embankment from the edge of such embankment and in cases where there are buildings on that side of the road the said width shall be measured from such point on that side as in the opinion of the Government Engineer in charge of the road is safe and proper but for the purpose of crossing bridges where desired the tramway may approach the centre of the road as far as shall in each case, be deemed unavoidable by the said Engineer

Provided always that—

(1) there shall nowhere be a less width of road clear of the inner rail of the tramway than 14 feet

(2) if any addition to the existing width of the metalled surface of the road is rendered necessary in order to comply with the terms of this Order or if any addition to or alteration of any bridge is in the opinion of the Government Engineer in charge of the road rendered necessary by the tramway, the same shall be carried out by and at the cost of the Promoters to the satisfaction of the said Engineer

(3) at no point on the metalled road shall there be more than one line of rails any loop lines turn outs or sidings that may be required must therefore be placed elsewhere than on the metalled portion of the road

(4) the metalling of the roadway shall not be interfered with more than is absolutely necessary for the proper construction of the tramway and in all cases where such metalling has been so interfered with it shall be repaired and made good with all reasonable promptitude by and at the cost of the Promoters to the satisfaction of the Government Engineer in charge of the road

9 In all cases where, in the opinion of the Government Engineer in charge of the road the existing road bridges are not sufficiently strong to carry the tramway, the Promoters shall make at their own cost such additions to or alterations of any such bridges as may be required by the said Engineer and the work shall be carried out and completed to his satisfaction

Bridges

Provided that the Promoters may, at their option, construct at their own cost, for the purposes of the tramway, separate bridges of such design and in such manner as shall first be approved by an Engineer or other officer duly appointed in this behalf by the Local Government, and shall complete the same to the satisfaction of the said officer

10 (1) Such additional land (over and above that which the Local Authorities have agreed to grant free to the Promoters in terms of clause 1 first schedule hereunto annexed) as may be required by the Promoters and sanctioned by the Local Government as necessary for the purposes of the tramway shall be acquired by the Local Government on behalf of the Promoters under the Land Acquisition Act, I of 1894, and the cost of acquiring such land shall be met by the Promoters

[illegible] addi[illegible] [illegible]ured by Pr[illegible] Di[illegible]al of [illegible] by the [illegible]ters

( ) The Promoters may, from time to time with the approval of the Local Government but not otherwise sell or otherwise dispose of any land acquired by the Local Government on their behalf which may no longer be required for the purposes of the undertaking

11 The tramway shall be constructed on a gauge of 2 feet 6 inches In villages and at all level crossings of district or village roads and wherever the width of metalled road left clear of the inner rail of the tramway is less than 14 feet and the tramway is not fenced, either grooved or double rails shall be used and at all such places the metal of the road shall be maintained flush with the level of the top of the rails At all places where double rails are used such rails shall be kept properly secured to each other by distance pieces placed at regular intervals to the satisfaction of the Government Engineer in charge of the road

[illegible] tram[illegible]

12 Without prejudice to the powers conferred on the Local Authorities by section 14 of the Act as regards the type of cars and carriages to be used on the tramway and the brakes and other appliances with which they are to be furnished, the standard weights and dimensions of rails sleepers rolling stock and other equipment of the tramway are to be as set forth and described in the second schedule attached to this Order The Local Government, however, reserves to itself the right to revise the said standard weights and dimensions and the special sanction of the Local Government must be obtained before the materials, &c, required for the tramway are ordered

[illegible]

13 The Local Government shall have the power of determining, from time to time the situation and dimension of all stations station yards, offices warehouses houses for employes conveniences and works to be constructed in connection with or as part of the tramway

Stations and buildings

14 The Promoters shall within three calendar months of being called upon by the Local Government to do so be bound to provide at their own expense fencing on both sides of the tramway, either along the whole or any part of its length, and shall carry out and complete the work in such manner and in such time as the Local Government may direct

Fencing

15 (1) The Promoters bind themselves to provide at their own cost and to the satisfaction of the Local Government, suitable level crossing wherever the

[illegible] Level [illegible] Gates [illegible]

tramway crosses district and village roads, and at such other places as the Local Government or any officer appointed by the Local Government in this behalf may, from time to time direct

(2) The Promoters shall, at their own cost provide gates with gate keepers lodges and shall maintain at their own cost gate keepers at such level crossings or bridges crossed by the tramway as the Local Government may, from time to time direct

16 Subject to the previous sanction of the Local Government, in each case, the Promoters may hereafter from time to time make at their own cost such crossings, passing places junctions, and other works as may be required in addition to those specified in their application for this order or authorised by this Order and all such works shall, when sanctioned by the Local Government be completed to the satisfaction of the Local Government

Provision of additional passing places etc required by Promoters

17 The Promoters shall at their own cost construct and maintain all such stations passing places sidings junctions, and all other works in addition to those specified in or authorised by this order and shall also employ and maintain all such establishments in addition to those specified in or authorised by this Order as the Local Government may, from time to time consider to be expedient for the safe and efficient working of the tramway or for the convenience and safety of the public and of the traffic of the roadway All such additional works shall be completed to the satisfaction of the Local Government

Additional works required by Local Government

MOTIVE POWER, SPEED AND SIGNALS

18 The vehicles used on the tramway may be moved by steam power The outside cylinder type of locomotive may be used but the Local Government reserves to itself the right to order noiseless and smokeless locomotives to be used on any portion of the tramway

Power to be used by the tramway

19 The speed of trains on the tramway shall not exceed 12 miles or such other speed as may from time to time be authorised by the Local Government Provided always that until the whole line is fenced on both sides, the maximum speed shall not exceed 10 miles an hour and the engines shall be fitted with cow catchers

Speed of trains

20 All the permanent and crossing stations of the tramway shall be provided with home signals which shall be at least 20 feet in height and shall be located on the platforms The Local Government however reserves to itself the right to order distant signals to be provided at the permanent and crossing stations as well as both home and distant signals at such other stations, in addition to those referred to herein, and at such other places as may be considered necessary by the Local Government

Signals

In thick, foggy, or tempestuous weather detonator signals shall be used in addition to the ordinary day and night signals and all signals in use on the tramway shall be constructed, worked and used in accordance with such orders as may be prescribed, from time to time, by the Local Government

MAINTENANCE AND WORKING OF TRAMWAY

21 The Promoters shall at all times maintain and keep in good condition and repair to the satisfaction of the Local Government or of any officer duly appointed in this behalf by the Local Government all way, works, rolling stock, and appliances appertaining to the tramway and shall maintain the tramway way works, rolling stock and appliances and shall work the same in such manner as will, to the satisfaction of the Government Engineer in charge of the road avoid all risks of danger or annoyance to the ordinary road traffic

Maintenance of way works, &c

22 (1) The Promoters shall maintain and keep in repair, to the satisfaction of the Government Engineer in charge of the road so as not to interfere in any way with the efficient drainage of the road the portion of the road on the side on which the tramway is laid such portion shall include the width of the side of the road on which the tramway is laid from a point 4 feet from the centre line of the tramway on the side nearest to the centre of the road and on the other side to the bottom of the slope of the embankment when the road is in embankment or to the top of slope of the cutting when it is in cutting or where there are buildings to the point to be determined by the Government Engineer in charge of the road, under the provisions of clause 8 of this Order

Maintenance of portion of road on which tramway is laid

The said portion of the road shall be ballasted by, and at the cost of the Promoters, who shall also at their own cost alter the position or level of the tramway and of the said portion of the road to suit future alterations in the road or such future alterations in the tramway as may be approved by the Local Government and shall forthwith repair, make good and reinstate to the satisfaction of the Government Engineer aforesaid any other portion of the road which shall at any time be in any way damaged by reason of any fault of the Promoters or of any accident to or upon the tramway Any gutter or drain on the side of the road on which the tramway is laid, as the same at present exists or shall hereafter be constructed at the cost of the Local Government or of the Local Authority shall likewise be maintained in efficient order by and at the cost of the Promoters

(2) The portions of the road from 4 feet from the centre line of the tramway to the opposite side of the road from the tramway will be maintained and kept in repair by and at the expense of the Local authorities

23 The undertaking and all works stock appliances and accounts appertaining thereto shall at all times be open to the inspection and examination of any person or persons whom the Local Government may appoint for that purpose, and the Promoters shall afford all reasonable facilities for the inspection or examination to the officer making it

Inspection of works, &c

24 When, after inspection of the tramway or portion of the tramway or any rolling stock used thereon, the officer making the inspection under clause 23

Closing of tramway or portion thereof &c if found to be unsafe

of this Order reports to the Local Government that, in his opinion the use of the tramway or any portion thereof, or of any specified rolling stock, will be attended with danger to the public using it, the Local Government may direct the tramway or portion thereof be closed for the public conveyance of passengers, or that the rolling stock so specified shall no longer be used as the case may be

Tramway not to be reopened without inspection.

25 When the tramway or any portion of the tramway has been closed under clause 24 of this Order it shall not be reopened for the public conveyance of passengers unless and until it has been inspected by the officer referred to in clause 23 of this Order and its opening sanctioned by the Local Government

Rolling stock not to be used without sanction.

26 When the Local Government has under clause 24 of this Order prohibited the use of any rolling stock, the said rolling stock shall not be used unless and until the Local Government sanctions its use

Powers of Local Government to direct closing of tramway in carrying out necessary works.

27 (1) In the event of any necessity arising for carrying out in or on land occupied by the tramway any works of any kind whatsoever for which interference with the tramway may be considered necessary by the Local Government the said Government may, by notice in writing and without prejudice to the powers conferred on the Local Authorities by section 35 of the Act call upon the Promoters to show cause why such portion of the tramway should not be closed for traffic as may enable the said works to be carried out in safety

After considering the necessity for closing such portion of the tramway, as well as any objections or suggestions that may be made by the Promoters the Local Government may direct that the Promoters shall close the said portion of the tramway for such a period of time and under such conditions as in the circumstances of the case may appear necessary

(2) The Promoters shall be bound to comply with such directions and allow the work referred to therein to be carried out Provided that, unless otherwise directed, any portion of the tramway which it may be necessary to remove in order to carry out such work shall be removed and reinstated by, or at the expense of, the Local Government, or the person or persons at whose instance the work is carried out And provided also that the Promoters shall if they are, at the time the Local Government either interferes with or stops the working of the tramway under the first paragraph of this clause, paying any rent to the Local Authorities for the use of road, receive an abatement of such rent proportionate to the length of road over which and to the time during which the working of the tramway is stopped

Conditions on which Promoters shall ... works on the road

28 In the event of the Promoters desiring that any bridge, drain, culvert watercourse, telegraph line or other thing whatsoever on or adjacent to the land to be used for the tramway should be removed or the position thereof altered, the Promoters shall give notice in writing to the Local Authority, who shall thereupon deal with the matter themselves, if within their powers, and, if not shall refer the matter to the Local Government or other authority competent to deal with it who shall pass such orders thereon as in the circumstances of the case may appear fit

Power of Promoters to construct temporary tramway.

29 When from accident or flood, or by reason of the execution of any works under the provision contained in clause 27 of this Order or when from any other reason it is in the opinion of the Local Government necessary or expedient to remove or discontinue the use of the tramway or any part thereof, the Promoters may subject to such conditions and in accordance in all respects with such regulations as the Local Government may from time to time, make, construct and maintain so long as occasion may require, a temporary tramway in lieu of the tramway or part of the tramway removed or discontinued

Lopping trees.

30 The Promoters shall not without the consent in writing of the Government Engineer in charge of the road or of the Local Authorities as the case may be cut down or lop any tree growing along or by the side of the road provided that in case of emergency, the Promoters may remove or lop the branches or any portion of a tree which projects or hangs in such a manner as to be a source of danger or impediment to the tramway traffic

Use of excavated material.

31 Any road metal or material excavated by the Promoters from the road, in the construction or maintenance of the tramway, may be applied by them in or towards reinstating the said road or in or towards completing any work thereon required by this Order

Stacking of material.

32 The promoters may stack road metal and other materials for the construction or maintenance of the tramway within the limits of the road boundaries but the same shall be stacked in such a manner as in the opinion of the Government Engineer in charge of the road will not impede or endanger the traffic on the said road

Unused portion of road to be left free.

33 The portion of the road which the Promoters are not authorised by or under this order to use for the purpose of the tramway shall be left free and unencumbered for ordinary traffic and no obstruction whatever shall be placed thereon or caused thereto without the previous written consent, which may be revoked at will of the Government Engineer in charge of the road

TRAFFIC AND TRAFFIC WORKING

Purposes for which tramway may be used.

34 The tramway may be used for the purpose of conveying passengers, passengers' luggage, animals, goods minerals, and parcels But the Promoters shall have the liberty to refuse to carry any person or any animals suffering from any infectious or contagious disorder and articles that may be declared dangerous or offensive by bye laws to be framed under section 27 of the Act Provided that nothing in this clause shall be taken to restrict the right of the Local Authorities by bye laws made under section 26 of the Act to prohibit the carriage or conveyance of persons or

animals suffering from any contagious disease or of goods declared to be dangerous or offensive

35 At the outset the following shall be the maximum rates of fares for passengers and tariff of charges for goods —

Maximum fares and rates

(a) *Passengers*—

	Per mile
Lower class	4½ pies
Upper "	1½ annas

Any fraction of a mile will be reckoned as a mile, and no fare shall be less than one anna

(b) *Goods* —The East Indian Railway's classification of goods shall be adopted and the following rates shall be observed as the maxima for the different classes of goods —

	Per 100 maunds per mile
	As.
First class	8
Second "	10
Third "	12
Fourth "	14
Fifth "	16

(c) *Parcels carried for any distance*—

	Rs
Not exceeding 5 seers or 1 cubic foot	1
Not exceeding 10 seers or 2 cubic feet	2

and Re 1 for each additional 10 seers or 2 cubic feet or part thereof

(d) *Passengers luggage* —A free allowance of luggage will be made to each passenger as follows —

	Seers.
First class (Upper)	60
Intermediate	20
Third class (Lower)	15

Luggage in excess of the foregoing weights may be charged for at a rate not exceeding two annas per maund per mile

Full control over charges of all kinds for the use of the tramway is reserved to the Local Government

36 No train shall be run between sunset and sunrise, except with the previous consent of the Local Government, and upon such conditions as may be approved by them

Passenger classes.

37 Provision shall be made in all trains for two or more classes of passengers

Train lights

38 (1) During foggy weather, every train shall exhibit a red tail-light and two red sidelights in rear of the train, and every engine running alone, during foggy weather, shall exhibit at least one red tail light

(2) The same train and engine lights shall also be used when any train runs between sunset and sunrise

39 The train shall be worked on "the one engine or train staff and ticket system," according to Government General Rules and Regulations for Railways

Brakes and Brakevans.

40 All engines shall be provided with an efficient brake worked by hand or steam, and acting on at least four wheels of the engine or its tender All wagons shall be provided with an efficient brake acting on at least half of the wheels of the wagon There shall be at least one fully braked vehicle with a person in charge of it at the rear of each train

Prohibiting undue preference

41 The promoters shall not, as between members of the public make or give any undue or unreasonable preference or advantage to or in favour of any particular person or company or any particular description of traffic or subject any particular person or company to any undue or unreasonable prejudice or disadvantage The Local Government shall have absolute power for the purposes of this clause to decide whether any preference, advantage, prejudice or disadvantage is undue or unreasonable

MISCELLANEOUS

Crossing of tramway by any railway or other tramway

42 In the event of its being necessary, under the authority of the Local Government, for any railway or tramway line other than that referred to in this Order to cross the tramway on the level or otherwise, the Promoters shall not be competent to raise any objection provided that such reasonable expenses as may be shown to the satisfaction of the Local Government to have been incurred by the Promoters, on account of any interference with the tramway that may be necessary for such crossing, shall be borne by the administration of the railway or tramway authorised to cross

Provided that the Local Government shall have absolute power, for the purpose of this clause to decide the question as to the reasonableness of the expenses incurred by the Promoters on account of the interference with the tramway

When the tramway interferes with the location or extension of any railway

43 In case it hereafter be found that any portion of the alignment adopted by the Promoters for the tramway interferes with the location of any new line of railway or the extension of any existing line of railway, the alignment occupied by the tramway shall be forthwith, at the request of the Local Government, abandoned in favour of the railway and the tramway shall be diverted in such way and in such manner as shall appear to an Engineer or other officer duly appointed in this behalf by the Local Government to be fair and proper, provided that the actual cost of constructing such diversion shall be borne by the authorities of the said railway

Penalty for breach of section 15 of the Act

44 If the Promoters fail in any respect to comply with any of the provisions of clause 6 of section 15 of the Act, and the local authorities shall find it necessary or desirable to do anything or incur any expense to remedy any such failure on the part of the Promoters, all expenses so incurred shall be, on demand, repaid to the local authorities by the Promoters, and the certificate of the Chairman for the time being of the local authority shall be conclusive evidence that all expenses referred to in such certificates were so incurred, and the said Promoters shall not be at liberty to dispute the same

45. In the event of any work required by the Act or by this order to be done by the Promoters not being done by them the Local Government may cause a notice to be served on the Promoters requiring them within a period to be prescribed in the said notice to execute the said work, and if within the period so prescribed such requisition is not complied with, the Local Government may cause such work to be done, and the cost thereof shall be recoverable from the Promoters. The certificate of the Government Engineer or other officer in charge of such work shall be conclusive evidence that all expenses referred to in such certificate have been incurred in carrying out such work and the Promoters shall not be at liberty to dispute the same.

46. The Promoters shall devise and apply all such improvements in the tramway and in the rolling stock and appliances thereon as the Local Government may from time to time consider necessary or desirable for the safety or convenience of the public.

47. The Promoters shall not have power to transfer the undertaking without the previous sanction of the Local Government otherwise than as provided in clause 6 of Part I of the first schedule hereto attached and as shall be provided in the supplementary agreement to be entered into between the Promoters and the District Board, Patna.

48. The Promoters shall provide without unreasonable delay such statistics relating to the tramway or to the traffic thereon as may from time to time be required by the Local Government.

49. It is to be distinctly understood that no concession granted under this Order confers on the Promoters any exclusive right as carriers over any part of the tract traversed by the tramway. In the event of Government deciding to construct or granting a concession to construct a broad gauge line between Bihar and Bukhtiarpur the tramway shall be purchased outright either by Government or the concessionaire under the terms specified in clause 6 of the agreement between the District Board and the Promoters referred to in the first schedule.

50. (1) If the Promoters fail to observe any condition or direction contained in or made under this Order they shall for each such failure to observe the same be liable to a penalty which may extend to two hundred rupees and in the case of a continuing failure to a further penalty which may extend to fifty rupees for each day after the first during which such failure continues.

(2) When the Promoters have through any act or omission become liable for any penalty under this clause, the penalty shall become recoverable by suit in the district court having jurisdiction in the place where the act of omission or any part thereof occurred.

(3) The Local Government may remit the whole or any part of any penalty to which the Promoters become liable under this clause.

(4) Every penalty recovered under this clause shall be applied as the Local Government from time to time may direct.

51. The terms of this Order are without prejudice to the power of the Governor General in Council under section 146 of the Indian Railways Act 1890 to extend the provisions of that Act to the tramway of which the construction is authorised by this Order.

ARBITRATION

52. If any dispute question or controversy shall at any time arise either between the Local Government and the Promoters, or the Local Authorities and the Promoters touching this Order or any clause or thing herein contained or the construction hereof or any matter connected with this Order or the operation of the same or the rights, duties or liabilities of any of the parties in relation to the premises then and in every such case the matter in difference, unless special provision shall have been made in this Order for the settlement of the matter so in difference shall be referred to two arbitrators or their umpire pursuant to and so as with regard to the mode and consequence of the reference, and in all other respects to conform to the provisions in that behalf contained in the Code of Civil Procedure 1882 or any subsisting statutory modification thereof and upon every such reference the arbitrators and umpire shall respectively, have power to examine witnesses upon oath or affirmation and either to fix, settle and determine the amount of cost of the reference and award respectively or incidental thereto to be paid by both parties in doing the reference or by either party, or to direct the same to be taxed either as between Solicitor and Client or otherwise and to direct and award where and by and to whom such costs shall be paid and every or any such reference may be made a rule of His Majesty's High Court of Justice or of the High Court of Judicature at Calcutta on the application of either the Local Government the Local Authorities or the promoters and either the Local Government the Local Authorities or the promoters may instruct counsel to consent thereto for the other party.

FIRST SCHEDULE

An agreement made the twenty first day of August one thousand eight hundred and ninety nine between the District Board of Patna incorporated under the Bengal Local Self Government Act of 1885 and hereinafter called "the Board" of the one part and Sir Thomas Acquin Martin Knight Rajendra Nath Mookerjee Charles Woolard Walsh and Harold Patrick Martin the members for the time being of Martin and Company, Calcutta Engineers and Contractors hereinafter called "the Promoters" for and on behalf of a Company about to be formed and called the Bukhtiarpore Bihar Light Railway Company Limited hereinafter called "the Company" of the other part. WHEREAS the Promoters are desirous to promote the construction of a Tramway to be worked by steam power from Bukhtiarpore to Bihar and have applied to the

Board for a concession to the Company of the right to construct and erect such a Tramway through over or along that portion of the road between Bukhtiarpore and Bihar which passes through the area under the jurisdiction of the Board and the Board have granted such a concession (provisionally on the same being sanctioned by the Government of Bengal) upon the terms and conditions hereinafter set forth

Now these presents witness that it is hereby mutually agreed as follows —

1 The Board will grant to the Company in perpetuity subject to clause 5 the free use of so much of the side portion of the said road as is necessary but not exceeding a width of 8 feet on one side for the purpose of laying thereon and using a Steam Tramway of 2 feet 6 inches gauge to be worked by the Company The Board will also grant to the Company in perpetuity subject as aforesaid full right and liberty to lay the said Tramway across the said road wherever necessary and to use the same wherever laid across the said road

2 The Board will promote the acquisition by the Company under the provisions of Act I of 1894 of such additional land outside the boundary of the said road as may be necessary for the purpose of the said Tramway

3 The Board will recommend and apply to the Local Government to exempt the Company from the tax on account of Road Cess or to exact only a nominal Tax for a period of twenty one years from the date when the said Tramway is opened for traffic with power of renewal

4 As soon as five miles of the said Tramway shall have been constructed and declared open for traffic the Board subject to the consent of Government guarantee to supplement the net earnings of the Company by such annual subsidy as may be necessary to allow of the Company paying a dividend of four per cent per annum on such proportion of the Company's share capital of Rupees eight hundred thousand as the length of the line open for traffic bears to the total length of the line This proportion will increase progressively with the length of the line open for traffic and the guarantee will be paid on the whole capital of Rupees eight hundred thousand as soon as the whole Line is completed and declared open provided that the total liability incurred by the Board under this clause in any one year shall not exceed the sum of Rs 32,000 being four per cent on the amount of the Company's share capital Any surplus profits in excess of four per cent on its capital aforesaid earned by the Company shall be equally divided between the Board and the Company No debentures shall be raised except with the sanction of the District Board and of Government, and the debenture interest to be deducted from gross receipts for the purpose of ascertaining the divisible surplus profits shall be taken at not more than four per cent on the amount of debentures

5 In the event of the Board exercising the right of purchase conferred upon them by Section 41 of Act III (B C) of 1883, the value to be placed upon the Tramway as a going concern shall be calculated at twenty years purchase of the average net annual profits to the Company during the four years preceding the transaction together with a bonus of twenty per cent on the amount so arrived at over and above that amount In case of dispute the matter will be determined by arbitration under the clause in that behalf hereinafter contained

6 The Company to be formed shall be one of limited liability registered under Act VI of 1882 and all matters connected with the said Tramway shall be dealt with by Directors of whom one in six shall be nominated by the Board

7 The greater part of any remuneration which the Company may agree to pay to any Agents whom it may appoint over and above a fair allowance for office expenses shall not be in the form of any fixed payment but in the form of a commission on net profits

8 The Company shall widen and raise the level of the road wherever necessary, it being understood that a clear roadway of 14 feet exclusive of the 8 feet required for the Tramway and with the necessary crossing places shall be left intact for ordinary wheeled traffic

9 The necessary levels, sections plans and design required by the Government shall be prepared by and at the expense of the Promoters

10 The Company shall construct new bridges and culverts and widen and fortify existing bridges and culverts wherever necessary

11 The Company shall construct maintain and repair all works connected with the said Tramway with suitable materials to be approved by Government

12 If any doubt or difference shall arise between the Board and the Promoters or the Board and the Company concerning anything herein contained or any matter in any way connected therewith or with these presents or the construction thereof or the rights duties and liabilities of any person or persons in connection with these presents or as to the incidence of expense as between the Board and the Company under any of the clauses of this agreement then and in every such case the matter in doubt or difference shall be referred to two arbitrators one to be appointed by each party or to the umpire of such arbitrators in case they differ in opinion but if either of the parties shall refuse or neglect to appoint for one month after notice in writing from the other of an arbitrator being or having been appointed then the arbitrator so appointed may make a final decision alone which shall have the same force and effect as the award of two arbitrators or the umpire duly appointed

13 Upon the adoption of this agreement by the Company in such manner as to render the same binding on the Company the Promoter shall be discharged from all liability in respect thereof

14 Unless within six months of the date of this agreement the Promoters shall have applied to the Local Government for its sanction of this agreement either of the parties hereto may by notice in writing to the other rescind the same Subject to the sanction of the Local Government being granted to such application and subject to any extension of time which the Local Government may see fit to grant the Promoters shall complete and equip the said Tramway in every respect ready for opening and for the working of traffic throughout the whole line and with the full complement of cars and engines as provided in section 21 of Act III (B C)

of 1883 within three years from the date of the Government order After adopting this agreement the Company shall stand in place of the Promoters for the purposes of this clause

15 The revision of this agreement under clause 15 shall not give rise to any claim for compensation express or otherwise

As witness the hand of the Chairman for the time being of the Board and the hands of the Promoters the day and year first above written

---

SCHEDULE 2

I—GENERAL

Formation —single line—

(1) Minimum width in embankment	10 ft.
(2) Minimum width in cuttings (excluding side drains)	10 "

Formation —double line—

(3) Minimum width in embankment	23 "
(4) Minimum width in cuttings (excluding side drain)	23 "
(5) Minimum distance centre to centre of tracks (out of station)	12 "

Curves—

(6) Maximum angle of curvature on main line	24 " ($r = 238$ feet)

NOTE —In open country 1 432 foot is recommended

Ballast—

(7) Minimum width of ballast at level of foot of rails	6 ft
(8) Minimum depth of ballast below sleepers	6 in

N B —These minimum dimensions may be relaxed in the case of a line being opened to traffic before the banks have settled when suitable restrictions are placed on the speed of trains

Sleepers—

Timber cross sleepers—

(9) Minimum length	5 ft
(10) Minimum breadth	6 in
(11) Minimum depth	4 "
Minimum number of sleepers per mile	2 000

N B —On bridges where the cross sleepers rest directly on longitudinal girders the sleeper are to be spaced not more than 1 foot 6 inches centre to centre

Rails—

(12) Minimum weight per yard	30 lbs
(13) Minimum clearance of guard rail for curves and level crossing	1⅞ "
(14) Minimum clearance of guard rails for points and crossings	1¾ "
(15) Maximum clearance of guard rails for points and crossings	1⅞ "

N B —The maximum clearance for curves and level crossing will vary according to the radius of the curve

(16) Minimum depth of space for wheel flange for rail level	1½ in

Buildings, &c —

(17) Minimum horizontal distance from centre of track to any structure (out of station) from 1 foot above rail level to a height of 9 feet 6 inches above rail level	6 ft

N B —(a) Under (17) any material stacked by the side of the line is to be considered a structure in the sense in which the word is here used

(b) Where the line is on a curve the horizontal distance of a fixed structure from the centre of an adjacent track is to be increased as follows —

For a curve of—

2° r = 2 865 feet	allow	1½"	extra.
4° r = 1,432 "	"	2¼"	"
6° r = 955 "	"	4"	"
8° r = 716 "	"	5½"	"
12° r = 477½ "	"	8"	"
16° r = 358 "	"	10½"	"
20 r = 286½ "	"	12½"	"
24° r = 238¾ "	"	16"	"
28° r = 204 "	"	18"	"

(18) Minimum height above rail level at centre of track for overbridges of overhead bracing out of stations	12 ft 6 in
(19) Minimum height above rail level for telegraph wires crossing the line or above surface of road where carried over roads at level crossings	20 ft

N B —The minimum horizontal distance from the centre of the nearest track at which a telegraph post may be erected is the total height of the post *plus* 7 feet. Also where the line is in cutting a telegraph post erected on the berm must be at a distance from the edge of the cutting of not less than the total height of the post.

II —STATION YARDS

Spacing of tracks—

(1) Distance between centre of track nearest the station building and centre of track next to it	14 ft
(2) Minimum distance, centre to centre of tracks	12 "
(3) Minimum clear available length of one siding for crossing trains	600 "

N B —The available length of siding (whether the line be curved or straight) terminates where the distance between the centre line of the siding and the centre line of the adjacent track begins to be less than 12 feet.

The length of siding may, with the sanction of the Government of India, be reduced to such extent as may appear advisable But for each such case sanction is to be obtained *before* work is commenced

Buildings, &c —

(4) Minimum horizontal distance of any building from centre of track at passenger platform	20 ft.

(5) Minimum horizontal distance from centre of track to any structure in the vicinity of a passenger platform (but not on at platform) 8 „

N B—This rule does not apply to point levers between racks, water-cranes or loading gauge

(6) Minimum horizontal distance from centre of track to any structure not in the vicinity of a passenger platform, from platform level, if any, or from 1 foot above rail level, if there be no platform, to a height of 9 6 above rail level 7 ft

N B—Under this rule coal or any material stacked by the side of the track is to be considered a structure in the sense in which the word is here used

A projecting eve hanging roof is permissible in the case of a goods shed or a siding if such roof extends over the centre of the track at a height of not less than 12 feet above rail level

(7) Minimum height above rail level for 5 feet from centre of track for Tie rods on under side of any continuous roof or covering in passenger stations 16 ft 6 in

(8) Minimum height above rail level for 5 feet from centre of track for passenger foot bridges crossing the line in stations 16 „ 6 „

(9) Minimum height above rail level for telegraph wires crossing the line or above surface of road where carried over road within the boundary of station 20 ft

Points and crossing—

(10) Minimum horizontal distance from centre of track to point handle indicator or any part of point apparatus above rail level 6 ft

N B—A point handle may not in any position be within 6 feet of the centre line of the nearest track A clear distance of 6 feet is also to be preserved from centre of nearest track to any part of the point apparatus fixed or movable above rail level an arrangement involving the placing of a point handle between tracks should be avoided as far as practicable but where this arrangement is adopted the point handle must work parallel with the rails, not at right angles thereto

(11) Minimum radius of curve 175 ft

(12) Standard crossings { 1 in 6 / 1 in 8½

(13) Standard length for tongue rails 7 ft

III —STATION MACHINERY

Water tanks—

Minimum height for bottom of tank above rail level *at water column*—

(1) For watering engines 14 ft

(2) „ washing out engines 20 „

(3) Minimum distance from centre of track to face of tank house 9 ft

(4) Minimum capacity of tank at any station 500 c ft

Water cranes—

(5) Minimum distance in the clear from centre of track to nearest part of water column from 1 foot above rail level 6 ft

(6) Standard height above rail level for discharge of orifice of water crane jib 10 ft 6 in

(7) Standard internal diameter for piping from tank to water crane 4 in

Ash pits, &c—

(8) Minimum clear length at bottom for ash pits in station yards 15 ft

(9) Standard average depth for ash pits in station yards 3 „

(10) Standard depth for examining pits for carriages and wagons 3 „

Engine running sheds—

Minimum width for running sheds inside in the clear—

(11) For two lines of rail 30 ft

(12) „ one line of rail 18 „

(13) Minimum distance centre to centre of tracks in running sheds 12 „

Running shed doorways—

(14) Minimum width 9 ft

(15) Minimum height, if flat at top 11 „

(16) Minimum height to crown of arch if with semi circular arch 13 „

(17) Standard average depth for wash out pits in running sheds 3 „

(18) Standard average depth for repairing pits in running sheds 3 „

Turn tables—

(19) Minimum diameter for engine turn tables 15 ft

(20) Minimum diameter for carriage or wagon turn tables 12 „

Traversers—

(21) Minimum length for carriage or wagon traversers 12 ft

Weigh bridges—

(22) Minimum length for weigh bridges for ordinary stock 12 ft.

(23) Minimum weighing power for weigh bridges for ordinary stock 10 tons

IV —LOCOMOTIVES AND ROLLING STOCK

Maximum moving dimensions—

(1) Maximum width of stock from rail level to floor level	7 ft 6 in
Ditto floor level to 6 ft above rail level	7 0 „
Ditto 6 ft above rail level to top	7 „ 6
(2) Maximum height above rail level	10 „ 0

Weight on a pair of wheels—

(3) Maximum for locomotives under any circumstances	6 tons
(4) Maximum per foot of diameter	2 25 „
(5) Maximum for carriages and wagons	4 „

N B—Tho we[illegible] the [illegible] permi[illegible] under [illegible] boxes and sp[illegible]

Weight per foot run of wheel base—

(6) Maximum for either engine or tender separately in the case of tender engines	1 [illegible] tons
(7) Maximum for tank engines	2

Weight per foot run over buffers—

(8) Maximum for engine and tender together in the case of tender engines	0 875 ton
(9) Maximum for tank engines	1 „
(10) Maximum for carriages and wagons	0 6 „

Total gross weight—

(11) Maximum for engine and tender together in the case of tender engines	30 tons
(12) Maximum for tank engines	18 „

The weights given are the maximum permissible under any circumstances with engine in working order, and full load of fuel and water

Wheel bases—

(13) Maximum rigid wheel base for passenger and goods vehicles	12 ft

Buffers and couplings—

(14) Buffers	Central
(15) Mean height above rail level for centres of buffers for half loaded vehicles	1 ft 9 in

Height for floors—

(16) Maximum height above rail level for floor of any vehicle unloaded	2 „ 5
(17) Minimum height above rail level for floor of any vehicle fully loaded	2 „ 3 „

Wheels and axles—

(18) Standard wheel gauge or distance apart for all wheel flanges	2 „ 3½ „
(19) Standard diameter on the tread for new wheels	1 „ 8 „
(20) Maximum projection for flange of worn tyre below rail level	1 in

Accommodation—

(21) Minimum width of seat per passenger	19½ ins
(22) Minimum floor area per passenger	3½ s ft
(23) Minimum cubic capacity per passenger	22 c ft

Roof lamps—

(24) Standard diameter inside in the clear for rings of standard carriage roof lamps	8¼ in
(25) Standard diameter for carriage roof lamps at level of ring	8 „

MARINE DEPARTMENT

The 20th June 1901

No 79 Marine—In supersession of the notification of this Government, No 71 Marine dated the 5th June 1901, Mr F W Moore, Mate Pilot is granted under Article 743 of the Civil Service Regulations, six months leave to Europe on medical certificate in combination with privilege leave for 1 month and 20 days with effect from the 7th June 1901

R B BUCKLEY,

Secy to the Govt of Bengal

The 25th June 1901

No 80 Marine Declaration—Whereas it appears to the Lieutenant Governor of Bengal that land is required to be taken at the public expense for a public purpose, *viz* for Hide Sheds at the Kidderpore Docks, Doulatpore, Kidderpore within the added area of the Calcutta Municipality, it is hereby declared that for the above purpose five plots of land,

measuring in the aggregate more or less 2 biggahs 9 cottahs, 7 chittacks, and 33 s ft of standard measurement and bounded as follows —

Plot No. 1 —On the north by land belonging to Bhookoilash Raja, on the south by Perra Tollah Road, on the east by land belonging to the Port Commissioners, and on the west by land belonging to Sashi Bhusan Hazrah

Plot No 2 —On the north by land belonging to Bhookoilash Raja, on the south by Perra Tollah Road, on the east by land belonging to Gonesh Chandra Puddoraj and on the west by land belonging to Sashi Bhusan Hazrah

Plot No 3 —On the north partly by land belonging to Gobardhan Dass, and partly by land belonging to Port Commissioners on the south by land partly belonging to Gonesh Chundra Puddoraj and partly belonging to Sashi Bhusan Hazrah on the east by land belonging to the Port Commissioners, and on the west by land belonging to Bhookoilash Raja

Plot No 4 —On the north by land belonging to Bhookoilash Raja on the south by land belonging to Bhookoilash Raja on the east by land of the Port Commissioners, and on the west by land partly belonging to Bhookoilash Raja and partly by the land belonging to Nitt Ghatt k

Plot No 5 —On the north and east by land belonging to the Port Commissioners, on the south by land partly belonging to the Port Commissioners and partly belonging to Bhookoilash Raja and on the west by land belonging to Bhookoilash Raja is required within the afore said village of Doulatpore

A plan of the land is kept for inspection in the office of The Commissioners for the Port of Calcutta, where it can be seen by any person who may be interested in it

This declaration is made, under the provisions of section 6 of Act I of 1894, to all whom it may concern

Cuttack Collectorate the 1st June 1901

J L H RALD Collector

GOVERNMENT ESTATE No 1

[*See Rule 10, Section III, Chapter III Page 29 of Board s Rules 1858*]

Advertisement of Sale

NOTICE is hereby given that the proprietary right of Government as specified in the conditions of sale below to the undermentioned estates situate in the district of Bankura will be put up to sale at the Bankura Collectorate on the 20th July 1901 corresponding with 4th Sraban 1308 B S

The purchaser will be subject to the following conditions of sale —

Conditions of sale

1st —The estate to be sold to the highest bidder above the upset price which will be fixed by the Collector at the time of sale The purchaser of this estate will be considered as the proprietor of the estate and the entire proprietary right of Government in such estate will be transferred to him subject to the revenue fixed in perpetuity

2nd —The sale to be subject to existing leases and to the rights conferred by the settlement proceedings and by the laws in force and purchaser to be bound to respect the rights of resident cultivators who have signed the schedule of assessment prepared by the revenue authorities

3rd —If the amount of purchase-money do not exceed Rs 100 the whole amount to be paid down at once

4th —If the amount of purchase money exceed Rs 100 one fourth of the amount bid to be immediately deposited If the balance be not paid by noon of the fifteenth day after the sale reckoning the day of sale as one or if that day be a close holiday then by noon of the first succeeding office day the sale is to be cancelled (the sum deposited being forfeited to Government) and the estate to be again put up to sale at the risk of the defaulting purchaser after issue of advertisement as in the case of original sale

Pure Sulphate of Quinine

MANUFACTURED AT THE BENGAL GOVERNMENT CINCHONA PLANTATION

FROM 1st April 1901 the price of this quinine will be as follows —

1 Pound tin	Rs 17	or post free	Rs 17 12
½	8 8		9
¼	4-4		4-12

Analysis shows this quinine to be of the purest manufacture and it is guaranteed to be free from wilful mixture with the inferior alkaloids cinchonine and cinchonidine It is for sale only to Government officers and only for cash and may be had from the Superintendent Botanic Garden Sibpur near Calcutta

বঙ্গদেশের গবর্ণমেন্টের সিন্‌কোনা আবাদে প্রস্তুত বিশুদ্ধ সল্‌ফেট অব্‌ কুইনাইন।

১৯০১ সালের ১লা এপ্রিল হইতে এই কুইনাইনের নিম্নলিখিত মূল্য হইবে, যথা—

১ এক পৌণ্ড টিন ১৭৲	বা ডাক মাশুল সমেত						১৭৸৹
॥ আধ ,,	,, ৮॥৹	,,	,,	,,	,,		৯৲
। সিকি ,,	,, ৪।	,,	,,	,,	,,		৪৸৹

পরীক্ষা করিয়া দেখা গিয়াছে যে এই কুইনাইন অতি বিশুদ্ধরূপে প্রস্তুত করা হইয়াছে, এবং ইহা যে সিন্‌কোনাইন ও সিন্‌কোনীডাইন নামক অপকৃষ্ট ক্ষারের সহিত ইচ্ছাপূর্ব্বক মিশান হয় নাই তাহার গ্যারাণ্টী দেওয়া যাইতেছে। ইহা নগদ মূল্যে কেবল গবর্ণমেন্টের কর্ম্মচারিগণের নিকট বিক্রয় করা যাইবে এবং কলিকাতার নিকটস্থ শিবপুরের কোম্পানির বাগানের সুপরিণ্টেণ্ডেন্টের নিকট পাওয়া যাইতে পারিবে।

Cinchona Febrifuge

Cinchona Febrifuge can be purchased by all Government officers and by any one taking *six pounds* at a time from the Superintendent Botanic Garden Calcutta, at the following rates—per four ounce tin *Rs 2 ans 8* per eight-ounce tin *Rs 5* per pound tin *Rs 10* The general public can be supplied by the Superintendent Botanic Garden *for cash only* at the undernoted rates —per four ounce tin, *Rs 3*, per eight-ounce tin *Rs 6* per pound tin *Rs 12* This medicine is also sold by the principal European and native druggists in Calcutta Postage four annas per *4oz* tin eight annas per *8oz* tin, and twelve annas per pound tin in addition to the foregoing rates

PACIFIC OCEAN—SANDWICH ISLANDS

Honolulu harbour—Construction of a sewage pier

THE British Admiralty has given notice (No 342 of 1901) that a wooden pier for carrying the sewage of the town to the sea is being constructed on the eastern side of the entrance to Honolulu harbour

From the inner end of this pier Battery flagstaff bears N 25° W, distant 1 4/10 cables, from this position it extends seawards on a S 13° W bearing about 1,000 yards

A chimney which is rather conspicuous, has been built about 20 yards N 55° W from the inner end of the pier

Approximate position, lat 21° 17½ N, long 157° 51¾ W

(Variation 10° Easterly in 1901)

This Notice affects the following Admiralty Charts —Plan of Honolulu on sheet No 1510 Honolulu harbour No 1378 Also, Pacific islands, vol III, 1900, page 229

PACIFIC OCEAN—FIJI ISLANDS

Caution—Extensive bank reported to the north eastward

THE British Admiralty has given notice (No 306 of 1901) that the S S *Manapouri* on the 7th January last saw the bottom and obtained soundings of 13 fathoms over a distance of about 11 miles, in approximately lat 15° 55 S long 176° 50 W

This is near the position of the shoal reported by Captain Wilson of the schooner *Zephyr* in 1875, who stated that in lat 15° 58 S, long 177 10 W, he saw an extensive shoal on which there was a rock awash (*see* Notice to Mariners No 58 of 1876)

In June 1876 H M S *Pearl*, when passing the reported position of the shoal obtained two soundings of 5½ fathoms at night Sail was shortened and course altered, but almost

immediately afterwards no bottom could be obtained at 12 fathoms The position given by H M S *Pearl* was lat 16° 0 S, long 176° 6 W

In 1879, Captain Carmichael of the schooner *Louisanna* reported obtaining soundings of from 15 to 17 fathoms in lat 15° 56 S, long 176 56 W

The *Zephyr* shoal was searched for in 1895 by H M Surveying vessel *Penguin*, Commander A Balfour and soundings of 11 fathoms were obtained in lat 15° 53 S, long 176 46 W, or near the position given by the S S *Manapouri*

The shoaler water reported by H M S *Pearl* and by the schooner *Zephyr* was not found, although the weather was somewhat rough, so that Commander Balfour was of the opinion that did such soundings exist the sea would have been breaking over the locality

In consequence of the above reports, Mariners are warned that much shoaler water may exist in this locality than is at present shown on the Charts

This Notice affects the following Admiralty Charts —Pacific Ocean, south west sheet No 780 Fiji islands to Samoa island No 18?9 Also Sailing Directions for the Pacific islands Vol II, 1900 page 23?

AUSTRALIA, SOUTH—STREAKY, SMOKY, DENIAL AND MURAT BAYS

Beacons and buoys established

THE British Admiralty has given notice (No 324 of 1901) that the following beacons and buoys have been established in the undermentioned bays on the south coast of Australia —

Streaky Bay

(a) A red pile beacon with a ball as topmark has been erected in a depth of 6 feet on the eastern extremity of the south sand, with the house near Perlubie Point bearing East distant 2 miles

Approximate position, lat 32° 38½ S, long 134° 15 E

Dashwood channel, north side —

(b) A black buoy surmounted by a framework and diamond has been moored in a depth of 4 fathoms with Cape Bauer bearing S 24° W, distant $8\frac{1}{10}$ miles, and Brown Point N 80° W

( ) A black buoy surmounted by staff and diamond has been moored in a depth of 5 fathoms, with Cape Bauer bearing S 34° W, distant $9\frac{3}{10}$ miles, and red beacon on South sand, S 60° E

Dashwood channel south side —

(d) A red buoy surmounted by staff and ball has been moored in a depth of 4 fathoms, with Cape Bauer bearing S 20° W, distant $7\frac{8}{10}$ miles and De Mole point, N 50° W

(e) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms with Cape Bauer bearing S 38 W, distant $9\frac{3}{10}$ miles, and De Mole point, N 60 W

There is a depth of 3 fathoms throughout this channel at L W O S

Smoky Bay

Waterwitch channel north side —

(a) A black buoy surmounted by staff and diamond has been moored in a depth of 3½ fathoms with Cape d'Estree bearing N 20 E, distant $2\frac{7}{10}$ miles, and Saddle Peak, N 87° E

Approximate position, lat 32° 18¾ S, long 133 44 E

(b) A black buoy surmounted by staff and diamond has been moored in a depth of 3 fathoms, with west point of Eyre island bearing S 10° E, distant $3\frac{8}{10}$ miles and Saddle peak, S 88 E

Waterwitch channel, south side —

(c) A red buoy surmounted by staff and ball has been moored in a depth of 3½ fathoms, with Cape d Estree bearing N 20° D, distant $3\frac{4}{10}$ miles, and mount Younghusband, N 56° W

(d) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms with the western end of Eyre island bearing S 8° E distant 3 miles, and Saddle peak, N 84° E

Denial Bay

Yatala channel, north side —

(a) A black buoy surmounted by staff and diamond has been moored in a depth of 2½ fathoms with cape Vivonne bearing S 68° E, distant 2½ miles, and Cape Thevenard, N 5° E

Yatala channel south side —

(b) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms with Bird rock bearing N 68° E, distant about 8 cables

This channel has a depth of 2½ fathoms throughout

Murat Bay

The north end of the spit at the entrance to this bay has been marked by black beacon with diamond topmark erected in a depth of 6 feet It has been placed on the chart with Daphne rock bearing S 62°E, distant 8 cables

CAUTION —Mariners are warned that this wreck lies in the route usually taken by vessels rounding Cape Cleveland from the eastward

(*Variation 7° Easterly in 1901*)

PACIFIC OCEAN—FIJI ISLANDS

Caution —Extensive bank reported to the north eastward

THE British Admiralty has given notice (No 306 of 1901) that the S S *Manapouri* on the 7th January last saw the bottom and obtained soundings of 13 fathoms over a distance of about 11 miles, in approximately lat 15° 55 S, long 176° 50 W

This is near the position of the shoal reported by Captain Wilson of the schooner *Zephyr* in 1875 who stated that in lat 15° 58 S, long 177° 10 W, he saw an extensive shoal on which there was a rock awash (*see* Notice to Mariners No 58 of 1876)

In June 1876 H M S *Pearl*, when passing the reported position of the shoal obtained two soundings of 5½ fathoms at night Sail was shortened and course altered, but almost

immediately afterwards no bottom could be obtained at 12 fathoms The position given by H M S *Pearl* was lat 16° 0 S, long 176° 6 W

In 1879 Captain Carmichael of the schooner *Louisanna* reported obtaining soundings of from 15 to 17 fathoms in lat 15° 56 S, long 176 56 W

The Zephyr shoal was searched for in 1895 by H M Surveying vessel *Penguin*, Commander A Balfour and soundings of 11 fathoms were obtained in lat 15° 53 S, long 176 46 W, or near the position given by the S S *Manapouri*

The shoaler water reported by H M S *Pearl* and by the schooner *Zephyr* was not found, although the weather was somewhat rough, so that Commander Balfour was of the opinion that did such soundings exist the sea would have been breaking over the locality

In consequence of the above reports Mariners are warned that much shoaler water may exist in this locality than is at present shown on the Charts

AUSTRALIA, SOUTH—Streaky, Smoky, Denial and Murat bays

Beacons and buoys established

The British Admiralty has given notice (No 324 of 1901) that the following beacons and buoys have been established in the undermentioned bays on the south coast of Australia —

Streaky Bay

(a) A red pile beacon with a ball as topmark has been erected in a depth of 6 feet on the eastern extremity of the South sand, with the house near Perlubie Point bearing East, distant 2 miles

Approximate position, lat 32° 38½ S, long 134° 15 E

Dashwood channel, north side —

(b) A black buoy surmounted by a framework and diamond has been moored in a depth of 4 fathoms with Cape Bauer bearing S 24° W, distant $8\frac{7}{10}$ miles, and Brown Point N 80° W

(c) A black buoy surmounted by staff and diamond has been moored in a depth of 3 fathoms, with Cape Bauer bearing S 34° W, distant $9\frac{8}{10}$ miles, and red beacon on South sand, S 60° E

Dashwood channel, south side —

(d) A red buoy surmounted by staff and ball has been moored in a depth of 4 fathoms, with Cape Bauer bearing S 20° W, distant $7\frac{8}{10}$ miles and De Mole point, N 50° W

(e) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms with Cape Bauer bearing S 38 W, distant $9\frac{3}{10}$ miles, and De Mole point, N 60° W

There is a depth of 3 fathoms throughout this channel at L W O S

Smoky Bay

Waterwitch channel north side —

(a) A black buoy surmounted by staff and diamond has been moored in a depth of 3½ fathoms with Cape d Estree bearing N 20° E, distant $2\frac{7}{10}$ miles, and Saddle Peak, N 87° E

Approximate position, lat 32° 18¾ S, long 133° 44 E

(b) A black buoy surmounted by staff and diamond has been moored in a depth of 3 fathoms, with west point of Eyre island bearing S 10° E distant $3\frac{8}{10}$ miles and Saddle peak, S 88° E

Waterwitch channel, south side —

(c) A red buoy surmounted by staff and ball has been moored in a depth of 3½ fathoms, with Cape d Estree bearing N 20° D, distant $3\frac{4}{10}$ miles, and mount Younghusband, N 56° W

(d) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms, with the western end of Eyre island bearing S 8° E, distant 3 miles, and Saddle peak, N 84° E

Denial Bay

Yatala channel, north side —

(a) A black buoy surmounted by staff and diamond has been moored in a depth of 2½ fathoms with cape Vivonne bearing S 68° E, distant 2½ miles, and Cape Thevenard, N 5° E

Yatala channel, south side —

(b) A red buoy surmounted by staff and ball has been moored in a depth of 3 fathoms with Bird rock bearing N 68° E, distant about 8 cables

This channel has a depth of 2½ fathoms throughout

Murat Bay

The north end of the spit at the entrance to this bay has been marked by black beacon with diamond topmark erected in a depth of 6 feet It has been placed on the chart with Daphne rock bearing S 62°E, distant 8 cables

Approximate position, lat 32° 9½ S, long 133° 38 E
